PART VI.

Bills of the India Council.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 9th July 1880, and was referred to a Select Committee:—

No. 10 of 1880.

A Bill to exempt Pársís from certain provisions of the Administrator-General's Act, 1874.

Preamble.

WHEREAS Hindús, Muhammadans and Bhuddhists are exempted from the operation of certain provisions of the Administrator-General's Act (No. II), 1874, but are subject to the operation of certain other provisions of the said Act;

and whereas it is expedient that Pársís should be exempted from, and be subject to, the provisions of the said Act to the same extent as Hindús, Muhammadans and Bhuddhists; It is hereby enacted as follows:—

Short title.

1. This Act may be called "the Administrator-General's Act, 1880:"

Commencement.

and it shall come into force at once.

Amendment of sections 16, 17, 18, 36 and 64 of Administrator-General's Act, 1874.

2. In sections 16, 17, 18, 36 and 64 respectively of the said Act, between the word "Muhammadan" and the words "or Bhuddhist," wherever they occur, the word "Pársí" shall be inserted.

Saving of letters and certificates already granted.

3. Nothing herein contained shall affect any letters of administration or certificate granted under the said Act before the passing of this Act.

STATEMENT OF OBJECTS AND REASONS.

1. As the law now stands, all the provisions of the Administrator-General's Act (No. II of 1874) apply to Pársís to the same extent as to their European and Christian fellow subjects. On the other hand, Hindús, Muhammadans and Buddhists, though subject to certain portions of the Act which are expressly declared applicable to all persons without exception, are by the terms of the Act itself exempted from some of its most important provisions.

2. So far as can be gathered from various memorials and communications on the subject which have been received, the Pársís are almost unanimous in their desire to be exempted from the provisions of the Act, in the same manner and to the same extent as Hindús, Muhammadans and Buddhists.

3. Briefly stated, the chief grounds on which the Pársís base their claim to exemption appear to be, first, that there is no necessity for such an Act in their case; secondly, that in its operation the Act is oppressive and burdensome to them and repugnant to their social and religious customs.

4. With regard to the former ground, there is no doubt that the Act was originally designed to meet the case of Europeans and other foreigners similarly situated in this country, whereas Pársís are distinctly Asiatics with an Indian domicile. They have always relatives or friends willing to take charge of their property and to enforce its proper administration. It is thus clear that Pársís are in a totally different position from those for whose benefit the Act was intended; and it would accordingly seem that there is a great deal to be said in favour of the arguments of the Pársís on this ground.

5. As to the second ground, it could scarcely be contended that the provisions of the Administrator-General's Act are in themselves either oppressive or burdensome; but, looking to the repugnance with which Pársís regard such an exposure of their family affairs and resources as would sometimes result if the Act were enforced in their case, it may be admitted that this second ground is not altogether without foundation.

6. The present Bill, by a slight alteration of the Administrator-General's Act, 1874, puts Pársís in exactly the same position with regard to that Act as Hindus, Muhammadans and Buddhists.

SIMLA;
The 19th June 1880.

W. STOKES.

D. FITZPATRICK,
Secy. to the Govt. of India,
Legislative Department.

April 2nd	151	12mo. ...	1st ..	500	ditto ..	0 12 0	Sarach Chandra Adhikári of Sherpur.	The story of a King of Ganda who was carried off by his enemy the King of Cachár when walking alone in a forest at night. The King's son, accompanied by a friend, sets out in search of him, and meets with various adventures which are described in detail. On his return, he finds his country attacked by his father's enemy. But the King of Cachár is defeated; the King of Ganda regains his throne; and the prince marries Bidyullatá, the daughter of his father's minister. The story of the marriage occupies a very small portion of the book	36
Mar. 20th	132	8vo. ...	1st ...	250	ditto ..	1 0 0	Upendra Náth Dé of Behálá.	A prince of the Hindu dynasty of Mysore, which was overthrown by Haidar Ali, rescues the Moghul Emperor, Shah Alum, from the hands of the Mahrattas with the aid of the English under General Wellesley. He, however, forfeits the General's favour in consequence of certain intrigues planned against him by a competitor for the hand of the girl he loves. But the intriguer is in the end found out, and the prince, after his marriage with Saramá, is installed on the throne of his ancestors by General Wellesley.	36

NON-EDUCATIONAL.									
1880.	Pages.								
May 16th	40	12mo. ...	1st ...	200	ditto ...	0 8 0	Chandi Prasád Ghosh, Simlá, Calcutta.	This is a melodramatic representation of a love story published some years ago in the form of a descriptive poem entitled *Uddásini*. The story is full of pathos and represents love as a sacred, undying, and self-sacrificing passion. The writer of this book is a Bengali lady.	620
„ 11th	70	12mo. ...	1st ...	1,000	ditto ...	0 8 0	Dinanáth Datta, 98, Chitpore Road, Calcutta.	A well-known story from the Rámáyana, put into the form of dialogues for uncultivated readers.	621
Mar. 17th	66	12mo. ...	2nd ...	1,000	ditto ...	0 6 0	Kailás Chandra Chakrabarti, 335, Chitpore Road, Calcutta.	Gives the well-known story of the destruction of the five sons of Draupadi by Aswatthámá, one of the generals engaged on the side of Durjyodhana in the war of the Mahábhárata. When Durjyodhana's thighs were broken by Bhima, Aswatthámá vowed the destruction of the five Pándaba brothers, and entering their tent secretly at night killed by mistake the five sons of Draupadi instead of her five husbands. Written for uncultivated readers.	622
April 17th	68	12mo. ...	1st ...	2,000	ditto ...	0 12 0	Nader Chánd Sil, 326, Chitpur Road, Calcutta.	One of the many ways in which Durjyodhana insulted the five Pándaba brothers was by bringing their wife Draupadi by force into his court and taking off her clothes. Written, like the last mentioned work, for uncultivated readers.	623
„ 15th	70	12mo. ...	1st ...	2,000	ditto ...	0 12 0	Kánáyilál Dhar & Co.	The manner in which Arjuna and his son Babrubáhan were led to fight each other has been explained in the catalogue for the first quarter. *See* Non-educational Bengali pamphlet, No. 417.	624
„ 10th	72	12mo. ...	2nd ...	2,000	ditto ...	0 8 0	Hridayalál Datta, 106, Ahiritolá Street, Calcutta.	The well-known Paurániic story of King Daksha's sacrifice, given in the form of dialogues for the benefit of uncultivated and orthodox readers. This is a revised edition.	625

1880.	Pages.					Rs. A. P.			
April 7th	64	12mo. ...	1st ...	1,100	Printed	0 8 0	Chandra Kumár Dhar, 320, Chitpur Road, Calcutta.	Some of the characters in this piece, servants of King Dasaratha, are natives of Eastern Bengal, speaking Bengali with the well-known East Bengal accent.	626
„ 13th	72	12mo. ..	3rd ...	2,000	ditto ..	0 8 0	Hridayalál Datta, 108, Ahiritolá Street, Calcutta.	The hero and heroine of this story are husband and wife. They are represented as having belonged to an age when birds could speak, and gods and goddesses interested themselves in the welfare of unfortunate lovers.	627
Mar. 27th	70	8vo. ...	1st ...	1,000	ditto ...	0 8 0	Binodbihári Sil, 118, Chitpur Road, Calcutta.	A well-known story from the Rámáyana, told for the benefit of ill-educated readers.	628
Mar. 1st	8	8vo. ...	1st ..	1,000	ditto ...	0 1 0	Not given ...	Describes the ill-treatment of a young Hindu widow by her brother's wife, and concludes by warning men not to marry in old age. The style of the work is strongly marked by East Bengal peculiarities of accent and idiom. Street literature.	629
April 4th	32	12mo. ...	1st ...	2,000	ditto .	0 4 0	Binod Kishor Mukerji of Kumártuli, Calcutta.	Describes three or four boys of respectable birth who have, within their 10th or 12th year, passed through all the stages of intemperance and dissipation. Street literature.	630
„ 2nd	36	12mo. ...	1st ...	500	ditto ...	0 6 0	Kunja Bihári Mitra, Narsing's Lane, Calcutta.	Describes the loves of Krishna and Rádhá.	631
„ 14th	22	12mo. ...	1st ...	1,000	ditto ...	0 2 6	Rádhánáth Mitra, 1, Bechárám Chatterji's Lane, Calcutta.	This is an opera composed for the Bengal Theatre. Rati, the Indian goddess of love, works a spell, in consequence of which her son Aniruddha falls in love secretly with Ushá, the daughter of the giant king named Bána. The giant king, on learning this, feels insulted and resolves to kill both the lovers. He is, however, challenged by Krishna, the grandfather of Aniruddha, and a fight ensues, in which Mahádeb takes the part of Bánarájá. At the intercession of Bhagabati the two parties become reconciled, after which Aniruddha and Ushá are joined in wedlock	632
„ 16th	39	12mo. ...	1st ...	1,000	ditto ..	0 8 0	Atul Krishna Mitra of Kambuliatolá, Calcutta.	Debjáni, a beautiful female of the class of immortals called *Gandarbha*, marries a youthful human ascetic, and thereby incurs the wrath of the *Gandarbha* king, Chitrabhánu, who has for a long time courted her hand. Chitrabhánu now makes a cruel use of his supernatural powers for the purpose of persecuting and separating the two lovers. But all his arts fail, and true love thus proves itself stronger than the power of the immortals.	633
May 20th	36	12mo. ..	1st ...	500	ditto ...	0 8 0	Jogendra Náth Banerji, Bágbazar, Calcutta.	The conception of this melodrama is evidently derived from Kálidás's *Bikramorbasi*.	634
May 18th	32	32mo. ...	1st ...	500	ditto ...	0 2 0	Sarat Chandra Deb, Hariná-bhi.	Sakuntala's marriage with Dushyanta is taken to be a preordained fact, and Kálidas's story is accordingly presented in the altered form required by that hypothesis.	635
April 20th	16	16mo. ...	2nd ...	5,000	ditto ...	0 0 3	Calcutta Tract and Book Society, 23, Chauringhi Road, Calcutta.	The story of a Hindu convert to Christianity, in which Hinduism is shown to be a religion without fixed tenets, and full of a species of ceremonialism which seems invented for the selfish purposes of an avaricious and unscrupulous priesthood.	636

Mar. 26th	12	12mo. ...	1st ...	500	ditto ..	0 1 0	Not given ...	Describes the *Doljátrá* festival as celebrated in Chittagong, and pronounces a sarcastic eulogy on dancing girls, condemning them as a class of women who exert a most unwholesome influence on social morality.	645
„ 1st	24	8vo. ...	1st ..	300	ditto ...	0 2 0	Káli Kishor Chakrabarti, of Meghula, Dacca.	This part contains a portion of the life of Vyása, the author of the Mahábhárata. The writer has adopted the Paurá-nic account of the great poet and says that he lived 5,000 years ago. Bábu Káli Kishor writes with a faith in Hinduism not much shaken by the later critical spirit.	646
May 4th	51	12mo. ..	1st ..	1,000	ditto ...	0 4 0	Munshi Kásim-uddin Khan, of Chánán, pergunnah Atia.	The object of this work is to point out and emphasise the truth that men, however great in a worldly point of view, are destined to die and lose all their earthly power and riches, and that their aim in life should, therefore, be to acquire virtue for the enjoyment of happiness in the next world. To make his picture of earthly vanity all the more graphic, the writer has described in a fanciful style the death scenes of two great sovereigns, one of them being Alexander the Great.	647
Mar. 20th	59	12mo. ...	1st ..	500	ditto ...	0 5 0	Not given ...	The author is of opinion that the manner of a man's death has much to do with his condition in after-life, is death at the foot of certain trees (the *bel*, the *aswethya*, &c.) which are styled *Panchabati* says that this is precisely the view that is taken on this subject in the Hindu *Shástras*. He brings forward clairvoyant testimony in Europe and America on the subject of death in its connection with after-life, the writer Written in a thoroughly orthodox spirit.	648

1880.	Pages.					Rs. A. P.			
May 5th	16	8vo. ...	1st ...	500	Printed	0 2 0	Kálimaya Ghatak, Ránághát.	A poem in praise of the late agricultural exhibition at Ránághát. The author represents the sage Nárada and the principal gods of the Hindu pantheon as declaring the exhibition a much grander affair than the horse-sacrifices and *rájsuya jajnas* performed in ancient times by great Hindu kings, and extolling it as the symbol of an era of intellectual progress and material prosperity, unlike any that had been witnessed in India in former times.	649
„ 3rd	31	8vo. ..	1st ...	500	ditto ...	0 2 0	ditto ...	A small poem in blank verse, lamenting the untimely death of a beloved friend. The author represents himself as being in a dream, in which he is transported to a region of horrors presided over by a person called *Akál-mrityu* or untimely death. The author's description of this region is characterised by a sort of savage vehemence and indelicacy.	650
„ 23rd	54	12mo. ...	1st ...	500	ditto ...	0 6 0	Kunjabihári Basu of Narail.	Small poetical pieces on a variety of subjects, the past condition of India being one of them	651
„ 23rd	20	18mo. ...	1st ..	1,000	ditto ...	0 1 0	Ashutosh Ghosh and Co., Calcutta.	The address of a young wife to her husband, showing that a girl who has known no sorrow in childhood, and has been brought up in a spirit of excessive indulgence, generally acquires a temper which exposes her to the risk of being considered vain and heartless by him whom she really loves.	652
„ 21st	18	16mo. ...	1st ...	1,000	ditto ...	0 1 0	Káli Prasanna Banerji, 48, Balaram Basu's Ghát Road, Bhowanipore.	An attack upon Bábu Bankim Chandra Chatterji as a roviewer, and upon Bábu Hem Chandra Banerji as a poet. This poem seems to have been reprinted from the new comic and satirical periodical called *Panchánanda*.	653
April 15th	10	12mo. ...	1st ...	Not given.	ditto ...	0 1 0	Kunjatihári Datta, 132, Mániktalá Street, Calcutta.	A poem in 41 stanzas praising Bengalis as an honourable, united, and civilized people, and congratulating them on their recovery of the position they had lost.	654
„ 21st	70	12mo. ...	Not known	1,000	ditto ...	0 6 0	Trailokya Náth Datta, 117, Chitpur Road, Calcutta.	Songs descriptive of the loves of Rádhá and Krishna, of the glories of the goddess Káli, of the yearnings of the pious soul, &c.	655
Mar. 22nd	12	12mo. ...	1st ...	1,000	ditto ...	0 0 9	Not given ...	An orthodox publication insisting on the necessity of worshipping Krishna and repeating his name in a devotional spirit for the purpose of salvation.	656
May 15th	84	12mo. ...	4th ...	1,000	ditto ...	0 10 0	Nrityalál Sil, Calcutta.	The *tarjá* is a species of rude popular entertainment consisting of mythological and other representations by means of coarse and often very obscene songs. The singers divide themselves into two hostile parties and carry on the performance by rude onslaughts and vulgar repartees. Such entertainments are not very fashionable in high Bengali society.	657
Mar. 20th	88	12mo. ...	1st ...	1,000	ditto ...	0 8 0	Shashibhusana Ghosh and Brother, 317, Chitpur Road, Calcutta.	The *Páncháli* is a more fashionable and refined entertainment than the *Tarjá*.	658
April 13th	51	12mo. ...	1st ...	500	ditto ...	0 6 0	Paresh Náth Dás of Báksá.	Small pieces on a variety of subjects.	659
Jan. 21st	9	16mo. ...	1st ...	500	ditto ...	0 2 0	KunjabihāriBasu. 6, Rádhánáth Basu's Lane, Calcutta.	The scene of this opera is laid in Vishnu's heaven. The god and goddess of love, the god and goddess of spring, and the nymphs of heaven are represented as celebrating the approach of the vernal season for the entertainment of Vishnu and his consort Lakshmi. Prepared for the National Theatre.	660

1880.	Pages.					Rs. A. P.			
Mar. 10th	16	12mo. ...	1st ...	500	Printed	0 2 0	Káder Ali of Palsa.	Describes the force and attractive power of love. The author, who is a Musulman gentleman, draws his figures of speech and illustrations from Hindu mythology.	661
April 23rd	80	12mo. ...	1st ..	1,200	ditto ...	0 4 0	Baláyichánd Chandra and Harekrishna Datta, 19, Brindában Basák's Street, Calcutta.	Manasá the goddess of serpents, Olá Bibi the goddess of cholera, and Sitalá the goddess of small-pox, are all village deities, very much feared by Hindu women and the lower classes of Bengalis. In this book are described certain traditional stories of the nature of nursery tales connected with these deities. Intended for orthodox readers, and written in the species of metre most liked by them.	662
Mar. 10th	19	12mo. ...	1st ...	250	ditto ...	0 2 0	Not given ...	A discourse in which the author says that the scientific theory of evolution is imperfect and erroneous; that atheistic thought is acquiring strength; and that Brahmaism is yet far from realising its true ideal, which means not simply purity of belief, but the regulation of conduct in accordance with the divine wish.	663
April 6th	23	8vo. ...	1st ...	1,000	ditto ...	0 2 0	Jayakrishna Deb Sarma.	A collection of songs expressive of the religious views and aspirations of the sect which goes by the name of *Kartábhajá* and which has its head-quarters at Ghoshpárá, a small village in the district of Nuddea.	664
,, 24th	42	12mo. ..	1st ...	500	ditto ...	0 2 0	Gopál Chandra Sen of Shibpur.	The object of this tract is to prove that the *Baidyas* of Bengal are not a mixed caste as has been contended by some *Káyastha* pamphleteers in the somewhat acrimonious controversy which is now going on regarding the comparative social position of *Baidyas* and *Káyasthas*. The writer of this treatise contends that, in the opinion of the ancient Hindu lawgivers, the *Baidyas* are equal in position and respectability to *Brâhmans*. Publications of this sort are charactorised by too marked a display of personal feeling. According to the present writer, the Sen kings of Bengal were *Baidya*.	665
Mar. 10th	25	12mo. ...	1st ..	1,000	ditto ...	0 0 6	Not given ...	Gives English and Bengali dates, *tithis*, or lunar appearances, and their duration; the personnel of the governments in England and India, railway fares, postal rules, &c.	666
April 5th	6	12mo. ...	1st ...	500	ditto ...	Nil	Saudámini Ghosh of Naiháti.	The writer is said to be a girl of only 13. She says that *dharma* consists of 30 elements. These 30 elements embrace almost all human interests, religious, moral, intellectual, and physical. Many of these elements, again, are merely forms and amplifications of a single principle The writer also enumerates certain other items relating to housewifery and the wife's subordination to the husband as constituting *dharma* exclusively for females.	667
,, 15th	100	12mo. ..	1st ...	1,000	ditto ...	1 0 0	Pyári Chánd Mitra, Nimtalá, Calcutta.	A story of which Adhyatmiká is the heroine. She represents what woman may become if her education and system of life be of a purely subjective character. The different parts of the story are not so closely connected with each other as are the parts of a regular work of fiction, and it seems to be the author's object to make his book an encyclopædia of elementary knowledge.	668
Mar. 30th	86	8vo. ..	1st ...	2,000	ditto ...	1 0 0	Baláyi Chánd Chandra & Co., 19, Brindában Basák's Street, Calcutta.	A somewhat sensational story of love and war, of which Birájmohini is the heroine.	669
,, 25th	44	16mo.	1st ...	1,000	ditto ...	0 4 0	Not given ...	A love tale of which Málati is the heroine. The author is a Hindu lady who has written many other books on cognate subjects.	670

May 8th	9	12mo. ...	1st ...	1,000	ditto ...	0 1 0	Not given ...	Describes how schoolboys look forward to their holidays and the pleasure they expect from them.	67
Apl. 28th	42	12mo. ..	1st ...	750	ditto ...	0 3 0	ditto ...	Small pieces on a variety of subjects.	67
May 15th	18	12mo. ...	1st ...	1,000	ditto ...	0 2 0	Rámcharan Sen, Calcutta.	Reprimands Bengalis for their servile spirit; curses fate for the abject condition to which it has reduced the country; and after reminding Indians of their past greatness, exhorts them to supply their wants by their own labour. The author evidently expects to rouse manly and patriotic feelings in the minds of his countrymen.	67
May 15th	47	12mo. ...	1st ...	250	Printed	0 4 0	Rákháldási Debi of Arpuli, Calcutta.	In many of the small pieces of poetry which make up this work, the author, a Hindu lady, describes grief caused by the death of many near relations, and temporary partings with many others	67
1879.									
Dec. 9th	72	12mo. dy.	1st ..	500	ditto ...	0 8 0	Káliprasanna Banerji, 48, Balarám Bábu's Ghát Road, Bhowanipore	A poem in four books relating the story of the rape of Lucretia. The work is dedicated to Lord Lytton.	67
1880.									
Mar. 2nd	59	12mo. dy.	1st ...	500	ditto ...	0 5 0	Niramala Chandra Ráya Chaudhuri, Barisá.	Small pieces of poetry giving expression to a variety of feelings, and describing the miseries of certain classes of men and women, such as widows and indigent men.	67
May 29th	76	12mo. dy.	1st ...	1,000	ditto ...	0 8 0	Bhuban Mohan Ghosh, Bhowanipore.	Some of the pieces are sentimental, whilst in others the author describes the past glories of India and the decline of celebrated seats of learning, like Nuddea.	67
Feb. 9th	23	18mo. dy.	1st ...	500	ditto ...	0 1 0	Pyári Náth Mukherji Kálighát.	Describes woman's power over man in a manner half humorous and half sarcastic. It is against the delicate Bengali Bábu that the author's satire is principally directed. The poem seems to have been suggested by the arrival in Howrah of an up-country female athlete who challenged all male athletes in this part of the country to a wrestling match with her.	67
May 13th	46	12mo. ...	1st ...	2,000	ditto ...	0 3 0	Umesh Chandra Bhattácháryya, 32½, Chitpur Road, Calcutta	Describes an episode in the history of the loves of Krishna and Rádhá.	6

1880	Pages.					Rs. A P.			
May 1st	12	12mo, ...	1st ..	1,000	Printed..	0 1 3	Not given ...	The goddess Mangal-Chandi, a Hindu domestic deity, is worshipped by Bengali females for the sake of domestic peace and prosperity. This book contains a story of the nature of a nursery tale which is recited on the occasion of her worship.	685
May 16th	36	12mo. ...	1st ..	2,000	ditto ...	0 3 0	Umesh Chandra Bhattáchárjya, 324, Chitpur Road, Calcutta.	This book is written in the old metrical style, and contains an account of the several incarnations in Hindu mythology. Intended for orthodox readers.	686
June 20th	46	12mo ...	1st ...	3,000	ditto ...	0 3 0	ditto ..	An orthodox work pointing out the worthlessness of earthly interests, and recommending life-long devotion to Krishna and constant association with good and holy men. The language of the work seems deeply coloured by technical Baisnaba phraseology.	687
„ 7th	24	12mo. ..	1st ...	2,000	ditto ...	0 2 0	ditto ..	Contains the story of the funeral cake of sand offered by king Ráma in the course of his residence in the forest on account of the death of his father king Dasaratha, as well as the story of a quarrel which arose between Ráma and the god Shib in consequence of the plucking of a few fruits and flowers in Shib's garden by Ráma's brother Lakshmana without permission previously had and received from either the god or his servant Hanumán.	688
Mar. 26th	56	dy. 16mo.	1st ..	1,000	ditto	0 2 0	Calcutta Tract and Book Society, 23, Chauringhi Road, Calcutta.	A story closely resembling *Pilgrim's Progress*.	689
„ 28th	18	dy. 12mo.	2nd ...	1,000	ditto ..	0 2 0	Nagendra Náth Ghosh.	A small melodrama based upon Kálidas's story of the destruction of the god of love by Mahádeb, and composed for the Bengal Theatre.	690
April 8th	74	dy. 12mo.	1st ..	1,000	ditto ...	0 6 0	Upendra Náth Bhattáchárjya, Chitlá.	The story of two girls, of whom one is married to a child considerably younger than herself and the other to an old man of 60 or 70. The first girl commits suicide and the second makes an unsuccessful attempt at elopement. The author means to show that unequal matches of this kind, so common in Hindu society, are fruitful of evil and ought to be discontinued.	691
Mar. 5th	14	dy. 8vo.	1st ...	300	ditto ..	0 1 6	Bhuta Náth Basu, Bowbazar, Calcutta.	True happiness, according to the author, springs from virtue and a good reputation. But health, says he, underlies all these, and should be, therefore, carefully preserved.	692
May 15th	36	12mo. ...	1st ...	2,000	ditto ...	0 3 0	Umesh Chandra Bhattáchárjya, 324, Chitpur Road, Calcutta.	Gives the symptoms of several diseases and their treatment, under the Hindu system of medicine.	693

1880.	Pages.					Rs A. P.			
Mar. 10th	14	8vo. ...	4th ...	1,000	Printed	0 1 6	Not given ...	.....	736
„ 15th	10	8vo. ...	1st ...	1,000	ditto ...	0 1 6	Not given ...	Gives the meanings of words, and in some cases, their *sandhis*. Words that are only used in poetry are also pointed out.	737
Feb. 23rd	14	8vo. ...	2nd ..	4,000	ditto ...	0 1 6	Not given ...	.....	738
Mar. 26th	56	12mo. ...	1st ...	2,000	ditto ...	0 5 0	Not given ...	Prepared on a plan somewhat different from that of *keys* as ordinarily written. Like all *keys*, it gives the meanings of words. But of the words that are expressive of types and classes, it gives more explanation than can be found in other keys. Particular grammatical formations are also explained in such a way as to throw light upon the *classes* of formations which they either resemble or represent. In a few introductory remarks, the author explains how lessons in *Bodhodaya* should be set to boys and how their mastery of them should be tested.	739
Mar. 11th	40	12mo. ...	29th...	5,000	ditto ...	0 2 0	Jadugopál Chatterji. Amherst Street, Calcutta.	.....	740
Feb. 21st	68	12mo. ...	3rd ...	1,000	ditto ..	0 4 0	Not given ...	The preface consists of brief biographical notices of the earlier Bengali poets, such as Krittibás, Káshidás, Bhárat-chandra, &c.	741

1880.	Pages.					Rs. A. P.			
April 12th	40	8vo. dy.	1st ...	300	Printed	0 6 0	Not given ...	Contains a paper on the solar system; a portion of a tale; a critical estimate of *Kundanandini*, a female character in Babu Bankim Chandra Chatterji's *Bisha Briksha*, &c.	194
May 29th	48	8vo. dy.	1st ...	300	ditto ...	0 6 0	ditto ...	In the course of an analysis of the female character, the writer of a paper in this number says that the preference generally shown by women for strong and able-bodied men in the selection of husbands is due to the hereditary transmission of the instinct of self-preservation which depended in the earlier stages of society upon the possession of bodily power. Desdemona's choice of Othello and Draupadi's secret passion for Karna are explained by the writer on this principle. The writer quotes Sedgwick, Darwin, Herbert Spencer, and others in support of his views.	195
Jan. 29th	26	8vo. double foolscap.	1st ...	200	ditto ...	0 4 0	Indra Náth Banerji, Bhowanipore.	This is a new journal. There is in it a preponderance of light and sometimes even coarse humour, and sarcasm is also one of its weapons Its contents are of a miscellaneous character,—religion, morality, politics, social and domestic life, everything, in fact, being dealt with in a light, humorous, and sarcastic spirit. Indian public measures and public men, editors, authors, &c., are also dealt with in the same spirit.	196

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

The 4th September 1880.—The following notification is published for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.—MARINE BRANCH—MILITARY DEPARTMENT.

NOTICE TO MARINERS.—(No. 10.)

BAY OF BENGAL—COROMANDEL COAST—MADRAS.

Changes in the Buoyage of the Port.

WITH reference to Notice to Mariners, No. 27, issued from this Department on the 21st August 1879, it is further notified that, owing to the continual extension of the harbour piers into deep water, and in order to permit of a greater space being available for steamers inside the harbour piers, it has become necessary to remove the large red buoy which hitherto marked the western limit of the anchorage for steamers.

Commanders of steamers are warned by the Marine Authorities at Madras not to anchor between the piers in less than 5½ fathoms at low-water; and that when anchoring in this depth, they will do so on their own responsibility, and with the exercise of care and judgment.

All sailing vessels, excepting dhonies, should anchor in or beyond the 8½-fathom line of soundings, and outside the northern and southern port buoys.

The port buoys are painted red and white vertically, and are anchored in 8 fathoms. These buoys are *danger* buoys, and Commanders of vessels, making or leaving the anchorage are hereby warned *not to pass inshore* of either of them, nor come under 9 fathoms by night.

The northern buoy marks the position which will form the extreme end of the north pier.

Vessels are on no account to venture between the northern buoy and the north pier, nor between the southern buoy and the south pier, as the rubble bases of both piers extend much further seaward than the piers themselves.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, *the 31st August* 1880.

This Notice affects the following:—

BRITISH ADMIRALTY Charts Nos. 71*c* & *d*, 828, 70*a*, and 748*b*.
INDIAN MARINE SURVEY Charts, Nos. 105, 15*b*, and 103*a*.
Taylor's Sailing Directory, Vol. I, page 458.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

[First Publication.]

NOTIFICATION.

The 3rd September 1880.—It is hereby notified for general information that the Lieutenant-Governor is pleased to transfer thana Gopibullubpore from the jurisdiction of the Midnapore Moonsiffee, to that of the Dantoon Moonsiffee from the 1st October 1880.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 3rd September 1880.—Doubts having arisen as to the precise position of the boundary line, described in the Schedule of Act IV (B.C.) of 1863, between the Tracts to which the provisions of Act XXII of 1860 are applicable (known as the Hill Tracts District of Chittagong) and the Regulation District of Chittagong, the officer in charge of Land Settlement Operations in Chittagong was, by Government orders No. 3198T., of the 8th October 1875, empowered to lay down and demarcate the said boundary upon the ground so as to be easily identifiable. The Settlement Officer having, in accordance with those orders, completed the demarcation of the said boundary, has submitted a detailed description thereof, which the Lieutenant-Governor has been pleased to approve and confirm, and directs be notified as follows for general information:—

Detailed description of the boundary line between the districts of Chittagong and the Chittagong Hill Tracts.

FROM the starting point on the south bank of the *Fenny river*, marked by a masonry pillar, forming the north-eastern limit of the village of Ramghur, up the Shonai nulla to a point marked by a masonry pillar. Thence southward by a line cut through jungle and marsh (1 mile 3 furlongs and 185 yards) to a second masonry pillar on the bank of the Lalmoi stream. Thence down the stream in a south-easterly direction for 226 yards. Then by a line across jungle (298 yards) to a third masonry pillar at the foot of a hill.

Thence by a straight line (1¼ mile and 10 yards long) drawn across a wide impassable swamp southward to a fourth masonary pillar. Thence southward by a line (3 miles 1 furlong 118 yards) across hills and jungle, crossing the Mara Roopai cherra thrice to a very small stream called the Chota Shonai to the east of the village of Shonai khil. Then by a line (2 miles 3 furlongs 67 yards long) across low hills and jungle, south and south-eastward, crossing three jhiris to the Baromashia cherra. Along the Baromashia cherra to its junction with its toha-cherry, where an earthen mound has been erected up the Dhobacherry a short distance; across the hill (430 yards); across the Docherty Dhoolincherry; across another hill (136 yards); across the Kootoocherry.

Thence by a line drawn eastwards (124 yards) crossing a swamp midway to the Kalapania stream, and along this stream all the way to its junction with the *Haldah river*, and down the Haldah; to the Mosholla cherra; up the Mosholla cherra south-eastward to

the foot of a hill where an earthen mound has been erected; across the hill southward (3 furlongs 70 yards) to the Shapmara khal. Then along the banks of the Shapmara, crossing it after 836 yards and again after 240½ yards, to its junction with the Shookhiacherry, where an earthen mound has been erected; thence up stream and across a hill to the Khanjan cherra and up its tcha, where also an earthen mound has been erected. Thence down the Khanjan cherra to the Bhatkhola cherra and along this to the *Doloo river*; up the Doloo to the Bhootycherry and along it a short way; then by a line through jungle crossing the Bhootycherry 19 times to the Chota Kumari; by a line (¼ mile and 306½ yards) across the hills to the Burra Kumari; along it south-eastward to an earthen mound, whence across hills (449 yards) to the Kalapania tcha-cherra and so south-eastward to the second Kalapania cherra: up this, and across to the source of the Chikoncherry; down that to the Manickcherry, so to the Manickcherry. Thence along the Manickcherry to the *river Droong*, and up the Droong to the Doodiacherry; up the Doodiacherry east and south-eastward to its tcha-cherry; thence south-eastward, crossing hills (235 yards) to the Ruktocherry tcha and Ruktocherry, and along this north-westward, crossing hills. Thence the line follows the eastern boundary of the Fennoca lot No. 19 (called the Ruktocherry lot), crossing the Chota Lelang and Maiz Lelang (crossing the latter at its junction with the Kutubcherry). Thence eastward by and along the Kutub cherra (747 yards) and a foot-path (54 yards) to the foot of a hill where a tree has been marked; then crossing by a line (446½ yards) to the stream again; thence by a line (295 yards); again to the stream; after which along the stream (217 yards) to a gurjon-tree marked. Thence by a straight line (25 yards), again to the stream; along it for 25 yards, thence across hills (295 yards to the Kutubcherry once more, along it (180 yards), across hills (861 yards); crossing the Bet cherra twice. Thence up the Betcherry (364 yards), and across hills (62 yards), to a stream without name, and down this (113 yards) eastward. Thence by a line 131 yards long across a hill, and so south-eastward by the left bank of the stream again to the Benajuri. Thence up the Benajuri and its Docherry, and thence across (396 yards) to the Docherry again, and up its tcha (72½ yards); thence across hill (223 yards) to the Bagcherry, and down it to the *Surta river*. Up the Surta to the Puttocherry, up that to the Kalicherry, up that to its source; thence, crossing (668½ yards) hills and a hill path, to the Burra Kanal cherra, and down this to the Futtickcherry tcha and Chota Futtickcherry; to the Shilcherry; thence up the Shilcherry and its tcha to its source; thence across (83 yards) to the source of the Ruktocherry tcha, and down it to the Ruktocherry; up the Ruktocherry to a second tcha, and up this to its source; crossing to the source of, and down, another tributary of the Rukto cherra, so southward along it Then a line across hills (159 yards) to another stream; down this and up its tcha to its source, crossing hills (half mile 538 yards). Thence to the Thandacherry tcha, and along the Thandacherry to the Daboocherry tcha, and down the Daboca to the Shoobooncherry; up the Shoobooncherry to its tcha, and up it southward. Thence a line (627 yards) to the source of the Pootia cherra, down it southward to the Furreedkhally, and up that to the Hatdhara cherra. Thence up to the Shakhacherry, down it to the Balukhally tcha;—at their junction an earthen mound has been erected,—so to the Balukhally and up it to the source of its second tcha; thence crossing down the Berootia cherra from its source, and up to the source of its second tcha. Across to the source of the Haitobi cherra tcha; to the Chikon cherra; to the Kaskhally. Up the Kaskhally to the Chikoncherry; and up that to its source in a swamp.

Crossing the swamp down the Ooter Paonacherry to the Dhooliacherry *alias Mara Paonacherry*; down this to the Dakhin Paonacherry tcha, and Dakhin Paonacherry, and up to the Khondiacherry; so to the Shookna Dhepacherry. Up this last stream southward, leaving a great swamp to the right, to the Chota Hullodia, and down to the Burra Hullodia cherra. Up that eastward, and thence across the hills southward (72½ yards) to the Balukhally cherra, and down it to the Raozan stream. Up the Chikoncherry to the Roniacherry, down that southward, crossing the Government road to Rangamattee, to the Bagmara cherra. Thence across hills (228 yards), and, after crossing the Moracherry, to the Chikoncherry; down that to the Shooknacherry; up this some way, then by a line across hills (370 yards), crossing the Moorcherry, to the source of the Jhiri cherra, then across (250½ yards) hills southward to a swamp, which crossing, along the second Shooknacherry to the Bibi Dhala cherra, and along that eastward to the Kaskhally. Up the main Kaskhally cherra, and across a hill (68 yards), down the Pitlibonia cherra to the Shaharkhola cherra, and up this to the source of the Shookna cherra, crossing (43 yards) to the Hitoordia cherra, and down it to the Bhomorsdhala cherra; to the Hatoolea *alias* Kokania cherra; and up the Kokania cherra to a steep hill. Crossing this steep hill, strike the Satikata cherra, follow to the Kiskichea cherra, and up to the source of its tcha; thence crossing the ridge to the Kanal cherra; to the Bhanga cherra, down it to the Futtickcherry; and along this to its source. Crossing the ridge to a jhiri cherra of the Buramye cherra, down the latter eastward to the Hatooatoli cherra. Up the Hatooatoli northward; by a line (253 yards) across flat culturable jungle to a jhiri cherra, where an earthen mound has been erected. Down the jhiri cherra to the Doloo. Down the Doloo eastward to the Songy cherra; up the Songy cherra and along the measured western boundary of mouzah Pomra to the Shilcherry; up the Shilcherry to its source; crossing, down a tcha-cherra to the Chupperpara cherra; up it to a jhiri cherra, and up that, then crossing to tcha-cherra, so to a jhiri cherra, so to another tcha-cherra and along this to its source. Crossing the ridge (47 yards), down the Doloobonia cherra to the Ichakhally, and down it southward to the Paby cherra. Up the Paby cherra to the Thandacherry and its tcha; crossing (30 yards); then northward by a tcha-cherra

a short distance, then by a line through hills (144¾ yards) north-westward; then down the Bharai Bhiti jhiri to the Shonaicherry; down the Shonaicherry to the Boarlub jhiri, and up that, crossing a road twice, to the Dheongyo cherra.

Up the Dheongyo cherra to its source. Thence, after crossing a ridge (66½ yards), by the Hemyle cherra to the Natcherry; down it to the Thandacherry and up the Thandacherry to its source. Thence by a line (268 yards) northward to the Boiragee Dhepacherry, down it to the Docherry. Up that a short distance, thence by a line (190¼ yards) across hills westward to the Aralea-ghona Footeacherry, down it and up to the source of its jhiri. Then crossing the ridge north-westward (134½ yards) to the Longchoo cherra, and along it northward to a jhiri cherra, leaving this, across hills north-westerly for 288 yards to a tcha-jhiri, and down it to the Hemonto cherra. Northward, by the Hemonto cherra to the Chikon cherra. Up this and across hills (241 yards) to the Arjoin cherra; along it to the Shonaicherry; up the Shonaicherry to the Shilbooka dâk hut; northward, along the western boundary of the village of Thandacherry, to the source of the Margoma cherra. Across hills (201¾ yards) to the Burra Meghacherry; so to the Meghacherry. Thence across hills (389 yards) northwards to the Nanyacherry, down it to the Bhoramcherry; to the Boraitoli cherra, where an earthen mound has been erected. Up the Boraitoli cherra for about half mile. Thence by a line (260 yards) across hills to the stream; then again along the stream to its source. Northward by the Painkharonga *alias* Chikoncherry; eastward down the Chota Doloo to the Burra Doloo; down it south-eastward to the site of an earthen mound; thence northward across hills (about one and a half mile) to the Ichamutty, where a masonry pillar has been erected; then up to the Ichamutty to its junction with the Kawkhally, where another masonry pillar has been erected; thence south-eastward across hills (a little over one and a half mile) to the Ongjye Lengkharongur stream, and down it due southward to the Betcherry; then along the Betcherry eastward, to the Burra Doloo, and its tcha up to its source. Thence by the Rajakhally tcha to the Rajakhally; by a line (262 yards) across hills due eastward; then again along the Rajakhally to its second tcha, along it southward to the Meghacherry tcha and the Meghacherry. Along the Meghacherry southward to Shooknacherry; along it a short distance to the *Rangamatea road*, where a masonry pillar has been erected. Along the road north-eastward to another masonry pillar, thence by a line over hills (384 yards), to the source of the Gagracherry tcha, so to the Gagracherry; up this to the Mitingacherry; then up it and the Modonacherry to its source, crossing the ridge down the Molkarmar cherra to the Koormai cherra tcha. Along it, leaving the Koroikhally to the right, and its tcha to the left, to the Birbiria cherra; up it southward to the Mridinga cherra; up that to the Koormaicherry; thence up the Koormaicherry southward to the Sootacherry; up that to a Sonkhola. Thence across the hills (260 yards) to the Chikoncherry; along it eastward a short distance. Leaving the Chikoncherry to the left, down the Deotacherry to the Lemobonia cherra, down the Lemobonia to the Kengracherry; up that southward to the source of the Burra Marari tcha, and so to the Burra Marari. Down this to the second Kengracherry, and up to its source. Down the Kalicherry tcha to the Kalicherry, and up it to the Hanoomanya cherra (also called the Kalicherry tcha); up this to the source of the Docherry tcha and the Docherry. Then along the Docherry, following the boundary of the Agoneah tea garden to the old Government road, where a masonry pillar has been erected.

Following the Government road southward to the Agoneacherry, then down stream. Leaving the cherra to the right, by a line across hills in a southward direction to the source of the Kookhyacherry; down it southward to the Peknacherry. Along the Peknacherry eastward to the source of its Docherry. Thence down the Charamonicherry to the Bynecherry; down the Bynecherry and up the jhiri cherra to its source; down the tcha-cherry to the Baroghonia cherra; down the Baroghonia to the Depultolicherry, and to its source, where a masonry pillar has been erected. Thence down stream to the Tripoorasoondery, and along it to its mouth, on the north bank of the Kurnafooly, where also a masonry pillar has been erected. From the mouth of the Tripoorasoondery, falling into the *Kurnafooly* a little below Chunderghona police-station; crossing the river south-westward, to the mouth of the Raikhally on the south bank; up the Raikhally southward to a stream draining Karomoollah's khola, up this stream; across the Government road to Bunderban; thence by a line through hills and jungles south-westward (one mile and 553 yards) to meet the Bunderban road. Then by a line cut across hills southward (559 yards); again meeting the Government road, and following it south-eastward to the edge of a swamp; crossing the swamp, follow the Kontamara cherra westward to the Kochookhola jhiri; up the jhiri and across a hill (114 yards) to the Kudala cherra; southward to its Docherry, and up along this. Thence by a line (one mile and 383 yards) across hills west and southward to the Chikon cherra, so to the Day cherra, then again by a line half a mile and seven yards south-westward, across hills, swamps, and low jungle, to meet and follow a foot-path forming, for about three miles, the eastern boundary of the village of Puddua (Kismuts Hurry Hur and Shurashia), so to the Dholiacherry. Down the stream draining Bakerali's khola, southward to the Foy Dhepa cherra; down which to the Jhumka; up the Jhumka eastward, to the source of the Gojulia; crossing to the Dhepacherry, so to the Shilok, and along it south-eastward to the "Magher gurjon khola jhiri;" up this west and southward to the Jogkhally cherra, then crossing the Government road, up the Kay cherra south and south-westward; across; down the Momfroo cherra tcha to the Momfroo cherra, and along it southward to the *Chemy* or *Seermye*, a large tributary of the Sangoo; thence along the course of the Chemy southward to the *Sangoo river*; thence by the left bank of the Sangoo south-eastward and across to the mouth of the Raicha. From the south bank of the Sangoo up the Raicha to the Shonaicherry; up the Shonaicherry to the foot of a hill; thence by a line

(one-fourth of a mile) south-westward across hills to the Shooblong Shohaicherry, and along it to the Shooblong; following the Shooblong to the Keta Chioni cherra; thence up the Keta Chioni cherra southward a short distance; thence by a line across hills (181½ yards); down the Docherry to the Roodrakhio cherra, and down it to the Namonda cherra; thence along the Namonda cherra south-eastward to the Lal jhiri, and up it southward; across a hill by a line (72½ yards) south-westward; down the Kalachia jhiri to the Okhia cherra, and down that to the Coloobania cherra, along this to its source; then by a line across hills (397 yards) eastward; down the Bara jhiri to the Chama Boorul, and along it south-westward to the Chingcherry; up stream to the foot of a hill, crossing by a line 78½ yards long; down the Mittabonea jhiri due southward to the Lona cherra. Up the Lona cherra and its teha eastward; crossing hills (94½ yards) down the Mittacherry teha to the Mittacherry; and down it to the Northern Hangar.

Down the Northern Hangar about one mile to a small jhiri across hills, down the Chadder cherra to the *Charomba*, and down it again to the Northern Hangar, which is followed to its junction with the Dukhin Hangar. Up this to follow the north and eastern boundary of mouzah Charomba, and leaving the Chingcherra jhiri and Ichapur jhiri to the left, after about three miles to reach and follow a jhiri for a short distance eastward; across hills (44 yards) to another jhiri; down the jhiri to the Bagmara, up this and its teha jhiri; and eastward across hills (196½ yards to a third jhiri; down this to the Dholiacherry.

Up the Dholiacherry a short distance eastward; then by a jhiri to the foot of a hill: thence by a line (112 yards) across hills southward to another jhiri. Down it to the Jungcherry. Up the Jungcherry to the Khida cherra; crossing by a line (262 yards) to the Shilcherry. Down the Shilcherry to the Kamaria cherra, and down it southward to the *Tak stream*. Then up the Tak or Tonkbotty to the Foolgazy cherra, and up to its source; crossing (268 yards); by the Chota Dholiacherry south-westward to the Dholiacherry; up the Dholiacherry about one and a half miles to a jhiri; crossing (112 yards); to another jhiri eastward; thence southward across hills (271 yards), down another Dholiacherry to a jhiri; crossing a hill (52 yards); down a jhiri to the Sharoi khall. Up the Sharoi khall eastward to another jhiri, then up it; across a hill; along the Kallaqa cherra; up stream to a jhiri and up to its source; then across hills (90 yards), along the Goda Joomia cherra; across a hill; down the Sharoi khall westward, to the Nyecha jhiri and up it; across hills due southward; down the Abdoolla Pyar jhiri to the Poolong cherra; and up it and its Docherry to a jhiri. Up this jhiri and then by a line (140 yards) across hills, then down the Chingcherry to a jhiri, and up it to its source; crossing hills (210 yards); down a jhiri to the Polcherra, and down it and up the Garania Nashi jhiri to its source, where an earthen mound has been erected. Then down a jhiri to the Himcherry, along the Himcherry eastward to another jhiri, and up it to the foot of a hill. Crossing the hill (106 yards); down a teha-cherra to the Chikon cherra, and down it to the Andari cherra, down the Andari cherra westward to the Doloo cherra, and up it to the Saliong cherra, and up this and a jhiri; crossing hills (118 yards); down the Bodona jhiri to the Feranga, and up the Feranga about three miles; then northward by a jhiri, and across hills (428 yards) to the Dholiacherry, down it to the Ramcherry, down it to the Chemicherry, and down it about two miles; then up the Sadaroshacherry to its source; crossing westward (153 yards); down the Nakata cherra to the Chanda cherra, down it and up a jhiri to its source; across hills (236 yards), and down a jhiri to the Satgur. Down the Satgur to the Docherry, up it to its source; crossing the ridge (168 yards); down the Himcherry Docherry to the Himcherry, and up the Himcherry; crossing hills, follow the Government road through Chuonatee dhala for a little over half a mile; then eastward by a jhiri to the Harbang khall. Along the opposite jhiri a very short distance, then up the Futtickcherry and its teha to its source; across hills southward (152 yards); down the Doliacherry and up a jhiri; crossing hills (117 yards); down the Loha jhiri to the Katoli cherra; along the Katoli cherra; southward, and a short way; thence up the Jarooltoli jhiri to its source.

Crossing hills eastward (153 yards), to the Harin Mara jhiri, and down it to the Burra Chikon cherra, up to the Amratoli cherra, to its source. Crossing the ridge (124 yards), due southward; down the Shapmara jhiri to the Chota Chikoncherry; and down it, and up the Chalitatoli cherra to its source; crossing a small hill here (70 yards); up the Jarooltoli jhiri to its source; then by a line across hills 284 yards long to the Footia jhiri cherra. Then along the Footia jhiri cherra south-south-west; thence up a jhiri to the foot of a hill; crossing the hill, a little down the Bhoota Bancha cherra to the Hejakha cherra. Thence down it a short distance, then up a jhiri to the foot of another hill; crossing this hill also, down the Dholiacherry to a jhiri and up it to its source; then by a line over hills (64 yards); then down a jhiri to the Domnakata cherra *alias* Toblacherry; then up a teha southward to the foot of a small hill. After crossing the hill, up the Dholiacherry southward to another hill. Crossing this hill also (81 yards), down the Kana Pokkhar jhiri to the Pokkhaya jhiri; down it southward to the Shonaicherry; down it to the Hatra jhiri; up the Hatra jhiri to the Mogiar bathar jhiri, to its source. Crossing here (67 yards), down a small jhiri to the Harinakoon cherra; down it to the Ramcherry; up the Ramcherry southward to a jhiri, and up it to the foot of a hill. Crossing this hill, by a jhiri down stream to the Tahir cherra, and down it south-westward to the Himcherry; then up the Himcherry westward about half a mile; then up a jhiri; crossing the ridge; down a jhiri to the Ramkristokata cherra, and down it to another jhiri, up a jhiri eastward; crossing hills (168 yards); down a jhiri to the Dholiacherry and up an opposite jhiri. Again crossing hills (67 yards), down a jhiri to the Bania cherra, down it to the Pecha cherra, and down it to the Rangy cherra. Along the Rangy cherra eastward, and up a jhiri

crossing hills (160 yards); to a jhiri, to the Mash Kobiar cherra, and up a jhiri to another hill; crossing this hill (86 yards), along the Ghillatoli cherra up stream, crossing again hill (153½ yards); down a stream called Boorar Polar Khalar cherra to a Docherry, and up it; crossing again (191 yards), down another Docherry southward to the Hatiar cherra, and up it northward; again crossing hills (222 yards); eastward by a jhiri to the Mittacherry, and down it to the Fyetong cherra; then down the Fyetong to the Fadoo cherra. Thence up the Fadoo cherra to a jhiri, down the jhiri to Kharikhyar cherra, up it northward, crossing the hills eastward, down the Doloocherry south-eastward to the Jialcherry; up it southward to the Docherry, and up the Docherry by a jhiri, then by a line across hills (152 yards) and southward by a stream (called Akber's father's Doary); again crossing hills; down the Nuzzer Khola cherra to the Takeer cherra, and down it southward to the Pagly cherra. Up the Pagly cherra to the Himcherry and its jhiri, southward crossing hill (16 yards); up the Chhatacheng cherra; crossing a small hill; down a stream westward to "Bompahar" hill; crossing this hill; along the Mongoocherry jhiri, to another hill; crossing this; along the second Mongoocherra jhiri to another hill; crossing this hill also, down the Chak cherra to the *river Matamori*. The line then follows the course of the Matamori up stream, till it reaches the Bomoo; then up the Bomoo a short distance; then up the Keogong cherra eastward to some hills; crossing southward to the Burra Bomoo, along it to the Bomoocherry, following this a short distance, then up the Shapmara jhiri to the source of the Docherry. Crossing (237 yards) down the Kalabonea cherra southward to the Shil jhiri, and down it to the Chitta Halea cherra; up this to hills again. A line across hills south-south-eastward (177 yards); then down the Thayngo cherra to the Chota Feranga; and down that to the Noona cherra; down the Noona cherra to the Burra Feranga; up that to its source, then crossing the ridge to the source of the Burra Bomoo, and along it down stream to the Fadoo. Thence along the Fadoo and up the Khanda, across to the Chioni cherra (north-east of the village of Bomoo); and up the Chioni cherra to Pamsha cherra, at its junction with the Lemoo jhiri tcha, where an earthen mound has been thrown up. Along the Lemoo jhiri tcha southward to the Lemoo jhiri; so to the Chota Bomoo; at the junction of the Lemoo jhiri with the Chota Bomoo, a masonry pillar has been erected. Following the Chota Bomoo a short distance southward, the line reaches the *river Matamori* at the north-east corner of the village of Bilcherry. The line from the Chioni cherra to the Matamori forms the eastern boundary of the village of Bomoo.

From the river Matamori along its east and south bank; thence by a line cut through jungle and hills (1,030 yards) south of the village of Bilcherry, cutting the Jalnikashi cherra and a small tank about half way, reaches the tcha jhiri. Thence along it to the Goda nulla, and down this to meet the *river Matamori* again. Thence follows the course of the Matamori westward to the mouth of the Yangtcha Kheoung, which is followed up stream; then across to the Himcherry, and thence to the Chota Himcherry. The line from the Yangtcha to the Himcherry forms the western boundary of the village of Soorujpore. From the Chota Himcherry up stream to the source of the Chota Himcherry tcha, and across to the Burra Boalia; along this to its Docherry, and thence across to the Garamcherry, and up to its source; thence along the Goomaicherry up to the source of the Goomaicherry tcha. Thence along the Doloocherry westward to meet the Matamori again. Here a masonry pillar has been erected. The line from the Chota Himcherry to the mouth of the Doloocherry forms the southern boundary of the village of Soorujpore. From the masonry pillar at the mouth of the Doloocherry, along the south bank of the Matamori, to the mouth of the Ghooniacherry. This portion forms the southern boundary of the village of Kakra. Thence up the Ghooniacherry (to the south-east of the village of Ghoonia) to the source of the Bara jhiri. Then, crossing a foot-path leading to hill villages, the line follows the Bichania cherra from its source to the Kumari. Then along the Kumari eastward; thence southward by a line cut through jungles and hills (51 yards) to the Docherry, along it westward to the Panis jhiri; and from the Panis jhiri to the Fashiakhally. (The line from the Kumari to the Fashiakhally forms the northern, eastern, and southern boundary of the village of Oochitar beel.) Thence along the Fashiakhally south and south-eastward to the Hoai Hoary cherra. Thence westward by the boundary of Mr. Neish's land, (a line cut through the jungle and along the foot of the hills for about a mile to the Gooia cherra). Down this stream to a marked tree, then southward by a line cut across hills for half a mile to the Doolahazara stream, and down this to the Ahonsha jhiri. The line from the Fashiakhally to the Ahonsha jhiri forms the eastern and southern boundary of mouzah Ringbhang. Thence along the Ahonsha jhiri bounding the village Boga Chutter on the north to the tcha jhiri; thence to the source of Ahonsha jhiri tcha, and across to the Joommoni cherra tcha, and so to the Joommoni cherra, where an earthen mound has been erected. Along the cherra eastward to its next tcha, and up this to its source. Thence, crossing a hill due southward, by the Burra Chirótia cherra to the Bagacherry, along it to the Burra Bagacherry. Thence across to the Chondontoli jhiri tcha, and so south and south-westward to the Chondontoli cherra; along this south-westwards to the Pagli cherra, and by it to the Magkata jhiri. (The line from the Ahonsha jhiri to Magkata jhiri forms the north and eastern boundary of the village of Bagachutter.) From the Magkata jhiri up stream east and south-eastward to its source; thence by a line cut across hills (214 yards); and thence southward by the Kooroopata cherra, and along it south-westward to the Hargizacherry. Down this westward to the *old Eedgong road* (known as *White's road*). The line from the Magkata jhiri to the Hargoza forms the east and southern boundary of the village of Paglar beel. Where this road meets the Hargoza, an earthen mound has been erected. Thence along White's road eastward and south-eastward, bounding the village of Khoomtakhally on the north, then after crossing the Kamia jhiri thrice, the Ghoomti cherra once, the Khoomta-

khally stream once, the Khoomtakhally jhiri once, the Pania jhiri once, the Gurjonkhola jhiri once, the Koomirmara jhiri once, and the Koomirmara *alias* Jiolcherry once, the line is carried southward to the Bottolia cherra, and up this east and north-eastward to form the northern boundary of the village of Eedghur; thence following the Bottolia cherra tcha to its source; thence crossing to the source of the Karoitolia cherra, down it southward to the Eedgong stream. (The line from the Bottolia cherra to the Eedgong river forms the eastern boundary of Eedghur.) The line then follows the course of the Eedgong, south and south-westward to its tcha; then eastward up this to its source; then crossing to the Dooliacherry and so to the Dooliacherry tcha; thence across to the Koomarchak jhiri, up to its source, across to the Alli Khiong jhiri tcha, and so to the Alli Khiong. Thence by it up stream, east and south-eastward to the Bhedlirmar jhiri, turning southward by the Docherry to its source; then, across, to the Renour jhiri tcha; and so to the Renour jhiri up to its source, again crossing southward to the Shakar jhiri; thence south-westward to the Chota Gurjonea, and by it south-west, south and south-eastward to its tcha, by which, north-eastward, to the Faree khall. Due southward by the Faree khall to the Burra Gurjonea cherra, and by it north and north-eastward to the Harinkhyea cherra; along it eastward to its tcha; thence south and south-eastward to the source of the Thimcherry jhiri tcha and so to the Thimcherry, turning thence east and north-eastward to the Ramir jhiri, and along it eastward to its source; then crossing southward to the Footea jhiri, and along it south-south-eastward to the Chagolkhyea cherra; thence down stream to the *Bagkhally river*, along the Bagkhally east and south-eastward, to form the southern boundary of the village of Gurjonea, to the Chikoncherry; then by it southward to the Krindomcherry up to its source; then crossing southward to the Choputcherry, so to the Jarool Totia cherra, and down it to the Bagkhally Docherry; along this south and south-westward to the Moonur Marcherra or Mama Bhaginar cherra, to its source; thence by a line cut across hills (52 yards) southward to the Burra Jungcherry tcha; down this to the Burra Jungcherry; and along this south and eastward to its tcha; thence crossing to the Sangsi Mourong cherra, so southward to the Chota Jungcherry Docherry, and thence south and south-westward to the Chota Jungcherry; and up it south and south-eastward to Thy Mourong cherra to its source. Then crossing westward by the Jaroolia cherra to the Jungcherry; southward by a line 213½ yards meets the *Gurjonia road* (*White's road*), and follows it south-east and south-westward to the Hyeth Mara cherra; along this south and westward to the foot of a hill. Thence by a line cut across jungles and hills north and north-westward (4 miles 167 yards) to the Golachirra cherra, and along it westward to Nhykongcherry. Then along it up stream, north and north-westward to its tcha, and up this westward to its source; then crossing to the Shoshang cherra tcha and so to Shoshang cherra, and down this northward to the Jahacherry, along which southward to the Noonydoong cherra, to close the eastern boundary of mouzah Monir Jhiel, down the Noonydoong (24 yards) and to its tcha, up this to its source; thence crossing to the Keokea cherra tcha, and so to the Keokea cherra; thence southward to its second tcha; then crossing southward by the Naplye cherra tcha to Naplye cherra, and along it westward and a little north-westward to the Shonaicherry.

Then by the Shonaicherry north-westward to its junction with the Noonakata cherra, where an earthen mound has been erected. Thence up the Noonakata cherra south-westward to a swamp (dhepa), and by a line cut across this westward and north-eastward to a hill, thence across hills and jungles west and southward (4 miles 7 furlongs 184½ yards) to the Hny cherra cherry and along it down stream to meet the *Rejoo river* to the south of the village of Dariadiggy.

Along the Rejoo river down stream to the Mugmara jhiri; thence up it by its tcha jhiri. Then by a line cut across hills southward (3 furlongs 133 yards) to the Tarabonea cherra tcha, so to the Tarabonea cherra; here an earthen mound has been erected. Thence southward by the Tarabonea cherra to the Paglicherry; here another earthen mound has been erected. Thence along the Paglicherry down stream south-westward to the Jamirtolea cherra, and by it up north and south-eastward to the foot of a hill. Thence southward by a line cut across the hill (2 furlongs 97 yards) to the Keokia cherra, southern Docherry; down that to the northern Docherry. Thence to the Keokia cherra, and along it east and south-eastward, forming northern boundary of the village of Bhalukea Palong, to its southern Docherry, and up that to its source. Then crossing by the Shooknacherry to the Haldia or Thimcherry, up which to its tcha, and up that to a swamp; across which (1 furlong 208 yards) to the foot of the hills. Thence by a line across the hills (79½ yards) to another dhepa (swamp). Thence southward (after ¼th of a mile) to the Hatratoli cherra Then by the Hatratoli cherra up stream south to the source of its tcha; then crossing by the Hijlea cherra tcha southward to the Hijlea cherra, and along it upward to the source of another tcha opposite.

The line then runs eastward across hills (60 yards) to a tcha, and so to the Chota Rejoo Docherry, and south-eastward to the southern bank of the *Rejoo river*; here an earthen mound has been erected; south-eastward down stream to the Gamaikhally *alias* Goondomcherra tcha. Thence along the boundary of mouzah Dorgabil to the Goondom cherra, and down it southward to the Matundi cherra, and by this to meet the *Ookhia Ghât Road*, where a jâm-tree has been marked and an earthen mound erected. The line thence follows the road southwards, crossing the Ookhia cherra tcha twice, to another marked tree, where also an earthen mound has been erected. Thence by a line cut across jungle and low hills south-eastward (2 furlongs 196 yards) past the corner of Ookhia ghât tank, to the Januracherry, crossing it southward; again re-crossing it (2 furlongs 14½ yards) further on; thence further

south and south-westward (2 furlongs and 89 yards) to meet the Ookhia cherra at the mouth of the Januracherry. Thence down the Ookhia cherra to the mouth of the Ookhia Goon Doong, on the frontier of Arracan.

Explanatory glossary –

"Cherra"	...	...	A hill stream.
"Do cherra"	...	...	One of two branches combining to form a "cherra."
"Toha	...	.	A streamlet tributary to a "cherra."
"Jhira"	...	...	A swampy streamlet
"Dhala"	..		A pass through hills.

Note—The word "crossing" used above, means "crossing" the ridge or watershed between two streams.

NOTIFICATION.

Under Section 25 of the Chota Nagpore Tenures Act, II (B.C.) of 1869.

The 24th August 1880.—It is hereby notified that the registers of Bhuinhari and other tenures in the villages belonging to the marginally named pergunnahs of the Chota Nagpore Estate, Lohardugga district, prepared under the provisions of section 5 of Act II (B.C.) of 1869, having been finally revised and corrected in accordance with the decisions and orders of the Special Commissioner and the Commissioner of the Division under the aforesaid Act, have been confirmed by the Commissioner of the Division on the 13th August 1880.

Pergunnah	Bosia	...	17 villages.
,,	Doesa	...	14 ,,
,,	Aidha		2 ,,
,,	Aringa	...	4 ,,
,,	Panari	...	10 ,,
,,	Korame	...	20 ,,
,,	Khukra	...	30

2. It is further declared, agreeably to the provisions of section 26 of the aforesaid Act, that the confirmation of the Commissioner of the Division notified above having thus been published, the registers shall be conclusive evidence of all matters recorded therein; and from and after this publication of the confirmation of the register relating to any village, no evidence shall be received that any lands in such village not mentioned in such register are of Bhuinhari or Manjhus tenure.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 28th August 1880.—The Lieutenant-Governor is pleased, under the provisions of section 4, Act VII (B.C.) of 1873, to sanction the following rule in modification of Rule 89 of the rules framed under the said Act:—

Exclusive of hospital space, gangways, ventilating hatches, space for crew and attendants, and—on boats—for rowing and baling out, properly sheltered deck space shall be provided on board steamers, flats, and boats at the rate of 10 superficial feet to each statute adult during the months of November, December, and January, and of 12 superficial feet for the rest of the year. Every infant also shall be allowed deck space in proportion of one-half of that which is prescribed for a statute adult.

The Lieutenant-Governor is also pleased, under the provisions of the above-named section, to sanction the cancellation of Rules 58 and 66 of the rules above referred to.

A MACKENZIE,
Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 6th September 1880.

No. 157.—*Leave of Absence.*—Mr. W. B. Christie, Executive Engineer, Third Grade, Darjeeling Division, is allowed privilege leave for 21 days, under Section 44 of the Civil Leave Code.

No. 158.—*Appointment.*—Mr. J. A. Campbell, Executive Engineer, Fourth Grade (temporary rank), is appointed to officiate as Executive Engineer of the Darjeeling Division, during the absence, on privilege leave, of Mr. W. B. Christie or until further orders.

The 7th September 1880.

No. 159.—*Notification.*—The following notification of the Government of India, Public Works Department, is re-published for information :—

No. 293, *dated 3rd September* 1880.—The following rules have received the approval of the Secretary of State, and are published for general information :—

I.—The following rule of the Civil Pension Code is made applicable to officers of Royal Engineers serving in the Public Works Department.

Section 65, *Rule* 6.—After the age of 55 years, no military or naval officer shall be appointed to a new office in civil employment, or shall be permitted to retain any such office which he has held for five years and upwards, except in special cases, which are to be referred for the decision of the Secretary of State.

II.—Officers of Royal Engineers, who have attained, or hereafter may attain, the rank of General Officers, must vacate their appointments in the Public Works Department; but they will be eligible for reappointment as Chief Engineers, Class I, or in posts carrying that rank. This rule will be brought into force two years from the present date.

III.—No Chief Engineer of the Corps of Royal Engineers shall, without reappointment, hold the same post for more than five years. This rule, in the case of officers who, on their appointment to that rank, received notice of the probable issue of this order, will take effect from the date they joined their present posts. In other cases the rule will take effect from the date of these orders.

IV.—The foregoing rules are applicable to officers of Royal Engineers who hold the post of Secretary, or of Deputy Secretary, to the Government of India, in the Public Works Department.

Benares „	2,350
Total ...	4,700

Of the 2,350 chests of Benares Opium 271 are of a consistence of 75°. The usual consistence of Benares Opium is 70°. These 271 chests are numbered 17176 to 17446, and are marked with a red × on each end.

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 2nd December 1879, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

* This date has been changed from the 4th October 1880, as fixed in the general notification dated 2nd December 1879, on a presentation from the merchants.

3. The latest date for deposit will be the 5th October 1880, and the latest date for clearance will, owing to the intervention of the Doorga Pooja holidays, be the 21st October 1880—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 5th October 1880, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 21st October 1880.

4. The following table shows the quantity of Opium that will be brought to sale in the next twelve months. The Board of Revenue, however, reserve to themselves the right of altering dates should circumstances render it expedient to do so:—

By order of the Board of Revenue, L. P.,

A. FORBES, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, *the 20th July* 1880.

NOTICE.

THE Custom House will be closed on account of the Doorgah Poojah holidays from the 10th to the 13th October, both days inclusive, and from the 16th to the 18th October, both days inclusive.

The office will be open *as usual* for the transaction of business on the 8th, 9th, 14th, 15th and 19th October.

Cash payments will not be received after 3 P.M. on Thursday, 7th October, until Wednesday, 20th October.

Consignees and others desirous of passing goods, and entering or clearing ships during the above periods, will have to make the usual deposits not later than noon on the 7th October.

J. SCOBELL ARMSTRONG,
Officiating Collector of Customs.

CALCUTTA CUSTOM HOUSE, *the 4th September* 1880.

NOTIFICATION.

NOTICE is hereby given that in the case of vessels proceeding to the ports or places specified below—

One of the following documents will be required by the Collector of Customs from the Master, under section 63, clause (*b*), Act VIII of 1878, before port-clearance is granted.

In the case of vessels carrying native passengers—

(1) A certificate from the Protector of Emigrants in the form prescribed under Government order No. 1730, dated 8th July 1846.

In the case of vessels carrying no native passengers—

(2) A certificate from the Master of the vessel that he neither has, or will take on board any such passengers.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government to the undermentioned plots of relinquished railway C class lands situate in the district of Beerbhoom will be put up to sale at the Beerbhoom Collectorate on Tuesday, the 28th September 1880, corresponding with 13th Assin 1287 B.S.

The purchasers will be subject to the following conditions of sale:—

1st.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

2nd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

3rd.—The estate will be sold revenue free to the highest bidder above the upset price.

4th.—The purchaser shall not make any excavation on the land within 15 feet from the railway fencing.

Notification.

UNDER the provisions of the notification of 16th August 1880, in which persons desirous of transporting any forest produce through the Sunderbuns forests are required to take out a pass at one of the forest toll stations, paying such fees as may be fixed by the Conservator of Forests; it is hereby notified that the fees payable for such passes will, from the 1st September 1880, be the following:—

For Sundri timber, 2 pie per maund.
For all other forest produce, half pie per maund.

J. S. GAMBLE,
Offg. Conservator of Forests, Bengal.

Darjeeling, the 30th August 1880.

Forest Department, Bengal.
Sunderbuns Division.
NOTICE.

TWO pieces of teak timber are now lying at the Government Timber Depôt of Khulna. Any persons having claim upon the same are requested to come forward and prove their claims within two months from this date to the officer in charge of the depôt or at the office of the undersigned, and after paying salvage, &c., upon the logs, to remove the timber.

No claims will be admitted after two months from this date, when the timber will be sold for the benefit of Government.

G. W. STRETTELL, Deputy Conservator of Forests, Sunderbuns Division.

No. 3, Hungerford Street, dated Calcutta, the 20th July 1880. (216—8)

Forest Department, Bengal.
Sunderbuns Division.
NOTICE.

ONE piece of teak timber is now lying at the Government Timber Depôt of Bhudder. Any persons having claim upon the same are requested to come forward and prove their claims within two months from this date to the officer in charge of the depôt or at the office of the undersigned, and after paying salvage, &c., upon the log, to remove the timber.

No claims will be admitted after two months from this date, when the timber will be sold for the benefit of Government.

G. W. STRETTELL, Deputy Conservator of Forests, Sunderbuns Division.

No. 3, Hungerford Street, Calcutta, the 23rd August 1880. (285—8)

Notice.
Oudh Forest Department.
BYRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHUND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet, at „ 2 „

The above prices are for ordinary building purposes.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, Oudh Circle,
KANHIYA LAL, in charge Byramghat Depôt.

The 22nd May 1879.

Port Commissioner's Office.
DEBENTURE LOAN.

The Calcutta Port Improvement Act 1870, *Act V (B.C.) of* 1870, *and the Calcutta Port Improvement Act Amendment Act*, 1880, *Act IV (B.C.) of* 1880. *Issue of Rs.* 5,00,000, 4½ *per cent. debentures, having a currency of thirty years.*

TENDERS are invited for five lakhs of rupees in 4½ per cent. debentures to be issued under the provisions of sections 9, 10, and 12 of Act IV of 1880 to provide for the cost of works sanctioned by His Honor the Lieutenant-Governor of Bengal, which loan, and the interest thereon, will be a charge on the property of the Commissioners.

The debentures will be for sums of Rs. 100 each, or multiples of Rs. 100, as may be desired, made payable to order, and carrying interest at the rate of 4½ per cent. per annum, payable half-yearly, on the 1st day of January and 1st day of July, at the office of the Port Commissioners upon presentation of the debentures. Two per cent. of the amount tendered for to be paid on application, and the balance on the 1st day of October 1880, from which date interest will run.

The deposit of two per cent. will be returned if an allotment is not made, and it will be forfeited if an allotment, after being made, is not fully taken up.

In case a less number of debentures is allotted than is applied for, the excess of the deposit will be applied in, or towards payment of, the balance due upon such number as may be allotted.

Tenders in the annexed form should be filled up and sent to the Secretary to the Port Commissioners before 3 o'clock P.M. of Friday, the seventeenth day of September, accompanied by a receipt from the Bank of Bengal for a deposit of 2 per cent. upon the amount of each debenture applied for. The tenders will be opened in the presence of the Port Commissioners.

The minimum rate at which tenders will be accepted will be recorded under the signature of the Chairman, and before the tenders are opened, but will not be made public unless some tender is rejected, only because it is below the recorded minimum.

Forms of tenders can be obtained on application to the Secretary to the Port Commissioners, and the form of debentures can be seen at the office of the Secretary.

G. H. SIMMONS,
Secretary to the Port Commissioners.

The 27th August 1880.

FORM OF TENDER.

PORT TRUST 4½ PER CENT. LOAN OF 1880.

To—The Secretary, Port Commissioners.

I BEG to apply for debentures of Rs. each of the above issue in the terms of the advertisement issued by you, dated August 27th, 1880, and I send herewith a receipt from the Bank of Bengal for Rs. being 2 per cent. deposit per debenture, and I undertake to accept the same or any less number the Commissioners may allot to me, and to make the full payment in respect thereof to the Bank of Bengal on or before the 1st day of October 1880.

Yours, &c.,

(306—3)

For Sale.

E. C. GEORGE, Presy. Postmaster, Calcutta.
General Post Office, Calcutta, the 6th September 1880.

AN exchange of money orders between India and Ceylon has been arranged with effect from the 1st October 1880.

2. The conditions* applicable to Indian inland money orders will apply also to Ceylon money orders.

*(1.) The value of a money order may not exceed Rs. 100, and may not include the fraction of an anna.
(2.) The same remitter will not be allowed to obtain in one day money orders for a sum exceeding Rs. 500 in the aggregate drawn on the same office or payable to the same person.
(3.) The commission charged on the issue of money orders will be as follows:—

	Annas.
On sums not exceeding Rs. 10 ...	2
On sums exceeding Rs. 10 but not exceeding Rs. 25	4
For every additional Rs. 25 or fraction thereof, up to the limit of Rs. 100	4

3. But the remitter, instead of getting an acknowledgment signed by the payee, as in the case of inland money orders, will get one signed by the Post-master of Madras.

FRED. R. HOGG, Offg. Director-General of the Post Office of India.
Simla, the 2nd September 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 14th September 1880.—It is hereby notified for general information that the next half-yearly departmental examination of Assistants and Deputy Magistrates in the Regulation and Non-regulation Districts, and of officers in the Police, Medical, and Opium Departments, will begin on Monday, the 1st November 1880.

HORACE A. COCKERELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 11th September 1880.—Under the power vested in him by section 54, Act V (B.C.) of 1866, an Act to make better provision for the regulation of hackney carriages and palankeens in the town and suburbs of Calcutta, the Lieutenant-Governor extends hereby, with effect from the 1st October 1880, the provisions of the said Act to the Kishnaghur Municipality, and the roads from Kishnaghur to Buggoola, and from Kishnaghur to Santipore up to the limits of the Santipore Municipality.

2. Under section 2 of the Act it is further notified that Baboo Shosi Bhusan Sen, road overseer, shall be the registering officer under the Act within the limits specified above, and every act, matter, or thing done by him under the Act shall be subject to the order, disposition, and control of the Vice-Chairman of the Kishnaghur Municipality for the time being.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 11th September 1880.—Under the power vested in him by section 54, Act V (B.C.) of 1866, an Act to make better provision for the regulation of hackney carriages and palankeens in the town and suburbs of Calcutta, the Lieutenant-Governor extends hereby, with effect from the 1st October 1880, the provisions of the said Act to the Santipore Municipality in the district of Nuddea, and to the road from Ranaghat to Santipore.

2. Under section 2 of the Act it is further notified that the Vice-Chairman of the Santipore Municipality, for the time being, shall be the registering officer under the Act within the limits specified above, and every act, matter, or thing done by him under the Act shall be subject to the order, disposition, and control of the Sub-divisional Officer of Ranaghat for the time being.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 11th September 1880.—Under the power vested in him by section 54, Act V (B.C.) of 1866, an Act to make better provision for the regulation of hackney carriages and palankeens in the town and suburbs of Calcutta, the Lieutenant-Governor extends hereby, with effect from the 1st October 1880, the provisions of that Act to the Ranaghat Municipality in the district of Nuddea.

2. Under section 2 of the Act it is further notified that the Vice-Chairman of the Ranaghat Municipality, for the time being, shall be the registering officer under the Act within the limits specified above, and every act, matter, or thing done by him under the Act shall be subject to the order, disposition, and control of the Sub-divisional Officer of Ranaghat for the time being.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 8th September 1880.—Under the power vested in him by section I, Act IV (B.C.) of 1873, the Lieutenant-Governor directs that from the 1st October 1880, all births and all deaths occurring within the limits of the town of Bettiah, in the district of Chumparun, shall be registered.

For the purposes of this Act the boundaries of the said town shall be conterminous with those of the Municipality of Bettiah, as defined in the Government notification of the 5th April 1869, published at page 902 of the *Calcutta Gazette* of the 7th idem.

From and after the 1st October 1880 the whole of Act IV (B.C.) of 1873 shall apply to the entire area above defined.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

ROAD CESS NOTIFICATION.

DISTRICT OF SHAHABAD.

The 11th September 1880.—It is notified, under Section 75 of Act X (B C.) of 1871 (the District Road Cess Act), that the Road Cess Committee of the district of Shahabad have, under Section 74 of the Act, determined to levy the cess on lands under that Act for the cess year commencing from the 1st October 1880 at the following rates, being the maximum rates, and the said rates are published accordingly :—

I.—Six pies, or two pice, on every rupee of the annual value of lands under Part II of the Act.

II.—Six pies, or two pice, on every rupee of the annual net profits of mines, &c., under Part III of the Act.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

ROAD CESS NOTIFICATION.

DISTRICT OF CHUMPARUN.

The 11th September 1880.—It is notified, under Section 75 of Act X (B.C.) of 1871 (the District Road Cess Act), that the Road Cess Committee of the district of Chumparun have, under Section 74 of the Act, determined to levy the cess on lands under that Act for the cess year commencing from the 1st October 1880, at the following rates, being the maximum rates, and the said rates are published accordingly :—

I.—Six pies, or two pice, on every rupee of the annual value of lands under Part II of the Act.

II.—Six pies, or two pice, on every rupee of the annual value of immovable property under Part III.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 12th September 1880.—The Lieutenant-Governor is pleased to order that, on and after the 1st October 1880, the following shall be the rates for forest produce in the Sunderbuns Protected Forests in supersession of those published in Rule 1 of the Rules of the 17th August 1880 :—

(1)	On every maund of sundri, pussur, or amoor timber	...	one anna.
(2)	„ „ keora timber ...	...	one-half anna.
(3)	„ „ any other forest produce	...	one-quarter anna.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 12th September 1880.—The Lieutenant-Governor is pleased to notify, under section 75 of the Indian Forest Act (VII of 1878), that on and after the 1st October next, any persons trading in timber or forest produce, or desirous of purchasing and removing forest produce from the reserved and protected forests of the Sunderbuns, may, if they so desire, and in place of having their boats as heretofore measured on every occasion that they enter or leave those forests or pass any of the forest toll-stations, have their boats measured once for all, and such measurement registered by the Deputy Conservator of Forests or his subordinates at any of those toll-stations, viz —

1. Lower Bhola.
2. Upper Bhola.
3. Pussur.
4. Khulna.
5. Bhudder.
6. Shupsah.
7. Koyrah.
8. Cobaduk.
9. Isreepore (Eshamuttee).
10. Bussuntpore.
11. Roymangal.
12. Mutlah.
13. Bogee.
14. Saterbog.
15. Tangarakhal.
16. Samukpatha.

Such registration will hold good for the period of one year, and may be renewed after the expiry of that period.

Any boat the measurement of which is so registered will not be liable to further remeasurement or detention, either within the forests or at the forest toll-stations, provided—

(1) That the boat does not contain any forest produce other than that entered in the permit; and

(2) That the load does not exceed the registered burden, as shewn by the mark on the water-line.

All boats registered will have the maundage and date of measurement painted in letters not less than 4 inches long on both sides of the bow; and amid-ships on either side will be

painted the water-line, or line showing the loaded draft. This last will be indicated by a circle painted in white, intersected by a red line marking the depth to which the boat may be loaded. This line will be fixed at the pleasure of the manjee before measurement is made, and the measurement will be made accordingly.

The fees payable when a boat is registered for the first time shall be according to the following scale :—

						Rs.	A.	P.
Boats not exceeding				50 maunds	...	0	4	0
Above	50	and not exceeding		100	„ ...	0	8	0
„	100	„	„	500	„ ...	0	12	0
„	500	„	„	1,000	„ ...	1	8	0
„	1,000	„	„	2,000	„ ...	2	0	0
„	2,000	„	„	3,000	„ ...	3	0	0
„	3,000	...		...	...	4	0	0

On renewal of the registration after the expiry of twelve months, fees shall be payable at half the rates given in the above scale, provided that application is made for such renewal of registration within two months of the expiry of the said twelve months. After that period the full fees will be payable as for fresh registration.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 3rd September 1880.—It is hereby notified for general information that the Lieutenant-Governor is pleased to transfer thana Gopibullubpore from the jurisdiction of the Midnapore Moonsiffee, to that of the Dantoon Moonsiffee from the 1st October 1880.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

The 4th September 1880.—The following notification is published for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.—MARINE BRANCH.—MILITARY DEPARTMENT.

NOTICE TO MARINERS.—(No. 10.)

BAY OF BENGAL—COROMANDEL COAST—MADRAS.

Changes in the Buoyage of the Port.

WITH reference to Notice to Mariners, No. 27, issued from this Department on the 21st August 1879, it is further notified that, owing to the continual extension of the harbour piers into deep water, and in order to permit of a greater space being available for steamers inside the harbour piers, it has become necessary to remove the large red buoy which hitherto marked the western limit of the anchorage for steamers.

Commanders of steamers are warned by the Marine Authorities at Madras not to anchor between the piers in less than 5½ fathoms at low-water; and that when anchoring in this depth, they will do so on their own responsibility, and with the exercise of care and judgment.

All sailing vessels, excepting dhonies, should anchor in or beyond the 8½-fathom line of soundings, and outside the northern and southern port buoys.

The port buoys are painted red and white vertically, and are anchored in 8 fathoms. These buoys are *danger* buoys, and Commanders of vessels, making or leaving the anchorage are hereby warned *not to pass inshore* of either of them, nor come under 9 fathoms by night.

The northern buoy marks the position which will form the extreme end of the north pier.

Vessels are on no account to venture between the northern buoy and the north pier, nor between the southern buoy and the south pier, as the rubble bases of both piers extend much further seaward than the piers themselves.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.)*,
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, *the 31st August* 1880.

This Notice affects the following :—

BRITISH ADMIRALTY Charts Nos. 71*c* & *d*, 828, 70*a*, and 748*b*.
INDIAN MARINE SURVEY Charts, Nos. 105, 15*b*, and 103*a*.
Taylor's Sailing Directory, Vol. I, page 458.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

[Second Publication.]

NOTIFICATION.

The 3rd September 1880.—Doubts having arisen as to the precise position of the boundary line, described in the Schedule of ACT IV (B C.) of 1863, between the Tracts to which the provisions of Act XXII of 1860 are applicable (known as the Hill Tracts District of Chittagong) and the Regulation District of Chittagong, the officer in charge of Land Settlement Operations in Chittagong was, by Government orders No. 3198T., of the 8th October 1875, empowered to lay down and demarcate the said boundary upon the ground so as to be easily identifiable. The Settlement Officer having, in accordance with those orders, completed the demarcation of the said boundary, has submitted a detailed description thereof, which the Lieutenant-Governor has been pleased to approve and confirm, and directs be notified as follows for general information:—

Detailed description of the boundary line between the districts of Chittagong and the Chittagong Hill Tracts.

FROM the starting point on the south bank of the *Fenny river*, marked by a masonry pillar, forming the north-eastern limit of the village of Ramghur, up the Shonai nulla to a point marked by a masonry pillar. Thence southward by a line cut through jungle and marsh (1 mile 3 furlongs and 185 yards) to a second masonry pillar on the bank of the Lalnoi stream. Thence down the stream in a south-easterly direction for 226 yards. Then by a line across jungle (298 yards) to a third masonry pillar at the foot of a hill.

Thence by a straight line (1¼ mile and 10 yards long) drawn across a wide impassable swamp southward to a fourth masonary pillar. Thence southward by a line (3 miles 1 furlong 118 yards) across hills and jungle, crossing the Mara Roopai cherra thrice to a very small stream called the Chota Shonai to the east of the village of Shonai khil. Then by a line (2 miles 3 furlongs 67 yards long) across low hills and jungle, south and south-eastward, crossing three jhiris to the Baromashia cherra. Along the Baromashia cherra to its junction with its tcha-cherry, where an earthen mound has been erected up the Dhobacherry a short distance; across the hill (420 yards); across the Docherry Dhooliacherry; across another hill (136 yards); across the Kootoocherry.

Thence by a line drawn eastwards (124 yards) crossing a swamp midway to the Kalapania stream, and along this stream all the way to its junction with the *Haldah river*, and down the Haldah; to the Mosholla cherra; up the Mosholla cherra south-eastward to the foot of a hill where an earthen mound has been erected; across the hill southward (3 furlongs 70 yards) to the Shapmara khal. Then along the banks of the Shapmara, crossing it after 836 yards and again after 240½ yards, to its junction with the Shookhiacherry, where an earthen mound has been erected; thence up stream and across a hill to the Khanjan cherra and up its tcha, where also an earthen mound has been erected. Thence down the Khanjan cherra to the Bhatkhola cherra and along this to the *Doloo river*; up the Doloo to the Bhootycherry and along it a short way; then by a line through jungle crossing the Bhootycherry 19 times to the Chota Kumari; by a line (½ mile and 306½ yards) across the hills to the Burra Kumari; along it south-eastward to an earthen mound, whence across hills (449 yards) to the Kalapania tcha-cherra and so south-eastward to the second Kalapania cherra: up this, and across to the source of the Chikoncherry; down that to the Manickcherry tcha, so to the Manickcherry. Thence along the Manickcherry to the *river Droong*, and up the Droong to the Doodiacherry; up the Doodiacherry east and south-eastward to its tcha-cherry; thence south-eastward, crossing hills (235 yards) to the Ruktocherry tcha and Ruktocherry, and along this north-westward, crossing hills. Thence the line follows the eastern boundary of the Fennoca lot No. 19 (called the Ruktocherry lot), crossing the Chota Lelang and Maiz Lelang (crossing the latter at its junction with the Kutubcherry). Thence eastward by and along the Kutub cherra (747 yards) and a foot-path (54 yards) to the foot of a hill where a tree has been marked; then crossing by a line (446½ yards) to the stream again; thence by a line (295 yards); again to the stream; after which along the stream (217 yards) to a gurjon-tree marked. Thence by a straight line (25 yards), again to the stream; along it for 25 yards, thence across hills (295 yards) to the Kutubcherry once more, along it (180 yards), across hills (861 yards); crossing the Bet cherra twice. Thence up the Betcherry (364 yards), and across hills (62 yards), to a stream without name, and down this (113 yards) eastward. Thence by a line 131 yards long across a hill, and so south-eastward by the left bank of the stream again to the Benajuri. Thence up the Benajuri and its Docherry, and thence across (396 yards) to the Docherry again, and up its tcha (72½ yards); thence across hill (223 yards) to the Bagcherry, and down it to the *Surta river*. Up the Surta to the Puttecherry, up that to the Kalicherry, up that to its source; thence, crossing (668½ yards) hills and a hill path, to the Burra Kanal cherra, and down this to the Futtickcherry tcha and Chota Futtickcherry; to the Shilcherry; thence up the Shilcherry and its tcha to its source; thence across (88 yards) to the source of the Ruktocherry tcha, and down it to the Ruktocherry; up the Ruktocherry to a second tcha, and up this to its source; crossing to the source of, and down, another tributary of the Rukto cherra, so southward along it. Then a line across hills (159 yards) to another stream; down this and up its tcha to its source, crossing hills (half mile 538 yards). Thence to the Thandacherry tcha, and along the Thandacherry to the Dabooncherry tcha, and down the Daboon to the Shoobooncherry; up the Shoobooncherry to its tcha, and up it southward. Thence a line (627 yards) to the source of the Pootia cherra, down it southward to the Furreedkhally, and up that to the Hatdhara cherra. Thence up to the Shakhacherry, down it to the Balukhally tcha;—at their junction

an earthen mound has been erected,—so to the Balukhally and up it to the source of its second tcha; thence crossing down the Berootia cherra from its source, and up to the source of its second tcha. Across to the source of the Haitobi cherra tcha; to the Chikon cherra; to the Kaskhally. Up the Kaskhally to the Chikoncherry; and up that to its source in a swamp.

Crossing the swamp down the Ooter Paonacherry to the Dhooliacherry *alias Mara Paonacherry*; down this to the Dakhin Paonacherry tcha, and Dakhin Paonacherry, and up to the Khondiacherry; so to the Shookna Dhepacherry. Up this last stream southward, leaving a great swamp to the right, to the Chota Hullodia, and down to the Burra Hullodia cherra. Up that eastward, and thence across the hills southward (72½ yards) to the Balukhally cherra, and down it to the Raozan stream. Up the Chikoncherry to the Roniacherry, down that southward, crossing the Government road to Rangamattee, to the Bagmara cherra. Thence across hills (228 yards), and, after crossing the Moracherry, to the Chikoncherry; down that to the Shooknacherry; up this some way, then by a line across hills (370 yards), crossing the Moorcherry, to the source of the Jhiri cherra, then across (250½ yards) hills southward to a swamp, which crossing, along the second Shooknacherry to the Bibi Dhala cherra, and along that eastward to the Kaskhally. Up the main Kaskhally cherra, and across a hill (68 yards), down the Pitlibonia cherra to the Shaharkhola cherra, and up this to the source of the Shookna cherra, crossing (43 yards) to the Hitoorolia cherra, and down it to the Bhomoradhala cherra; to the Hatoolea *alias* Kokania cherra; and up the Kokania cherra to a steep hill. Crossing this steep hill, strike the Satikata cherra, follow to the Kiskichea cherra, and up to the source of its tcha; thence crossing the ridge to the Kanal cherra; to the Bhanga cherra, down it to the Futtickcherry; and along this to its source. Crossing the ridge to a jhiri cherra of the Buramye cherra, down the latter eastward to the Hatooatoli cherra. Up the Hatooatoli northward; by a line (253 yards) across flat culturable jungle to a jhiri cherra, where an earthen mound has been erected. Down the jhiri cherra to the Doloo. Down the Doloo eastward to the Songy cherra; up the Songy cherra and along the measured western boundary of mouzah Pomra to the Shilcherry; up the Shilcherry to its source; crossing, down a tcha-cherra to the Chupperpara cherra; up it to a jhiri cherra, and up that, then crossing to tcha-cherra, so to a jhiri cherra, so to another tcha-cherra and along this to its source. Crossing the ridge (47 yards), down the Doloobonia cherra to the Ichakhally, and down it southward to the Pahy cherra. Up the Pahy cherra to the Thandacherry and its tcha; crossing (80 yards); then northward by a tcha-cherra a short distance, then by a line through hills (144¾ yards) north-westward; then down the Bharai Bhiti jhiri to the Shonaicherry; down the Shonaicherry to the Boarlub jhiri, and up that, crossing a road twice, to the Dheongyo cherra.

Up the Dheongyo cherra to its source. Thence, after crossing a ridge 66½ (yards), by the Hemyle cherra to the Natcherry; down it to the Thandacherry and up the Thandacherry to its source. Thence by a line (268 yards) northward to the Boiragee Dhepacherry, down it to the Docherry. Up that a short distance, thence by a line (190½ yards) across hills westward to the Aralea-ghona Footeacherry, down it and up to the source of its jhiri. Then crossing the ridge north-westward (134½ yards) to the Longchoo cherra, and along it northward to a jhiri cherra, leaving this, across hills north-westerly for 288 yards to a tcha-jhiri, and down it to the Hemonto cherra. Northward, by the Hemonto cherra to the Chikon cherra. Up this and across hills (241 yards) to the Arjoin cherra; along it to the Shonaicherry; up the Shonaicherry to the Shilbooka dâk hut; northward, along the western boundary of the village of Thandacherry, to the source of the Margoma cherra. Across hills (201¾ yards) to the Burra Meghacherry; so to the Meghacherry. Thence across hills (389 yards) northwards to the Nanyacherry, down it to the Bhoramcherry; to the Boraitoli cherra, where an earthen mound has been erected. Up the Boraitoli cherra for about half mile. Thence by a line (260 yards) across hills to the stream; then again along the stream to its source. Northward by the Painkharonga *alias* Chikoncherry; eastward down the Chota Doloo to the Burra Doloo; down it south-eastward to the site of an earthen mound; thence northward across hills (about one and a half mile) to the Ichamutty, where a masonry pillar has been erected; then up to the Ichamutty to its junction with the Kawkhally, where another masonry pillar has been erected; thence south-eastward across hills (a little over one and a half mile) to the Ongjye Lengkharongur stream, and down it due southward to the Betcherry; then along the Betcherry eastward, to the Burra Doloo, and its tcha up to its source. Thence by the Rajakhally tcha to the Rajakhally; by a line (262 yards) across hills due eastward; then again along the Rajakhally to its second tcha, along it southward to the Meghacherry tcha and the Meghacherry. Along the Meghacherry southward to Shooknacherry; along it a short distance to the *Rangamatea road*, where a masonry pillar has been erected. Along the road north-eastward to another masonry pillar, thence by a line over hills (384 yards), to the source of the Gagracherry tcha, so to the Gagracherry; up this to the Mitingacherry; then up it and the Modonacherry to its source, crossing the ridge down the Molsarmar cherra to the Koormai cherra tcha. Along it, leaving the Koroikhally to the right, and its tcha to the left, to the Birbiria cherra; up it southward to the Mridinga cherra; up that to the Koormaicherry; thence up the Koormaicherry southward to the Sootacherry; up that to a Sonkhola. Thence across the hills (260 yards) to the Chikoncherry; along it eastward a short distance. Leaving the Chikoncherry to the left, down the Deotacherry to the Lemobonia cherra, down the Lemobonia to the Kengracherry; up that southward to the source of the Burra Marari tcha, and so to the Burra Marari. Down this to the second Kengracherry, and up to its source. Down the Kalicherry tcha to the Kalicherry, and up it to the Hanoomanya

cherra (also called the Kalicherry tcha); up this to the source of the Docherry tcha and the Docherry. Then along the Docherry, following the boundary of the Agoneah tea garden to the old Government road, where a masonry pillar has been erected.

Following the Government road southward to the Agoneacherry, then down stream. Leaving the cherra to the right, by a line across hills in a southward direction to the source of the Kookhyacherry; down it southward to the Peknacherry. Along the Peknacherry eastward to the source of its Docherry. Thence down the Charamonicherry to the Bynecherry; down the Bynecherry and up the jhiri cherra to its source; down the tcha-cherry to the Baroghonia cherra; down the Baroghonia to the Depultolicherry, and to its source, where a masonry pillar has been erected. Thence down stream to the Tripoorasoondery, and along it to its mouth, on the north bank of the Kurnafooly, where also a masonry pillar has been erected. From the mouth of the Tripoorasoondery, falling into the *Kurnafooly* a little below Chunderghona police-station; crossing the river south-westward, to the mouth of the Raikhally on the south bank; up the Raikhally southward to a stream draining Karomoollah's khola, up this stream; across the Government road to Bunderban; thence by a line through hills and jungles south-westward (one mile and 553 yards) to meet the Bunderban road. Then by a line cut across hills southward (559 yards); again meeting the Government road, and following it south-eastward to the edge of a swamp; crossing the swamp, follow the Kontamara cherra westward to the Kechookhola jhiri; up the jhiri and across a hill (114 yards) to the Kodala cherra; southward to its Docherry, and up along this. Thence by a line (one mile and 383 yards) across hills west and southward to the Chikon cherra, so to the Day cherra, then again by a line half a mile and seven yards south-westward, across hills, swamps, and low jungle, to meet and follow a foot-path forming, for about three miles, the eastern boundary of the village of Puddua (Kismuts Hurry Hur and Shurashia), so to the Dholiacherry. Down the stream draining Bakerali's khola, southward to the Foy Dhepa cherra; down which to the Jhumka; up the Jhumka eastward, to the source of the Gojalia; crossing to the Dhepacherry, so to the Shilok, and along it south-eastward to the "Magher gurjon khola jhiri;" up this west and southward to the Jogkhally cherra, then crossing the Government road, up the Kay cherra south and south-westward; across; down the Momfroo cherra tcha to the Momfroo cherra, and along it southward to the *Chemy* or *Seermye*, a large tributary of the Sangoo; thence along the course of the Chemy southward to the *Sangoo river*; thence by the left bank of the Sangoo south-eastward and across to the mouth of the Raicha. From the south bank of the Sangoo, up the Raicha to the Shonaicherry; up the Shonaicherry to the foot of a hill; thence by a line (one-fourth of a mile) south-westward across hills to the Shooblong Shonaicherry, and along it to the Shooblong; following the Shooblong to the Keta Chioni cherra; thence up the Keta Chioni cherra southward a short distance; thence by a line across hills (181½ yards); down the Docherry to the Roodrakhio cherra, and down it to the Namonda cherra; thence along the Namonda cherra south-eastward to the Lal jhiri, and up it southward; across a hill by a line (72½ yards) south-westward; down the Kalachia jhiri to the Ookhia cherra, and down that to the Ooloobania cherra, along this to its source; then by a line across hills (297 yards) eastward; down the Bara jhiri to the Chama Boorul, and along it south-westward to the Chingcherry; up stream to the foot of a hill, crossing by a line 78½ yards long; down the Mittabonea jhiri due southward to the Lona cherra. Up the Lona cherra and its tcha eastward; crossing hills (94½ yards) down the Mittacherry tcha to the Mittacherry; and down it to the Northern Hangar.

Down the Northern Hangar about one mile to a small jhiri across hills, down the Chadder cherra to the *Charomba*, and down it again to the Northern Hangar, which is followed to its junction with the Dukhin Hangar. Up this to follow the north and eastern boundary of mouzah Charomba, and leaving the Chingcherra jhiri and Ichapur jhiri to the left, after about three miles to reach and follow a jhiri for a short distance eastward; across hills (44 yards) to another jhiri; down the jhiri to the Bagmara, up this and its tcha jhiri; and eastward across hills (196½ yards to a third jhiri; down this to the Dholiacherry.

Up the Dholiacherry a short distance eastward; then by a jhiri to the foot of a hill thence by a line (112 yards) across hills southward to another jhiri. Down it to the Jungcherry. Up the Jungcherry to the Khida cherra; crossing by a line (262 yards) to the Shilcherry. Down the Shilcherry to the Kamaria cherra, and down it southward to the *Tak stream*. Then up the Tak or Tonkbotty to the Foolgazy cherra, and up to its source; crossing (268 yards); by the Chota Dholiacherry south-westward to the Dholiacherry; up the Dholiacherry about one and a half miles to a jhiri; crossing (112 yards); to another jhiri eastward; thence southward across hills (271 yards), down another Dholiacherry; to a jhiri; crossing a hill (52 yards); down a jhiri to the Sharoi khall. Up the Sharoi khall eastward to another jhiri, then up it; across a hill; along the Kallaqa cherra; up stream to a jhiri and up to its source; then across hills (90 yards), along the Goda Joomia cherra; across a hill; down the Sharoi khall westward, to the Nyecha jhiri and up it; across hills due southward; down the Abdoolla Pyar jhiri to the Poolong cherra; and up it and its Docherry to a jhiri. Up this jhiri and then by a line (140 yards) across hills, then down the Chingcherry to a jhiri, and up it to its source; crossing hills (210 yards); down a jhiri to the Polcherra, and down it and up the Garania Nashi jhiri to its source, where an earthen mound has been erected. Then down a jhiri to the Himcherry, along the Himcherry eastward to another jhiri, and up it to the foot of a hill. Crossing the hill (106 yards); down a tcha-cherra to the Chikon cherra, and down it to the Andari cherra, down the Andari cherra westward to the Doloo cherra, and up it to the Saliong cherra, and up this and a jhiri; crossing

hills (118 yards); down the Bodoma jhiri to the Feranga, and up the Feranga about three miles; then northward by a jhiri, and across hills (428 yards) to the Dholiacherry, down it to the Ramcherry, down it to the Chemicherry, and down it about two miles; then up the Sadaroshacherry to its source; crossing westward (153 yards), down the Nakata cherra to the Chanda cherra, down it and up a jhiri to its source; across hills (236 yards), and down a jhiri to the Satgur. Down the Satgur to the Docherry, up it to its source; crossing the ridge (168 yards); down the Himcherry Docherry to the Himcherry, and up the Himcherry; crossing hills, follow the Government road through Choonatee dhala for a little over half a mile; then eastward by a jhiri to the Harbang khall. Along the opposite jhiri a very short distance, then up the Futtickcherry and its tcha to its source; across hills southward (152 yards); down the Doliacherry and up a jhiri; crossing hills (117 yards); down the Loha jhiri to the Katoli cherra; along the Katoli cherra; southward, and a short way; thence up the Jarooltoli jhiri to its source.

Crossing hills eastward (153 yards), to the Harin Mara jhiri, and down it to the Burra Chikon cherra, up to the Amratoli cherra, to its source. Crossing the ridge (124 yards), due southward; down the Shapmara jhiri to the Chota Chikoncherry; and down it, and up the Chalitatoli cherra to its source; crossing a small hill here (70 yards); up the Jarooltoli jhiri to its source; then by a line across hills 288 yards long to the Footia jhiri cherra. Then along the Footia jhiri cherra south-south-west; thence up a jhiri to the foot of a hill; crossing the hill, a little down the Bhoota Bancha cherra to the Hejakha cherra. Thence down it a short distance, then up a jhiri to the foot of another hill; crossing this hill also, down the Dholiacherry to a jhiri and up it to its source; then by a line over hills (64 yards); then down a jhiri to the Domnakata cherra *alias* Toblacherry; then up a tcha southward to the foot of a small hill. After crossing the hill, up the Dholiacherry southward to another hill. Crossing this hill also (81 yards), down the Kana Pokkhar jhiri to the Pokkhaya jhiri; down it southward to the Shonaicherry; down it to the Hatra jhiri; up the Hatra jhiri to the Mogiar bapar jhiri, to its source. Crossing here (67 yards), down a small jhiri to the Harinakoca cherra; down it to the Ramcherry; up the Ramcherry southward to a jhiri, and up it to the foot of a hill. Crossing this hill, by a jhiri down stream to the Tahir cherra, and down it south-westward to the Himcherry; then up the Himcherry westward about half a mile; then up a jhiri; crossing the ridge; down a jhiri to the Ramkristokata cherra, and down it to another jhiri, up a jhiri eastward; crossing hills (168 yards); down a jhiri to the Dholiacherry and up an opposite jhiri. Again crossing hills (67 yards), down a jhiri to the Bania cherra, down it to the Pacha cherra, and down it to the Rangy cherra. Along the Rangy cherra eastward, and up a jhiri crossing hills (160 yards); to a jhiri, to the Mash Kobiar cherra, and up a jhiri to another hill; crossing this hill (86 yards), along the Ghillatoli cherra up stream, crossing again hill (153½ yards); down a stream called Boorar Polar Khalar cherra to a Docherry, and up it; crossing again (191 yards), down another Docherry southward to the Hatiar cherra, and up it northward; again crossing hills (222 yards); eastward by a jhiri to the Mittacherry, and down it to the Fyetong cherra; then down the Fyetong to the Fadoo cherra. Thence up the Fadoo cherra to a jhiri, down the jhiri to Kharikhyar cherra, up it northward, crossing the hills eastward, down the Doloocherry south-eastward to the Jialcherry; up it southward to the Docherry, and up the Docherry by a jhiri, then by a line across hills (152 yards) and southward by a stream (called Akber's father's Doary); again crossing hills; down the Nuzzer Khola cherra to the Takeer cherra, and down it southward to the Pagly cherra. Up the Pagly cherra to the Himcherry and its jhiri, southward crossing hill (46 yards); up the Chhatacheng cherra; crossing a small hill; down a stream westward to "Bompahar" hill; crossing this hill; along the Mongoocherry jhiri, to another hill; crossing this; along the second Mongoo-cherra jhiri to another hill; crossing this hill also, down the Chak cherra to the *river Matamori*. The line then follows the course of the Matamori up stream, till it reaches the Bomoo; then up the Bomoo a short distance; then up the Keogong cherra eastward to some hills; crossing southward to the Burra Bomoo, along it to the Bomoocherry, following this a short distance, then up the Shapmara jhiri to the source of the Docherry. Crossing (237 yards) down the Kalabonen cherra southward to the Shil jhiri, and down it to the Chitta Halea cherra; up this to hills again. A line across hills south-south-eastward (177 yards); then down the Thayngo cherra to the Chota Feranga; and down that to the Noona cherra; down the Noona cherra to the Burra Feranga; up that to its source, then crossing the ridge to the source of the Burra Bomoo, and along it down stream to the Fadoo. Thence along the Fadoo and up the Khanda, across to the Chioni cherra (north-east of the village of Bomoo); and up the Chioni cherra to Pamsha cherra, at its junction with the Lemoo jhiri tcha, where an earthen mound has been thrown up. Along the Lemoo jhiri tcha southward to the Lemoo jhiri; so to the Chota Bomoo; at the junction of the Lemoo jhiri with the Chota Bomoo, a masonry pillar has been erected. Following the Chota Bomoo a short distance southward, the line reaches the *river Matamori* at the north-east corner of the village of Bilcherry. The line from the Chioni cherra to the Matamori forms the eastern boundary of the village of Bomoo.

From the river Matamori along its east and south bank; thence by a line cut through jungle and hills (1,080 yards) south of the village of Bilcherry, cutting the Jalnikashi cherra and a small tank about half way, reaches the tcha jhiri. Thence along it to the Goda nulla, and down this to meet the *river Matamori* again. Thence follows the course of the Matamori westward to the mouth of the Yangtcha Kheoung, which is followed up stream; then across to the Himcherry, and thence to the Chota Himcherry. The line from the Yangtcha to the Himcherry forms the western boundary of the village of Soorujpore. From the Chota Himcherry up stream to the source of the Chota Himcherry tcha, and across to the

Burra Boalia; along this to its Docherry, and thence across to the Garamcherry, and up to its source; thence along the Goomaicherry up to the source of the Goomaicherry tcha. Thence along the Dolooeherry westward to meet the Matamori again. Here a masonry pillar has been erected. The line from the Chota Himcherry to the mouth of the Dolooeherry forms the southern boundary of the village of Soorujpore. From the masonry pillar at the mouth of the Dolooeherry, along the south bank of the Matamori, to the mouth of the Ghooniacherry. This portion forms the southern boundary of the village of Kakra. Thence up the Ghooniacherry (to the south-east of the village of Ghoonia) to the source of the Bara jhiri. Then, crossing a foot-path leading to hill villages, the line follows the Bichania cherra from its source to the Kumari. Then along the Kumari eastward; thence southward by a line cut through jungles and hills (51 yards) to the Docherry, along it westward to the Pania jhiri; and from the Pania jhiri to the Fashiakhally. (The line from the Kumari to the Fashiakhally forms the northern, eastern, and southern boundary of the village of Oochitar beel.) Thence along the Fashiakhally south and south-eastward to the Hoai Hoary cherra. Thence westward by the boundary of Mr. Neish's land, (a line cut through the jungle and along the foot of the hills for about a mile to the Gooia cherra). Down this stream to a marked tree, then southward by a line cut across hills for half a mile to the Doolahazara stream, and down this to the Ahonsha jhiri. The line from the Fashiakhally to the Ahonsha jhiri forms the eastern and southern boundary of mouzah Ringbhang. Thence along the Ahonsha jhiri bounding the village Boga Chutter on the north to the tcha jhiri; thence to the source of Ahonsha jhiri tcha, and across to the Joommoni cherra tcha, and so to the Joommoni cherra, where an earthen mound has been erected. Along the cherra eastward to its next tcha, and up this to its source. Thence, crossing a hill due southward, by the Burra Chirotia cherra to the Bagacherry, along it to the Burra Bagacherry. Thence across to the Chondontoli jhiri tcha, and so south and south-westward to the Chondontoli cherra; along this south-westwards to the Pagli cherra, and by it to the Magkata jhiri. (The line from the Ahonsha jhiri to Magkata jhiri forms the north and eastern boundary of the village of Bagachutter.) From the Magkata jhiri up stream east and south-eastward to its source; thence by a line cut across hills (214 yards); and thence southward by the Koorooppata cherra, and along it south-westward to the Hargizacherry. Down this westward to the *old Eedgong road* (known as *White's road*). The line from the Magkata jhiri to the Hargoza forms the east and southern boundary of the village of Paglar beel. Where this road meets the Hargoza, an earthen mound has been erected. Thence along White's road eastward and south-eastward, bounding the village of Khoomtakhally on the north, then after crossing the Kamia jhiri thrice, the Ghoomti cherra once, the Khoomtakhally stream once, the Khoomtakhally jhiri once, the Pania jhiri once, the Gurjonkhola jhiri once, the Koomirmara jhiri once, and the Koomirmara *alias* Jiolcherry once, the line is carried southward to the Bottolia cherra, and up this east and north-eastward to form the northern boundary of the village of Eedghur; thence following the Bottolia cherra tcha to its source; thence crossing to the source of the Karoitolia cherra, down it southward to the Eedgong stream. (The line from the Bottolia cherra to the Eedgong river forms the eastern boundary of Eedghur.) The line then follows the course of the Eedgong, south and south-westward to its tcha; then eastward up this to its source; then crossing to the Dooliacherry and so to the Dooliacherry tcha; thence across to the Koomarchak jhiri, up to its source, across to the Alli Khiong jhiri tcha, and so to the Alli Khiong. Thence by it up stream, east and south-eastward to the Bhedlirmar jhiri, turning southward by the Docherry to its source; then, across, to the Renour jhiri tcha; and so to the Renour jhiri up to its source, again crossing southward to the Shakar jhiri; thence south-westward to the Chota Gurjonea, and by it south-west, south and south-eastward to its tcha, by which, north-eastward, to the Faree khall. Due southward by the Faree khall to the Burra Gurjonea cherra, and by it north and north-eastward to the Harinkhyea cherra; along it eastward to its tcha; thence south and south-eastward to the source of the Thimcherry jhiri tcha and so to the Thimcherry, turning thence east and north-eastward to the Ramir jhiri, and along it eastward to its source; then crossing southward to the Footea jhiri, and along it south-south-eastward to the Chagolkhyea cherra; thence down stream to the *Bagkhally river*, along the Bagkhally east and south-eastward, to form the southern boundary of the village of Gurjonea, to the Chikoncherry; then by it southward to the Krindomcherry up to its source; then crossing southward to the Cheputcherry, so to the Jarool-Totia cherra, and down it to the Bagkhally Docherry; along this south and south-westward to the Moonur Mariherra or Mama Bhaginar cherra, to its source; thence by a line cut across hills (52 yards) southward to the Burra Jungcherry tcha; down this to the Burra Jungcherry; and along this south and eastward to its tcha; thence crossing to the Sangsi Mourong cherra, so southward to the Chota Jungcherry Docherry, and thence south and south-westward to the Chota Jungcherry; and up it south and south-eastward to Thy Mourong cherra to its source. Then crossing westward by the Jaroolia cherra to the Jungcherry; southward by a line 213½ yards meets the *Gurjonia road* (*White's road*), and follows it south-east and south-westward to the Hyeth Mara cherra; along this south and westward to the foot of a hill. Thence by a line cut across jungles and hills north and north-westward (4 miles 167 yards) to the Golachirra cherra, and along it westward to Nhykongcherry. Then along it up stream, north and north-westward to its tcha, and up this westward to its source; then crossing to the Shoshang cherra tcha and so to Shoshang cherra, and down this northward to the Jahacherry, along which southward to the Noonydoong cherra, to close the eastern boundary of mouzah Monir Jhiel, down the Noonydoong (24 yards) and to its tcha, up this to its source; thence crossing to the Keokea cherra tcha, and so to the Keokea cherra; thence southward to its second tcha; then crossing

southward by the Naplye cherra tcha to Naplye cherra, and along it westward and a little north-westward to the Shonaicherry.

Then by the Shonaicherry north-westward to its junction with the Noonakata cherra, where an earthen mound has been erected. Thence up the Noonakata cherra south-westward to a swamp (dhepa), and by a line cut across this westward and north-eastward to a hill, thence across hills and jungles west and southward (4 miles 7 furlongs 184½ yards) to the Huy cherra cherry and along it down stream to meet the *Rejoo river* to the south of the village of Duriadiggy.

Along the Rejoo river down stream to the Mugmara jhiri; thence up it by its tcha jhiri. Then by a line cut across hills southward (3 furlongs 133 yards) to the Tarabonea cherra tcha, so to the Tarabonea cherra; here an earthen mound has been erected. Thence southward by the Tarabonea cherra to the Paglicherry; here another earthen mound has been erected. Thence along the Paglicherry down stream south-westward to the Jamirtolea cherra, and by it up north and south-eastward to the foot of a hill. Thence southward by a line cut across the hill (2 furlongs 97 yards) to the Keokia cherra, southern Docherry; down that to the northern Docherry. Thence to the Keokia cherra, and along it east and south-eastward, forming northern boundary of the village of Bhalukea Palong, to its southern Docherry, and up that to its source. Then crossing by the Shooknacherry to the Haldia or Thimcherry, up which to its tcha, and up that to a swamp; across which (1 furlong 208 yards) to the foot of the hills. Thence by a line across the hills (79¾ yards) to another dhepa (swamp). Thence southward (after ¼th of a mile) to the Hatratoli cherra Then by the Hatratoli cherra up stream south to the source of its tcha; then crossing by the Hijlea cherra tcha southward to the Hijlea cherra, and along it upward to the source of another tcha opposite.

The line then runs eastward across hills (60 yards) to a tcha, and so to the Chota Rejoo Docherry, and south-eastward to the southern bank of the *Rejoo river*; here an earthen mound has been erected; south-eastward down stream to the Gamaikhally *alias* Goondomcherra tcha. Thence along the boundary of mouzah Durgabil to the Goondom cherra, and down it southward to the Matandi cherra, and by this to meet the *Gokhia Ghât Road*, where a jâm-tree has been marked and an earthen mound erected. The line thence follows the road southwards, crossing the Ookhia cherra tcha twice, to another marked tree, where also an earthen mound has been erected. Thence by a line cut across jungle and low hills south-eastward (2 furlongs 106 yards) past the corner of Ookhia ghât tank, to the Januracherry, crossing it southward; again re-crossing it (2 furlongs 14½ yards) further on; thence further south and south-westward (2 furlongs and 89 yards) to meet the Ookhia cherra at the mouth of the Januracherry. Thence down the Ookhia cherra to the mouth of the Ookhia Goon Doong, on the frontier of Arracan.

Explanatory glossary –

"Cherra"	...	...	A hill stream.
"Do cherra"	...	...	One of two branches combining to form a "cherra.
"Tcha	...	...	A streamlet tributary to a "cherra."
"Jhiri"	...	...	A swampy streamlet
"Dhala"	...	...	A pass through hills.

Note—The word "crossing" used above, means "crossing" the ridge or watershed between two streams.

NOTIFICATION.

Under Section 25 of the Chota Nagpore Tenures Act, II (B.C.) of 1869.

The 24th August 1880.—It is hereby notified that the registers of Bhuinhari and other tenures in the villages belonging to the marginally named pergunnahs of the Chota Nagpore Estate, Lohardugga district, prepared under the provisions of section 5 of Act II (B.C.) of 1869, having been finally revised and corrected in accordance with the decisions and orders of the Special Commissioner and the Commissioner of the Division under the aforesaid Act, have been confirmed by the Commissioner of the Division on the 13th August 1880.

Pergunnah	Basia	...	17 villages.
"	Doesa	...	14 "
"	Ardha	...	2 "
"	Ariagi	...	4 "
"	Panari	...	10 "
"	Kurame	...	20 "
"	Khukra	...	30

2. It is further declared, agreeably to the provisions of section 26 of the aforesaid Act, that the confirmation of the Commissioner of the Division notified above having thus been published, the registers shall be conclusive evidence of all matters recorded therein; and from and after this publication of the confirmation of the register relating to any village, no evidence shall be received that any lands in such village not mentioned in such register are of Bhuinhari or Manjhus tenure.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 28th August 1880.—The Lieutenant-Governor is pleased, under the provisions of section 4, Act VII (B.C.) of 1873, to sanction the following rule in modification of Rule 89 of the rules framed under the said Act:—

Exclusive of hospital space, gangways, ventilating hatches, space for crew and attendants, and—on boats—for rowing and baling out, properly sheltered deck space shall be provided on board steamers, flats, and boats at the rate of 10 superficial feet to each statute adult during the months of November, December, and January, and of 12 superficial feet for the rest of the year. Every infant also shall be allowed deck space in proportion of one-half of that which is prescribed for a statute adult.

The Lieutenant-Governor is also pleased, under the provisions of the above-named section, to sanction the cancellation of Rules 58 and 66 of the rules above referred to.

A MACKENZIE,
Secy. to the Govt. of Bengal.

DECLARATION.

The 9th September 1880.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Patna Municipality for a public purpose, viz. for widening the ghât approaches of the Maroofgunge lane, in the City of Patna, it is hereby declared that for the above purpose a plot of land measuring 45′ × 20′, more or less, situated in mohulla Maroofgunge, thana Malsalami, in the city of Patna, district Patna, is required. It is bounded on the north by the river Ganges; on the south by a public road; on the east by the shop of one Narain; and on the west by the shop of one Dahoo.

The plan of the above plot of land may be inspected in the Pâtna Municipal Office between the hours of 10 A.M. and 4 P.M., any day, Sundays and authorized holidays excepted.

This declaration is made, under the provisions of section 6, Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Offg. Secy. to the Govt. of Bengal.

Burdwan Collectorate, the 30th June 1880. F. WEBB, Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situated in the district of Furreedpore will be put up to sale at Furreedpore Collectorate on the 27th September 1880, corresponding with 12th Asheen 1287, B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1*st.*—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2*nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force: and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd.*—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estates to be again put up to sale at the risk of the defaulting purchasers after issue of advertisement as in the case of original sale.

Patna, 1st Subordinate Judge's Court, the 4th September 1880.

Notification.

UNDER the provisions of the notification of 10th August 1880, in which persons desirous of transporting any forest produce through the Sunderbuns forests are required to take out a pass at one of the forest toll stations, paying such fees as may be fixed by the Conservator of Forests; it is hereby notified that the fees payable for such passes will, from the 1st September 1880, be the following:—

For Suudri timber, 2 pie per maund.
For all other forest produce, half pie per maund.

J. S. GAMBLE,
Offg. Conservator of Forests, Bengal.

Darjeeling, the 30th August 1880.

Forest Department, Bengal.
Sunderbuns Division.
NOTICE.

TWO pieces of teak timber are now lying at the Government Timber Depôt of Khulna Any persons having claim upon the same are requested to come forward and prove their claims within two months from this date to the officer in charge of the depôt or at the office of the undersigned, and after paying salvage, &c., upon the logs, to remove the timber.

No claims will be admitted after two months from this date, when the timber will be sold for the benefit of Government.

G. W. STRETTELL, Deputy Conservator of Forests, Sunderbuns Division.

No. 3, Hungerford Street, dated Calcutta, the 20th July 1880. (210—8)

Forest Department, Bengal.
Sunderbuns Division.
NOTICE.

ONE piece of teak timber is now lying at the Government Timber Depôt of Bhudder. Any persons having claim upon the same are requested to come forward and prove their claims within two months from this date to the officer in charge of the depôt or at the office of the undersigned, and after paying salvage, &c., upon the log, to remove the timber.

No claims will be admitted after two months from this date, when the timber will be sold for the benefit of Government.

G. W. STRETTELL, Deputy Conservator of Forests, Sunderbuns Division.

No. 3, Hungerford Street, Calcutta, the 23rd August 1880. (285—8)

Notice.
Oudh Forest Department.
BYRAMGHAT DEPOT.
ON THE OUDH AND ROHILKHUND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.
22 " " 2-12 "
23 " " 2-14 "
24 " " 3 "

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at " 2-4 "
Under 7 feet. at " 2 "

The above prices are for ordinary building purposes.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, Oudh Circle,
KANHYA LAL, in charge Byramghat Depôt.

The 22nd May 1879.

Port Commissioner's Office.
DEBENTURE LOAN.

The Calcutta Port Improvement Act 1870, *Act V* (*B.C.*) *of* 1870, *and the Calcutta Port Improvement Act Amendment Act*, 1880, *Act IV* (*B.C.*) *of* 1880. *Issue of Rs.* 5,00,000, 4½ *per cent. debentures, having a currency of thirty years.*

TENDERS are invited for five lakhs of rupees in 4½ per cent. debentures to be issued under the provisions of sections 9, 10, and 12 of Act IV of 1880 to provide for the cost of works sanctioned by His Honor the Lieutenant-Governor of Bengal, which loan, and the interest thereon, will be a charge on the property of the Commissioners.

The debentures will be for sums of Rs. 100 each, or multiples of Rs. 100, as may be desired, made payable to order, and carrying interest at the rate of 4½ per cent. per annum, payable half-yearly, on the 1st day of January and 1st day of July, at the office of the Port Commissioners upon presentation of the debentures. Two per cent. of the amount tendered for to be paid on application, and the balance on the 1st day of October 1880, from which date interest will run.

The deposit of two per cent. will be returned if an allotment is not made, and it will be forfeited if an allotment, after being made, is not fully taken up.

In case a less number of debentures is allotted than is applied for, the excess of the deposit will be applied in, or towards payment of, the balance due upon such number as may be allotted.

Tenders in the annexed form should be filled up and sent to the Secretary to the Port Commissioners before 3 o'clock P.M. of Friday the seventeenth day of September, accompanied by a receipt from the Bank of Bengal for a deposit of 2 per cent. upon the amount of each debenture applied for. The tenders will be opened in the presence of the Port Commissioners.

The minimum rate at which tenders will be accepted will be recorded under the signature of the Chairman, and before the tenders are opened, but will not be made public unless some tender is rejected, only because it is below the recorded minimum.

Forms of tenders can be obtained on application to the Secretary to the Port Commissioners, and the form of debentures can be seen at the office of the Secretary.

G. H. SIMMONS,
Secretary to the Port Commissioners.

The 27th August 1880.

FORM OF TENDER.

PORT TRUST 4½ PER CENT. LOAN OF 1880.

To—The Secretary, Port Commissioners.

I BEG to apply for debentures of Rs. each of the above issue in the terms of the advertisement issued by you, dated August 27th, 1880, and I send herewith a receipt from the Bank of Bengal for Rs. being 2 per cent. deposit per debenture, and I undertake to accept the same or any less number the Commissioners may allot to me, and to make the full payment in respect thereof to the Bank of Bengal on or before the 1st day of October 1880.

Yours, &c.,

(306—3)

Notice.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act (VI of 1878), that on or about the 19th June 1880, treasure consisting of one "Rama Varaha" and eleven Voomamahaswara Varahalu (old gold coins), valued in the aggregate at Rs. 54, were found in a ruined wall near a place now resorted to as a latrine in the village of Pagidala, in the Nandikotkur Taluq, Kurnool district, in the Madras Presidency.

2. Any person or persons claiming the said treasure, or any part thereof, are hereby required to appear personally or by agent before the Collector of Kurnool at his office on Monday, the 28th February 1881, in order to the matter being inquired into and determined in accordance with the provisions of the law.

C J. CROSTHWAITE, Acting Collector.

Kurnool, Collector's Office, the 1st September 1880.

Treasure Trove.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act VI of 1878, that on the 2nd August 1880, treasure consisting of pons, valued at Rs. 3,468-0-6, was found in the premises of the bungalow belonging to Thavasi Muthu Nadar of Porayar, in the village of Vallam, Tanjore taluq, Tanjore district, Madras Presidency.

2. All persons claiming the treasure, or any part thereof, are required to appear personally or by agent before the Collector of Tanjore at his office on the 19th January 1881, in order to the matter being enquired into and determined in accordance with the provisions of the Act.

FORSTER WEBSTER, Collector.

TANJORE COLLECTOR'S OFFICE,
Vallam, the 12th August 1880.

Notice to Creditors.

In the goods of DR. WILLIAM HUGH JAMIESON, late a Surgeon-Major in the Army Medical Department of Her Majesty's Service, deceased.

PURSUANT to the Trustees and Mortgagees Powers Act, notice is hereby given that all creditors or other persons having any claims against the estate of the above-named deceased are hereby required to send in writing the particulars of such claim to the undersigned on or before the tenth day of October next after the expiration of which the administrator of such estate will distribute the assets of the said deceased.

Dated this 4th day of September 1880.

(321—2) HARRIS & Co., Attorneys at Law.

TO be peremptorily sold pursuant to a decree of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, made in a certain suit, No. 717 of 1879, (wherein I. N. Mackertich of 11, Old Post Office Street, in the town of Calcutta, is plaintiff, and Roy Lutchmeeput Singh Bahadoor, of Baloochur, in the district of Moorshedabad, Sib Nath Dobay and Luckee Nath Dobay of No. 3, Radha Nath Shaw's Lane, Mooktaram Baboo's Street, Chore Bagan, in the town of Calcutta, aforesaid, are defendants), dated the 8th day of July one thousand eight hundred and eighty, by the Registrar of the said Court, at his sale-room in the Court House on Tuesday, the 28th day of September next, at the hour of 12 o'clock at noon, the following properties, namely—

Lot 1.—All that piece or parcel of tenanted land or ground containing by measurement nine cottahs four chittacks three feet and four inches, and being portion of the premises originally No. 88, afterwards No. 54, and now No. 88-7, Mooktaram Baboo's Street, Chore Bagan, in the town of Calcutta, marked as allotment No. 2 in the plan of the said premises, and situated on the west of the new private lane, and butted and bounded in the manner following, that is to say,—on the north by the allotment marked No. 3 in the said plan of the said premises, and now the stable of Ram Chunder Chatterjee; on the south by Mooktaram Baboo's Street; on the east by the passage described in the said plans as new private lane of Ram Chunder Chatterjee; and on the west by Chore Bagan Lane.

Lot 2.—All that upper-roomed, brick-built messuage, tenement or dwelling-house, together with the piece or parcel of tenanted land on part whereof the same is erected and built, containing by estimation two cottahs, more or less, situate at and being No. 3, formerly No. 53-3, Radha Madhub Shaw's Lane, Mooktaram Baboo's Street, Chore Bagan, in the town of Calcutta, aforesaid and butted and bounded in the manner following, that is to say,—on the north by the tenanted house of Sreemutty Shoshee Mookee Dossee; on the south by the house of Sookooram Shaw, deceased; on the east by Chore Bagan Lane; and on the west by the lane of Radhamadhub Shaha together with their appurtenances.

The abstract of title and conditions of sale may be seen at the office of the said Registrar or at the office of Messrs. Roberts, Morgan and Company, No. 1, Hastings' Street, Calcutta, on any day before the sale and will be produced at the sale.

R. BELCHAMBERS, Registrar.

ROBERTS, MORGAN & Co., Plaintiff's Attorneys.

Calcutta, High Court, O. O. C. Jurisdiction, the 24th August 1880. (307—1)

Notification.

TO be peremptorily sold by the Registrar of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, in his sale-room in the Court-house, on Saturday, the 25th day of September next, at the hour of 12 o'clock at noon, pursuant to a decree of the said Court, made in suit No. 156 of 1876 (wherein Sreemutty Nocoormoney Dossee is plaintiff and Grees Chunder Bhur and others are defendants), the following property of the defendants, namely—

All that undivided 10-16th share of and in the upper-roomed, brick-built messuage, tenement or dwelling-house, No. 38, formerly numbered 27, Sooreeparah Lane, in the town of Calcutta, together with the land thereunto belonging containing by estimation nine cottahs thirteen chittacks and seventeen feet, and bounded on the north by Issur Chundor Sircar's family dwelling-house; on the east by the late Ramtonoo Mookerjee's house and tank; on the south by the Government road and drain; and on the west by the road called Sooreeparah road.

The original mortgage and abstract of the title and the conditions of sale may be seen at the Office of the Registrar of the High Court, Ordinary Original Civil Jurisdiction, and all the documents mentioned in the abstract of title except the mortgage may be seen and inspected at the office of Baboo Joykissen Gangooly, the attorney of Nocoormoney Dossee, at No. 3, Hastings' Street, Calcutta, on any day before the sale and will be produced at the sale.

BERHAMPORE, the 13th September 1880.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published at soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
,, Madras Series ...	,, 8	,, 9
,, Bombay Series...	,, 8	,, 9
,, Allahabad Series	,, 8	,, 9
Complete set	,, 45	,, 50

The Price of each part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

	Rs.	A.
For a part of the Calcutta Series ...	3	8
,, ,, Madras Series ...	1	0
,, ,, Bombay Series ...	1	0
,, ,, Allahabad Series ...	1	0
Complete set ... ... — ...	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

Messrs. Thacker, Spink and Co., Calcutta;
,, Thacker, Vining and Co.;
,, Higginbotham and Co., Madras;
The Government Central Book Depôt, Bombay.
The Government Book Depôt, Allahabad.

Notes on Forestry.

BY C. F. AMERY.

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

Asst. Secy. to the Govt. of Bengal,
Public Works Department.

No. 269, dated Cuttack, the 20th November 1879.

From—F. F. HANDLEY, Esq., Offg., Collector and Chairman, District Road Committee, Cuttack,

To—The Commissioner of the Orissa Division.

I HAVE the honor to forward the annual report of the Road Cess Department, for the year ending 30th September 1879, and also the professional report of the District Engineer in original

2. I have acted as Vice-Chairman during the whole year, and as Chairman since 18th August last.

3. The yearly accounts of receipts and expenditure have been examined and passed by a Sub-Committee consisting of Baboos Badya Nath Pandit and Lakhminarain Roy Chowdhury, and myself as Vice-Chairman or Chairman, who expressed themselves satisfied of the correctness of the accounts, and desire to bring to the notice of the Committee the careful manner in which the accounts are kept and supervised by the Road Cess head clerk (Baboo Gunesh Prashad Singh) and the rest of the collection staff. The Sub-Committee remark an irregularity of the Jajpore Branch Committee in entertaining a sub-overseer without sanction. I have to thank the abovementioned gentlemen for their attendance and patience in so thoroughly examining every detail of the accounts and verifying every voucher.

4. The cess for the year was fixed at the maximum rate at a full meeting held on the 29th August 1879, and approved by Government. The estimated amount was Rs. 54,142 and the actual assessment Rs. 54,449 The collections amounted to Rs. 55,761-0-2. The outstanding balance on 1st October 1878 was Rs. 6,000-3-5. The sum of Rs. 3,773 was carried forward as unrealized on 1st October 1879. The percentage of collection to demand is Rs. 93·6.

5. The above paragraph only accounts for actual Road Cess on lands. The income of the Cuttack Road Cess Committee for the year under review amounted to Rs. 59,841-10-8 the difference being derived from miscellaneous receipts. Details are given in statement No. 6, part II. During the current year an increase in income from rent of lands on sides of roads may be expected; the District Engineer is preparing a statement with accurate measurments of Road Cess lands thus cultivated.

6. No difficulty is encountered in collecting the cess as far as the feelings of the people are concerned, and every consideration is given to their applications for village roads, but the minute sub-division of revenue-free estates gives a certain amount of trouble which will be all removed as soon as the land registration is completed. At present it is difficult to ascertain the names of present holders of the divisions of these estates.

7. Mr. Beadon, the former Collector, in his No. 216, dated 14th October 1878, submitted a proposition for the employment of four tehsildars to help the canoongoes in the collection of Road Cess and to secure a more speedy realization of arrears. The scheme was sanctioned by the Board's No. 214A., dated 26th February 1879, and accordingly four tehsildars were appointed on the 18th June 1879 to realize arrears of cess only, two to the Sudder Sub-Division (of whom one is for Cuttack and the other for the Jagatsinghpore Sub-Division now abolished), one to Jajpore, and one to Kendrapara Sub-Division.

8. The canoongoes shall receive payment of current cess on lakhiraj holdings of less than Rs. 5; but as soon as the time for payment expires, they submit list of defaulters and process is issued from the head-quarters and the arrears collected by these tehsildars. The system has been in operation such a short time that it is impossible to give a decided opinion as to its advantage or disadvantage; but it relieves the canoongoes of much irksome labour and enables those officers to devote their time to their more legitimate duties.

9. Some irregularity was found in the mode of collection by some of the canoongoes, so I thought it advisable to have an inspection of all the canoongoes' books: up to the present the books of eight canoongoes have been inspected, and irregularities and mistakes have been detected and corrected, and orders have been issued to inspect the canoongoes' books half-yearly.

10. A statement (A) is appended showing amount realized by issue of warrant. It is large, but does not prove any objection to the tax or that it is a hardship. The Uriyas are, as a rule, unwilling to pay unless, and until, pressed.

11. The cost of collection establishment for 1878-79 amounts to Rs. 3,517-3, being Rs. 6-3 per cent. on the total collections, but the actual cost is only Rs. 4-6 per cent., as in the Rs. 3,517-3 cost of serving processes is included, Rs. 927-12-7. The amount realized from these was Rs. 1,506-11-5, and the Government circular, No. 2, dated 31st January 1879, contributes Rs. 1,700 as its share of the cost of collection, so that we should deduct Rs. 3,206-11-5 from the Rs. 3,517-3 leaving only Rs. 310-7-7 as the cost of collecting Rs. 55,761-0-2, or ·55 per cent.

12. This percentage is very low but cannot be expected to remain the same during 1879-80; it will probably be 5 per cent. as the budget shows. The amount expected to be realized from process fees is lower, and the cost of establishment rather greater.

13. To pass the budget at a full meeting of the Committee, on 17th July 1878, the attention of the members was called to the large permanent staff of collecting peons; 20 on a salary of Rs. 5 each per mensem, or Rs. 1,200 per annum, and it was resolved that it would be sufficient to keep 12 permanent peons and to employ temporary peons at the time of the half-yearly collections. The system came into operation on the 1st October. It was found that, even when the staff consisted of 20 permanent peons it was necessary to employ temporary hands at the time of the latbandi. Under the new tehsildari system the establishment has been increased from 12 permanent peons, by adding four tehsildars and four peons under them; so that the collection staff is now the same number on higher pay than the original 20 peons whom the Committee reduced It is true that if this system is properly worked it saves the canoongoes some trouble in collecting, and so far leaves them free to perform other duties; but at the same time the necessity for re-appointment of this large collecting staff is not clear, and the matter will be looked into.

14. Having only taken charge near the close of the year, I have personally had few opportunities of seeing the district roads during the year under review. The District Engineer's report herewith forwarded will give all information regarding expenditure on and the state of the roads.

15. The expenditure on works has amounted only to Rs. 34,759-1-5, and the cost of the Engineer's establishment to Rs. 8,782-6-11: the reason of this is explained in the Engineer's report

16. Branch Committees at Jajpore and Kendrapara under the presidency of the Civil Sub-Divisional Officers have had the distribution and expenditure of the grants for village roads for the different thanas in their Sub-Divisions.

17. The Jajpore Branch Committee had Rs. 3,000 placed at their disposal, and expended Rs. 2,795-12-8 in making 36 miles of new roads and keeping the existing village roads in order. The Branch Committee with the names of 18 members on the list only succeeded in once meeting in sufficient number to form a quorum. Five meetings were altogether convened, but four had to be adjourned. The Assistant Collector in his report remarks that "this has been chiefly due to the original appointment of a large number of members who were unable from distance or other causes to attend; those that were able to attend did so and show interest in the progress of works in the Sub-Division. A revised list of members, consisting entirely of gentlemen both able and willing to attend, has been submitted for the approval of Government, and I hope by their appointment all further difficulty on this account will be removed."

18. The Covenanted Deputy Collector of Kendrapara reports the expenditure of the whole of the money put at the disposal of his Branch Committee, viz. Rs. 1,862, except Rs. 28-14-11, which amount was allowed to lapse because one of the members who had undertaken the construction of two village roads did not sufficiently exert himself. Four meetings of this Branch Committee were held with an average attendance of 8·25, more than half the number of members on the list. The names of four members who were either dead or had left the place for good have been removed. The Covenanted Deputy Collector remarks that "the majority of the members evince very lively interest in our proceedings, and zealously put forward the wants and claims of the different quarters which they represent." This Branch Committee divides the year's expenditure into Rs. 1,675-1-3 for original and Rs. 157-15-10 for repair works. The length of roads constructed is not given.

19. The Branch Committees both require a subordinate to carry out their works, as the system, that formerly prevailed but has gradually been discontinued in this district, of granting sums to different members of the Committee and others for the construction of village roads has not been found to work satisfactorily.

20. A scheme revising the present distribution of the engineering establishment is at present under consideration; this will afford each Branch Committee the services of a trained subordinate, who, in addition to attending to the district roads under the District Engineer, will be able to superintend the construction of, and repairs to, village roads. It is somewhat difficult to arrange this without apparent hardship, as some of the subordinates who have been for some time in the Road Cess Department have nothing beyond the merest rule-of-thumb knowledge of their work. Immediate action must, however, be taken.

21. The redistribution of establishment above spoken of is not only necessary for the efficient supervision of the Branch Committees' works, but also to enable the District Engineer to do justice to himself; he has now one man only who can level and survey. The surveying class in the Cuttack College sends out pupils for whom it is my desire to provide employment, to the exclusion of the old style of Public Works darogahs. The Cuttack College students have not sufficient experience to be at once placed in charge of Sub-Divisions, but if willing to work on small pay as mohurirs, should in time prove efficient subordinates.

22. For the current year the District Engineer was directed to prepare detailed estimates for all works that he considered necessary; he did so and laid before the Committee on the 31st July 1879, estimates for original works, amounting to Rs. 43,904-8, and for repairs to Rs. 35,668-11, the total being Rs. 79,568-3 which far exceeded our probable income. This was done to enable the Committee to choose between alternative plans.

23. It was decided to grant Rs. 36,038 8 for repairs, Rs. 25,367-8 for original works, Rs. 8,907 for District Engineer's establishment, Rs. 350 for purchase of tools and drawing materials, Rs. 359-12 only being kept in reserve, and Rs. 71,022-12 being the amount estimated as being at the Committee's disposal for works. Copy of budget estimate for 1879-80 is annexed.

24. Repair works have been undertaken in preference to original, although some of the original works estimated for and not sanctioned were of undoubted importance, notably the reconstruction of the part of the Chandbali road between Aul and Gunja.

25. Of the four really important original works, namely—

(1) the reconstruction of part of Chandbali road between Aul and Gunja;
(2) the reconstruction of the road between Jajpore and Kuakhia;
(3) the road from Ersama to Taldanda;
(4) the expenditure on deepening the Hansua and other creeks, the grant for which was handed over to the Irrigation Department.

This last No. 4 grant was never expended. It has lapsed to this year's budget and has been utilized to deepen and open out the Toyla jore between Chandbali and Gunja which will shorten and improve the navigation between Chandbali and Cuttack. No explanation has been received from the Irrigation Department of their failure to avail themselves of this grant.

As regards No. 1, the Chandbali road, the cause of the failure to carry out that project was the lateness in the submission of detailed estimates. I am not aware of the reason why this road was not included in this year's budget as I was not in charge of the district; but this is a most important project as the District Engineer points out, and an endeavour will be made to reconsider the matter.

As regards the Jajpore and Kuakhia road, it is a most difficult matter to settle satisfactorily. It is quite clear the present line is bad; it runs across the drainage of the country, and nothing that can be done will ever render this road even tolerably secure from breach by floods. This year it was badly flooded and communications altogether obstructed for about four days. It is useless wasting money on the present line of road. A new point of departure higher up the Calcutta road must be sought, and a line running parallel between the Byturni and Boda rivers must be taken. Plans and estimates for the reconstruction of the old road were submitted last year but rejected by the Superintending Engineer on professional grounds that the line of road was irretrievably bad. An endeavour will be made this year to settle upon the proper line for the road, and the District Engineer will be directed in consultation with the Superintending Engineer to arrange the matter and prepare plans and estimates.

As regards No. 3, plans and estimates were prepared last year and submitted to the Executive Engineer of the Mahanuddy Division who disapproved of the line; and since then nothing further has been done. The District Engineer will be directed to take the matter up in earnest and to ascertain from the Executive Engineer of the Mahanuddy Division what line of country does meet with his approval.

26. The rest of the work done in the original works is of an ordinary nature, and the usual repairs are fully described in the District Engineer's report.

27. The District Engineer having himself prepared these estimates, understands wha he has to do, and is confident of being able to expend the whole amount allotted to advantage.

28. The following works have been proposed for the ensuing year:—

1. Pilgrim road extension Jobra to Chauliagunge road. } Completing 2,500 feet in length of metalling to No. 2 bridge, Taldandah canal.
2. Landing place at Chandbali ghât.
3. Laterite metalling 6¼th to 9th miles of the Cuttack and Taldandah road.
4. Filling up a breach on 2nd mile of Jajpore to Kuakhia road.
5. Causeways on 16th, 14th, 9th, 8th, 6th, 4th, and 2nd miles of Bernan to Judpore road.
6. Bridges on 15th, 10th, 6th, 3rd, and 2nd miles of Bernan to Judpore road.
7. Constructing 7th to 11th miles of Pattamundi to Judpore road.
8. Ordinary repair to and construction of the village roads.
9. Ordinary maintenance and repairs of district roads, including bridges and causeways.

29. The District Engineer, Mr. DesGratoulet, was apointed at the commencement of road cess year under review; he had previously served in Orissa, in the Irrigation Branch Public Works Department, as Assistant Engineer, 1st grade. Mr. DesGratoulet has always worked most willingly and zealously. During the year under report, he was obliged to work upon plans and estimates left by his predecessor The Committee have, in a recent meeting, recommended the confirmation of his appointment. This current year the District Engineer has had the preparation of his own estimates, and has, under the instructions of the Chairman, prepared a redistribution scheme of the establishment which will give more efficient supervision of the works at the Sub-Divisions.

3. A statement showing the attendance of the members at the Committees is appended. The Committee at the Sudder Sub-Division are most willing to attend when present in Cuttack, and the members afford valuable aid in auditing the accounts, and offering friendly criticism.

31. A duplicate copy of the annual accounts has been sent to the Examiner of Public Works Accounts.

32. In conclusion, the year under review is not marked by any work of any great importance. It is thought that it will be better for the public and trade and the interests of the district to make a few large important roads each year rather than to fritter away the money in petty concerns, and this is the system on which the Committee intend to conduct future operations.

STATEMENT A.

YEAR.	Demand.	Payment made at once without issue of warrant.	Percentage of collections without issue of warrant.	Balance which was collected after issue of warrant.	Percentage of collections after issue of warrant.	Balance to be collected for which warrant has been issued.	REMARKS.
	Rs.	Rs.		Rs.		Rs.	
1878-79	54,449	46,493	85·2	3,243	5·9	4,773	The balance is attributable to heavy flood and rains since August last. During this time the peons could not travel so quickly as they ought to do, nor could the defaulters pay the arrears without running the risk of attachment of property. However, speedy measures have already been taken for its early recovery.

JOGGO MOHUN ROY,
Deputy Collector, for Chairman.

CUTTACK ROAD CESS OFFICE,
The 20th November 1879.

JOGGO MOHUN ROY,
Deputy Collr., For Chairman.

No. 29, dated Cuttack, the 5th November 1879.

From—L. E DESGRATOULET, Esq., District Engineer,
To—The Collector and Chairman, Road Cess Committee, Cuttack.

I HAVE the honor to submit this annual report of the operations of the Engineering department of the Road Cess Department for the year 1878-79.

2. I reported my arrival on the forenoon of the 2nd October to take up the appointment of District Engineer. The greater part of the month was occupied in taking charge from my predecessor, Mr Serres, who afforded me every assistance. The Doorga Pooja holiday also interrupted work.

3. The budget allotments had already been made, and some of the estimates submitted and sanctioned at the meeting at the close of 1877-78.

4. For repairs Rs. 26,644 were allotted; for original works Rs. 23,300, a total of Rs 49,944 for works But in the course of the year under review, the total amounts allotted were for repairs Rs. 26487-15-11, for original works Rs. 28,401-9-3.

5. The total expenditure has been for repairs Rs. 24,289-1; for original works Rs. 10,470-0-5. I will take each work separately in the order shown in the original budget, and give reasons for exceeding, or not expending the allotted amounts.

6. Although I had previously served in Orissa in the Irrigation Branch, Public Works Department, the greater part of the district was new to me, and it took me some little time to go over the works and frame the required estimates I was unacquainted with the procedure of the Road Cess Department, and, from my predecessor's reports, had very little confidence in the engineering subordinate establishment, so that there was unavoidable delay in starting many of the works.

7. I have now made myself acquainted with all the district and many of the village roads, and understand the requirements of the district.

8. Some changes in the subordinate establishment are desirable; the three Chairmen who have presided over the Committee during the past year have all held this same opinion. I have submitted two reports and a project for the re-distribution of establishment which is under consideration

9. Commencing with original works in the order they are entered in the original budget for the year.

10 The first grant is for village roads, Rs. 4,550. Although a separate grant is made for repairs, in practice it is found impossible to keep them apart: thus to the Rs. 4,550 for original village roads, the grant of Rs. 3,500 for repairs has to be added and accounted for.

11. Of the above amount the Cuttack Committee undertakes the expenditure of the grants for thanas Cuttack, Sulehpore, Tirtote, and Juggutsingpore Rs. 3,250. The Kendrapara Branch Committee administers the grant for thanas Kendrapara, Pattamundi, Rs. 1,800. At the disposal of the Jajpore Branch Committee Rs. 3,000 were placed for thanas Jajpore and Dhurmsalla and Aul.

12. I do not show the amounts granted for each thana, as in the course of the year it was found necessary to add to or take from these as occasion required. This cannot be avoided.

13 Of the amount at the disposal of the Cuttack Sudder Committee for village roads Rs 2,822-9-1, were expended by departmental agency, Rs. 255 were granted to applicants who carried out the works themselves as far as possible. I would recommend that the construction of village roads be entrusted to the District Engineer and his establishment. Amounts handed over to zemindars and other respectable applicants for this purpose are frequently wastefully spent, the persons employed by them taking advantage of their ignorance of measurements. The Civil Sub-Divisional Officer at Jajpore is of the same opinion, but he has had a very intelligent subordinate to carry out these works. At Kendrapara, the money appears to have been made over to the applicants, the town clerk being occasionally employed to check measurements. Mr. Gupta, the Civil Sub-Divisional Officer is not satisfied with this way of working, as he has applied for the services of a trained subordinate. The scheme now under consideration for the re-distribution of the subordinate establishments will give him such a man for occasional employment.

14. The roads made during the year are as follow:—

Thana Cuttack.

	Feet in length.
Chondwar to Trunk Road (with one culvert)	5,570
Tanghy to Bhuggutpore (with three culverts)	9,330
Naraj to Gorecsall	12,000

Thana Sulehpore.

Bowrah to Cheda Hurripore (with three culverts)	3,900
Shumsherpore	900
Dobinda to Ghesoon (with three erartheu shoots)	3,800
Ramkapore to Sooklesur	5,200
Sowree	1,600
Ghurree Jung	4,100

Thana Juggutsingpore.

	Feet in length.
Balia to Gopinathpore (with one concrete shoot)	4,480
Koolsye	600

and the following have been repaired :—

Thana Sulehpore.

Kolia to Kendupatuna	5,100
Poobans to Sookerpara	11,110

Thana Juggutsingpore.

Tahipore with 1-10 feet span timber bridges	... 2,100
Soojunj road, with 4 timber bridges and 1 concrete shoot	... 8 miles in length.

The total amount expended in the above has been Rs. 2,423-0-7.

15. The Tajpore Sub-Committee has expended Rs. 2,795-11-8 of the original allotment of Rs. 3,000, and the roads constructed are as follow :—

	Length in miles.
Katia Hât road	9
Mungulpore ,, ...	2
Namtikri ,, ...	2
Hathsai to Khummon	5
Loop from Khummon road	1
Khummonlo Ponga ,, ...	2
Durpun ,, ...	6
Byri to Kanhpore ,, ...	5½
Chutteea to Byri ,, ...	2½
Markunapore to Swar ,, ...	1

The existing roads were also repaired.

16. The grant to the Kendrapara Sub-Committee of Rs. 1,800 was supplemented by a grant from reserve of Rs. 62, but Rs. 28-14-11 were allowed to lapse. The works constructed are—

	Length in miles.
Gobrahat to Chundole (part of)	4

Arajari to Chundunnuggur and other petty village roads; also repairs to roads from Gogoa to Tombala ; Malbussant to Arua.

17. The allotment of Rs. 500 for planting trees on sides of roads was increased to Rs. 785-13-10 and divided among the different roads. The importance of this branch of the Road Cess work is undoubted, but it will be many years before the whole length of the roads in the district can be planted with trees, and the cost of doing so is in my opinion excessive. The establishment which does not effectually protect the young trees from cattle, or keep the bamboo gabions from white-ants or from being broken and used as fuel by passers-by, notwithstanding frequent fines and dismissals, is very expensive considering the results. I think it would be better to undertake the planting of trees only on parts of the road close to the bungalows and residences of the mohurirs, and in very barren places where shade is badly wanted and it is difficult to persuade trees to grow. For the other parts I would suggest that the villagers be allowed and encouraged to plant trees themselves, the trees to be their own property ; they would of their own accord follow the suggestion of Government that common fruit-bearing shade-affording trees be planted. The only restriction that appears necessary to impose is that the trees be not planted within a certain distance of the toe of slopes. The Chairman and Mr. Gupta recommend the planting of date palms as requiring no care while growing and soon becoming a source of income. During the current year they will be tried.

Since the receipt of the abovementioned Government order regarding the descriptions of trees to be planted on sides of roads, none but those recommended have been planted out, except in the immediate neighbourhood of the Chowliagunge nursery where no expense had to be incurred for carriage, and where we have a very large number of trees that are becoming too large for removal.

No allotment for original works in the Chowliagunge nursery was made, but it appears to me the proper place to notice here that this garden is maintained to supply trees for the roads. It will be noticed under the head of repairs. A report recently called for by the Bengal Government also gave full information regarding it.

18. The next grant on the list is for Rs. 8,000 for *reconstructing the last 9 miles of the Chandbali road.* No estimate was left for this by my predecessor, but having surveyed and levelled this line of road, I submitted an estimate with detailed quantities, survey, and section for Rs. 8,687 which shows that, although Mr. Serres had not actually prepared the estimate, he had fully considered the project and accurately estimated its cost. The papers referring to this work were completed by me on the 14th July 1879, but delays occurred which prevented the work being sanctioned. I much regret this, also that the Committee has not sanctioned this work for the current year. The Chandbali road between Aul and Gunja is in a most disgraceful state ; it cannot be permanently improved ; the only thing is to remove it to the left bank of the Khutsua river, as was, I think, originally intended, and repeatedly recommended. My project provided for this.

I have taken every opportunity of urging the importance of this work and hope yet to see it undertaken.

19. *For reconstructing the road and broken bridges on Kuakhia to Tajpore road.*—Rs. 4,000 granted, Rs. 1,103-11-6 expended; and this leaves the road in the same state. Rs. 1,055 of the above amount is for bricks, which it is well to have in readiness, and Rs. 48-11-6 for survey expenses. A reference to former reports will show the difficulty that exists in preparing a report and estimate that will stand professional scrutiny. The present line of road which has been in existence since 1856 is condemned by all Engineers, but a very large amount has been spent on it, and a line of communication between Tajpore and the Trunk Road must be kept up. The Byturni embankment increased in width to fit it for wheeled traffic from the Kyah nullah at Tajpore to Acquapuda has been suggested as a better line of road, but the question has not been fully considered. As I could not prepare any estimate for this work, I took steps to procure data for doing so during the current year. I examined the line of embankments and found a considerable breach in the Byturni embankment at Kummnaghur, which has since been closed by the Public Works Department, and has stood this year's heavy floods. If this embankment is maintained, I can make my calculations for the waterway required. I have a survey and levels of the whole triangle, viz. the Kuakhia-Tajpore road from the Kyah to the Buda nullah; the left bank of the Buda from where it leaves the Byturni to the road; and the right bank of the Byturni from the Buda to the Kyah. Gauges were put up at the breaches and levels of flood recorded. The plotting of the surveys is not yet completed, the services of Mr. D'Souza, the overseer having been placed at the disposal of the Chairman, Kendrapara Branch Committee, on an urgent requisition.

20. *For a road from Ersemah to Tuldandah road*—Near the Monijunga inspection bungalow and about a mile from the Tirtole outpost. Rs 2,000 were allotted, and Rs. 30-11-6 only expended in surveys. As Mr. MacMillan, the Executive Engineer, Mahanuddy Irrigation Division, to whom the plans and estimates were submitted for professional opinion, did not approve of the line chosen, having gone over part of it with me, other works of greater importance having since been brought forward, it has been left out.

21. *Rs. 250 were sanctioned for the construction of a masonry culvert on the 10th mile of the Taldandah road.*—This was built at a cost of Rs. 330, Rs. 80 having been granted from reserve. It is a brickwork six-feet arch, designed by me. It was barely completed when it was very severely tried and stood well.

22. *Rs. 4,850 for Creeks and Khals.*—This work is undertaken by the officers of the Public Works Department, and, according to Superintending Engineer's No. 2463 of the 15th September last, none of this has been expended.

23. The above are all the works sanctioned at the meeting when the income for the year was apportioned. Other works were sanctioned and carried out.

24. *Jobra to Chowliagunj*—(Pilgrim road). Was made direct from the Doctor's bagh to the corner of the Road Cess garden, a length of 4,350 feet. The surface only required levelling and draining; this is metalled; a double row of trees from the nursery planted, and the sides and drains turfed: it cost Rs. 1,414-0-8. The sanctioned estimate was for Rs. 425. The metalling of this road will be continued during the current year to No. 2 bridge on the Taldandah canal.

25. *Rs. 400 was given for the purchase of tools and plant*—Rs. 399-11-1 expended. On taking charge I found many worn-out tools in the godown, which I was allowed to dispose of by auction and replace by new. With the Nokur Cooly system the Department had to provide tools for the men; this is another disadvantage of that way of working, as petty contractors always provide their men with tools. This amount also covered cost of an office table and 12 chairs for meetings, and paid for some drawing and levelling instruments that were badly wanted.

26. *Rs. 213-12-6*—for completing the road cess and municipal office were granted and expended. The work was done before I took charge.

27. My estimate for a verandah on the west side of the Road Cess office was sanctioned for Rs. 153, of which Rs. 126-10-6 was paid; this was very necessary for the comfort and convenience of the public.

28. The approach to the Road Cess office has been made up and metalled at a cost of Rs. 180-8-6. My estimate, which was passed, was for Rs. 192. We have now a very commodious building with accommodation for the Road Cess and Municipal establishments, and a convenient room for meetings. Trifling annual repairs will in future only be required.

29. The actual survey expenses (Rs. 63-4) incurred in prospecting for a new line of road from Tajpore to Duttpore on the Byturni river have been passed. The work has been plotted and is ready for reference, should funds become available for the construction of this road.

30. A survey for a village road from Tikhri to Burrimool was ordered and executed at a cost of Rs. 65-2. This work has also been plotted and is ready when wanted.

31. The last item under the head of original works is for constructing a timber bridge over the Buri nullah on the Juggutsingpore-Joypore road. The amount sanctioned was Rs. 832-3-3, and paid Rs. 832-3-3. This work was all but completed before I took charge. Although not provided for in the original budget, I had some difficulty in getting the contractor to finish satisfactorily, and my estimate was submitted after the final measurement.

32. *For repairs.*—The first allotment is for the Taldandah road, metalled portion, Rs. 1,000, which was expended except Rs. 2-2-9. I found in taking charge that the road was

in such good order that the sum granted was unnecessarily large, and with the sanction of the Chairman I applied part of the money to extending the metalling by three-fourths of a mile. There have been no complaints of the state of this road until just at the close of the year, although part of it is the highway through the important suburb of Cuttack.

Chauliagunge.—For the unmetalled portion of this road Rs. 2,685 was allotted, and Rs. 2,698-15-2 expended, the greater part of this amount being wages of coolies kept on monthly pay in small gangs to repair the earthwork.

I at first agreed with any predecessor, by whom this system was introduced, that it would work better than the usual petty contract system where the men are paid according to the measurement of their barrow-pits, but have had to change my opinion as so many instances of skulking have come under my immediate notice; and the subordinates are themselves opposed to it as they say that they cannot undertake to get a fair amount of work out of the men.

I have fined very heavily; one gang of nine men in one case submitting to a fine of Rs. 60 and dismissal. With a very zealous subordinate, with a very small charge, the monthly pay system would no doubt succeed; but it is out of the question in a district where the subordinates have such great lengths of road to look after. In the current year's estimates I have reverted to the old system for all roads but two.

A large quantity of sand metalling paid by measurement has also been executed on this road, some parts of which are so heavy after rain that it is almost impossible for a laden cart to travel. But it will take years—sand being spread year by year 6 inches deep—to bring the soil to a proper consistency.

This road is the best in the district, and I think the most important. (Opinion is divided between it and the Chandbali roads). The traffic on it is very great, especially when the Kendrapara canal is closed for annual repairs. It is also the only road that leaves Cuttack without first crossing some river.

For repairs to inspection bungalows (4), Rs. 500 was granted and Rs. 500 expended. This includes the pay of chowkidars—a heavy item. Bungalows are all in excellent repair. For *causeways and bridges* Rs. 500 was the original allotment, but during the year estimates amounting to Rs. 1,103 were sanctioned, and Rs. 1,107-13-8 expended. Most of the bridges being of timber with masonry abutments, constant repairs are necessary. They have all been put in good order. I have used coal-tar very freely, which is the only preventive against damp and white ants. The metalling of the causeways has been thoroughly repaired. Their maintenance would cost much less if they all had masonry drop-walls, which we cannot at present afford. For *maintaining trees* Rs. 150 was the first allotment, subsequently increased to Rs. 250, the whole of which was expended except Rs. 3-8. I have, in the first part of my report, drawn attention to what appears to me the excessive cost of maintaining trees.

33. The second road in the budget is the *Kuakhia-Jajpore* road. Rs. 700 were granted for repairs, which were carried out by Nokur coolies very satisfactorily. This is the only road on which I propose to continue this system for earthwork repairs during the current year. In the first part of this report I draw attention to the difficulty of maintaining this road as an uninterrupted line of communication, although the different parts of it are kept in very fair order. Of the grant of Rs. 700, Rs. 586-12-3 only were expended for repairs to bridges. Rs. 300 were allotted, and Rs. 239-13-11 expended. This includes cost of breaking up some fallen bridges and stacking materials for use when required for causeways. Rs. 1,000 were allotted and Rs. 887-13-5 expended. The whole of the causeways on this road are now in good order, having mortar laid. Drop-walls should not require any but very trifling repairs for some time. For planting trees a sum of Rs. 171-1-6 was granted from reserve late in the season to pay for trees planted by my predecessor's orders, but which were not to be paid for until they had got safely through the hot weather. This amount represents 350 trees of sorts planted on the first mile from Jajpore.

34. *Cuttack to Chandbali road.*—The largest, and perhaps the most important road in the district, although I am inclined to give the first place to the Taldandah road. For ordinary repairs Rs. 4,577 were granted, and increased by Rs. 208 to Rs. 4,785, and nearly the whole expended, Rs. 4,784-0-11. This represents pay of Nokur coolies (they gave more trouble on this than on any of the other roads); a certain quantity of earthwork that it was found expedient to execute on the piece-work system; repairs to laterite metalling on the first three miles, and sand-metalling some of the worst of the clayey parts. For repairing causeways Rs. 700 was granted and Rs. 390-0-7 only expended, the reason being that the petty contractors combined not to do the work at the rates offered, and which, in my opinion, were sufficient. The subordinate in charge is not quite clear of blame for this. For this and other matters I have recommended that he be placed in a less responsible position. For repairs to bridges the grant was Rs. 360 and expenditure Rs. 461-5-6, the whole being on timber bridges, nothing being required on the masonry bridges and culverts on this line of road. Repairing bungalows cost Rs. 68-1-8 in excess of the budget grant of Rs. 600. This includes pay of chowkidars. The bungalows are in very good repair. A mud hut built at Oostea near Chandbali, although only built one year, was in such a rotten state from white ants that it was dismantled and the materials sold by auction. This hut was not necessary, as the Chandbali bungalow is little over a mile distant. For maintaining trees Rs. 70 was the original allotment; the total sanctioned during the year Rs. 370, and expended, Rs. 365. The trees planted on the third, fourth, and fifth miles have been kept in good order and are now looking very well. Eight hundred common trees—mango, jack, and jamun—have been planted on different parts of the road and protected with gabions.

Kendrapara dâk bungalow.—Rupees 116 was granted. It was then a dâk bungalow but is now only an ordinary inspection bungalow, and Rs. 48-8 were disbursed. The allowance for contingencies, Rs. 20, was not required.

35. *Fukirpara to Machgaon road.*—Is in very fair order for 23 miles, viz. from 11th mile, Taldandah road to 34th mile from Cuttack. For repairs Rs. 840 were granted and Rs. 1,005-10-1 spent, the greater part being pay of Nokur coolies, who did not work well, and part for replanking the roadway of the masonry bridge on the 12th mile. Rs. 160 were granted for the Public Works Department inspection bungalow at Juggatsingpore, but the Chairman and Committee did not approve of the arrangement, and the Road Cess furniture was removed,

A supplementary estimate for causeways was sanctioned late in the season for Rs. 455, but only Rs. 339-10 could be spent, the very heavy rain stopping all work.

36. For road from *Sulshpore to Muhanga* Rs. 180 was granted and Rs 179-0-6 expended on earthwork and turfing executed by piece-work.

37. *Kendrapara to Judpore.*—(This is part of the road from Kendrapara to Jajpore, numbered 5 in the last list, but previously estimated for in three parts and numbered 9, 16, 29.) Rs. 400 was given for maintenance and Rs. 349-13-5 expended. It is the best of the secondary roads and in very good order.

38. *Bernan to Judpore road.*—Rs. 400 was granted and Rs. 399-12-9 expended. The importance of this road has, I think, hitherto been overlooked in the current year's budget. I have been granted a much larger sum, and I hope to make it a really good road from Kulamuttea on the Brahmini opposite Judpore to Bernan on the Kuakhia-Jajpore road. It is now a good fair-weather road only.

39. *Jajpore to Syudpore or Bingharpore.*—(Part of roads in last list, see paragragh 37.) The maintenance of this exceeded by Rs. 10-12-7 the grant of Rs. 400. It must be kept up. The present Civil Sub-Divisional Officer at Jajpore considers it of more importance than the Bernan-Judpore road, but it cannot be made really good. It crosses the drainage of the country. It can only be patched up after each year's floods. A second grant of Rs. 100 was made for repairs to timber brldges, of which Rs. 71-4-6 was spent. The road is in anything but good order.

40. *Pattamundi to Judpore.*—The original grant was Rs. 300 only, but Rs. 637 was the amount allowed during the course of the year, of which Rs. 635-13-9 was paid away. This road is now nearly completed throughout, and the present year will, I hope, see it quite finished and passable for carts in all seasons.

41. *Juggutsingpore to Joypore road.*—For this Rs. 180 only were given; further estimates submitted and sanctioned brought the total to Rs. 699; of this Rs. 616-7-8 has been expended. This is one of the roads that will be placed in a higher class during the current year. It is a really good road of great importance, and passable for carts at all seasons. Nine concrete shoots, or syphons, of my own design, have been put in to pass the irrigation and drainage water where required. They must in the long run prove more economical than either earthen pipes or timber shoots, and their first cost is only Rs. 20 for a length of 12 feet. A timber bridge over the Buri nullah on this road was commenced and nearly completed by my predecessor; the approaches to this have been metalled with broken brick and protected by spurs. The Nokur coolie system on this road was a perfect failure, and was early in the season discontinued, the work being done by piece-work.

42. *Binjharpore to Judpore road.*—I am following the order of the original budget, but this road is now included in No. 5 in the last list. Rs. 200 was given and Rs 202-3-10 expended. This is the most unsatisfactory piece of road in the whole district, but it must be maintained, money being every year spent on it without improving it.

43. *Jobra and Chauliagunge road.*—Rs. 200 granted; Rs. 199-3-10 expended in repairing the metalling and maintaining the trees along the sides. The traffic is very heavy, and the road is not in as good order as I could wish. Rs. 20 was given for a concrete shoot on this road to replace a broken brick culvert. Rs. 19 8-9 were expended. The design is the same that I wish to introduce all over the district where shoots or syphons are required.

44. *Sonepore road, first 20 miles of.*—Rs. 2,575 granted. Expended Rs 2,575-3-7. This road has been considerably improved, but until the Bhegua on the 13th mile is bridged, it will remain a broken line of communication. During the year the undergrowth, which on this road is very luxuriant during the rains, was removed; earthwork repaired; laterite metalling spread on the 9th and 10th miles, which, from the stiffness of the soil, became impassable after heavy rain. The whole of the culverts repaired, some being almost entirely renewed. One of 10 feet on the 21st mile is not yet quite finished, but the money is kept in deposit to pay for it. The bungalows were repaired. The Ramchundi bungalow is in good order; the out-offices require further repairs, but the hut at Patpore suffered from the heavy floods. The walls have fallen.

45. *Repairing store godown at Rani Hât.*—Rs. 60 granted. Expended Rs. 59-15-6 for ordinary annual repairs. This is the head-quarters store-house for all tools and plant belonging to the Road Cess Department.

46. *Chauliagunge nursery.*—Rs. 566 granted. Expended Rs. 549 13, principally for pay of malees, the remainder being for repairing mallees' huts, painting gates, purchasing manure, &c. A report showing number of trees now in the nursery, and issued since its establishment was recently submitted by order of the Government of Bengal.

47. *For repairing dâk huts*—Rs. 20 was granted and Rs. 9 only expended.

48. *Annual repairs of jolly and accommodation-boats.*—Original grant Rs. 265; expenditure Rs. 269-14-3. These boats have to be kept up in a district like Cuttack which is

intersected by rivers. Of the above amount Rs. 129-4 is pay of two manjees. The boats are in very good order.

49. *Madhub Phulnakra road*—was retransferred to this district from Pooree by the Commissioner's orders. I reported having taken over charge on the 29th May 1879, and submitted estimates for repairing the first 10 miles which were sanctioned on the 31st July 1879. The full amount granted, Rs. 1,221, has been expended, and the road is passable in all seasons for carts up to Kemtapara.

We claim from the Pooree committee Rs. 1,132-5-10 for the maintenance in former years of the portions of the road that pass through their districts; this claim has not been adjusted, although much correspondence on the subject has been exchanged. The Pooree Committee's last decision as to the future maintenance of this road is that they will repair their own portion. As this road passes across the boundary of each district—it alternates between Cuttack and Pooree—and if the repairs are not carried on simultaneously the public will suffer.

50. The amount sanctioned for the District Engineer's establishment during 1878-79 was Rs. 8,793-14, and Rs. 8,762-6-11 of this were expended. I have employed Mr. D'Souza, the overseer, on surveys and levelling which he has done fairly well. He is the only subordinate who can do this work. From the former reports I have been reluctant to employ him in actual charge of work. My new project of redistribution of establishment will give him an opportunity of showing if he can be depended on. Behari Mahanti, sub-overseer, has had considerable experience on works, but his qualifications do not come up to the professional standard that might be insisted on; he has been in the Department since its establishment, and is hard-working and intelligent.

(* * *) sub-overseer, is quite unfit for his post, is deplorably ignorant, and has to depend on others for working out his quantities. He is, however, hard-working, and, I believe, honest. As a mohurir, with pay more in accordance with his qualifications, I propose to employ him in future.

(* * *) permanent mohurir, in charge of the Chandbali road Sub-Division, is hard-working and fairly intelligent when it suits him; but I have found him obstinate and obstructive, and propose to employ him in future as a mohurir under some better qualified subordinate.

Baboo Guggoobundoo Dass, head clerk and draftsman, has given me every satisfaction; he is willing and understands the routine of the office, besides being a tolerable draftsman.

Baboo Mohendro Nath Palit, accountant-clerk, writes a neat hand, but is somewhat careless and dilatory in the submission of the accounts. I expect an improvement in this man's work during the current year, as I have given him to understand that I am not satisfied with him.

51. Of the men on the temporary establishment none deserve mention.

52. Baboo Gunesh Pershad Sing, head clerk of the Collection Establishment, although not under any orders, has afforded me intelligent assistance willingly.

53. I have to thank the Chairman and Committee for their recommending that my probationary appointment to the District Engineership be made permanent, and I will exert myself to merit a continuance of their confidence.

No. 6—Part I.

Special Note.

A.—The figures shown in this column have been taken from the budget estimate submitted with this office No. 166, dated 16th August 1879, and approved of by the Commissioner in his No. 326C, dated 25th August 1879.

B.—The excess is attributed to the recovery of the arrears of previous year.

C.—The Government share of cost of collection establishment (Rs. 1,700), received after submission of budget and the amount estimated for process-fees was less than the amount actually collected, hence the excess.

D.—Included in engineering establishment is a charge of Rs. 500 being two months' salary of Mr Serres, the former District Engineer. This was sanctioned by the Committee (*vide* paragraph 2 of the Committee's proceedings, dated 16th September 1878, sent to the Commissioner with this office No. 194, dated 19th September 1878, to compensate Mr. Serres for the time taken up in giving over charge and preparing the annual report for 1877-78.

R. H. Pawsey,
Vice-Chairman, for Chairman.

No. 143T., dated Camp Khorda, the 31st December 1879.

From—J. S. ARMSTRONG, Esq., Chairman, Road Cess Committee, Pooree,
To—The Commissioner of the Orissa Division.

I HAVE the honor to forward the report on the administration of the District Road Fund for the cess-year ending 30th September 1879, together with a detailed account in the forms required by the Examiner of the Public Works Accounts, in his No. 647, dated 19th November 1879, of the receipts and expenditure of that fund during the cess-year 1878-79.

2. *The Committee.*—The subjoined table shows the names of members, number of meetings held, and the number of meetings attended by each during the year under report:—

Number.	Names of members.	Number of meetings attended.	Number of meetings from which absented.	Total number of meetings held.	Remarks.
1	J. S. Armstrong, Esq., C.S., Chairman	8	1	9	
2	J. MacMillan, Esq., Executive Engineer, Mahanuddy Division	1	8	9	* Was Vice-Chairman, up to 14th November 1878, when Baboo Kumudnath Mookerjea succeeded.
‡3	Baboo Ram Chand Addy, Vice-Chairman ...	8	1	9	† Have completed their two years' tenure of office.
4	,, Kumudnath Mookerjee, Vice-Chairman ...	9	.....	9	‡ Was reappointed under Government No. 2046A, dated 25th March 1879, received with Commissioner's No. 76C., dated 3rd April 1879.
†5	,, Tarakanta Vidyasagar	9	.....	9	§ Superseded by (11) Keeab Ramanuj Das, and (13) Pundit Sadasib Misra, *vide* Government No. 2047, dated 25th March 1879.
‡6	,, Akhilnath Rai	5	4	9	A Collector will consider whether this gentleman's name will be retained on the list of members.
†7	,, Madhuryanand Rai	7	2	9	B Have left the district.
A8	,, Golaknand Datta	1	8	9	
†9	,, Sitakanta Mookerjea, Excise Deputy Collector	4	5	9	
†10	Mohant Narayan Das	5	4	9	
11	,, Keeab Ramanuj Das	1	8	9	
§12	Adhikari Rasbehari Das	4	5	9	
13	Pundit Sadasib Misra	4	5	9	
‡14	Zemindar Bhagwan Raot Singh	1	8	9	
‡15	Raja Gour Chandra Mansing Bhramabar Rai ...	.....	9	9	
†16	Panda Gopinath Khuntia	2	7	9	
§17	Ramkrista Patjosi	1	8	9	
§18	Baidhar Mahapatra	.....	9	9	
‡19	Shaikh Jamiudin Mahomed	1	8	9	
‡20	Adhikari Raghunandan Ramanuj Das	5	4	9	
‡21	Baboo Ramgopal Chatterjea	3	6	9	
B22	M. G. Norman, Esq., Assistant Engineer ...	.....	9	9	
B23	C. T. Barrow, Esq., Senior Assistant Magistrate ...	2	7	9	

Baboo Ram Chand Addy was Vice-Chairman from 1st October to 14th November 1878. He was reluctant to continue in office. Baboo Kumudnath Mookerjea was elected instead. Out of the members shown in the above table, Messrs. Norman and Barrow left the district. Mohant Keshab Ramanuj Das and Pundit Sadasib Misra were appointed in the places of Ramkristo Patjosi and Baidhar Mahapatra. Three members, Baboos Tarakanta Vidyasagar, Maduryananda Rai, and Panda Gopinash Khuntia, have completed their two years' tenure of office under section 49, and the Collector will be requested to consider the question of their reappointment. Nine members who completed their two years' tenure of office as noticed in the preceding year's report, were re-appointed under Government orders No. 2046A., dated 25th March last, received with your No. 76 of 3rd April 1879.

3*rd.*—Nine meetings were held during the year under report, at each of which there was a quorum. The Chairman presided over all but one. Raja Gour Chunder Man Sing, Bhramarbar Rai Baidhar Mahapatra, and M. G. Norman Esq., Assistant Engineer, did not attend any. The attendance of Baboos Tarakanta Bidyasagar and Kumudnath Mukerjea was most satisfactory, while that of Mr. MacMillan, Zemindar, Bhagban Ract Singha, and Shaikh Jamiudin Mahomed was insufficient.

5. The following members deserve special mention for having taken interest in conducting the business of the Committee:—

Baboo Sitakanta Mookerjea. | Baboo Tarakanta Vidyasagar.
,, Kumudnath Mookerjea. | ,, Ramchand Addy.
Mohant Narain Dass.

5. The statements of the attendance of members as required by Government order No. 1286, dated 13th March 1876, are annexed.

The working of the Committee was satisfactory.

6. *Branch Committee.*—Three meetings were held by the Khorda Branch Committee during the year under report, at each of which there was a quorum. A copy of the Branch Committee Chairman's report No. 60, dated 8th December 1879, is annexed.

7. *Income.*—The total gross receipts of the year under review, including the unexpended balance of the past year, amounted to Rs. 29,663-2-5 as shown below:—

	Rs.	A.	P.
Balance on 1st October 1878, including Rs. 248-8 (the balance at credit of deposit)	2,773	8	4½
Carried over ...	2,773	8	4½

				Rs.	A.	P.
			Brought forward ...	2,773	8	4½
			Receipts.			
			Rs. A. P.			
Cess on land	...	...	23,048 8 9½			
Rent of inspection bungalow		...	5 0 0			
Fees and forfeiture	...	...	235 7 6			
Miscellaneous	...	...	1,287 13 6			
	Total	...	24,576 13 9½			
			Suspense Accounts:			
			Rs. A. P.			
Advances	...		2,027 12 3			
Deposit	...		285 0 0			
			2,312 12 3	26,889	10	0½
			Total ...	29,663	2	5

Thus it will be seen that the net income of the year under report was Rs. 27,101-14-2 after deducting the suspense accounts of Rs. 2,312-12-3 × Rs. 248-8 (balance at credit of deposit on 1st October 1878).

8. *Expenditure.*—There was a total expenditure of Rs. 24,759-9-2 under the following heads:

				Rs.	A.	P.	Rs.	A.	P.
			Establishment on collection of revenue, &c.						
Clerks	...	...	...	1,712	6	5			
Servants	...	...	...	245	7	0			
Contingencies		...	...	498	15	9			
Printing at private presses			...	89	8	2			
							2,546	5	4
			Staging Bungalows.						
Establishment and contingencies			...	192	12	11			
Petty construction and repairs			...	460	6	9			
							653	3	8
			Public Works.						
Original work		...	...	10,649	6	4			
Repairs		...	...	4,597	11	2			
Establishment		...	...	3,857	6	8			
							19,104	8	2
			Suspense Accounts.						
Advances	...	...	...	2,132	0	0			
Deposit	...	...	...	323	8	0			
							2,455	8	0
			Total		...		24,759	9	2

Thus the net expenditure from the fund at the disposal of the Committee, after deducting the disbursement of Rs. 2,455-8 under the head of suspense accounts, is Rs. 22,304-1-2. It is evident that the total expenditure of the year was within the limit.

9. *Repairs.*—The amount spent on repair works is as follows:—

				Rs.	A.	P.
Repairing the	Armstrong road		...	2,271	13	10
Ditto	Balighai to Madhab		...	350	1	6
Ditto	road from Baghmari to Bolegarh		...	381	10	0
Ditto	ditto	Khorda to Kalapathar	...	422	15	7
Ditto	ditto	Pipli to Khorda ...	...	337	6	0
Cost of planting fruit-trees on the sides of the above road				50	0	0
Repairing bridge situated on Khorda road ...			...	5	0	0
Ditto	bridge on Satyabade road		...	1	0	0
		Village Roads.				
Thana Pooree	...	...	...	44	12	0
Do. Gop	...	...	...	90	0	0
Do Khorda	...	...	...	643	0	8
		Total	...	4,597	11	2

The roads and culverts of this district are not yet in a fair state of repair especially the road from Pipli to Khorda, which has been breached by the late flood. The transfer of Rs. 3,000 has been asked for in this office No. 607., dated 6th December 1879, from the allotment for the Khorda and Patnaikia bazar road for the repair of this road.

10 *Original.*—The details of the amount spent on original works during the year under report are as follows:—

	Rs.	A.	P.
Constructing the causeway in Pipli and Khorda road ...	3,446	0	0
Remodelling the Delang bridge, and demarcating lines of the road from Khorda to Patnaikia bazar ..	4,604	5	0
Constructing the road from Barabkudi to Pooree ...	1,599	1	4
Contribution to clearing coast canal	1,000	0	0
Total ...	10,649	6	4

Of the original works undertaken in the year under report, I may mention that the following are the important ones:—

Delang bridge.—A sum of Rs. 7,860, was allotted for the Delang bridge, situated on the road from Khorda to Patnaikia bazar for the year 1878-79, and a further sum of Rs. 240 was transferred from the heads reserve and repairs for demarcation purposes of the road. Hence the total amount sanctioned for the road, and the bridge situated on it, was Rs. 8,100, out of which Rs. 5,938-2-1 was spent on the bridge, and Rs 240 in demarcation of the road. In the course of the year the masonry fell, owing to the contractor not having completed the arches before the flood came.—*vide* this office report No. 301, dated 28th June 1879. A sum of Rs. 1,573-13-1 was refunded by him as damages. This refund has been deducted from the expenditure made on the bridge work. Hence a sum of Rs. 4,364-5 × Rs. 240 (for demarcation purposes) has been shown in the accounts.

11. *Causeway at Antapore, in Pipli and Khorda road.*—A sum of Rs 3,546 was allotted in the budget estimate of 1878-79, for constructing a causeway at Antapore, on Pipli and Khorda road; but Rs. 100 having been subsequently transferred to Khorda and Paitnaikia bazar road, only Rs. 3,446 was left to be spent on it during the year under report. The contractor did more work than is covered by the amount actually paid during the year. The cost of this excess work has been paid since the close of the cess-year.

12. *Village roads.*—The amount spent on village roads was Rs. 783-12-3, of which Rs 643-0-3 was spent by the Branch Committee at Khorda. A sum of Rs. 500 was allotted for the village roads, and a further sum of Rs. 500 was received from the Estates Improvement Fund as contribution. Hence Rs. 1,000 was available for the village roads. The sum of Rs 500, received from the Estates Improvement Fund, was spent solely in the Government estate of Khorda. A liberal grant of Rs. 2,500 has been allotted for village roads for the current year. In some places work has begun.

13. *Plantation of trees.*—The amount spent on planting fruit-trees was Rs. 50 during the year under report. One hundred and twenty-one fruit-trees were planted on the sides of the road from Pipli to Khorda, and on the station road of Khorda. Rs. 354 has been allotted in the current year's budget for the establishment of a nursery garden.

14. The following works have been proposed to be taken up during the ensuing year 1879-80:—

Repairs.

	Rs.
Repairs to Pipli and Khorda road	319
,, Bhagmari and Bolegarh ,, ...	214
,, Balighai to Madhab ,, ...	267
,, Khorda to Kalapathar ,, ...	340
,, Armstrong ,, ...	700
Petty construction and repair to inspection bungalows, &c. ...	521

Village roads.

In thana Pooree	500
,, Pipli	500
,, Gop	500
,, Khorda	500
,, Banpore	500
Total ...	4,861

Original works.

Construction of four causeways on Balighai and Madhab road	1,569
Construction of a bridge on Bhagmari to Bolegarh road ...	5,269
Carried over ..	.....

	Rs.
Brought forward ...	.....
Construction of a flood escape at Antapore and metalling Pipli and Khorda road	1,796
Construction of the road from Khorda to Patnaikia bazar, including the cost of the Delang bridge	4,934
Constructing road from Barabkudi to Pooree	223
Nursery garden	354
Clearing coast canal	1,000
Total ...	15,145

15. *Annual accounts*.—The annual accounts of the year under report were prepared in a manuscript form as required in the Examiner of Public Works Accounts, No. 647, dated 19th November 1879. The accounts of the year were examined and audited by the following members who formed the Sub-Committee. A copy of their report is hereto appended:—

Baboo Kumudnath Mukerjea, Vice-Chairman.
" Sitakanta Mukerjia, member.
" Tarakanta Bidyasar, ditto.
" Madhuryanand Rai, ditto.

16. *Annual inspection*.—The office of the District Road Fund Committee was inspected during the year under report by Mr. A. Wilson, Deputy Examiner of Public Work Accounts, Bengal, on 3rd March 1879.

17. *Minute book*.—The minute book kept under section 61 of Act X of 1871 is inspected only by members of the Committee No certified copy was granted.

18. *Road Cess Act*.—The punctuality with which the cesses under the Road Cess Act are paid in, evidently shows that the system has worked satisfactorily, and the Committee hope that no change may be made in the Road Cess Act.

19. Road cess was realized during the year under report at the maximum rate. The percentage of collection on demand during the past year was 100.

20. My opinion on the working of the several officers of the District Road Fund Committee during the cess year 1878-79.

Name of officer.	Rank.	Remarks by the Chairman of the Committee.
H. Beck, Esq.	District Engineer ...	Satisfactory.
Baboo Nadia Chand Datta	Head Clerk ...	Ditto
" Anand Chandra Mukerjea	Offg. do. ...	Ditto.
" Satyabadi Mahanti	Ditto ...	Ditto.
" Sadasib Das	Accountant ...	Ditto.
" Satyabadi Mahanti	Clerk ..	Ditto.
" Narahari Mahanti	Mohurir ...	Ditto.

The District Engineer reports unfavourably of Sub-Overseer, T. Mulligaspurum.

The duplicate copy of the annual accounts for 1878-79 has been submitted direct to the Examiner of Public Works Accounts, Bengal.

No. 60, dated Khorda, the 8th December 1879.

From—H. A. D. PHILLIPS, ESQ., Sub-divisional Officer,
To—The Collector of Pooree.

IN reply to your No. 522, dated 5th December 1879, I have the honor to state that a road was made from Khorda to Nial, and from Nial to Mooktapore (partially). Rs 500 was expended on this road, of which details have been submitted. This road passes Gurujang, Bowrisye, Tanghispara, Nial, and Bhimkuria

2. A sum of Rs 200 was spent on roads and culverts in and about Jajharsing. A road from the Baruni road to the Mani road was constructed. It passes over the Patterkata bund, and a culvert has been made at one end This enables the villagers to go to the Bhaliabari Hât in all seasons. A small road was also made to the road cess bungalow. The remainder of the money was spent on new culverts and on the repair of roads and old culverts in Jajharsing.

No. A., dated Pooree, the 18th November 1879.

From—BABOO KUMODNATH MOOKERJEA, Vice-Chairman of the Audit Committee, and three Members,
To—The Chairman, District Road Cess Committee, Pooree.

WE, the Committee appointed under section 88 of the Road Cess Act, have the honor to submit the accounts of the District Road Fund for the year ending 30th September 1879, together with our report thereon.

2. We examined the vouchers and compared them with details of cash-book. The vouchers are all properly receipted and marked with a paid stamp. They are consecutively filed for each month and all complete.

3. The balance shown in the treasury pass-book at the end of September 1879 was Rs. 5,062-9-3, whereas Rs. 4,848-9-3, including Rs. 55 on account of imprest in hand, was shown in the Road Cess cash-book. The difference of Rs. 214 is due to the fact that a cheque for Rs. 214, issued in September 1879, was not paid from the treasury during that month.

The accounts seem to have been carefully kept by the clerk.

APPENDIX A.

Abstract of particulars regarding Meetings of the District Road Cess Committee for the cess-year 1878-79.

Commissionership.	District.	Number of members forming the committee.		Number required to form quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings. Vice-Chairman.

Explanatory notes to accompany the Annual Accounts of 1878-79.

RECEIPTS.

(*a*)—The difference of Rs. 66 between the aggregate estimated figure shown in the Bengal Government Resolutions and the total of figures put down in the column headed "Amount as per budget estimate" under this head represents the estimated figure for house-cess, the collection of which has been suspended under Government orders.

EXPENDITURE.

(*b*)—The difference of Rs. 668 between the figures shown in the Bengal Government Resolutions and those shown in the column "Amount as per budget estimate" represents the figure independently estimated under the head "Reserve for unforeseen charges" in the budget estimates, but evidently included by Government under "Repairs."

KOOMUD NATH MOOKERJEE,
Vice-Chairman.

KOOMUD NATH MOOKERJEE.
Vice-Chairman.

No. 765, dated Balasore, the 1st November 1879.

From—T. NORMAN, Esq., Collector of Balasore,
To—The Commissioner of the Orissa Division.

I HAVE the honor, on behalf of the Road Cess Committee of this district, to submit a copy of the accounts of the receipts and expenditure of the District Road Fund during the Road Cess year 1878-79 in accordance with the requirements of the District Road Cess Act, 1871.

2. In compliance with the provisions of section 88 of the same Act, the accounts have been examined by a Sub-Committee consisting of the Vice-Chairman and three members of the Committee appointed in its behalf by the Committee. The names of the members of the Sub-Committee were—

J. P. Sneyd, Esq., Vice-Chairman.
Babu Akhy Kumar Chattarji,
Kumar Baikunthanath De.
Babu Bhagaban Chandra Das.

3. The accounts, after being examined and passed by the above Sub-Committee were submitted to, and passed by, a meeting of the general Committee held this day.

4. The year's receipts amounted to the sum of Rs. 25,299-1-6 and the year's outlay to the sum of Rs. 27,938-6. It has been the practice of the Committee, since its establishment, to work up to the extreme limit of its funds compatible with solvency. On the 30th September 1878, the cash balance at the Committee's credit in the treasury amounted

to Rs. 1,778-4-0 (or, deducting the amount of unpaid cheques, to Rs. 1,758-4), while on the 30th September 1879, that is, at the close of the year under report, the Committee's treasury balance only amounted to Rs. 658-0-11, as shown in the memorandum attached to the accounts submitted with this report. The year's expenditure on original works amounted to Rs. 4,760-7-7, on maintenance, and repairs, to Rs. 16,015-2-7.

5. The following new road was constructed during the year under report, namely—

Shergar to Nilgiri road.—This road leads in a westerly direction from a point seven and a half miles south of Balasore, on the Orissa Trunk Road, to the boundary of the Nilgiri tributary estate, and is three miles in length. It is connected with the Raja's capital by a short road, 1¾ mile in length, constructed by the Raja at his own expense. The completion of this road, which it is proposed to furnish with bridges and causeways during the year 1879-80, will afford the Nilgiri territory the means of communication with the outer world, so essential to improvement and progress which have already, during the last four years, been supplied to the two other tributary estates which are conterminous with this district, viz. Mayurbhanj and Keunjhar. Nilgiri, though not many miles from Balasore, has hitherto been almost unapproachable in wet weather, and much advantage is expected from the construction of the road which began to attract traffic even before its completion.

6. The budget allotment of Rs. 1,000 for the improvement of tidal creeks in connection with the proposed coast canal was paid to the Executive Engineer, but the Committee having ascertained that, instead of improving the Matai river in this district, the Public Works Department contemplated the expenditure of the money upon the removal of a shoal at Patamundi, in the Chota Brahmini river, within the Cuttack district, a work forming no part of the opening out of the tidal creeks between the Matai and Deb rivers in connection with the projected coast canal, pointed out to the Superintending Engineer that the application of the Committee's funds in the manner proposed would be contrary to the provisions of section 70 of the District Road Cess Act, and obtained a refund of the amount

7. Three nursery gardens were established during the year, for the purpose of rearing young trees intended for planting out along the roads under the Committee's management.

One was opened at Balasore in April 1879 and enclosed with a mound, protected by a live fence consisting of a triple row of cactus, American aloe, and screw pine. This nursery furnishes young trees for the north of the district; the cost up to the close of the year was Rs. 254-13-6.

Another was opened in June 1879 at Soro, in the centre of the district, to supply the needs of the central division, and cost up to the end of the year Rs. 29-15-6.

A third was established at Bhadrak in May 1879, on account of the roads in the south of the district. The sum of Rs. 164 was expended on this nursery during the year.

The trees in stock are of the following kinds :—

Ficus Indica,	Ægle Marmelos,
Ficus Religiosa,	Terminalia Alata Glabra,
Magnifera Indica,	Eugenia Jambos,
Tamarindus Indicus,	Artocarpus Integrifolia,
Terminalia Chebula,	Dillenia Indica, and
Bassia Latifolia,	Melia Azadirachta.
Galedupa Arborea,	

A considerable number of young trees have already been planted out on the roads, and arboriculture will progress still more vigorously in 1879-80.

8. The remaining original works constructed during the year consist of masonry drains, bridges, and causeways, built on the existing roads at the places which required them most urgently.

9. The works of maintenance and repair consisted of the keeping in proper order throughout the year, so far as funds permitted, the roads on the Committee's list, which cover a mileage of not less than 282 miles. The funds at the disposal of the Committee are so limited as to render this a task of considerable difficulty. The work done includes rometalling and repairs to metalling, repairs to masonry bridges, mending and preserving woodlen bridges, repairing causeways, earthwork, turfing, dressing, the provision of mile posts, &c.

10. Very little damage has been done by inundation during the year under report. The two roads principally exposed to injury by floods were the newly-constructed Phulwar to Kalma road and the newly-remodelled Basta to Baliapal road. Both these roads stood the test admirably, and passed the floodspill of the Burabalung and Subarnarekha rivers over their causeways without sustaining any damage worth mention.

11. Village roads have, as usual, received much attention. The system of carrying out village works is becoming more efficient and better understood each year. The overseers are now much more freely employed than formerly in the inspection of these works, and in obtaining simple accounts of the expenditure from the persons in charge, which experience shows to be the most effective checks in preventing misapplication of the Road Cess funds. The real expenditure of the year upon village roads has been much in excess of that shown in the books, and reproduced in the annual accounts, the cause being the impracticability of

getting in punctually the accounts of expenditure upon village roads. The expenditure is not admitted until the accounts and vouchers are received, but is held in suspense in an advance account. A list of such advances will be found annexed to the accounts. To prevent the infliction of annoyance upon persons who execute village works, care is taken to insist that the accounts demanded from them shall be of an easy and untechnical kind.

12. The following table* contains full details of the nature, quantity, cost, and average rates of all work executed on the district roads throughout the year. It also comprises such information on the subject of village works as has been received in the office.

* Not published.

13. A meeting of the Committee was held in every month in the year, besides an extra meeting, making 13 in all. At four meetings there was no quorum, two of these having been held during the absence of the district officer in camp.

14. On the subject of the working of the Committee, I have nothing to add to what was said last year. Business is disposed of without friction or trouble, and the members of the Committee render what assistance they can, as a consultative body. They form a useful medium of communication between the administration and the people. They are of course not fitted to constitute an executive agency.

15. The following statement contains the names of the members of the Committee and the number of meetings attended by each :—

No.	Names of members.	Number of meetings attended by each.
1.	The Chairman	13
2.	Senior Covenanted Assistant under the Magistrate and Collector	...
3.	The District Superintendent of Police	2
4.	Kumar Baikunthanath De	9

17. What it is proposed to do during the road-cess year 1879-80 is as follows :—

Three important original works are to be executed, viz. the metalling of five miles of the Balasore to Mitrapore road; the building of culverts on the Uttareshwar to Gopinathpore road; and the construction of bridges and causeways on the Shergar to Nilgiri road. A considerable number of new village roads are to be made, the principal of which is a proposed road connecting Muklusi, on the Basta to Baliapal road, with Irda, the residence of the zamindars of pergunnah Darara, a distance of about two miles. The road will cost the Road Fund Rs. 496, and so much of the land required as is the property of the zemindars in question will be given gratis. An allotment has been made for the maintenance and repair of each of the roads on the Committee's list.

18. The following table shows the sums allotted to each proposed work during the cess-year 1879-80:—

Class of work.	Number of work.	Name of work.	Allotment for 1879-80.
			Rs.
Original works.	2	Metalling five miles of the Balasore to Mitrapore road	4,920
	26	Constructing village roads in Bhadrak sub-division	500
	27	Ditto ditto in Balasore ditto	1,500
	36	Ditto culverts on the Uttareshwar to Gopinathpore road ...	600
	39	Ditto bridges and causeways on the Shergar to Nilgiri road ...	2,080
		Arboriculture.	
		Balasore nursery garden	150
		Soro ditto	150
		Bhadrak ditto	150
Maintenance and repair.	1	Port road	160
	2	Balasore to Mitrapore road	750
	3	Balasore to Balaramgari road	500
	4	Soro to Charakmara (Soro loop road)	239
	5	Bhaskarganj road (short round)	105
	6	Distillery road	200
	7	Sobharampore road (long round)	265
	8	Jellasore to Santipore road	125
	9	Basta to Baliapal road	750
	10	Berhampore to Garpada road	100
	11	Balasore to Basudebpore road	510
	12	Soro to Ananantapore road	210
	13	Soro to Kupari *vid* Tarigaria road	580
	14	Ranitalao to Kupari *vid* Ararupeya road	270
	15	Agarpara to Bhadrak road	400
	16	Bhadrak Station road	479
	17	Barikpore to Dhamnagar road	826
	18	Bhadrak to Chandbali road	642
		Repairing Chandbali staging bungalow	200

	33	Barpada to Maraigan road	500
	34	Phulwar to Kalma road	300
	35	Singla branch road	22
	36	Uttareshwar to Gopinathpore road	275
	37	Jamjhari to Basudebpore road	380
	38	Mobarakpur to Kedarpore	25
	39	Shergar to Nilgiri road	250

19. On the subject of the important proposed road to connect the port of Chandbali with the Orissa Trunk Road, and thus to afford means of communication between the port of Chandbali and the province of Orissa, a Government letter, forwarding for the opinion of the Committee the plans and estimates received from the Superintending Engineer, Orissa Circle, was considered by the Committee at a meeting held on the 3rd October 1879, who resolved that they "fully recognize the urgent necessity for, and the immense benefit that would be yielded by, the re-construction of the road between Bhadrak and Chandbali, and are willing to aid in the work to the utmost of their power. At the same time they are distinctly of opinion that, connecting as it does the Orissa Trunk Road, a provincial work, with the principal port in the province, and calculated to act as a direct feeder to the proposed coast canal, the road is a communication of provincial, and not merely of district, importance. The Committee have not been informed whether sufficient care and judgment have been exercised in the realignment of this important and difficult road; they think that it is absolutely essential that an experienced officer not below an Executive Engineer in rank should be deputed to carry out this work personally; otherwise, owing to a faulty alignment, a great deal of money may be wasted. Though the Committee wish to keep the cost as low as possible, yet they cannot but recognize the fact that an unmetalled road would be of little use owing to the peculiar nature of the soil which a little rain converts into a sticky mud. A great part of the road if unmetalled, would be quite impassable from June to November, and for some time after rains at other seasons. The Committee also think that wooden bridges should be avoided as much as possible, as they are eventually the most expensive owing to the high cost of their maintenance. Still it is hoped that some reduction might be made in the estimated cost, which is Rs 1,85, 849. In consideration of the great importance of this road, the Committee are willing to contribute towards its construction half a year's income (so far as the Committee's income is available for works), and to allot for this

purpose the sum of Rs. 10,500. The Committee do not think that, in justice to the wants of the district generally, they should make a larger allotment than this. The maintenance of the road would be obviously beyond their power, and should be undertaken from provincial funds as a part of the Orissa Trunk Road." It is hoped that the construction of the Chandbali road will go a long way towards removing the want of adequate communication which is still the greatest drawback to the prosperity of Orissa.

20. *Balasore.*—I consider that the general working of the Act is very satisfactory. The cess is probably less unpopular than any other direct tax which is levied, while the benefits resulting from it become more conspicuous every year.

21. The following servants of the Committee have discharged their duties creditably during the year:—

Baboo Krishna Chandra Mohanti, head clerk.
" Pitambar Ghose, acting Head clerk.
" Jadunath Banerje, overseer.
" Dinanath Mitra, ditto.

(* * *), sub-overseer at Bhadrak, was dismissed for misconduct. The Committee have not yet filled up the post permanently.

J. P. SNEYED,
Vice-Chairman.

Explanatory memorandum to accompany the annual accounts of Income and Expenditure of the cess-year 1878-79.

A.—The original budget estimate sanctioned under the head "Original Works" was Rs. 6,858-2, but a sum of Rs. 495 was afterwards transferred to this head with the Commissioner's sanction, conveyed in his No. 53C., dated 17th March 1879, and in accordance with Government, Public Works Department's No. 711A., dated the 19th June 1879, from the head "Repairs" in order to meet the expenditure on nursery gardens.

C.—The outstanding advances of last year having been adjusted during the year the expenditure has exceeded the amount as per budget estimate.

No. 33C, dated Cuttack, the 21st February, 1880.

From—A. SMITH, Esq., Officiating Commissioner of the Orissa Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the report on the working of the Road Cess Department for the cess-year 1878-79, together with the annual accounts of the several districts, in original, prepared in accordance with the classification laid down in the proceedings of Government, No. 607A, of the 23rd May last.

2. The audit of the accounts prescribed in section 88 of the Road Cess Act has been duly observed in all the districts.

3. As laid down in Government order No. 121A, of the 28th January 1878, the Chairmen of the several Committees have forwarded copies of the accounts direct to the Examiner of Public Works Accounts.

4. The total receipts of the cess for the Division during the year, including the unexpended balance at the close of the preceding year, placed a sum of Rs. 1,48,921-10-6 at the disposal of the several Committees for expenditure during the year under review. Out of this amount, Rs. 1,14,270-1-1 were actually expended during the year, leaving a balance of Rs. 34,651-9-5 at its close.

5. The large amount of the unexpended balance is principally due to very little having been done under the heading of "Original works" in Cuttack. In my report (paragraph 8 of No. 382½ of the 11th January 1879) I noticed the heavy balances that remained unexpended at the close of that year, and drew the attention of the Chairmen to the necessity of utilizing the collections as they are made. The changes both of the Chairman and District Engineer during the year, may, to a certain extent, account for the result. I hope, however, that during the current year the expenditure may more nearly equal the income. There is no object in having the balance of a public fund larger than

will suffice for expenditure till the next instalment will come in, and obviate all risks of bills being presented without funds to meet them. The Cuttack balance appears to be greater than these conditions require.

6. Subjoined is a comparative statement of the receipts and expenditure of the cess during the year under review, as compared with the previous year—

District.	Total receipts, including opening balance of last year.		Total expenditure.		Balance.	
	1877-78.	1878-79.	1877-78.	1878-79.	1877-78.	1878-79.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Cuttack	59,674 11 9	85,107 9 2	45,889 1 11	57,717 9 11	13,784 9 10	27,389 15 3
Pooree	25,950 10 3	29,063 3 5	23,425 9 11	24,759 9 2	2,525 0 4	4,903 9 3
Balasore	30,092 6 2	34,150 14 11	23,203 15 0	31,792 14 0	6,888 7 2	2,358 0 11
Total ...	1,15,717 13 2	1,48,321 10 6	92,519 10 10	1,14,270 1 1	23,198 1 4	34,651 9 5

7. It will be seen that the receipts during the year in all the districts contrasts favourably with those of the past year. Several causes contributed to this result, the principal of which were (*a*) the contribution of Rs. 3,100 by Government as noted on the margin on account of the collection of the provincial cess; (*b*) the inclusion in the accounts of the amount representing the suspense accounts of 1877-78, which was adjusted in the course of the year and which, under orders of the Examiner of Public Works Accounts, contained in his No. 647D, of the 19th November last, to the Collector of Balasore, is eliminated from the opening balance brought forward. This last cause has been adopted to preserve equilibrium between income and expenditure which would otherwise exceed the receipts of the year.

	Rs.
For Cuttack	1,700
,, Poorse	700
,, Balasore	700

CUTTACK.

8. The following are some of the principal works carried out during the year :—

Repairs.

(*I*).—*Taldandah Road.*—The works connected with this road and the inspection bungalows on it were thoroughly repaired, and trees were planted in convenient places. The original allotment was Rs. 4,835, which was supplemented by a grant of Rs. 214-6-5 from other heads under orders from this office, which raised the total amount to Rs. 5,049-6-5, the whole of which was expended during the year. This road, according to the local authorities, is the best of the fair-weather roads in the district; the traffic on it is great, especially when the Kendrapara canal is closed for the annual repairs. Another recommendation is that it stretches from Cuttack to a considerable distance without crossing any river or nullah.

(*II*).—*Kuakhia to Jajpore.*—The repairs were effected through paid coolies, who were also employed in breaking up some fallen bridges and stacking materials for use when required for causeway. It is difficult to maintain this road as an uninterrupted line of communication as it is subject to floods every year; 350 trees were also planted on the 1st mile from Jajpore. A sum of Rs. 2,171-1-6 was allotted for this road, and Rs. 1,885-9-1 were utilized during the year.

(*III*).—*Cuttack to Chandballi.*—This is one of the most important roads in the district; of the sums allotted, Rs. 4,784-0-11 were spent on earthwork, including repairs to laterite metalling on the 1st three miles; Rs. 390-0-7 in repairing causeways; Rs. 461-5-6 in repairing bridges; Rs. 668-1-8 in repairing bungalows, and Rs. 365 in maintaining trees; 800 mango, jack, and jamun trees have been planted out on different parts of the road and protected by gabions.

(*IV*).—*Fakirpara to Machgaon.*—This road is in very fair order; out of the total allotment of Rs. 1,455, including transfers, and a supplementary grant for causeways, Rs. 1,345-4-1 only were spent, the heavy rain towards the close of the year stopping all work.

(*V*).—*Kendrapara to Jadpore.*—Rs. 400 were provided, and Rs. 349-13-5 expended. It is the best of the secondary roads in the district and is in fair order.

(*VI*).—*Jajpore to Binjharpore.*—This is an important fair-weather road, but crossing as it does the drainage of the country, it can only be patched up after each year's flood. Rs. 482-1-1 were spent on this road, though in the opinion of the District Engineer it is in anything but good order.

(*VII*).—*Juggutsingpore to Joypore.*—It is proposed to place this road in a higher class during the year. It is a really good road of great importance and practicable for carts at all seasons. Several petty constructions in connection with this road have been carried out during the year under report at a total outlay of Rs. 616-7-8.

(*VIII*).—*Sonepore road, first 20 miles.*—Rs. 2,575 granted and the whole money expended. This road has been considerably improved, but until the Bhagna nullah on the 13th mile is bridged, it will remain a broken line of communication. Other works appertaining to the road and the bungalows situated on it were repaired as far as funds permitted. The latter are in good order, with the exception of the out-offices of the Ramchandi bungalow which require further repairs.

(*IX*).—*Madhub to Sulnakhia.*—This road lies for the most part in Pooree, and was, by an arrangement between the two Committees, under the charge of the Pooree Committee. This arrangement, however mitilated against the provision of section 4 of the Road Cess Act, and this being pointed out by this office, as reported in paragraph 11 of my last year's report, the Cuttack Committee has taken charge of its portion of the road, the first ten miles of which were repaired during the year at a cost of Rs. 1,221. The portion repaired is passable in all seasons for carts up to Kuntapara

Original works—village roads.

9. Of the amount of Rs. 2,458-1 1 placed at the disposal of the Cuttack Sudder Committee, Rs. 2,423-0-7 were expended.

The following roads were constructed during the year :—

Thana Cuttack.

	Feet in length.
Choudwar to Trunk road (with one culvert)	5,570
Tangy to Bhuggutpore (with three culverts)	9,330
Naraj to Goreesahee	12,000

Thana Selehpore.

Bowra to Cheda Huripore (with three culverts)	3,900
Shumsherpore	900
Dobunda to Ghesoon (with three earthen shoots)	3,800
Ramkapore to Sooklesur	5,200
Sowree	1,600
Goureejung	4,100

Thana Juggutsinghpore.

Balia to Gopinathpore (with one concrete shoot)	4,480
Koolsye	600

The existing roads were also repaired at a cost of Rs. 654-8-6.

10 The Jajpore Committee expended Rs. 2,795-11-8 out of a total allotment of Rs. 2,940-14-9, both for repairs and original works.

The following were the new roads made:—

	Length in miles.
Katia Hât road	9
Mungulpore Hât road	2
Nuntikiri Hât road	2
Hatsahi to Khumma	5
Loop from Khumma road	1
Khumma to Panga...	2
Durpan road	6
Byri to Kauhpore	5½
Chutteea to Byri	2½
Markundpore to Awar	1

11. The allotment to the Kendrapara Committee, Rs. 1,800, was supplemented by a grant of Rs. 62, but Rs. 28-4-11 could not be utilized and lapsed. The works constructed are Gobrahat to Chaudole, part of a road from Arajuri to Chundunnugger, and other petty village roads. Also repairs to roads from Gogoon to Tombalo, and Mulbussunt to Arna.

12. *Arboriculture.*—The allotment of Rs. 500 for planting trees on the sides of roads was increased to Rs. 785-13-10, and divided between the different roads as already noticed. The District Engineer in writing of the importance of this branch of the Road Cess work, in paragraph 17 of his professional report annexed to this, writes as follows :—

"The importance of this branch of the Road Cess work is undoubted, but it will be many years before the whole length of the roads in the district can be planted with trees, and the cost of doing so is, in my opinion, excessive. The establishment, which does not effectively protect the young trees from cattle or keep the bamboo gabions from white ants, or from being broken and used as fuel by passers-by, notwithstanding frequent fines and dismissals, is very expensive. Considering the results, I think it would be better to undertake the planting of trees only on parts of the road close to the bungalows and residences of the mohurirs, and in very barren places where shade is badly wanted and it is difficult to persuade trees to grow. For the other parts I would suggest that the villagers be allowed and encouraged to plant trees themselves, the trees to be their own property. They would of their own accord follow the suggestion of Government that common fruit-bearing, shade-affording trees be planted. The only restriction that appears necessary to impose is that the trees be not planted within a certain distance of the toe of slopes." The proposal to allow the villagers to plant trees and retain the proprietary right in them seems to me to be open to several objections. The trees, to be of use to the wayfaring public, must be planted sufficiently close to the toe of the slope to give shade on the road, and if allowed to be the property of individuals they may be removed at any time for fuel. Besides this if tree-planting were left to private individuals, the order and symmetry which

sets off their appearance and enhances their usefulness will scarcely be secured. Date-palms, though they may yield some income, hardly afford enough shade to be useful road-side trees.

13. Of the important original works proposed, none were carried out during the year under report, with the exception of deepening and opening out the Toila Jore between Chandbali and Gunga. This will shorten the distance between Chandbali and Cuttack. The other works that were carried out under this head are too insignificant to require any special notice. A sum of Rs. 4,850 was made over to the Irrigation Department during the year under review for the improvement of the creeks and khals on the seaboard.

14. Paragraph 28 of the Committee's report gives a detail of works proposed to be undertaken during the current year.

15. Particulars regarding the meetings of the Sudder and Branch Committees are appended as usual.

16. The Sudder Committee at Cuttack held ten meetings, in three of which there was no quorum. The average attendance was 38·8. The Chairman thus speaks of the manner in which the Committee did its work :—

"The Committee at the Sudder sub-division was most willing to attend when present in Cuttack, and the members offer valuable aid in auditing the accounts, and offer friendly criticism."

17. The Branch Committee at Jajpore held five meetings, but for want of a quorum four had to be adjourned. The Chairman thus explains why there was no quorum in adjourned meetings :—

"This has been chiefly due to the original appointment of a large number of members who were unable from distance and other causes to attend. Those that were able to attend did so, and show interest in the progress of work in the sub-division A revised list of members, consisting entirely of gentlemen both able and willing to attend, has been submitted for the approval of Government, and I hope by their appointment further difficulty on this account will be removed."

The revised list has been submitted to Government.

18. The Branch Committee at Kendrapara held four meetings, with an average attendance of 8·25. The Covenanted Deputy Collector thus remarks :—

"The majority of the members evince very lively interest in our proceedings, and zealously put forward the wants and claims of the different quarters which they represent."

19 Due notice of every meeting was given by the Sudder Committee to the Executive Engineer. The Executive Engineer of the Mahanuddy Irrigation Division attended three, and that of the Brahminee Division two meetings.

20. The District Engineer, Mr. Desgratoulet, has worked willingly and zealously. The Committee, on his completion of his probationary period of service, has recommended the confirmation of his appointment, and the recommendation is now before the Government. The opinion of the District Engineer as to his subordinate staff will be found in paragraph 50 of his report. The Committee will be advised to see that properly qualified persons are selected for employment in future.

21. The establishment on the collection of revenue has worked well. The Committee expresses its satisfaction at the manner in which the accounts were kept and supervised by the collecting staff.

POOREE.

22. *Repairs.*—The works executed during the year and the amount expended on them, are given below :—

	Rs.	A.	P.
Repairing the Armstrong road ...	2,271	13	10
,, Balighai to Madhab	350	1	6
,, road from Bagmari to Bolgur	381	10	0
,, Khorda to Kalapather	422	15	7
,, Pipli to Khorda	337	6	0
Cost of planting fruit-trees on the sides of the above road	50	0	0
Repairing bridges situated on Khorda road . .	5	0	0
Bridge on Satyabadi road	1	0	0
Total ...	3,819	14	11

23. The Chairman states that the roads and culverts of the district are not yet in a fair state of repair, one of the important roads of the district, viz. that from Pipli to Khorda having been breached in several places by the late flood.

24. The following are the details of the amount spent on original works :—

	Rs.	A.	P.
(*a*) Constructing a causeway in Pipli and Khorda road	3,446	0	0
(*b*) Remodelling the Delang bridge, and demarcating the lines of the road from Khorda toPatnaika bazar ...	4,604	5	0
(*c*) Constructing the road from Barabkudi to Pooree ...	1,599	1	4
(*d*) Contribution to clearing coast canal	1,000	0	0
Total ...	10,649	6	4

25. Of the original works undertaken during the year the following two are the most important:—

(1) *The Delang Bridge situated on the Khorda and Patnaika road.*—The total amount allotted for both the road and the bridge was Rs. 8,100. Of this sum Rs. 5,938-2-1 were spent on the bridge, and Rs. 240 on the demarcation of the road. In the flood of June last the masonry work was carried away, owing to the failure of the contractor to complete the works in time. He was made to refund Rs. 1,573-13-1, the estimated amount of the damages. This refund has been deducted from the expenditure, and only Rs. 4,604-5 have been shown in the accounts against this work.

(2) *Causeway at Antapore on the Pipli to Khorda road.*—The amount allotted was Rs. 3,546. A sum of Rs. 100 was subsequently transferred therefrom to the Khorda and Patnaika road under sanction from this office. The contractor is said to have done more work than he was bound to do for the money paid. The cost of excess work done has been paid to him since the close of the year. This practice is irregular, and should not have been allowed to recur after the attention of the Committee was drawn to it as noticed in paragraph 29 of my last year's report. The subject will again be prominently brought to the notice of the Committee, and I hope I shall not have to comment on it a third time.

26. *Village roads.*—A sum of Rs. 500 was allotted for village roads, and a further sum of Rs. 500 was received as contribution from the Estates Improvement Fund. The total amount available was therefore Rs. 1,000. The amount actually spent during the year was Rs. 783-12-3, of which Rs. 643-0-3 represent the expenditure of the Branch Committee at Khorda, leaving a balance of Rs. 140-12 as the outlay by the Sudder Committee for the requirements of the Sudder sub-division. The amount received from the Estates Improvement Fund was spent solely in the Government estate of Khorda.

27. It is to be regretted that almost nothing was done in respect of village roads in the Sudder sub-division, though the necessity for this was pointed out to the Committee both by this office and the Government. The Committee will be asked to submit a special explanation.

28. The undermentioned village roads and culverts were constructed during the year in the Khorda sub-division—

(*a*) A road from Khorda to Nial, and from Nial to Mooktapore (partially).
(*b*) A road from Barunai to the main road.
(*c*) A culvert on the above road.
(*d*) A small road to the road cess bungalow, and several culverts.

29. *Tree-planting.*—The total amount spent on this head was Rs. 50 only, 121 trees were planted on the sides of the road from Pipli to Khorda and in the station of Khorda.

30. The works proposed to be undertaken during the current year, with a forecast of their expenditure, are given in paragraph 14 of the Committee's report.

31. Annexed is a statement showing the average attendance of the Committee, and the number of meetings held by it. The Sudder Committee held nine meetings during the year, in all of which there was a quorum. The working of the Committee is said to have been satisfactory. The Chairman makes a favourable mention of Baboos Sitakant Mookherjee, Koomood Nath Mookherjee, Tarakant Bidyasagar, Ram Chand Addy, and Mahant Narayan Das, as being specially regular in their attendance.

32. The Branch Committee at Khorda held three meetings. The average attendance was 41·6. No mention is made as to the working of the Branch Committee. The attention of the Chairman will be drawn to the requirements of section 54 of the Road Cess Act, which lays down that there should not be less than four meetings during the year.

33. Press of work permitted the Executive Engineer of the Mahanuddy division to attend but one meeting of the Committee, although timely notice of the meetings was sent to him.

34. The Chairman states that both the engineering and collection staff have worked satisfactorily during the year under report, with the exception of Sub-Overseer T. Muligaspuram, who is unfavourably reported on by the District Engineer.

BALASORE.

35. *Repairs.*—A sum of Rs. 14,078-14 was expended in maintaining the district roads which cover 282 miles. The work done includes remetalling and repairs to metalling, repairs to masonry bridges, mending and preserving wooden bridges, repairing causeways, earthwork, turfing, dressing, the provision of mile-posts, &c., as given in the tabular statement annexed to the Committee's report. It is satisfactory to note that very little damage has been done to the Committee's works during the late flood; the two roads, principally exposed to injury, *viz.*, Phulwar to Kalma and Basta to Baliapal, having admirably withstood it.

36. *Original Works.*—The road from Shergur to Nilgiri was constructed during the year, and its importance is thus described by the Chairman :—

"This road leads in a westerly direction from a point 7¼ miles south of Balasore on the Orissa Trunk Road to the boundary of the Nilgiri tributary estate, and is three miles in length. It is connected with the Rajah's capital by a short road 1¾ miles in length, constructed by the Rajah at his own expense. The completion of this road, which it is proposed to furnish with

bridges and causeways during the year 1879-80, will afford the Nilgiri territory the means of communication with the outer world, so essential to improvement and progress which have already during the last four years been supplied to the two other tributary estates, which are conterminous with this district, viz. Mayurbhunje and Keonjhur. Nilgiri, though not many miles from Balasore, has hitherto been almost unapproachable in wet weather, and much advantage is expected from the construction of the road, which began to attract traffic even before its completion." I passed over this road in my last tour, and was much pleased with it.

37. A sum of Rs. 1,000, provided in the budget was paid to the Executive Engineer for the improvement of the tidal creeks; but the project being in abeyance for the present, the Committee obtained a refund of the amount.

38. Three nursery gardens were established during the year, viz.:—

		Rs.	A.	P.
One at Balasore (north) at a cost of	...	254	13	6
Another at Sora (centre) at a cost of	...	29	15	6
And a third at Bhudruck (south) at a cost of	...	164	0	0

for the purpose of rearing trees to be planted out along the roads under the Committee's management. Paragraph 7 of the Committee's report will show the species of trees reared and planted out on the different roads.

39. The remaining original works were of an insignificant nature, consisting of masonry drains, bridges, and causeways on the existing roads where required.

40. *Village roads.*—On village roads Rs. 413-2-6 have been spent in the Bhudrak, and Rs. 1,692-9-9 in the Sudder sub-division. The detail will be found in the statement given at paragraph 12 of the report.

41. Paragraph 18 of the Committee's report will show the programme of works proposed to be carried out during the current year, and the amount likely to be incurred on them.

42. A statement showing the average attendance of the members, and the number of meetings held, is annexed.

43. On the subject of the working of the Committee, the Chairman writes as follows:—

"I have nothing to add to what was said last year. Business is disposed of without friction or trouble, and the members of the Committee render what assistance they can as a consulting body. They form a useful medium of communication between the administration and the people. They are of course not fitted to constitute an executive agency."

44. It does not appear that the Executive Engineer attended any meeting of the Committee, though it appears from a further communication from the Chairman that due intimation of every meeting was given to him. The Chairman will be told in future to give previous and timely notice to the Executive Engineer of his Division, whenever any important matters are likely to be considered, so that he may make the necessary arrangements for his office work during his absence.

45. With the exception of (* * *), a work sircar, dismissed during the year for misconduct, the Chairman makes favourable mention of all the other servants of the Committee.

46. *General.*—The cess is popular, and the Act is said to have worked smoothly in all the detailed districts. Some difficulty is felt in Cuttack and Balasore in the matter of realizing the cess from the numerous petty lakhrajdars, who have to incur trouble and expense out of proportion to the amount assessed on them. In Pooree, as I observed in my last year's report, the difficulty is met by a more extensive use of the agency of the canoongoes, and the Chairman thinks that the present Act needs no amendment, and should be allowed to stand as it is, as a tentative measure and an establishment of 4 tehsildars and 16 peons has been employed in Cuttack under sanction of the Board since June last for realizing petty dues from the lakhrajdars more speedily. The cess dues on holdings valued at less than Rs. 5 will be ordinarily paid to the canoongoes, who will submit a list of the defaulters as soon as the time for payment expires for the issue of process, which will be executed through the tehsildars. The system has been worked only for a short time, and no opinion can yet be pronounced as to its success or otherwise.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 4272A.

GENERAL.—*The 15th September* 1880.—Baboo Kali Sunker Sen, Officiating Deputy Magistrate and Deputy Collector, on special duty as Manager of the Courjon estate in the district of Noakholly, is vested with the powers of a Collector under Act VII (B.C.) of 1880.

Baboo Juggut Chunder Shome, Officiating Deputy Magistrate and Deputy Collector, Baraset, 24-Pergunnahs, is transferred to Chittagong.

The 16th September 1880.—Baboo Ananta Lal Chatterjee, temporary Sub-Deputy Collector, Bongong, in the district of Nuddea, was on leave under section 4, rule 1, Supplement F of the Civil Leave Code, from the 15th to the 31st ultimo, both days inclusive.

The 17th September 1880.—Mr. J. O'Kinealy, Superintendent and Remembrancer of Legal Affairs, is allowed furlough for six months under section 21, Chapter IV of the Civil Leave Code, with effect from the 11th proximo.

Mr. T. T. Allen, District and Sessions Judge, Rajshahye, is appointed to act as Superintendent and Remembrancer of Legal Affairs, during the absence, on leave, of Mr. J. O'Kinealy, or until further orders.

Baboo Sheo Nundun Lal Roy, Officiating Deputy Magistrate and Deputy Collector, is posted to the Sudder Station of the district of Shahabad, on being relieved of his present special duty as Manager of the escheated estates in Gya.

Mr. A. H. Haggard, B.C.S., has been granted an extension of sick leave for three months by Her Majesty's Secretary of State for India.

The 18th September 1880.—Moonshee Burmeshwar Proshad is appointed temporarily to be a Sub-Deputy Collector of the Second Grade, and is posted to the Pachamba Division of the district of Hazareebagh, *vice* Baboo Kali Prosonno Dey, resigned. This appointment will have effect from the date on which Moonshee Burmeshwar Proshad joined his appointment.

Mr. E. N. Baker, Assistant Magistrate and Collector, Lohardugga, is appointed to have temporary charge of the Gobindpore Division of the Manbhoom district, during the absence, on deputation, of Mr. H. H. Risley, or until further orders.

Mr. H. W. Barber, Deputy Magistrate and Deputy Collector, in charge of the Cox's Bazar Division of the Chittagong district, is allowed leave for three months, under the rules in Chapter VII of the Civil Leave Code.

Mr. C. H. Swinden, Officiating Deputy Magistrate and Deputy Collector, Sungoo, Chittagong Hill Tracts, is appointed to have charge of the Cox's Bazar Division of the Chittagong district.

Mr. J. T. Jarbo, Officiating Deputy Magistrate and Deputy Collector, Chittagong Hill Tracts, is appointed to have charge of the Sungoo division of that district, until further orders.

The 20th September 1880.—Mr. A. Burooah, Officiating Joint-Magistrate and Deputy Collector, Dinagepore, acted as Magistrate and Collector of that district from the afternoon of the 28th ultimo to the forenoon of the 16th instant.

Mr. Burooah is re-appointed to act, until further orders, as a Joint-Magistrate and Deputy Collector of the First Grade, with effect from the 16th instant.

Major W. L. Samuells, Officiating Deputy Commissioner, Hazaribagh, is allowed leave for three months, under Chapter I, Rule XI of the Military Furlough Rules of 1868, with effect from the 25th instant, or any subsequent date on which he may avail himself of it

Mr. H. H. Risley, Assistant Commissioner, in charge of the Gobindpore Division of the Manbhoom district, is appointed to act temporarily as Deputy Commissioner of Hazaribagh, during the absence, on leave, of Major W. L. Samuells, or until further orders.

The 21st September 1880.—Mr L. B. B. King, District and Sessions Judge, Dinagepore, is promoted to the First Grade of District and Sessions Judges, with effect from the 23rd July last, *vice* the Hon'ble A. T. Maclean.

Mr. R. F. Rampini, Officiating District and Sessions Judge, Dacca, is appointed to be a District and Sessions Judge of the Second Grade, with effect from the 23rd July last, *vice* Mr. L. B. B. King.

Mr. J. E. B. Jeffery, Officiating Magistrate and Collector, Furreedpore, on leave, is appointed to be a Joint-Magistrate and Deputy Collector of the First Grade, with effect from the 23rd July last, *vice* Mr. R. F. Rampini.

Mr. Jeffery will continue to act, until further orders, as Magistrate and Collector of Furreedpore in the Second Grade.

Mr. W. Fiddian, Assistant Magistrate and Collector, on furlough is appointed to be a Joint-Magistrate and Deputy Collector of the Second Grade, with effect from the 23rd July last, *vice* Mr. J. E. B. Jeffery.

LEGISLATIVE.—*The 21st September* 1880.—The Lieutenant-Governor accepts the resignation tendered by the Hon'ble J. O'Kinealy of his seat in the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations.

POLICE.—*The 17th September* 1880.—Mr. T. G. Charles, District Superintendent of Police, Mymensingh, is appointed to act, until further orders, in the Fourth Grade of District Superintendents of Police, with effect from the 26th ultimo, *vice* Mr. A. H. James, on leave.

In modification of the orders of the 18th ultimo, Mr. G. D. Graham, Assistant Superintendent of Police, in charge of the District Police, Sonthal Pergunnahs, is allowed leave for fourteen days, under the rules in Chapter VII of the Civil Leave Code, with effect from the 1st instant.

EDUCATION.—*The 18th September* 1880.—The undermentioned gentlemen are appointed to be members of the District School Committee of Midnapore:—

Mr. G. Cotton, Executive Engineer, *vice* Baboo Gopal Chunder Basu, transferred.

Revd. Dr. Phillips.

Baboo Peary Mohun Banerjee, Deputy Magistrate and Deputy Collector, *vice* Baboo Kali Prosonno Rai Chowdhry, deceased.

Baboo Raghu Nath Das, M.A., B.L., Pleader, *vice* Baboo Ram Akhoy Chatterjee, transferred.

Baboo Hem Chunder Bose, M.A., B.L., Pleader, *vice* Baboo Gopi Nath Banerjee, transferred.

Baboo Apurna Charun Dutta, B.A., B.L., Pleader, *vice* Baboo Jagut Chunder Gangooly, transferred.

Baboo Kedar Nath Chatterjee, First Moonsif, *vice* Baboo Devendra Lal Shome, transferred.

Baboo Jugobundhu Bhattacharjee, M.A., Officiating Deputy Magistrate and Deputy Collector, *vice* Baboo Koilash Chunder Ghose, transferred

Baboo Shyama Podo Chowdhry, Deputy Magistrate and Deputy Collector, *vice* Mr. A. D. Larymore, transferred.

The 21st September 1880.—Mr. A. E. Gough, Professor, Presidency College, and Principal of the Calcutta Madrassa, is allowed leave for one month, under the rules in Chapter VII of the Civil Leave Code, with effect from the 30th instant.

was pleased to direct that there should be substituted for the Regulations contained in the Schedule to the said Act certain Regulations appended to the said Order, and that the said appended Regulations should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said recited Order should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council:

And whereas by Order in Council dated the fourteenth day of August one thousand eight hundred and seventy-nine, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to direct that on and after the first day of September one thousand eight hundred and eighty, the said Regulations and the additions thereto should be annulled, and that there should be substituted therefor the new Regulations contained in the First Schedule thereto, and that the same should, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said Second Schedule thereto, whether within British jurisdiction or not:

And whereas Article numbered 9 of the Regulations appended to the said recited Order in Council of the ninth day of January one thousand eight hundred and sixty-three is as follows; that is to say,—

Art. 9.—Open fishing boats and other open boats shall not be required to carry the side lights required for other vessels; but shall, if they do not carry such lights, carry a lantern having a green slide on the one side and a red slide on the other side; and on the approach of, or to, other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

Fishing vessels and open boats when at anchor, or attached to their nets and stationary, shall exhibit a bright white light.

Fishing vessels and open boats shall, however, not be prevented from using a flare-up in addition, if considered expedient.

And whereas the Article numbered 10 of the said new Regulations, contained in the First Schedule of the said recited Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine, which said Article is to be in substitution for the said recited Article numbered 9, is as follows; that is to say,—

Art. 10.—(*a*) Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of, or to, other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(*b*) A fishing vessel, and an open boat, when at anchor, shall exhibit a bright white light.

(*c*) A fishing vessel, when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(*d*) A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red, and the lower green, and shall also either carry the side lights required for other vessels, or, if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass, as described in paragraph (*a*) of this Article.

(*e*) Fishing vessels and open boats shall not be prevented from using a flare-up in addition, if they desire to do so.

(*f*) The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(*g*) All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the operation of the said recited Article numbered 10 of the New Regulations contained in the First Schedule of the said Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine shall be suspended until the first day of September one thousand eight hundred and eighty-one, and that, in lieu thereof and in substitution therefor, the recited Article numbered 9 of the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three shall continue and remain in force until the said first day of September one thousand eight hundred and eighty-one.

NOW THEREFORE, Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct that the operation

of the said recited Article numbered 10 of the New Regulations contained in the First Schedule of the said Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine shall be suspended until the first day of September one thousand eight hundred and eighty-one, and that in lieu thereof and in substitution therefor, the said recited Article numbered 9 of the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three shall continue and remain in force until the said first day of September one thousand eight hundred and eighty-one.

C. L. PEEL.

[Second Publication.]

NOTIFICATION.

The 12th September 1880.—The Lieutenant-Governor is pleased to order that, on and after the 1st October 1880, the following shall be the rates for forest produce in the Sunderbuns Protected Forests in supersession of those published in Rule 1 of the Rules of the 17th August 1880:—

(1)	On every maund of sundri, pussur, or amoor timber	...	one anna.
(2)	„ „ keora timber	...	one-half anna.
(3)	„ „ any other forest produce	...	one-quarter anna.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 12th September 1880.—The Lieutenant-Governor is pleased to notify, under section 75 of the Indian Forest Act (VII of 1878), that on and after the 1st October next, any persons trading in timber or forest produce, or desirous of purchasing and removing forest produce from the reserved and protected forests of the Sunderbuns, may, if they so desire, and in place of having their boats as heretofore measured on every occasion that they enter or leave those forests or pass any of the forest toll-stations, have their boats measured once for all, and such measurement registered by the Deputy Conservator of Forests, or his subordinates, at any of those toll-stations, viz.—

1. Lower Bhola.	9. Isreepore (Eshamuttee).
2. Upper Bhola.	10. Bussuntpore.
3. Pussur.	11. Roymangal.
4. Khulna.	12. Mutlah.
5. Bhudder.	13. Bogee.
6. Shupsah.	14. Saterbog.
7. Koyrah.	15. Tangarakhal.
8. Cobaduk.	16. Samukpatha.

Such registration will hold good for the period of one year, and may be renewed after the expiry of that period.

Any boat the measurement of which is so registered will not be liable to further remeasurement or detention, either within the forests or at the forest toll-stations, provided—

(1) That the boat does not contain any forest produce other than that entered in the permit; and

(2) That the load does not exceed the registered burden, as shewn by the mark on the water-line.

All boats registered will have the maundage and date of measurement painted in letters not less than 4 inches long on both sides of the bow; and amid-ships on either side will be painted the water-line, or line showing the loaded draft. This last will be indicated by a circle painted in white, intersected by a red line marking the depth to which the boat may be loaded. This line will be fixed at the pleasure of the manjee before measurement is made, and the measurement will be made accordingly.

The fees payable when a boat is registered for the first time shall be according to the following scale:—

						Rs.	A.	P.
Boats not exceeding				50	maunds ...	0	4	0
Above	50	and not exceeding		100	„ ...	0	8	0
„	100	„	„	500	„ ...	0	12	0
„	500	„	„	1,000	„ ...	1	8	0
„	1,000	„	„	2,000	„ ...	2	0	0
„	2,000	„	„	3,000	„ ...	3	0	0
„	3,000	...		...	...	4	0	0

On renewal of the registration after the expiry of twelve months, fees shall be payable at half the rates given in the above scale, provided that application is made for such renewal of registration within two months of the expiry of the said twelve months. After that period the full fees will be payable as for fresh registration.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 3rd September 1880.—Doubts having arisen as to the precise position of the boundary line, described in the Schedule of Act IV (B.C.) of 1868, between the Tracts to which the provisions of Act XXII of 1860 are applicable (known as the Hill Tracts District of Chittagong) and the Regulation District of Chittagong, the officer in charge of Land Settlement Operations in Chittagong was, by Government orders No. 3198T., of the 8th October 1875, empowered to lay down and demarcate the said boundary upon the ground so as to be easily identifiable. The Settlement Officer having, in accordance with those orders, completed the demarcation of the said boundary, has submitted a detailed description thereof, which the Lieutenant-Governor has been pleased to approve and confirm, and directs be notified as follows for general information:—

Detailed description of the boundary line between the districts of Chittagong and the Chittagong Hill Tracts.

FROM the starting point on the south bank of the *Fenny river*, marked by a masonry pillar, forming the north-eastern limit of the village of Ramghur, up the Shonai nulla to a point marked by a masonry pillar. Thence southward by a line cut through jungle and marsh (1 mile 3 furlongs and 185 yards) to a second masonry pillar on the bank of the Lalmoi stream. Thence down the stream in a south-easterly direction for 226 yards. Thence by a line across jungle (298 yards) to a third masonry pillar at the foot of a hill.

Thence by a straight line (1¼ mile and 10 yards long) drawn across a wide impassable swamp southward to a fourth masonary pillar. Thence southward by a line (3 miles 1 furlong 118 yards) across hills and jungle, crossing the Mara Roopai cherra thrice to a very small stream called the Chota Shonai to the east of the village of Shonai khil. Then by a line (2 miles 3 furlongs 67 yards long) across low hills and jungle, south and south-eastward, crossing three jhiris to the Baromashia cherra. Along the Baromashia cherra to its junction with its tcha-cherry, where an earthen mound has been erected up the Dhobacherry a short distance; across the hill (430 yards); across the Docherry Dhooliacherry; across another hill (786 yards); across the Kootoocherry.

Thence by a line drawn eastwards (124 yards) crossing a swamp midway to the Kalapania stream, and along this stream all the way to its junction with the *Haldah river*, and down the Haldah; to the Mosholla cherra; up the Mosholla cherra south-eastward to the foot of a hill where an earthen mound has been erected; across the hill southward (3 furlongs 70 yards) to the Shapmara khal. Then along the banks of the Shapmara, crossing it after 336 yards and again after 240½ yards, to its junction with the Shookhiacherry, where an earthen mound has been erected; thence up stream and across a hill to the Khanjan cherra and up its tcha, where also an earthen mound has been erected. Thence down the Khanjan cherra to the Bhatkhola cherra and along this to the *Doloo river*; up the Doloo to the Bhootycherry and along it a short way; then by a line through jungle crossing the Bhootycherry 19 times to the Chota Kumari; by a line (¼ mile and 306½ yards) across the hills to the Burra Kumari; along it south-eastward to an earthen mound, whence across hills (449 yards) to the Kalapania tcha-cherra and so south-eastward to the second Kalapania cherra; up this, and across to the source of the Chikoucherry; down that to the Manickcherry tcha, so to the Manickcherry. Thence along the Manickcherry to the *river Droang*, and up the Droong to the Doodiacherry; up the Doodiacherry east and south-eastward to its tcha-cherry; thence south-eastward, crossing hills (235 yards) to the Ruktocherry tcha and Ruktocherry, and along this north-westward, crossing hills. Thence the line follows the eastern boundary of the Fennoca lot No. 19 (called the Ruktocherry lot), crossing the Chota Lelang and Maig Lelang (crossing the latter at its junction with the Kutubcherry). Thence eastward by and along the Kutub cherra (747 yards) and a foot-path (54 yards) to the foot of a hill where a tree has been marked; then crossing by a line (446½ yards) to the stream again; thence by a line (295 yards); again to the stream; after which along the stream (217 yards) to a gurjon-tree marked. Thence by a straight line (25 yards), again to the stream; along it for 25 yards, thence across hills (295 yards to the Kutubcherry once more, along it (180 yards), across hills (861 yards); crossing the Bet cherra twice. Thence up the Betcherry (364 yards), and across hills (62 yards), to a stream without name, and down this (113 yards) eastward. Thence by a line 131 yards long across a hill, and so south-eastward by the left bank of the stream again to the Benajuri. Thence up the Benajuri and its Docherry, and thence across (396 yards) to the Docherry again, and up its tcha (72½ yards); thence across hill (223 yards) to the Bagcherry, and down it to the *Surta river*. Up the Surta to the Puttecherry, up that to the Kalicherry, up that to its source; thence, crossing (668½ yards) hills and a hill path, to the Burra Kanal cherra, and down this to the Futtickcherry tcha and Chota Futtickcherry; to the Shilcherry; thence up the Shilcherry and its tcha to its source; thence across (83 yards) to the source of the Ruktocherry tcha, and down it to the Ruktocherry; up the Ruktocherry to a second tcha, and up this to its source; crossing to the source of, and down, another tributary of the Rukto cherra, so southward along it. Then a line across hills (159 yards) to another stream; down this and up its tcha to its source, crossing hills (half mile 538 yards). Thence to the Thandacherry tcha, and along the Thandacherry to the Dabooacherry tcha, and down the Dabooa to the Shoobooncherry; up the Shoobooncherry to its tcha, and up it southward. Thence a line (627 yards) to the source of the Pootia cherra, down it southward to the Furreedkhally, and up that to the Hatdhara cherra. Thence up to the Shakhacherry, down it to the Balukhally tcha;—at their junction

an earthen mound has been erected,—so to the Balukhally and up it to the source of its second tcha; thence crossing down the Barootia cherra from its source, and up to the source of its second tcha. Across to the source of the Haitobi cherra tcha; to the Chikon cherra; to the Kaskhally. Up the Kaskhally to the Chikoncherry; and up that to its source in a swamp.

Crossing the swamp down the Ooter Paonacherry to the Dhooliacherry *alias Mara Paonacherry*; down this to the Dakhin Paonacherry tcha, and Dakhin Paonacherry, and up to the Khondiacherry; so to the Shookna Dhepacherry. Up this last stream southward, leaving a great swamp to the right, to the Chota Hullodia, and down to the Burra Hullodia cherra. Up that eastward, and thence across the hills southward (72¾ yards) to the Balukhally cherra, and down it to the Raozan stream. Up the Chikoncherry to the Roniacherry, down that southward, crossing the Government road to Rangamattea, to the Bagmara cherra. Thence across hills (228 yards), and, after crossing the Moracherry, to the Chikoncherry; down that to the Shooknacherry; up this some way, then by a line across hills (370 yards), crossing the Moorcherry, to the source of the Jhiri cherra, then across (250¼ yards) hills southward to a swamp, which crossing, along the second Shooknacherry to the Bibi Dhala cherra, and along that eastward to the Kaskhally. Up the main Kaskhally cherra, and across a hill (68 yards), down the Pitlibonia cherra to the Shaharkhola cherra, and up this to the source of the Shookna cherra, crossing (43 yards) to the Hitoorolia cherra, and down it to the Bhomorsdhala cherra; to the Hatoolea *alias* Kokania cherra; and up the Kokania cherra to a steep hill. Crossing this steep hill, strike the Satikata cherra, follow to the Kiskichera cherra, and up to the source of its tcha; thence crossing the ridge to the Kanal cherra; to the Bhanga cherra, down it to the Futtickcherry; and along this to its source. Crossing the ridge to a jhiri cherra of the Buramye cherra, down the latter eastward to the Hatoeatoli cherra. Up the Hatooatoli northward; by a line (253 yards) across flat culturable jungle to a jhiri cherra, where an earthen mound has been erected. Down the jhiri cherra to the Doloo. Down the Doloo eastward to the Songy cherra; up the Songy cherra and along the measured western boundary of mouzah Pomra to the Shilcherry; up the Shilcherry to its source; crossing, down a tcha-cherra to the Chupperpara cherra; up it to a jhiri cherra, and up that, then crossing to tcha-cherra, so to a jhiri cherra, so to another tcha-cherra and along this to its source. Crossing the ridge (47 yards), down the Doloolonia cherra to the Ichakhally, and down it southward to the Pahy cherra. Up the Pahy cherra to the Thandacherry and its tcha; crossing (80 yards); then northward by a tcha-cherra a short distance, then by a line through hills (144¾ yards) north-westward; then down the Bharai Bhiti jhiri to the Shonaicherry; down the Shonaicherry to the Boarlub jhiri, and up that, crossing a road twice, to the Dheongyo cherra.

Up the Dheongyo cherra to its source. Thence, after crossing a ridge 66¼ (yards), by the Hemyle cherra to the Natcherry; down it to the Thandacherry and up the Thandacherry to its source. Thence by a line (268 yards) northward to the Boiragee Dhepacherry, down it to the Docherry. Up that a short distance, thence by a line (190½ yards) across hills westward to the Aralea-ghona Footeacherry, down it and up to the source of its jhiri. Then crossing the ridge north-westward (134½ yards) to the Longchoo cherra, and along it northward to a jhiri cherra, leaving this, across hills north-westerly for 288 yards to a tcha-jhiri, and down it to the Hemonto cherra. Northward, by the Hemonto cherra to the Chikon cherra. Up this and across hills (241 yards) to the Arjoin cherra; along it to the Shonaicherry; up the Shonaicherry to the Shilbooka dâk hut; northward, along the western boundary of the village of Thandacherry, to the source of the Margoma cherra. Across hills (201¾ yards) to the Burra Meghacherry; so to the Meghacherry. Thence across hills (389 yards) northwards to the Nanyacherry, down it to the Bhoramcherry; to the Boraitoli cherra, where an earthen mound has been erected. Up the Boraitoli cherra for about half mile. Thence by a line (260 yards) across hills to the stream; then again along the stream to its source. Northward by the Painkharonga *alias* Chikoncherry; eastward down the Chota Doloo to the Burra Doloo; down it south-eastward to the site of an earthen mound; thence northward across hills (about one and a half mile) to the Ichamutty, where a masonry pillar has been erected; then up to the Ichamutty to its junction with the Kawkhally, where another masonry pillar has been erected; thence south-eastward across hills (a little over one and a half mile) to the Ongjye Longkharongur stream, and down it due southward to the Betcherry; then along the Betcherry eastward, to the Burra Doloo, and its tcha up to its source. Thence by the Rajakhally tcha to the Rajakhally; by a line (262 yards) across hills due eastward; then again along the Rajakhally to its second tcha, along it southward to the Meghacherry tcha and the Meghacherry. Along the Meghacherry southward to Shooknacherry; along it a short distance to the *Rangamatea road*, where a masonry pillar has been erected. Along the road north-eastward to another masonry pillar, thence by a line over hills (384 yards), to the source of the Gagracherry tcha, so to the Gagracherry; up this to the Miringacherry; then up it and the Modonacherry to its source, crossing the ridge down the Molkarmar cherra to the Koormai cherra tcha. Along it, leaving the Koroikhally to the right, and its tcha to the left, to the Birbiria cherra; up it southward to the Mridinga cherra; up that to the Koormaicherry; thence up the Koormaicherry southward to the Sootacherry; up that to a Sonkhola. Thence across the hills (260 yards) to the Chikoncherry; along it eastward a short distance. Leaving the Chikoncherry to the left, down the Deotacherry to the Lemobonia cherra, down the Lemobonia to the Kengracherry; up that southward to the source of the Burra Marari tcha, and so to the Burra Marari. Down this to the second Kengracherry, and up to its source. Down the Kalicherry tcha to the Kalicherry, and up it to the Hanoomanya

cherra (also called the Kalicherry tcha); up this to the source of the Docherry tcha and the Docherry. Then along the Docherry, following the boundary of the Agoneah tea garden to the old Government road, where a masonry pillar has been erected.

Following the Government road southward to the Agoneacherry, then down stream. Leaving the cherra to the right, by a line across hills in a southward direction to the source of the Kookhyacherry; down it southward to the Peknacherry. Along the Peknacherry eastward to the source of its Docherry. Thence down the Charamonicherry to the Bynecherry; down the Bynecherry and up the jhiri cherra to its source; down the tcha-cherry to the Baroghonia cherra; down the Baroghonia to the Depultolicherry, and to its source, where a masonry pillar has been erected. Thence down stream to the Tripoorasoondery, and along it to its mouth, on the north bank of the Kurnafooly, where also a masonry pillar has been erected. From the mouth of the Tripoorasoondery, falling into the *Kurnafooly* a little below Chunderghona police-station; crossing the river south-westward, to the mouth of the Raikhally on the south bank; up the Raikhally southward to a stream draining Karomoollah's khola, up this stream; across the Government road to Bunderban; thence by a line through hills and jungles south-westward (one mile and 553 yards) to meet the Bunderban road. Then by a line cut across hills southward (559 yards); again meeting the Government road, and following it south-eastward to the edge of a swamp; crossing the swamp, follow the Kontamara cherra westward to the Kechookhola jhiri; up the jhiri and across a hill (114 yards) to the Kodala cherra; southward to its Docherry, and up along this. Thence by a line (one mile and 383 yards) across hills west and southward to the Chikon cherra, so to the Day cherra, then again by a line half a mile and seven yards south-westward, across hills, swamps, and low jungle, to meet and follow a foot-path forming, for about three miles, the eastern boundary of the village of Puddua (Kismuts Hurry Hur and Sharashia), so to the Dholiacherry. Down the stream draining Bakerali's khola, southward to the Foy Dhepa cherra; down which to the Jhumka; up the Jhumka eastward, to the source of the Gojalia; crossing to the Dhepacherry, so to the Shilok, and along it south-eastward to the "Magher gurjon khola jhiri;" up this west and southward to the Jogkhally cherra, then crossing the Government road, up the Kay cherra south and south-westward; across; down the Momfroo cherra tcha to the Momfroo cherra, and along it southward to the *Chemy* or *Seermye*, a large tributary of the Sangoo; thence along the course of the Chemy southward to the *Sangoo river;* thence by the left bank of the Sangoo south-eastward and across to the mouth of the Raicha. From the south bank of the Sangoo, up the Raicha to the Shonaicherry; up the Shonaicherry to the foot of a hill; thence by a line (one-fourth of a mile) south-westward across hills to the Shooblong Shonaicherry, and along it to the Shooblong; following the Shooblong to the Keta Chioni cherra; thence up the Keta Chioni cherra southward a short distance; thence by a line across hills (181½ yards); down the Docherry to the Roodrakhio cherra, and down it to the Namonda cherra; thence along the Namonda cherra south-eastward to the Lal jhiri, and up it southward; across a hill by a line (72½ yards) south-westward; down the Kalachia jhiri to the Ookhia cherra, and down that to the Ooloobania cherra, along this to its source; then by a line across hills (297 yards) eastward; down the Bara jhiri to the Chama Boorul, and along it south-westward to the Chingcherry; up stream to the foot of a hill, crossing by a line 78½ yards long; down the Mittabonea jhiri due southward to the Lona cherra. Up the Lona cherra and its tcha eastward; crossing hills (94½ yards) down the Mittacherry tcha to the Mittacherry; and down it to the Northern Hangar.

Down the Northern Hangar about one mile to a small jhiri across hills, down the Chadder cherra to the *Charomba,* and down it again to the Northern Hangar, which is followed to its junction with the Dukhin Hangar. Up this to follow the north and eastern boundary of mouzah Charomba, and leaving the Chingcherra jhiri and Ichapur jhiri to the left, after about three miles to reach and follow a jhiri for a short distance eastward; across hills (44½ yards) to another jhiri; down the jhiri to the Bagmara, up this and its tcha jhiri; and eastward across hills (196½ yards to a third jhiri; down this to the Dholiacherry.

Up the Dholiacherry a short distance eastward; then by a jhiri to the foot of a hill thence by a line (112 yards) across hills southward to another jhiri. Down it to the Jungcherry. Up the Jungcherry to the Khida cherra; crossing by a line (202 yards) to the Shilcherry. Down the Shilcherry to the Kamaha cherra, and down it southward to the *Tak stream.* Then up the Tak or Tonkbotty to the Foolgazy cherra, and up to its source; crossing (208 yards); by the Chota Dholiacherry south-westward to the Dholiacherry; up the Dholiacherry about one and a half miles to a jhiri; crossing (112 yards); to another jhiri eastward; thence southward across hills (271 yards), down another Dholiacherry; to a jhiri; crossing a hill (52 yards); down a jhiri to the Sharoi khall. Up the Sharoi khall eastward to another jhiri, then up it; across a hill; along the Kallaqa cherra; up stream to a jhiri and up to its source; then across hills (90 yards), along the Goda Joomia cherra; across a hill; down the Sharoi khall westward, to the Nyccha jhiri and up it; across hills due southward; down the Abdoolla Pyar jhiri to the Poolong cherra; and up it and its Docherry to a jhiri. Up this jhiri and then by a line (140 yards) across hills, then down the Chingcherry to a jhiri, and up it to its source; crossing hills (210 yards); down a jhiri to the Polcherra, and down it and up the Garania Nashi jhiri to its source, where an earthen mound has been erected. Then down a jhiri to the Himcherry, along the Himcherry eastward to another jhiri, and up it to the foot of a hill. Crossing the hill (106 yards); down a tcha-cherra to the Chikon cherra, and down it to the Andari cherra, down the Andari cherra westward to the Doloo cherra, and up it to the Saliong cherra, and up this and a jhiri; crossing

hills (118 yards); down the Bodona jhiri to the Feranga, and up the Feranga about three miles; then northward by a jhiri, and across hills (428 yards) to the Dholiacherry, down it to the Ramcherry, down it to the Chemicherry, and down it about two miles; then up the Sadaroshacherry to its source; crossing westward (153 yards); down the Nakata cherra to the Chanda cherra, down it and up a jhiri to its source; across hills (236 yards), and down a jhiri to the Satgur. Down the Satgur to the Docherry, up it to its source; crossing the ridge (168 yards); down the Himcherry Docherry to the Himcherry, and up the Himcherry; crossing hills, follow the Government road through Choonatee dhala for a little over half a mile; then eastward by a jhiri to the Harbang khall. Along the opposite jhiri a very short distance, then up the Futtickcherry and its tcha to its source; across hills southward (152 yards); down the Doliacherry and up a jhiri; crossing hills (117 yards); down the Loha jhiri to the Katoli cherra; along the Katoli cherra; southward, and a short way; thence up the Jarooltoli jhiri to its source.

Crossing hills eastward (153 yards), to the Harin Mara jhiri, and down it to the Burra Chikon cherra, up to the Amratoli cherra, to its source. Crossing the ridge (124 yards), due southward; down the Shapmara jhiri to the Chota Chikoncherry; and down it, and up the Chalitatoli cherra to its source; crossing a small hill here (70 yards); up the Jarooltoli jhiri to its source; then by a line across hills 288 yards long to the Footia jhiri cherra. Then along the Footia jhiri cherra south-south-west; thence up a jhiri to the foot of a hill; crossing the hill, a little down the Bhoota Bancha cherra to the Hejakha cherra. Thence down it a short distance, then up a jhiri to the foot of another hill; crossing this hill also, down the Dholiacherry to a jhiri and up it to its source; then by a line over hills (64 yards); then down a jhiri to the Domnakata cherra *alias* Toblacherry; then up a tcha southward to the foot of a small hill. After crossing the hill, up the Dholiacherry southward to another hill. Crossing this hill also (81 yards), down the Kana Pokkhar jhiri to the Pokkhaya jhiri; down it southward to the Shonaicherry; down it to the Hatra jhiri; up the Hatra jhiri to the Mogiar bapar jhiri, to its source. Crossing here (67 yards), down a small jhiri to the Harinakoca cherra; down it to the Ramcherry; up the Ramcherry southward to a jhiri, and up it to the foot of a hill. Crossing this hill, by a jhiri down stream to the Tahir cherra, and down it south-westward to the Himcherry; then up the Himcherry westward about half a mile; then up a jhiri; crossing the ridge; down a jhiri to the Ramkristokata cherra, and down it to another jhiri, up a jhiri eastward; crossing hills (168 yards); down a jhiri to the Dholiacherry and up an opposite jhiri. Again crossing hills (67 yards), down a jhiri to the Bania cherra, down it to the Pecha cherra, and down it to the Rangy cherra. Along the Rangy cherra eastward, and up a jhiri crossing hills (160 yards); to a jhiri, to the Mash Kobiar cherra, and up a jhiri to another hill; crossing this hill (86 yards), along the Ghillatoli cherra up stream, crossing again hill (153½ yards); down a stream called Boorar Polar Khalar cherra to a Docherry, and up it; crossing again (191 yards), down another Docherry southward to the Hatiar cherra, and up it northward; again crossing hills (222 yards); eastward by a jhiri to the Mittacherry, and down it to the Fyetong cherra; then down the Fyetong to the Fadoo cherra. Thence up the Fadoo cherra to a jhiri, down the jhiri to Kharikhyar cherra, up it northward, crossing the hills eastward, down the Dolooscherry south-eastward to the Jialcherry; up it southward to the Docherry, and up the Docherry by a jhiri, then by a line across hills (152 yards) and southward by a stream (called Akber's father's Doary); again crossing hills; down the Nuzzer Khola cherra to the Takser cherra, and down it southward to the Pagly cherra. Up the Pagly cherra to the Himcherry and its jhiri, southward crossing hill (46 yards); up the Chhatacheng cherra; crossing a small hill; down a stream westward to "Bompahar" hill; crossing this hill; along the Mongoocherry jhiri, to another hill; crossing this; along the second Mongoocherra jhiri to another hill; crossing this hill also, down the Chak cherra to the *river Matamori*. The line then follows the course of the Matamori up stream, till it reaches the Bomoo; then up the Bomoo a short distance; then up the Keogong cherra eastward to some hills; crossing southward to the Burra Bomoo, along it to the Bomoocherry, following this a short distance, then up the Shapmara jhiri to the source of the Docherry. Crossing (237 yards) down the Kalabonea cherra southward to the Shil jhiri, and down it to the Chitta Halea cherra; up this to hills again. A line across hills south-south-eastward (177 yards); then down the Thayngo cherra to the Chota Feranga; and down that to the Noona cherra; down the Noona cherra to the Burra Feranga; up that to its source, then crossing the ridge to the source of the Burra Bomoo, and along it down stream to the Fadoo. Thence along the Fadoo and up the Khanda, across to the Chioni cherra (north-east of the village of Bomoo); and up the Chioni cherra to Pamsha cherra, at its junction with the Lemoo jhiri tcha, where an earthen mound has been thrown up. Along the Lemoo jhiri tcha southward to the Lemoo jhiri; so to the Chota Bomoo; at the junction of the Lemoo jhiri with the Chota Bomoo, a masonry pillar has been erected. Following the Chota Bomoo a short distance southward, the line reaches the *river Matamori* at the north-east corner of the village of Bilcherry. The line from the Chioni cherra to the Matamori forms the eastern boundary of the village of Bomoo.

From the river Matamori along its east and south bank; thence by a line cut through jungle and hills (1,080 yards) south of the village of Bilcherry, cutting the Jalnikashi cherra and a small tank about half way, reaches the tcha jhiri. Thence along it to the Goda nulla, and down this to meet the *river Matamori* again. Thence follows the course of the Matamori westward to the mouth of the Yangtcha Kheoung, which is followed up stream; then across to the Himcherry, and thence to the Chota Himcherry. The line from the Yangtcha to the Himcherry forms the western boundary of the village of Soorujpore. From the Chota Himcherry up stream to the source of the Chota Himcherry tcha, and across to the

Burra Boalia; along this to its Docherry, and thence across to the Garamcherry, and up to its source; thence along the Goomaicherry up to the source of the Goomaicherry tcha. Thence along the Doloocherry westward to meet the Matamori again. Here a masonry pillar has been erected. The line from the Chota Himcherry to the mouth of the Doloocherry forms the southern boundary of the village of Soorujpore. From the masonry pillar at the mouth of the Doloocherry, along the south bank of the Matamori, to the mouth of the Ghooniacherry. This portion forms the southern boundary of the village of Kakra. Thence up the Ghooniacherry (to the south-east of the village of Ghoonia) to the source of the Bara jhiri. Then, crossing a foot-path leading to hill villages, the line follows the Bichania cherra from its source to the Kumari. Then along the Kumari eastward; thence southward by a line cut through jungles and hills (51 yards) to the Docherry, along it westward to the Pania jhiri; and from the Pania jhiri to the Fashiakhally. (The line from the Kumari to the Fashiakhally forms the northern, eastern, and southern boundary of the village of Oochitar beel.) Thence along the Fashiakhally south and south-eastward to the Hoai Hoary cherra. Thence westward by the boundary of Mr. Neish's land, (a line cut through the jungle and along the foot of the hills for about a mile to the Gooia cherra). Down this stream to a marked tree, then southward by a line cut across hills for half a mile to the Doolahazara stream, and down this to the Ahonsha jhiri. The line from the Fashiakhally to the Ahonsha jhiri forms the eastern and southern boundary of mouzah Ringbhang. Thence along the Ahonsha jhiri bounding the village Boga Chutter on the north to the tcha jhiri; thence to the source of Ahonsha jhiri tcha, and across to the Joommoni cherra tcha, and so to the Joommoni cherra, where an earthen mound has been erected. Along the cherra eastward to its next tcha, and up this to its source. Thence, crossing a hill due southward, by the Burra Chirotia cherra to the Bagacherry, along it to the Burra Bagacherry. Thence across to the Chondontoli jhiri tcha, and so south and south-westward to the Chondontoli cherra; along this south-westwards to the Pagli cherra, and by it to the Magkata jhiri. (The line from the Ahonsha jhiri to Magkata jhiri forms the north and eastern boundary of the village of Bagachutter.) From the Magkata jhiri up stream east and south-eastward to its source; thence by a line cut across hills (214 yards); and thence southward by the Koorooppata cherra, and along it south-westward to the Hargizacherry. Down this westward to the *old Eedgong road* (known as *White's road*). The line from the Magkata jhiri to the Hargoza forms the east and southern boundary of the village of Paglar beel. Where this road meets the Hargoza, an earthen mound has been erected. Thence along White's road eastward and south-eastward, bounding the village of Khoomtakhally on the north, then after crossing the Kamia jhiri thrice, the Ghoomti cherra once, the Khoomtakhally stream once, the Khoomtakhally jhiri once, the Pania jhiri once, the Gurjonkhola jhiri once, the Koomirmara jhiri once, and the Koomirmara *alias* Jiolcherry once, the line is carried southward to the Bottolia cherra, and up this east and north-eastward to form the northern boundary of the village of Eedghur; thence following the Bottolia cherra tcha to its source; thence crossing to the source of the Karoitolia cherra, down it southward to the Eedgong stream. (The line from the Bottolia cherra to the Eedgong river forms the eastern boundary of Eedghur.) The line then follows the course of the Eedgong, south and south-westward to its tcha; then eastward up this to its source; then crossing to the Dooliacherry and so to the Dooliacherry tcha; thence across to the Koomarchak jhiri, up to its source, across to the Alli Khiong jhiri tcha, and so to the Alli Khiong. Thence by it up stream, east and south-eastward to the Bhedhrmar jhiri, turning southward by the Docherry to its source; then, across, to the Renour jhiri tcha; and so to the Renour jhiri up to its source, again crossing southward to the Shakar jhiri; thence south-westward to the Chota Gurjonea, and by it south-west, south and south-eastward to its tcha, by which, north-eastward, to the Faree khall. Due southward by the Faree khall to the Burra Gurjonea cherra, and by it north and north-eastward to the Harinkhyea cherra; along it eastward to its tcha; thence south and south-eastward to the source of the Thimcherry jhiri tcha and so to the Thimcherry, turning thence east and north-eastward to the Ramir jhiri, and along it eastward to its source; then crossing southward to the Footea jhiri, and along it south-south-eastward to the Chagolkhyea cherra; thence down stream to the *Bagkhally river*, along the Bagkhally east and south-eastward, to form the southern boundary of the village of Gurjonea, to the Chikoncherry; then by it southward to the Krindomcherry up to its source; then crossing southward to the Cheputcherry, so to the Jarool Totia cherra, and down it to the Bagkhally Docherry; along this south and south-westward to the Moonur Mariherra or Mama Bhaginar cherra, to its source; thence by a line cut across hills (52 yards) southward to the Burra Jungcherry tcha; down this to the Burra Jungcherry; and along this south and eastward to its tcha; thence crossing to the Sangsi Mourong cherra, so southward to the Chota Jungcherry Docherry, and thence south and south-westward to the Chota Jungcherry; and up it south and south-eastward to Thy Mourong cherra to its source. Then crossing westward by the Jaroolia cherra to the Jungcherry; southward by a line 213½ yards meets the *Gurjonia road* (*White's road*), and follows it south-east and south-westward to the Hyeth Mara cherra; along this south and westward to the foot of a hill. Thence by a line cut across jungles and hills north and north-westward (4 miles 167 yards) to the Golachirra cherra, and along it westward to Nhykoungcherry. Then along it up stream, north and north-westward to its tcha, and up this westward to its source; then crossing to the Shoshang cherra tcha and so to Shoshang cherra, and down this northward to the Jaliacherry, along which southward to the Noonydoong cherra, to close the eastern boundary of mouzah Monir Jhiel, down the Noonydoong (24 yards) and to its tcha, up this to its source; thence crossing to the Keokea cherra tcha, and so to the Keokea cherra; thence southward to its second tcha; then crossing

southward by the Naplye cherra tcha to Naplye cherra, and along it westward and a little north-westward to the Shonaicherry.

Then by the Shonaicherry north-westward to its junction with the Noonakata cherra, where an earthen mound has been erected. Thence up the Noonakata cherra south-westward to a swamp (dhepa), and by a line cut across this westward and north-eastward to a hill, thence across hills and jungles west and southward (4 miles 7 furlongs 184½ yards) to the Hny cherra cherry and along it down stream to meet the *Rejoo river* to the south of the village of Dariadiggy.

Along the Rejoo river down stream to the Mugmara jhiri; thence up it by its tcha jhiri. Then by a line cut across hills southward (3 furlongs 133 yards) to the Tarabonea cherra tcha, so to the Tarabonea cherra; here an earthen mound has been erected. Thence southward by the Tarabonea cherra to the Paglicherry; here another earthen mound has been erected. Thence along the Paglicherry down stream south-westward to the Jamirtolea cherra, and by it up north and south-eastward to the foot of a hill. Thence southward by a line cut across the hill (2 furlongs 97 yards) to the Keokia cherra, southern Docherry; down that to the northern Docherry. Thence to the Keokia cherra, and along it east and south-eastward, forming northern boundary of the village of Bhalukea Palong, to its southern Docherry, and up that to its source. Then crossing by the Shooknacherry to the Haldia or Thimcherry, up which to its tcha, and up that to a swamp; across which (1 furlong 208 yards) to the foot of the hills. Thence by a line across the hills (79¾ yards) to another dhepa (swamp). Thence southward (after ¼th of a mile) to the Hatratoli cherra. Then by the Hatratoli cherra up stream south to the source of its tcha; then crossing by the Hijlea cherra tcha southward to the Hijlea cherra, and along it upward to the source of another tcha opposite.

The line then runs eastward across hills (60 yards) to a tcha, and so to the Chota Rejoo Docherry, and south-eastward to the southern bank of the *Rejoo river;* here an earthen mound has been erected; south-eastward down stream to the Gamaikhally *alias* Goondomcherra tcha. Thence along the boundary of mouzah Dorgabil to the Goondom cherra, and down it southward to the Matandi cherra, and by this to meet the *Ookhia Ghât Road,* where a jâm-tree has been marked and an earthen mound erected. The line thence follows the road southwards, crossing the Ookhia cherra tcha twice, to another marked tree, where also an earthen mound has been erected. Thence by a line cut across jungle and low hills south-eastward (2 furlongs 106 yards) past the corner of Ookhia ghât tank, to the Januracherry, crossing it southward; again re-crossing it (2 furlongs 14½ yards) further on; thence further south and south-westward (2 furlongs and 89 yards) to meet the Ookhia cherra at the mouth of the Januracherry. Thence down the Ookhia cherra to the mouth of the Ookhia Goon Doong, on the frontier of Arracan.

Explanatory glossary –

"Cherra"	...	...	A hill stream.
"Do cherra"	...	...	One of two branches combining to form a "cherra.
"Tcha	...	...	A streamlet tributary to a "cherra."
"Jhiri"	...	...	A swampy streamlet.
"Dhala"	...	...	A pass through hills.

Note—The word "crossing" used above, means "crossing" the ridge or watershed between two streams.

NOTIFICATION.

The 3rd September 1880.—It is hereby notified for general information that the Lieutenant-Governor is pleased to transfer thana Gopibullubpore from the jurisdiction of the Midnapore Moonsiffee, to that of the Dantoon Moonsiffee from the 1st October 1880.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

The 4th September 1880.—The following notification is published for general information.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.—MARINE BRANCH—MILITARY DEPARTMENT.

NOTICE TO MARINERS.—(No. 10.)

BAY OF BENGAL—COROMANDEL COAST—MADRAS.

Changes in the Buoyage of the Port.

WITH reference to Notice to Mariners, No. 27, issued from this Department on the 21st August 1879, it is further notified that, owing to the continual extension of the harbour piers into deep water, and in order to permit of a greater space being available for steamers inside the harbour piers, it has become necessary to remove the large red buoy which hitherto marked the western limit of the anchorage for steamers.

Commanders of steamers are warned by the Marine Authorities at Madras not to anchor between the piers in less than 5½ fathoms at low-water; and that when anchoring in this depth, they will do so on their own responsibility, and with the exercise of care and judgment.

All sailing vessels, excepting dhonies, should anchor in or beyond the 8½-fathom line of soundings, and outside the northern and southern port buoys.

The port buoys are painted red and white vertically, and are anchored in 8 fathoms. These buoys are *danger* buoys, and Commanders of vessels, making or leaving the anchorage are hereby warned *not to pass inshore* of either of them, nor come under 9 fathoms by night.

The northern buoy marks the position which will form the extreme end of the north pier.

Vessels are on no account to venture between the northern buoy and the north pier, nor between the southern buoy and the south pier, as the rubble bases of both piers extend much further seaward than the piers themselves.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, *the* 31*st August* 1880.

This Notice affects the following:—

BRITISH ADMIRALTY Charts Nos. 71*c* & *d*, 828, 70*a*, and 748*b*.
INDIAN MARINE SURVEY Charts, Nos. 105, 15*b*, and 103*a*.
Taylor's Sailing Directory, Vol. I, page 458.

If this Notice is received on board ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

[Second Publication.]

DECLARATION.

The 13*th September* 1880.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a Post Office house at Atrai, in the village of Tetoolia, pergunnah Khatta, district Rajshahye, it is hereby declared that for the above purpose a piece of land measuring, more or less, seven cottahs two chittacks of standard measurement, bounded on the south by a village road and the Atrai river; on the east by a village road; on the north by the house of Pabitra Bewa and Ramdhon Manjee; and on the west by the land of Krisno Moyee Debya, held by Ram Dhon Manjee, is required within the aforesaid village of Tetoolia.

This declaration is made, under the provisions of Section 6 of Act X of 1870, to all whom it may concern.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 4273A.

The 9*th September* 1880.—Mr. W. N. Reid, Indigo-planter at Chainpur, is appointed to be an Honorary Magistrate for the Bhubooah Bench of Magistrates in the district of Shahabad, and is vested with the powers of a Magistrate of the Third Class.

The 17*th September* 1880.—Baboo Doorga Churn Ghose, Sub-Deputy Collector, Kutubdia, Chittagong, is vested with the powers of a Magistrate of the Third Class.

Baboo Sheo Nundun Lal Roy, Officiating Deputy Magistrate and Deputy Collector, Shahabad, is vested with the powers of a Magistrate of the Third Class.

The 21*st September* 1880.—Baboo Kapali Prosunno Mookerjee, M.A. and B.L., is appointed to officiate as a Moonsif in the district of Noakholly during the absence, on leave, of Baboo Hur Kumar Dass, or until further orders.

HIGH COURT NOTICES.

NOTIFICATION.

The following rules, made by the High Court of Judicature at Fort William in Bengal under section 37 of the Letters Patent and under section 652 of the Code of Civil Procedure (Act X of 1877), are published for general information.

FORT WILLIAM, the 16*th September* 1880. J. CRAWFURD, *Registrar.*

RULES.

I. The following words shall be added as a note to Form No. 173. Schedule IV of the Code of Civil Procedure, being the form of the notice required by section 553 to be served on the respondent or his pleader :—

"Take notice also that if you intend, under section 561, to take any objection to the decree in this case which you could have taken by way of appeal, notice of such objection must be filed in the Appellate Court not later than seven days before the date fixed for the hearing of this appeal."

II. In the case of appeals in the High Court, the date to be fixed for the hearing of an appeal shall be the 28th day after that on which the time allowed for the service of the notice expires, provided that such a day be not a Sunday or holiday, in which case the first business day afterwards will be the day of hearing.

III. In the subordinate Appellate Courts, the date for hearing an appeal shall be fixed so as to allow sufficient time to every respondent to give the notice of any objection he may intend to take to the decree required by section 561 of the Code.

EDUCATIONAL NOTICES.

Calcutta University.

NOTICE.

The Senate will proceed in the month of March 1881 to the election of a Tagore Professor for the term of one year to commence on the 1st of September 1881.

The salary of the Professorship is Rs. 10,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures upon *one* of the following subjects :—

(1) Undivided Hindu family,—Status, rights, liabilities, and privileges of its members under the different schools of Hindu Law.
(2) The Law relating to the Disposition of Property among the Mahomedans.
(3) The Law of Limitation and Prescription in British India, including Easements.
(4) The Law of Testamentary Devise as administered in British India.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st of January 1881, and at the same time to state on which of the above-mentioned four subjects they are prepared to lecture.

CHARLES H. TAWNEY, *Registrar.*

SENATE HOUSE, *the 18th September* 1880.

Notice is hereby given that in the ensuing half-yearly examination of Assistants, Deputy Magistrates, and others, there will be one seat of examination for the officers employed in all the districts of the Bhagulpore Division, viz. at Bhagulpore. The examination will be held in the Commissioner's Office.

K. B. MUKERJI, *for Commissioner.*

BHAGULPORE, *the 17th September* 1880.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 996B.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1877-78 and 1878-79, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Wednesday, the 29th* September 1880, at 11 A.M., and will comprise 4,700 chests, viz.—

		Chests.
Behar Opium	... ...	2,350
Benares ,,	... ...	2,350
	Total ...	4,700

Of the 2,350 chests of Benares Opium 271 are of a consistence of 75°. The usual consistence of Benares Opium is 70°. These 271 chests are numbered 17176 to 17446, and are marked with a red × on each end.

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 2nd December 1879, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest date for deposit will be the 5th October 1880, and the latest date for clearance will, owing to the intervention of the Doorga Pooja holidays, be the 21st October 1880—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 5th October 1880, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 21st October 1880.

4. The following table shows the quantity of Opium that will be brought to sale in the next twelve months. The Board of Revenue, however, reserve to themselves the right of altering dates should circumstances render it expedient to do so :—

DATES.	Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Thursday, 4th November 1880 ...	2,350	2,350	4,700
Ditto Wednesday, 1st December ,, ...	2,350	2,350	4,700
Early in January 1881 ...	2,350	2,350	4,700
,, February ,, ...	2,350	2,350	4,700
,, March ,, ...	2,350	2,350	4,700
,, April ,, ...	2,350	2,350	4,700
,, May ,, ...	The number of chests of each kind to be sold each month will be advertized hereafter.		4,700
,, June ,, ...			4,700
,, July ,, ...			4,700
,, August ,, ...			4,700
,, September ,, ...			4,700
,, October ,, ...			4,700
Total ...	.....	.....	56,400

By order of the Board of Revenue, L. P.,

A. FORBES, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, *the 24th August* 1880.

* This date has been changed from the 4th October 1880, as fixed in the general notification dated 2nd December 1879, on a presentation from the merchants.

No. 859B.

IT is hereby notified that out of the 3,000 chests of Benares opium of 1878-79 of 75° consistence, referred to in Clause 18 of the Board's general notification No. 1581B, dated 2nd December 1879, 271 chests will be sold at the sale on the 4th October next, together with 2,079 chests of Benares opium of 1877-78.

The remaining quantity of the 3,000 chests of Benares opium at 75° of 1878-79 will be sold as follows as a part of the fixed monthly number of 2,350 Benares chests :—

4th November 1880	500 chests.
1st December ,, ...	500 ,,
January 1881	500 ,,
February ,, ...	500 ,,
March ,, ...	500 ,,
April ,, ...	229 ,,

By order of the Board of Revenue, L. P.,

A. FORBES, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, *the 20th July* 1880.

NOTICE.

THE Custom House will be closed on account of the Doorgah Poojah holidays from the 10th to the 13th October, both days inclusive, and from the 16th to the 18th October, both days inclusive.

The office will be open *as usual* for the transaction of business on the 8th, 9th, 14th, 15th and 19th October.

Cash payments will not be received after 3 P.M. on Thursday, 7th October, until Wednesday, 20th October.

Consignees and others desirous of passing goods, and entering or clearing ships during the above periods, will have to make the usual deposits not later than noon on the 7th October.

J. SCOBELL ARMSTRONG,
Officiating Collector of Customs.

CALCUTTA CUSTOM HOUSE, *the 4th September* 1880.

NOTIFICATION.

NOTICE is hereby given that in the case of vessels proceeding to the ports or places specified below—

One of the following documents will be required by the Collector of Customs from the Master, under section 63, clause (*b*), Act VIII of 1878, before port-clearance is granted.

In the case of vessels carrying native passengers—

(1) A certificate from the Protector of Emigrants in the form prescribed under Government order No. 1730, dated 8th July 1846.

In the case of vessels carrying no native passengers—

(2) A certificate from the Master of the vessel that he neither has nor will take on board any such passengers.

Dacca Collector's Office, the 17th August 1880. T. E COCHRAN, Offg Collector.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situate in the district of Noakholly will be put up to sale at the Noakholly Collectorate on 28th September 1880, Tuesday, corresponding with 13th Assin 1287, B S. The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidder above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number in statement of Government estates.	Number on the district roll.	Name of estate and pergunnah.	Approximate area in acres.	Government revenue assessed.	Upset price at twice the revenue.

Chief Clerk's Office, the 14th day of September 1880.

IN the matter of HENRY HORATIO ARDWISE, an Insolvent.

On Tuesday, the 14th day of September instant, it was ordered that the hearing of this matter do stand adjourned until the first Court day of January next, and that the order made in this matter for the *ad interim* protection of the said Insolvent from arrest be enlarged to the said first Court day in January next, and that the said Insolvent do then attend to be examined before the said Court.

M. M. Zorab, Attorney. (359—1)

IN the matter of HENRY TWISDEN FORBES, an Insolvent.

On Tuesday, the 14th day of September instant, it was ordered that the hearing of this matter do stand adjourned until Tuesday, the 7th day of December next, and that the order made in this matter for the *ad interim* protection of the said Insolvent from arrest be enlarged to the said 7th day of December next, and that the said Insolvent do then attend to be examined before the said Court.

Dignam and Robinson, Attorneys. (360—1)

IN the matter of FERDINAND ALBERT KLEYN, an Insolvent.

On Tuesday, the 6th day of July last, by an order of this Court the said Insolvent was adjudged entitled to his personal discharge under the Act XI Vic, Chap. XXI, as to all persons named in his schedule as creditors or claiming to be creditors respectively.

H. R. Fink, Attorney. (361—1)

IN the matter of ARTHUR TEMPLETON, an Insolvent.

On Tuesday, the 24th day of August last, it was ordered that the hearing of this matter do stand adjourned until the first Court day in March next, and that the order made in this matter for the *ad interim* protection of the said Insolvent from arrest be enlarged to the said first Court day in March next, provided the said Insolvent shall in the interim pay the Official Assignee of this Court monthly for the benefit of the estate of the said Insolvent one-fourth a month out of his salary; the first of such payment to be made on the 6th day of September next and thereafter on the 6th day of each succeeding month, and that the said Insolvent do then attend to obtain his personal discharge before the said Court.

Wilson and Chatterjee, Attorneys. (362—1)

IN the matter of NOBIN CHUNDER ROY, of No. 262, Upper Chitpore Road, Baug Bazar, in the town of Calcutta, ironmonger, an Insolvent.

Notice that the petition of the said Insolvent seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the office of the Chief Clerk on Monday, the 13th day of September instant, and by an order of the same date the whole and effects of the said Insolvent were vested in the Official Assignee.

Bissonauth Dutt, Attorney. (363—1)

Chief Clerk's Office, the 21st day of September 1880.

O. 11. Indian Ocean, Curves of equal magnetic variation By R. C. Carrington, F.R.A.S. *Price, Annas* 8.

INDIA, WEST COAST.

N. 15. Kurrachee to Vingorla. Compiled from the latest Government Surveys, by R. C. Carrington, F.R.A.S., 1876. *Price, Re.* 1-12.

N. 15*a*. Vingorla to Cape Comorin. Compiled from the latest Government Surveys, by R. C. Carrington, F.R.A.S., 1876. *Price, Re.* 1-12.

N. 25. Port of Salaya or Seraia. By Commander A. D. Taylor, I.N., 1879. *Price, Re.* 1.

N. 1217. Cutch Mandvi. By Commander A. D. Taylor, I.N., corrected to 1879. *Price, Re* 1.

N. 27. Veráwal Roads. By Lieutenants Constable and Stiffe, I.N., 1853, corrected to 1878. *Price, Re.* 1.

K. 67. Bombay Harbour, showing the outer fishing-stakes, by Commander A. D. Taylor, I.N., May 1877. *Price, Annas* 8.

M. 39. Sketch of the Entrance to Rajpuri River. By Navigating Lieutenant W. P. Haynes, R.N., 1876. *Price, Annas* 8

M. 1190. Ratnagiri, including Mirya and Kalbadavie Bays. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1878. *Price, Re.* 1.

M. 1231. Kundari Island to Chaul. By Navigating Lieutenant F W. Jarrad, R.N., F.R.A.S., 1879. *Price, Re.* 1.

M. 1232. Chaul and Entrance to Kundalika River. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1879 *Price, Re.* 1.

M. 1191. Rajapur Bay and Viziadurg with adjacent coast. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1878 *Price, Re.* 1.

M. 1233. Jaygad and Entrance to Shastri River. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1879. *Price, Re.* 1.

M. 1234. Dabhol and Entrance to Wáshishti River. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1879. *Price, Re.* 1.

M. 48. Goa and Marmagao Roadsteads. By Commander A. D. Taylor, I.N., 1877. *Price, Annas* 12.

L. 1176. Narakel Anchorage. Compiled from the latest Government Surveys, 1878. *Price, Annas* 8.

I. 851. Quilon Roads. By Lieutenant A. D. Taylor, I.N., 1858. *Price, Annas* 8.

K. 61. Lakadivh Group—Cherbaniani Reef, Chitlac and Kiltan Islands. By Lieutenants Selby and Taylor, I.N., 1848. *Price, Annas* 12.

L. 58. Byramgore Reef or Chereapani, and Angria Bank. By Lieutenants Selby and Taylor, I.N., 1848. *Price, Annas* 8.

J. 81. Kolachel Roadstead, with plan of Enciam Rocks. Surveyed by M. Chapman, I.N., 1875. *Price, Re.* 1-8.

EAST COAST OF INDIA, BAY OF BENGAL, CEYLON, &c.

N. 15*b*. Cape Comorin to Coconada, including the Island of Ceylon. Compiled from the latest Government Surveys, by R C. Carrington, F.R.A.S., 1876. *Price Re.* 1-12.

M. 1218. Tuticorin Roadstead and Harbour. Surveyed by M. Chapman, I.N. 1879. *Price, Re.* 1.

G. 93. Approaches to Jafnapatam. Compiled from the latest Government Surveys, 1878. *Price, Re.* 1.

G. 95. Paumben Pass. Surveyed by M. Chapman, I.N., 1878. *Price, Re.* 1.

G. 1184. Approaches to Paumben Pass. Surveyed by M. Chapman, I.N., 1878. *Price, Re.* 1.

G. 1235 Mullaittivu or Moeletivoo. By J. Donnan, 1879. *Price, Annas* 8.

G. 1175. Colombo Harbour and its approaches. Compiled from the latest Government Surveys, 1878. *Price, Re.* 1.

Office No. of Chart.

G. 1171. Approaches to Point de Galle Harbour, Ceylon. By T. H. Twyman and Commander A. D. Taylor, 1877. *Price, Re.* 1.

F. 103*a*. Bay of Bengal, Western Sheet. Compiled from the latest Government Surveys, by R. C. Carrington, F.R.A.S., 1878. *Price, Re.* 2.

F. 103*b*. Bay of Bengal, Eastern Sheet. Compiled from the latest Government Surveys by R. C. Carrington, F.R.A.S., 1879. *Price, Re.* 2.

F. 104. Coromandel Coast, Sheet No. 2, from Latitude 15° to 16° 30′ N. *Price, Re.* 1.

F. 104. Sheet No. 3, from Latitude 13° to 15° N. *Price, Re.* 1.

F. 104. Sheet No. 4. Lieutenant M. A. Sweny, I.N., 1859-60. *Price, Re.* 1.

F. 105. Madras Roadstead. Surveyed by Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1876. *Price, Re.* 1.

F. 1172. Orissa Coast, Narsapur Point to Palmyras Point, adapted to the latest determinations of the G. T. S., and observations by Commander A. D. Taylor, I.N. Compiled by R. C. Carrington, F.R.A.S., corrected to 1878. *Price, Re.* 1

N. 15*c*. Coconada to Bassein River. Compiled from the latest Government Surveys, by R. C. Carrington, F.R.A.S., 1876. *Price, Re.* 1-12.

F. 113. Coringa or Coconada Bay, showing the Northern Godavery Mouths. By Navigating Lieutenant G. C. Hammond, R.N., 1875. *Price, Re.* 1-8.

F. 1165. False Point Anchorage. By Navigating Lieutenant G. C. Hammond, R.N., 1876. *Price, Re.* 1.

E. 117. Hooghly River.—Luff Point to Anchoring Creek, showing the James and Mary Shoals, and entrance to the Roopnarain River. By Navigating Lieutenant Coglan, R.N., 1875. *Price, Re.* 1-8.

E. 115. False Point to Mutlah River, showing the approaches to Sandheads. From the latest Government Surveys. Compiled by R. C. Carrington, F.R.A.S., corrected to 1878. *Price, Re.* 1

E. 115*a*. Mutlah River to the Chittagong Coast. Compiled from the latest Government Surveys, 1879.

D 126. Chittagong or Kornafuli River. Surveyed by Lieutenant G. C. Hammond, R.N., 1876. *Price, Re.* 1.

COAST OF BURMA, &c.

N. 15*d*. Bassein River to Pulo Penang, including the Andaman and Nicobar Islands. Compiled from the latest Government Surveys, by R. C. Carrington, F.R.A.S., 1876. *Price, Re.* 1-12.

C. 134. Coronge Island to White Point, including the Gulf of Martaban. Compiled from the latest Government Surveys, by R. C. Carrington, F.R.A.S., corrected to 1878. *Price, Re.* 1.

C. 137. Preparis North Channel and Entrance to Bassein River. By Commander A. D. Taylor, I.N., and latest Government Charts. Compiled by R. C. Carrington, F.R.A.S., 1879. *Price, Re.* 1.

C. 143 Rangoon River Approaches. Surveyed by Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1876. *Price, Re.* 1.

C. 145. Entrance to Salween (Maulmain) River. Surveyed by Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1877. *Price, Re.* 1.

B. 151. Coast of Tenasserim.—Tevoy River, from a sketch by Lieutenant R. Moresby, with corrections and additions by Commander A. D. Taylor, I.N., 1876. *Price, Re.* 1.

A. 171. Port Mouat, Andamans. Surveyed by F. W. Allen Commanding I. G. S. *Constance*, 1880.

SIAM, MALAY PENINSULA, WEST COAST.

B. 1173. Hays Island to the Pilgrims. Surveyed by Commander A. deRichelieu, Siamese Navy, 1877. *Price, Re.* 1.

B. 159. Kopah Inlet, from a Sketch by Commander A D. Taylor, I.N., 1876. *Price, Re.* 1.

B. 1164. Salang Island (Junkseylon). Commander A. deRichelieu, Siamese Navy, 1876. *Price, Re.* 1.

Office No. of Chart.

B. 1163. Junkseylon, East Coast.—Puket or Tonkah Harbour. By Commander A. deRicholieu Siamese Navy, 1876. *Price, Re.* 1.

GULF OF SIAM.

ZZe. 1177. Siam Gulf, West Coast, Hilly Cape to Lacon Bight. Surveyed by Captain A. J. Loftus, Siamese Navy, 1872. *Price, Re.* 1.

ZZe. 1179. Siam Gulf, West Coast, Lacon Bight to Lem Chang P'ra. Surveyed by Captain A. J. Loftus, Siamese Navy, 1872. *Price, Re.* 1.

ZZe. 1174. Patani Bay. Surveyed by Captain A. J. Loftus, Siamese Navy, 1872. *Price, Annas* 8.

ZZe. 1178. Singora Roadstead and Inner Harbour. Surveyed by Captain A. J. Loftus, Siamese Navy, 1872. *Price, Re.* 1.

SAILING DIRECTIONS, &c.

The Sailing Directory, Part I, India, Africa, and South America, with Charts. By Commander A. D. Taylor, I.N., F.R.G.S. Super-royal 8vo., cloth, lettered. *Price, Rs.* 16; *packing and postage, Rs.* 1-12.

Return of Wrecks and Casualties in Indian Waters for the year 1877, together with a Chart showing the positions in which they occurred. Prepared by R. C. Carrington, F.R.A.S., F.R.S.L., Registrar of Wrecks. *Price, Rs.* 2.

Ditto ditto for 1878. *Price, Rs.* 2.

Ditto ditto for 1879. *Price, Rs.* 2.

List of Light-houses and Light-vessels in British India (Suez to Singapore), corrected from official information. By R. C. Carrington, F.R.A.S., 1880. *Price, Re.* 1.

Spheroidal Tables, for every ten minutes of the quadrant, showing the length in feet of a degree, minute, and second of latitude and longitude; the corresponding number of statute miles in each degree of latitude; the number of minutes of latitude, or nautic miles, contained in a degree of longitude, under each parallel of latitude; and the length, in cables, of a minute of longitude, corresponding to each nautic mile Compression 1/[illegible]. By R. C. Carrington, F.R.A.S., 1877. *Price, Re.* 1

Glossary of French Terms adopted on French charts and maps and in sailing directions. By R. C. Carrington, F.R.A.S., Marine Survey of India, 1879. *Price, Annas* 12.

Catalogue of Charts, Maps, Plans, &c., in the Marine Survey Department, Calcutta. Compiled by R. C. Carrington, Marine Survey of India, 1879 *Price, Annas* 8.

HYDROGRAPHIC NOTICES.

Price, annas 4 each :—

No.

1. Rangoon River. By Navigating Lieutenant F. W. Jarrad, R.N., 1876.
2. Mergui Archipelago. Cancelled; superseded by Notice No. 8.
3. Junkseylon and adjacent Islands. Cancelled; superseded by Notice No. 18.
4. False Point Harbour. By Navigating Lieutenant G. C. Hammond, R.N., 1876.
5. Kyouk Phyou Harbour. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1877.
6. Salween (Maulmain) River. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1877.
7. Approaches to Point de Galle Harbour. By Commander A. D. Taylor, I.N., 1877.
8. Mergui Archipelago. Pages 7 to 10 of this Notice; superseded by Notice No. 18.
9. Indus Banks and Kurrachee. By Lieutenant A. W. Stiffe, I.N., and the Master Attendant of Kurrachee, 1877.
10. Pamban (Paumben) Pass. By Morris Chapman, I.N., 1878.
11. Andaman Islands. By Navigating Lieutenant J. Tully, R.N., 1878.
12. Jiddah Harbour. Red Sea. By Commander W. J. L. Wharton, R.N., H. M.'s Ship *Fawn*, 1878.
13. Red Sea. Navigation, Inshore passages. By Hydrographic Office, Admiralty London, 1878.
14. Red Sea. By Hydrographic Office, Admiralty. London, 1878.
15. South Indian Ocean, Seychelle, Farquhar Islands, and Madagascar. By Commander W. J. L. Wharton, R.N., H. M.'s Ships *Shearwater* and *Fawn*, 1875-78.
16. Torres Strait and New Guinea, South-East Coast. By Officers of H. M.'s Ships employed on the Australian Station, 1878.
17. India, West Coast, Ratnagiri Rajapur Bay, and Viziadurg. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1878.
18. Coast of Siam, including Junkseylon and adjacent Islands. By Commander A. D. Taylor, I.N., and A. deRicholieu, Siamese Navy, 1879.
19. Africa, East Coast, Pemba Island and adjacent coast. By Commander W. J. I. Wharton, R.N., H. M.'s Surveying Vessel *Fawn*, 1878.
20. India, West Coast, the coast from Kundari Island to Choul, and the harbours of Dabhol and Jaygad. By Navigating Lieutenant F. W. Jarrad, R.N., F.R.A.S., 1880.
21. Arabian Coast, Ras Matbakh. By Hydrographic Office, Admiralty, London, 1880.

NOTICES TO MARINERS.

Notices to Mariners issued during the year 1875. *Price, one anna each :—*

No. 1. Fixed Light on Green Island, Hong-Kong, China.
„ 2. Malwan Rock, Malwan.
„ 3. Fixed white light at Dwarka, Kattywar.
„ 4. Mooram Shulh Tivo Island, and Devil's Point, Gulf of Manaar.
„ 5. (1) Fixed light at Vizagapatam.
(2) Coral shoal off Caltura, Ceylon.
(3) Rock off Barberyn Island.
„ 6. Foundering of the Buoy Vessel *Mata Mata*, Rangoon.
„ 7. (1) Revolving Light near Acheen Head, Malacca Strait.
(2) Auxiliary Light to above.

Notices to Mariners issued during the year 1876. *Price, one anna each :—*

No. 1. Temporary discontinuance of Hope Island Light during repairs to Light-house column, Coromandel Coast.
„ 2. Exhibition of Hope Island Light, Coromandel Coast.
„ 3. Prohibited anchorage near the British Indian Sub-marine Telegraph Cable, Madras.
„ 4. (1) Pulo Brasse auxiliary Light, Malacca Strait.

Ditto ...	Ditto ...	An addition to the Sukna Teesta Forest.	*North and East.*—The present forest boundary. *South.*—A demarcated line from the Bereikh spur to the Reyang river. *West.*—The Reyang river.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 9th September 1880.—The Lieutenant-Governor is pleased to publish, for general information, the following Order in Council in continuation of the Order in Council dated the 14th August 1879.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

AT THE COURT AT WINDSOR.

The 24th day of March 1880.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the Table marked C in the Schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto, or in substitution therefor; and that any alterations in or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said Schedule:

And whereas by the same Act it was further provided, that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the Schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country whether within British jurisdiction or not; and it was further provided by the said Act, that whenever an Order in Council had been issued applying any Regulation made by or in pursuance of the said Act to the ships of any foreign country, such ships should, in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas, by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct that there should be substituted for the Regulations contained in the Schedule to the said Act certain Regulations appended to the said Order, and that the said appended Regulations should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said recited Order should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council:

And whereas by Order in Council dated the fourteenth day of August one thousand eight hundred and seventy-nine, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to direct that on and after the first day of September one thousand eight hundred and eighty, the said Regulations and the additions thereto should be annulled, and that there should be substituted therefor the new Regulations contained in the First Schedule thereto, and that the same should, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said Second Schedule thereto, whether within British jurisdiction or not:

And whereas Article numbered 9 of the Regulations appended to the said recited Order in Council of the ninth day of January one thousand eight hundred and sixty-three is as follows; that is to say,—

Art. 9.—Open fishing boats and other open boats shall not be required to carry the side lights required for other vessels; but shall, if they do not carry such lights, carry a lantern having a green slide on the one side and a red slide on the other side; and on the approach of, or to, other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

Fishing vessels and open boats when at anchor, or attached to their nets and stationary, shall exhibit a bright white light.

Fishing vessels and open boats shall, however, not be prevented from using a flare-up in addition, if considered expedient.

And whereas the Article numbered 10 of the said new Regulations, contained in the First Schedule of the said recited Order in Council of the fourteenth day of August one

thousand eight hundred and seventy-nine, which said Article is to be in substitution for the said recited Article numbered 9, is as follows; that is to say,—

Art. 10.—(*a*) Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of, or to, other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(*b*) A fishing vessel, and an open boat, when at anchor, shall exhibit a bright white light.

(*c*) A fishing vessel, when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(*d*) A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red, and the lower green, and shall also either carry the side lights required for other vessels, or, if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass, as described in paragraph (*a*) of this Article.

(*e*) Fishing vessels and open boats shall not be prevented from using a flare-up in addition, if they desire to do so.

(*f*) The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(*g*) All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the operation of the said recited Article numbered 10 of the New Regulations contained in the First Schedule of the said Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine shall be suspended until the first day of September one thousand eight hundred and eighty-one, and that, in lieu thereof and in substitution therefor, the recited Article numbered 9 of the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three shall continue and remain in force until the said first day of September one thousand eight hundred and eighty-one.

NOW THEREFORE Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct that the operation of the said recited Article numbered 10 of the New Regulations contained in the First Schedule of the said Order in Council of the fourteenth day of August one thousand eight hundred and seventy-nine shall be suspended until the first day of September one thousand eight hundred and eighty-one, and that in lieu thereof and in substitution therefor, the said recited Article numbered 9 of the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three shall continue and remain in force until the said first day of September one thousand eight hundred and eighty-one.

C. L. PEEL.

[Third Publication.]

NOTIFICATION.

The 12th September 1880.—The Lieutenant-Governor is pleased to order that, on and after the 1st October 1880, the following shall be the rates for forest produce in the Sunderbuns Protected Forests in supersession of those published in Rule 1 of the Rules of the 17th August 1880:—

(1)	On every maund of sundri, pussur, or amoor timber ...	one anna.
(2)	„ „ keora timber	one-half anna.
(3)	„ „ any other forest produce ...	one-quarter anna.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 12th September 1880.—The Lieutenant-Governor is pleased to notify, under section 75 of the Indian Forest Act (VII of 1878), that on and after the 1st October next, any persons trading in timber or forest produce, or desirous of purchasing and removing forest produce from the reserved and protected forests of the Sunderbuns, may, if they so desire, and in place of having their boats as heretofore measured on every occasion that they enter or leave those forests or pass any of the forest toll-stations, have their boats measured once

for all, and such measurement registered by the Deputy Conservator of Forests, or his subordinates, at any of those toll-stations, viz.—

1. Lower Bhola.	9. Isreepore (Eshamuttee).
2. Upper Bhola.	10. Bussuntpore.
3. Pussur.	11. Roymangal.
4. Khulna.	12. Mutlah.
5. Bhudder.	13. Bogee.
6. Shupsah.	14. Saterbog.
7. Koyrah.	15. Tangarakhal.
8. Cobaduk.	16. Samukpatha.

Such registration will hold good for the period of one year, and may be renewed after the expiry of that period.

Any boat the measurement of which is so registered will not be liable to further remeasurement or detention, either within the forests or at the forest toll-stations, provided—

(1) That the boat does not contain any forest produce other than that entered in the permit; and

(2) That the load does not exceed the registered burden, as shewn by the mark on the water-line.

All boats registered will have the maundage and date of measurement painted in letters not less than 4 inches long on both sides of the bow; and amid-ships on either side will be painted the water-line, or line showing the loaded draft. This last will be indicated by a circle painted in white, intersected by a red line marking the depth to which the boat may be loaded. This line will be fixed at the pleasure of the manjee before measurement is made, and the measurement will be made accordingly.

The fees payable when a boat is registered for the first time shall be according to the following scale :—

			Rs.	A.	P.
Boats not exceeding		50 maunds ...	0	4	0
Above	50 and not exceeding	100 „ ...	0	8	0
„	100 „ „	500 „ ...	0	12	0
„	500 „ „	1,000 „ ...	1	8	0
„	1,000 „ „	2,000 „ ...	2	0	0
„	2,000 „ „	3,000 „ ...	3	0	0
„	3,000 ...	... ...	4	0	0

On renewal of the registration after the expiry of twelve months, fees shall be payable at half the rates given in the above scale, provided that application is made for such renewal of registration within two months of the expiry of the said twelve months. After that period the full fees will be payable as for fresh registration.

A. MACKENZIE,
Secy. to the Govt. of Bengal.

HIGH COURT NOTICES.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL AND CRIMINAL.

No. 28, dated the 29th July 1880.

IN continuation of Circular Order No. 22, dated 2nd June 1880, the Court are pleased to direct that when an applicant requires his copies to be furnished on the day of application, an extra fee of one rupee shall be charged on all copies so furnished, to be levied from him in the same manner as the charge for copying, viz. by court-fee stamps. Care, however, is to be taken that other applicants for copies do not materially suffer by the arrangement. If the granting of other copies be much delayed by this rule, an extra hand ought to be told off to furnish their copies.

2. Under ordinary circumstances the time for furnishing the copies required shall not be later than 1 P.M. of the third open day after the presentation of the application.

CIVIL.

No. 29, dated the 12th August 1880.

In modification of the instructions issued by the late Sudder Dewani Court on the 1st July 1861, the Judges are pleased to direct that the summons book and register of suits in all Small Cause Courts be kept in the English language.

2. The form of the register to be used has been slightly altered, with the sanction of the Governor-General in Council, and is now obtainable on indent on the Superintendent of Stationery.

3. The Rule in paragraph 1 above does not apply to officers vested with the powers of a Small Cause Court Judge, under Section 29, Act VI of 1871. Cases decided by these officers will appear in the General Register of Suits.

No. 30, dated the 26th August 1880.

By desire of the Government of Bengal, the Court are pleased, in continuation of Circular Order No. 19, dated 28th April last, to direct that, where (as in Small Cause Courts, under Circular Order No. 40, dated 2nd October 1866,) the rule requiring the regular transmission of the records of decided cases to the district record-room does not apply, all stamps on the records be punched a second time by some officer of the particular Court as soon as each case is decided.

2. The duty of thus re-punching stamps should in each Court be assigned to some specified officer by written order, which should also indicate the manner in which this duty of re-punching should be performed, *i.e.*, so as not to remove so much of the stamp as to render it impossible or difficult to ascertain its value or nature.

No. 32, dated the 10th September 1880.

The Court desires to impress upon the attention of all Subordinate Civil Courts that in all suits and appeals evidence should, as a general rule, "be taken orally in open Court in the presence, and under the personal direction and superintendence, of the Judge." (Section 181). The power to order that any particular fact or facts may be proved by affidavit, or that the affidavit of any witness may be read at the hearing, should be exercised only under special circumstances, or as Section 191 declares, "*for sufficient reason*," which should always be specified in the order. General orders cannot therefore be given for the admission of affidavits in suits or appeals; where any such orders have been given they should be withdrawn.

2. The Courts should not require any fact to be proved by affidavit which the law directs shall be made the subject of a verified petition; and they should also be careful to enforce Section 196, and, except in interlocutory applications, to confine the use of affidavits to such facts as the declarant is able to prove of his own knowledge, and to refuse statements founded on mere belief.

3. In determining how the costs of affidavits should be borne by the parties to the suit, a Court should have especial regard to the circumstances under which they were admitted. When an affidavit has been allowed for the convenience of one of the parties or of one of his witnesses, the costs so incurred should not form costs in the suit and be charged against the opposite party.

No. 33, dated the 10th September 1880.

As there is apparently some misapprehension on the subject, the High Court think it necessary to point out that on receipt of a commission under Section 386 of the Code of Civil Procedure for the examination of a witness, the Commissioner should determine how it should be executed,—whether (1) at the residence of the witness, or (2) at some convenient locality in the neighbourhood of the Court, or (3) supposing that the Commissioner be

a judicial officer, whether the witness should not attend in the Court, or in the premises of the Court of such officer, proper arrangements, if necessary, having been made for due privacy.

2. As a rule, a person to be examined by commission should attend the Commissioner at the particular time and place specified in the notice issued; but discretion should be exercised in the examination of those whose attendance is ordinarily excused, such as females, persons unable to be removed from their houses owing to old age, sickness, or other bodily infirmity, or persons of rank exempted by an order under Section 641 from personal attendance in Court. In such cases the Commissioner should endeavour to discharge his duty with due regard to the special circumstance and condition of the particular witness. Where the Commissioner is a judicial officer, however much he may desire to examine a witness at his or her residence, it may often be absolutely impossible for him to do so in preference to other and more important public duties; but when the Commissioner receives remuneration for his services, he should be prepared to meet the convenience of the witness so far as is possible and reasonable..

3. The High Court desire to point out to Subordinate Judges that no Commissioner can delegate the performance of his duties to another: thus, a commission addressed to a judicial officer cannot be made over by him to a Mohurir or Amla of his Court for examination.

No. 34, *dated the* 11*th September* 1880.

In continuation of circular order No. 18, date 4th May 1878, the Court are pleased to direct that, if witnesses to prove the identity of the person served do not appear when the serving peon makes his return and is examined in Court, or makes his affidavit, as the case may be, the Judge shall, instead of sending back the notice to the High Court as unserved, adjourn the enquiry as to proof of service, and afford to the parties a reasonable time, being not less than seven days, for the production of the proof of identification; and that a notice of such adjournment, and of the time within which the parties are allowed to produce such proof, shall be posted up in the Judge's Court.

CRIMINAL.

No. 5, *dated the* 21*st September* 1880.

At the instance of the Government of Bengal,* the Court are pleased to direct that Sessions Judges in the Lower Provinces do give every facility to Magistrates and District Superintendents of Police for inspecting the records of cases in their Courts, and for the preparation of copies by clerks sent by the District Magistrate,—care being taken that the records are not removed from the Judge's Office.

* *Vide* last clause of paragraph 4 of its Circular Order No. 44, dated 31st August last, published at page 915 of the Supplement to the *Calcutta Gazette* of the 1st September 1880.

2. Sessions Judges should, in order to assist the enquiries of the District Magistrates regarding the cause of an acquittal in the Sessions Court, set forth clearly in the judgment what, in their opinion, has led to that result.

GENERAL LETTER No. 13.

Dated Calcutta, the 30*th August* 1880.

From—J. CRAWFURD, Esq., Registrar, High Court,
To—The District Judge of

HIGH COURT.
ENGLISH DEPARTMENT.
Civil.

DOUBTS having been expressed as to whether the Rule VI made under clause 1, section 20 of the Court Fees Act, 1870, and issued with circular order No. 2, dated 6th January 1880, admits of charges on account of boat-hire being received from the public in cash, I am directed to inform you that the intention of the rule was that such charges should be levied in court-fee stamps in those districts only where an establishment of boats is maintained by the Government for the purpose of serving processes, and that they should be taken in cash elsewhere. As difficulty, however, is reported to have been caused by the provision of the rule requiring the rates charged for boat-hire in the civil and criminal courts to be the same, the question of revising the rule is now before the Court, and I am to request you to be so good as to submit a report on the following points at your early convenience.

2. The amount of service to be performed by boats in the matter of conveying processes in each district should be easily ascertainable from the experience of past years. It rests with District Judges to arrange for the performance of this service in the manner most convenient to parties and economical to the Government. In some districts the amount of work to be done may be so great as to justify the maintenance, during a part or the whole of the year, of a special boat establishment paid by Government. In others, persons may be found who are willing to arrange by contract for the performance of the service on favourable terms. In others, the cheapest plan may be to hire boats as occasion requires. It is impossible for the Court to lay down strict rules in the matter, to apply to all districts or to all parts of the same district: District Judges must therefore be left

to make proper arrangements in the matter on their own responsibility. It is necessary, however, that arrangements should be made to provide funds to meet the expenditure to be incurred in each court.

8. Where fees are levied in cash a fund exists to meet the charges. The Court, however, from matters which have come to its notice, is of opinion that, in the interests of the public, it is advisable that the charges should be levied from them at fixed rates, and collected in court-fee stamps in all cases. It is accordingly proposed to modify the rule as follows :—

"In those districts, or parts of districts, entered in the subjoined table, during such months as are mentioned against each, a fee amounting to 25 per cent. of the fees chargeable under the foregoing rules shall be levied by way of boat-hire in respect of all processes issued by the Courts, whether or not any charge is actually incurred in the particular case on this account; provided always that no such charge shall be made in respect of process served within the Court itself:—

District.	Part of district.	Period of the year during which boat-hire is to be levied.

4. I am now to enquire in what portions of your district, if any, and during what period of the year, you think that boat-hire should be charged; and what, in the event of the above rule being adopted, the probable receipts in your district on this account would be. Further, I am to ask what is the nature of the arrangements you propose to make in your district for boat service, and what the estimated annual cost will be. You should further state in what courts in your district it is necessary that a permanent advance should be allowed to the presiding officer in order to meet charges on account of boat-hire, and what the amount allowed should be.

5. Pending a final settlement of the question, I am to request that, in case the rates adopted by the criminal courts in your district be found unsuited to the civil courts, you will prescribe, for temporary use by the latter, such modified scale as may cover the necessary expenses to be incurred in your district.

SMALL CAUSE COURT NOTICES.

UNDER section 14, Act XI of 1865, notice is hereby given that subject to the orders of Government, the Judge of the Small Cause Courts of Dacca and Munshigunge will sit in the former Court on the 2nd October next.

NAFFER CHUNDER BHATTA, *Judge, Small Cause Court.*

EDUCATIONAL NOTICE.

Calcutta University.

NOTICE.

The Senate will proceed in the month of March 1881 to the election of a Tagore Professor for the term of one year to commence on the 1st of September 1881.

The salary of the Professorship is Rs. 10,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures upon *one* of the following subjects :—

(1) Undivided Hindu family,—Status, rights, liabilities, and privileges of its members under the different schools of Hindu Law.
(2) The Law relating to the Disposition of Property among the Mahomedans.
(3) The Law of Limitation and Prescription in British India, including Easements.
(4) The Law of Testamentary Devise as administered in British India.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st of January 1881, and at the same time to state on which of the above-mentioned four subjects they are prepared to lecture.

CHARLES H. TAWNEY, *Registrar.*

SENATE HOUSE, *the 18th September* 1880.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 996B.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1877-78 and 1878-79, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Wednesday, the 29th* September 1880, at 11 A.M., and will comprise 4,700 chests, viz.—

	Chests.
Behar Opium	2,350
Benares „	2,350
Total ...	4,700

Of the 2,350 chests of Benares Opium 271 are of a consistence of 75°. The usual consistence of Benares Opium is 70°. These 271 chests are numbered 17176 to 17446, and are marked with a red × on each end.

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 2nd December 1879, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest date for deposit will be the 5th October 1880, and the latest date for clearance will, owing to the intervention of the Doorga Pooja holidays, be the 21st October 1880—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Tuesday, the 5th October 1880, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 21st October 1880.

---

* This date has been changed from the 4th October 1880, as fixed in the general notification dated 2nd December 1879, on a representation from the merchants.

4. The following table shews the quantity of Opium that will be brought to sale in the next twelve months. The Board of Revenue, however, reserve to themselves the right of altering dates should circumstances render it expedient to do so:—

DATES.	Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Thursday, 4th November 1880 ...	2,350	2,350	4,700

PUBLIC WORKS DEPARTMENT, BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 168.

The 20th September 1880.

UNDER section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of he district road committees of Dinagepore, Rajshahye, Rungpore, Bogra, Pubna, Darjeeling, and Julpigoree, on works carried out and in progress during the past cess year 1878-79, together with the remarks of the Commissioner of the Rajshahye and Cooch Behar Division, are published for general information.

T. H. WICKES,

Asst. Secy. to the Govt. of Bengal,
in the P. W. Dept.

No. 1254, dated Dinagepore, the 1st December 1879.

From—E. G. GLAZIER, ESQ., Magistrate and Chairman of the District Road Cess Committee, Dinagepore,

To—The Commissioner of the Rajshahye and Cooch Behar Division.

I HAVE the honor to send the road report of this district for 1878-79. The preliminary report was sent on the 28th June last.

2. The principal event of the year has been a change of Engineer * * * * * * * * * * * *

6. Mr. Vanziulicom resigned his appointment, and made over charge on 16th April to Mr. Middleton, Assistant Engineer, Public Works Department, whose services the Government kindly allowed the Committee temporarily till they could get a new Engineer.

7. The Committee advertised for candidates, and at their meeting of 16th May 1879, appointed as Engineer on a salary of Rs. 400 a month, with a biennial increase of Rs. 50 up to the limit of Rs. 500, Baboo Ram Nath Bhuttacharjya, District Engineer of Manbhoom, who is an Overseer of the Public Works Department. The Government sanctioned the appointment on probation, granting him powers of an overseer. He joined his appointment on the 1st September 1879.

8. Thus for over eight months, * * * * during the busiest season of the year, the post of Engineer in the district was in abeyance.

9. In taking over charge from the late Engineer, the brick contracts for metalling the Rungpore road were found in a very disorganised state, and it is to be feared that the Committee will sustain great losses on this account. Two contractors had been paid for bricks in the kiln, and when the kilns were broken up there was found to be a great deficiency in the tale of bricks, and we have had to sue the men for the balances due.

10. One of these contractors was the man who had brought the charges against the Engineer. We sued him for Rs. 3,412-8-0, and on 19th June 1879 got a decree for the full sum, amounting, with costs, to Rs. 3,882-15-0. We realised Rs. 1,985-9-0 in execution, partly by the attachment of bills we owed the contractor for other works done, partly by the proceeds of a decree obtained by the contractor against Mr. Vanziulicom for money borrowed, and a small amount from the sale of property and rejected bricks. The debtor has left the district.

11. The claim against the second contractor is for the large sum of Rs. 6,791. The case is still *sub judice*. The contractor has some other kilns, from which we shall probably recover something, and has also some small property. Efforts will be directed to keep the decrees alive and to realise as much on them as possible, so as to reduce the loss to the Committee as far as practicable.

12. I have detailed somewhat fully these circumstances connected with the change of Engineers as it is a necessary part of the record of the year, and it serves to explain the backward state of metalling on the Rungpore road. * * *

13. The annual accounts were put before the Committee at the meeting of the 6th November, and three members were appointed to audit them together with the Vice-Chairman. This sub-committee passed the accounts as correct under date the 10th idem, and they were finally passed by the Committee at their meeting of this day.

14. The year commenced with a balance of Rs. 44,870. The receipts were Rs. 88,045 and the expenditure was Rs. 72,973, leaving a balance at the close of the year of Rs. 59,943. Of this sum Rs. 45,858 consists of cash in hand and Rs. 14,084 has been paid as advance for material at site, but not yet settled for.

15. The receipts consist of—

	Rs.
Cesses	76,994
Second moiety of Government grant for metalling the Rungpore road	10,000
Sundries	1,050

16. The road cess collections have been good, showing 96 per cent. of the total demand. We have got in Rs. 6,430 in excess of our current demand, of which amount Rs. 1,875 is advance payment and Rs. 4,555 is in reduction of the arrears. The district arrear stands now at Rs. 3,707 only.

17. The expenditure of Rs. 72,973 is thus divided—

		Rs.
General management		5,775
Working establishment		14,350
Tools and plant		2,196
Original works ... ... Rs.	23,388	
Repairs ... ... „	27,264	
		50,652
Total ...		72,973

18. The charges for general management show an increase over last year, on account of the entry under the head of "Contingencies," of the losses incurred, as far as at present ascertained, through the brick contractors of the Rungpore road. The amounts thus entered are, severally, Rs. 1,974 on account of the first contractor, against whom a decree has been obtained, and Rs. 459, charges incurred in the suit still pending against the second contractor.

19. The working establishment shows a great saving, having been reduced from Rs. 25,705 in the previous year to Rs. 14,350. We have saved 4½ months of the Engineer's salary during the time that Mr. Middleton, Assistant Engineer, held charge, as the Government has consented to give us his services without charge, and we have also materially reduced the subordinate establishment in order to keep within the legal limit of 25 per cent. on our income. The percentage of the establishment on the real income of the year, to wit Rs. 86,994, is 16 5, but in future years we cannot calculate on a larger income than the current cess demand, which is Rs. 70,000, and our establishment has been organised accordingly.

20. The expenditure on work was Rs. 50,652 only. The falling off from our estimate has been principally under the head of "bridges and metalling work on the Rungpore road."

21. The principal work done has been under the heads earthwork, bridging, and metalling on the Rungpore road, bamboo bridging on the Akhanagore to Chooramon, Dinagepore to Hemtabad, and Peerganj to Royganj roads, and jungle-cutting on the Darjeeling road.

The expenditure under the following heads is as follows:—

	Rs.
Metalling	12,837
Brick bridges	4,851
Bamboo bridges	8,282
Earthwork	15,734
Surface dressing, 475 miles	7,890
Jungle-cutting, 38 miles	803

22. We close the year with a much larger balance than anticipated. This has been occasioned by—

(1) Our large collections,
(2) Reduction of establishment, and
(3) Small outturn of work.

During the forthcoming year we hope to be able to utilise almost all our available income and leave a moderate balance only, as we shall make as much progress as possible in the metalling of the Rungpore road; and we have three large bridge estimates to work on which have been very expeditiously passed by the new Superintendent of works since the budget was passed, and for which the Committee, at their meeting of the 6th November 1879, made provision.

23. The following is an account of the work done on the different roads:—

ORIGINAL WORKS.

No. 1, *Dinagepore to Parbateepore* (*Moorshedabad road*), 50 *miles.*—The allotment under the head of "Original works" was Rs. 3,540 on this road, but the actual expenditure was Rs. 2,481-11-11 in earthwork, bridges, culverts, jungle-cutting, and tree plantation. The work done consisted of earthwork 639,520 cubic feet, and 279 cubic feet of brick masonry, and one mile jungle-cutting.

It is intended to build a few small culverts on this road, the estimates for which have been passed.

REPAIRS.

The total allotment for repairs, including maintenance repairs to bridges and inspection bungalows, was Rs. 1,610, against which Rs. 1,181-13-0 were actually spent. Rs. 986 were spent in maintaining the kutcha parts and Rs. 89-12-0 in the metalled bits of the road within the municipality. The pucca bridges and culverts were repaired at a cost of Rs. 76, and Rs. 30-1-0 were spent in paying a chowkeedar for the inspection bungalow at Luskerhaut for 7½ months.

ORIGINAL WORKS.

No. 2, *Dinagepore to Atearee* (*Darjeeling road*), 58 *miles.*—A sum of Rs. 491 has been paid for three culverts of 4′ span each, constructed in the year previous to the one under report.

A sum of Rs. 1,000 has been provided for clearing jungle during the current year, and it is intended to remove the jungle for a space of about 100 feet on each side of the road at those spots where there is most danger from tigers.

REPAIRS.

The allotment for repairs on this road was Rs. 2,300, of which Rs. 1,790-5-9 were actually spent. Rs. 597 were spent in maintaining the kutcha parts and Rs. 552-6-6 the pucca parts within the municipal limits of Dinagepore. Ten miles of jungle were cleared at a cost of Rs. 390, and 20,000 cubic feet of earthwork was done to the road surface at a cost of Rs. 50. Rs. 200-15-3 were spent in repairing the inspection bungalow at Beerganj, including the pay of a chowkeedar for 6½ months, and a charge incurred in removing the old doors and windows from the abandoned Prannagore and Ruhea bungalows to Beerganj.

ORIGINAL WORKS.

No. 3, *Dinagepore to Kholahattee* (*Rungpore road*), 24 *miles.*—The most important work in progress during the year was on the Rungpore road, for which there was an allotment of Rs. 39,340 in the budget, but the actual expenditure was Rs. 13,959-3-4 only, viz.—

	Rs.	A.	P.
On metalling	10,092	1	9
On bridges	2,123	8	4
On earthwork	403	6	3
On culverts	882	5	0
On turfing	196	6	0
On tree plantation	221	8	0
On inspection huts	40	0	0

A special progress report of work done on this road is annexed to this report.

The failure of two contractors, as already detailed, has put us back materially in our work of metalling the road.

It is intended to do the following works on this road during the current cess year:—

To construct two masonry culverts of 2 spans of 12′ each, as well as a few small culverts of 4′ span.

To metal 6 miles length of road.

To manufacture about 20 lakhs of bricks for metalling.

REPAIRS.

The total allotment for repairs on this road was Rs. 2,000, against which Rs. 2,050-1-9 were actually spent. The excess expenditure has been under the head of "bamboo bridging."

Rs. 494-8-9 and Rs. 980-11-0 were spent in maintaining the metalled and unmetalled portions of the road respectively, Rs. 261-9-0 in temporary bridges, and Rs. 313-6-0 in repairing a culvert of 8′ span on the 2nd mile, the timber platform of which was replaced by a masonry arch.

ORIGINAL WORKS.

No. 4, *Dinagepore to Kantla* (*Bogra road*), 30 *miles.*—The allotment for this road was Rs. 6,706, and the actual expenditure was Rs. 496-3-9 in executing 195,309 cubic feet of

earthwork. It is intended to replace the wooden bridge over the Ichamattee on the 20th mile by a timber-topped bridge on masonry abutments. The money was provided for this work during the year under report. The estimate has now been sanctioned, and the work will be taken up this year.

REPAIRS.

The allotment for repairs on this road was Rs. 1,694, and the actual expenditure Rs. 670-0-3. In maintaining the whole road Rs. 286-13-6 were spent, and Rs. 383-2-9 were spent in repairing pucca bridges and culverts. The road is an important railway feeder connecting with stations Berhampore and Hillee.

ORIGINAL WORKS.

No. 5, Dinagepore to Ajlabad (Purneah road), 40 miles.—Allotment Rs. 1,080, expenditure Rs. 495-2-9. A quantity of 36,694 cubic feet earthwork and 27,345 superficial feet of turfing and one masonry culvert of 4′ span were executed.

It is intended to build a 4′ span culvert and execute certain earthwork on those miles that are very hollow in the centre.

REPAIRS.

The allotment for repairs on this road was Rs. 2,110, against which Rs. 2,213-12-3 were actually spent. Rs. 784-2-3 and Rs. 393-11-3 were respectively spent in keeping up the metalled and unmetalled portions, Rs. 771-15-9 in repairing temporary bridges, and Rs. 50 in clearing jungle for 5 miles, and 40,700 cubic feet of earthwork were executed at a cost of Rs. 111-12-0, and Rs. 102-3-0 in repairing and paying a chowkidar for the inspection bungalow at Bindole. This road is not much used for cart traffic.

ORIGINAL WORKS.

No. 6, Dinagepore to Doulutpore (Maldah road), 30 miles.—The allotment on this road was Rs. 2,093, and the actual expenditure Rs. 798-13-6. The progress made was the execution of 245,366 cubic feet of earthwork in raising the road.

It is intended to construct a few small culverts of 4′ span each.

REPAIRS.

The allotment for repairs on this road was Rs. 2,158, against which Rs. 1,577-5-8 were actually spent.

Rs. 151-8-6 and Rs. 706-5-0 were spent in maintaining the kutcha and pucca portions of the road respectively. With the latter expenditure a part of the road lying within the municipal limits has been thoroughly repaired with a cost of new metal. Rs. 496-13-2 were spent in repairing temporary bridges and Rs. 222-11-0 in repairing and paying for the chowkidars of the inspection bungalows at Doulutpore and Sheboil.

ORIGINAL WORKS.

No. 7, Dinagepore to Gungarampore, 18 miles.—The allotment for this road under the head of earthwork was Rs. 105, and the actual expenditure Rs. 5,105. Rs. 5,000 have been contributed towards the Dinagepore drainage scheme under Government sanction, and 42,000 cubic feet of earthwork have been executed on the road.

No provision has been made for original works on this road during the year, but the wooden bridges will be replaced by brick culverts as soon as possible.

REPAIRS.

The total allotment for repairs on this road was Rs. 895 and the actual expenditure Rs. 734-9-6. Rs. 185 and Rs. 118-1-6 were spent in keeping up the kutcha and pucca portions respectively. Rs. 431-8-0 were spent in repairing the masonry and timber bridges.

ORIGINAL WORKS.

No. 8, Beerganj towards Durwanee (through Khansama), 12 miles.—None.

REPAIRS.

The total allotment for repairs on this road was Rs. 1,000, and actual expenditure Rs. 863-14-3. The surface repairs of the road cost Rs. 79-8-0, and the temporary bridges Rs. 107, and Rs. 677-6-3 were spent in executing 233,383 cubic feet of earthwork.

The road is a railway feeder, leading to the Durwanee station. The last two miles are in the Rungpore district.

ORIGINAL WORKS.

No. 9, Phoolbaree to Sumjhea road, 14 miles.—The allotment for this road was Rs. 2,200, and the actual expenditure was Rs. 1,184-14-0 in executing 454,755 cubic feet of earthwork.

This work was done without sanction by the late Engineer. This road was taken up as a railway feeder to connect Sumjhea with Phoolbaree railway station, but as the former place is sufficiently served by road No. 4, and very heavy expense would have to be incurred in bridging and earthwork, it has been decided not to do any more original work on this road for the present. The two miles connecting Phoolbaree with the railway station called after it will be kept in a state of repair.

REPAIRS.

Nothing was spent on repairs during the year.

No. 10, Phoolbaree to Shahebganj road, 10 miles, and No. 11, Beerampore to Peerganj (Rungpore), 13 miles.—No work has been done either original or in repairs. These are two

feeder roads running into Rungpore district. It has not been found that they are of any importance, and they have been put aside until other more important work is done. One mile of road No. 11, connecting Berhampore with the railway station of that name, will be kept in repair as needed.

ORIGINAL WORKS.

No. 12, *Gungarampore to Pateeram road*, 18 *miles*.—None.

REPAIRS.

The total allotment for this road was Rs. 500 and the expenditure Rs. 329-6-0. Rs. 93-9-0 were spent in repairing the road, Rs. 156-10 0 in temporary bridges, and Rs. 79-2-0 in executing 31,618 cubic feet of earthwork.

ORIGINAL WORKS.

No. 13, *Pateeram to Hillee road*, 17 *miles*.—None.

REPAIRS.

The allotment for this road was Rs. 1,000, and the total expenditure Rs. 997-1-3. Rs. 917-1-3 were spent in executing 318,529 cubic feet of earthwork and Rs. 80 in clearing four miles of jungle.

This is a feeder road, and will have to be bridged when we have finished some of our other work. At present it can only be used in the dry season.

ORIGINAL WORKS.

No. 14, *Ghoraghat to Hillee road*, 18 *miles*.—None.

REPAIRS.

The allotment for repairs on the road was Rs. 1 000, and the actual expenditure Rs. 680-11-0. Rs. 204 were spent in maintaining the road, and 46,630 cubic feet of earthwork were executed at a cost of Rs. 116-11-0. The temporary bridges were also repaired at a cost of Rs. 360

The road is not of much importance, and expenditure on it will be curtailed.

The last one or two miles of roads Nos. 4, 13, and 14, all approaching the railway station Hillee, are in the Bogra district.

ORIGINAL WORKS.

No. 15, *Neetpore to Shatahar road*, 48 *miles*.—None.

REPAIRS.

The total allotment for this road was Rs. 1,000, and the expenditure Rs. 999-15-9. The maintenance of the road cost Rs. 242, 252,721 cubic feet of earthwork, Rs. 697-15-9 and four miles of jungle-cutting Rs. 60.

ORIGINAL WORKS.

No. 16, *Peerganj to Ranee-sankoil road*, 7 *miles*.—None.

REPAIRS.

The total allotment for this road was Rs. 200 and the expenditure Rs. 213-8-0. Rs. 110 and Rs. 103-8-0 were respectively spent in maintenance and repairs to bamboo bridges.

ORIGINAL WORKS.

No. 17, *Dinagepore to Hemtabad road*, 29 *miles*.—None.

REPAIRS.

The total allotment for this road was Rs. 1,000 and the outlay Rs. 1,447-8-0. Rs. 304-12-0 were spent in maintenance, Rs. 1,056-13-0 in constructing new and repairing old bamboo bridges, and Rs. 85-15-0 in executing earthwork.

This road connects two thanas, Hemtabad and Kalyagunge, with head-quarters. It runs due west across the drainage, and this accounts for the heavy expense of bridging on it. The Engineer proposes to make a trial of large earthenware drain pipes in place of the wasteful bamboo culverts. This road and road No. 18 in one mile, of which there are five bamboo bridges, will give a good opportunity for the experiment.

ORIGINAL WORKS.

No. 18, *Kishenganj road*, 44 *miles*.—None.

REPAIRS.

Total allotment for this road was Rs. 1,080, and the total expenditure Rs. 983-3-6.

Rs. 514-9-0 were spent in maintenance, Rs. 390 in temporary bridges, and Rs. 78-10-6 for repairs to the inspection bungalow at Peerganj.

The road leads to the large Nekmurd fair, which is held at the distance of 37 miles from Dinagepore. The roadway is throughout in generally good order, and as the fair is held in April, there is no difficulty in the traffic on that score; but there are several muddy nullahs and bheels to be crossed over which it is necessary to have substantial bridges, and a survey of the road is about to be undertaken for that purpose. The numerous smaller bamboo bridges which are needed for the normal traffic during the rains will be replaced as soon as possible by brick culverts or drain pipes, as noted under the head of road No. 17.

ORIGINAL WORKS.

No. 19, *Dinagepore to Pateeram road*, 23 *miles*.—The allotment for this road was Rs. 500, and the actual expenditure Rs. 514-12-6. Two masonry culverts of 4′ span each have been constructed.

REPAIRS.

The allotment for repairs on this road was Rs. 500, and the total expenditure Rs. 392.

Rs. 312 and Rs. 80 were respectively spent in maintenance and repairs to bamboo bridges.

ORIGINAL WORKS.

No. 20, *Pateeram to Mahadebpore road*, 31 *miles*.—None.

REPAIRS.

The total allotment for this road was Rs. 1,000, and the outlay Rs. 978.

Rs. 888 were spent in temporary bridges and Rs. 90 in clearing three miles of jungle.

ORIGINAL WORKS.

No. 21, *Bogra road to Ghoraghat road*, 24 *miles*.—None.

REPAIRS.

The allotment for repairs on this road was Rs. 1,000, and the expenditure Rs. 862-4-0.

Rs. 189 were spent in maintenance, Rs. 613-4-0 in the construction and repair of bamboo bridges, and Rs. 60 in clearing six miles of jungle.

ORIGINAL WORKS.

No. 22, *Beerganj to Peerganj road*, 18 *miles*.—None.

REPAIRS.

The total allotment for repairs was Rs. 1,000 and the outlay Rs. 627-5-0. Rs. 243 were spent in maintenance, Rs. 159-8-0 renewing and repairing bamboo bridges, and Rs. 224-13-9 for executing 89,934 cubic feet of earthwork.

ORIGINAL WORKS.

No. 23, *Thakoorgaon to Peerganj road*, 16 *miles*.—None.

REPAIRS.

The allotment for repairs on this road was Rs. 1,000 and the outlay Rs. 589-7-0.

Rs. 211 were spent in maintenance, Rs. 62-8-0 in repairing temporary bridges, and Rs. 315-15-0 in executing 116,428 cubic feet of earthwork.

ORIGINAL WORKS.

No. 24, *Peerganj to Roygunj road*, 26 *miles*.—None.

REPAIRS.

The allotment on this road for repairs was Rs. 1,000, and the total expenditure Rs. 1,079-11-3. Rs. 90-10-0 were spent in maintenance, Rs. 36 in temporary bridges, and Rs. 953-1-3 in executing 375,274 cubic feet of earthwork.

ORIGINAL WORKS.

No. 25, *Tariya to Ranesunkoil road*, 32 *miles*.—None.

REPAIRS.

Total allotment for repairs on this road was Rs. 1,110, and the expenditure Rs. 704-0-1.

Rs. 446-3-1 were spent in maintenance, Rs. 112-8-0 in temporary bridges, Rs. 36-12-3 in executing 14,712 cubic feet of earthwork, and Rs. 108-8-9 in repairing the inspection bungalow at Ranesunkoil.

ORIGINAL WORKS.

No. 26, *Ranesunkoil to Roygunj*, 24 *miles*.—None.

REPAIRS.

The total allotment on this road was Rs. 1,080 for repairs, and the actual expenditure was Rs. 946-2-6.

Rs. 225-12-0 were spent in maintenance, Rs. 196-4-0 in temporary bridges, Rs. 455-10-6 in executing 179,927 cubic feet of earthwork, and Rs. 68-8-0 in maintaining the inspection bungalow at Roygunj.

ORIGINAL WORKS.

No. 27, *Roygunj to Kantabaree road*, 25 *miles*.—None.

REPAIRS.

The total allotment for repairs on this road was Rs. 1,000, and the total expenditure Rs. 525.

Rs. 150 were spent in maintenance, Rs. 342-3-0 in renewing and repairing temporary bridges, and Rs. 32-8-0 in executing 13,523 cubic feet of earthwork.

ORIGINAL WORKS.

No. 28, *Akhanagore to Chooramon road*, 24 *miles*.—None.

REPAIRS.

The total allotment for repairs on this road was Rs. 1,383, and the total expenditure Rs. 1,161-8-3.

Rs. 854-6-9 were spent in renewing temporary bridges, Rs. 57-11-6 in executing 21,991 cubic feet of earthwork, and Rs. 249-12-0 in maintaining the inspection bungalow at Doorgapore.

ORIGINAL WORKS.

No. 29, *Akhanagore to Maldah road, Jamoir, near Tamboolee,* 17 *miles.*—None.

REPAIRS.

The allotment for repairs on this road was Rs. 1,000, and the total expenditure Rs. 604-4-0.

Rs. 95-12-0 were spent in maintaining the road, Rs. 463-8-0 in renewing the temporary bridges, and Rs. 45 in executing 18,000 cubic feet of earthwork.

ORIGINAL WORKS.

No. 30, *Gungarampore to Tamboolee road,* 7 *miles.*—None.

REPAIRS.

The total allotment on this road was Rs. 140 for repairs and the outlay Rs. 140.
The whole road was maintained with this sum.

ORIGINAL WORKS.

No. 31, *Gungarampore to Bhatkara road,* 19 *miles.*—None.

REPAIRS.

The total allotment for repairs on this road was Rs. 1,000, and the total expenditure Rs. 390.

The whole of this amount was spent in the reconstruction of temporary bridges.

No. 32, *Bhatkara to Patnecotollah road,* 14 *miles.*—Nothing spent.

No. 33, *Oomamoheskpore to Patnecotollah road,* 7 *miles.*—Nothing spent.

ORIGINAL WORKS.

No. 34, *Nawabganj to Bhadoorya road,* 10 *miles.*—None.

REPAIRS.

The total allotment for repairs on this road was Rs. 200, and the whole of this amount was spent in the reconstruction of temporary bridges.

ORIGINAL WORKS.

No. 35, *Baloorghat to Nischintapore or Bhatkara,* 14 *miles.*—None.

REPAIRS.

The allotment for repairs on this road was Rs. 1,000, and the total expenditure Rs. 496-5-0.

Rs. 210 were spent in maintenance, Rs. 242-5-0 in the construction of temporary bridges, and Rs. 44 in clearing jungle for four miles.

No. 36, *Baloorghat to Luskerhat road,* 12 *miles.*—Nothing spent.

No. 37, *Baloorghat to Palsha road,* 17 *miles.*—Nothing spent.

ORIGINAL WORKS.

No. 38, *Patnecotollah towards Dum-Dum road,* 13 *miles.*—None.

REPAIRS.

The allotment on this road was Rs. 1,000, out of which only Rs. 136-8-6 were spent in executing 53,375 cubic feet of earthwork, which cost Rs. 106-12-0, and in clearing 1½ miles of jungle at a cost Rs. 29-7-6.

No. 39, *Baloorghat to Pharsepara road,* 6 *miles.*—Nothing spent.

ORIGINAL WORKS.

No. 40, *Baloorghat to Hillee road,* 18 *miles.*—None.

REPAIRS.

The total allotment for repairs on this road was Rs. 1,000, and the total expenditure Rs. 447-12-0. The whole of this amount was spent in maintaining the road.

ORIGINAL WORKS.

No. 41, *Patseram to Phoolbaree road,* 18 *miles.*—The allotment for this road was Rs. 1,000, and the expenditure was Rs. 980-10-9 in executing 392,294 cubic feet of earthwork. This is a feeder road on which no further money will be spent at present.

REPAIRS.

None.

No. 42, *Phoolbaree to road No.* 11 *or Kasdahoghat,* 10 *miles.*—Nothing spent.

ORIGINAL WORKS.

Constructing Godown at Kanchanghat.—The allotment for this work was Rs. 300 and the expenditure Rs. 293. Three sheds have been built for the storage of timber and lime.

24. *Village Roads.*—Rs. 2,000 were allotted under this head in the budget, and Rs. 200 only have been spent. I made a grant of this sum to Royganj, where the residents repaired their roads at a cost of Rs. 400. The work was undertaken by one of the principal residents. I regret very much that I have not been able to spend more on this class of roads. Efforts have been made hitherto without success. People suggest roads they want made or repaired, but they will not undertake the work, and the road cess committee cannot do it with their establishment. For the present year we have allotted Rs. 5,000, and I shall try and make use of the services of the police officers in getting village roads repaired and small bridges put up under their supervision, and with Mr. Wilcox, District Superintendent of Police, as Vice-Chairman, I hope to be able to shew more satisfactory results this year.

25. *Tools and plant.*—The total allotment under the head of tools and plant was Rs. 2,800, and the total expenditure Rs. 2,195-12-11.

New tools were purchased at a cost of Rs. 1,729-4-11 and old tools repaired for Rs. 220-2-6. Rs. 196-8-0 were spent in the purchase of office furniture and Rs. 49-13-6 in the repairs of tents.

26. *Tree-planting.*—We have made a commencement on the Rungpore and the Moorshedabad roads. On the former we have planted—

Mangoes	325
Jacks	275

One thousand and fifty more will soon be put out, for which baskets are ready.

Moorshedabad road—

Mangoes	242
Jacks	57
Guango	10

One hundred and eighty-six more are ready for planting.

27. The expenditure during the year has been Rs. 490 out of Rs. 1,000 allotted. Rs. 1,000 have been allotted for the current year. The Vice-Chairman estimates the expense to be 8 annas a tree, including nurseries, baskets, digging and preparing the ground; and Rs. 1,000 would then give 2,000 trees, which would cover 6 miles of road if planted on each side at intervals of 33 feet. This seems very high, and I expect that trees could be planted from thana centres on the outlying roads at a much cheaper rate. I inspected the planting on the Rungpore road and found that it was getting on very satisfactorily. I propose to do this road throughout, and also the Kishenganj road up to the 37th mile, where the Nekmurd fair is held. From each thana, too, as a centre a distance of six miles or so along each main road can be easily planted and supervised by the police.

28. Mr. Vanziulicom was District Engineer from 1st October to 16th April. He resigned his appointment [* * * *

35. The following gentlemen have been Vice-Chairmen during the year during the time noted :—

Baboo Uma Charan Banerjee,—from 1st to 30th October 1878 and from 16th February to 1st March 1879.

Mr. L. Hare,—from 1st November to 15th February 1879.

„ H. W. Gordon,—from 2nd March to 5th April 1879.

„ F. Wilcox,—from 6th April to 30th September 1879.

Mr. Wilcox has taken in hand with great interest the care of the tree planting.

C. WILCOX,
Vice-Chairman.

Explanatory Memorandum to accompany the Annual Account for the year 1878-79.

EXPENDITURE.

A.—Under this heading, Rs. 2,159-7-7 were expended in excess of the amount allotted on account of following causes, and were paid out of savings of working establishment:—

(1) Rs. 139-2-2 were expended in excess on account of raising the pay of head clerk from Rs. 35 to Rs. 50, and appointing a nazir on a salary of Rs. 15 a month, which were not provided in the budget, but sanctioned by Government in their No. 2 (Financial Department), dated 31st January 1879.

(2) Although house cess collection has been stopped, yet Rs. 221-12-9 were paid to assessors and peons on account of their arrear commission and pay, for which amount sanction has been asked in this office No. 735, dated 18th June 1879, as the amount allotted for house cess collection has been disallowed by Government, as per their Resolution No. 609A, Public Works Department (Local Accounts), dated 23rd May 1879.

(3) Rs. 348-12-0 were expended on account of salary of ticca peons employed in serving processes, which through oversight were not provided in the budget estimate for 1878-79, but Rs. 359-12-0 have been realised as process fees.

(4) Rs. 1,006-15-0 were expended in instituting two civil suits against two contractors on account of short delivery of bricks.

(5) Rs. 1,426-15-0 were credited into the brick accounts of No. 3, Dinagepore to Kholahatee road, debiting the same under "Contingencies."

Aa.—Rs. 228-3-5 were expended out of Rs. 1,000 allotted for Dinagepore to Kholahatee road.

B.—Out of this, Rs. 5,000 have been contributed on account of Dinagepore drainage scheme,—*vide* Government Resolution, Financial Department, dated 20th November 1878.

C.—Rs. 14-12-6 were expended in excess of the allotment for the original works out of savings of the amount allotted for repairs of this road.

D.—Rs. 166-11-3 were expended for Beerganj bungalow out of the amount allotted for Prannagore bungalow.

E.—Rs. 50-1 9 were expended in excess of the allotment for repairs out of savings of the amount allotted for original works of this road.

F.—Rs. 111-9 3 were expended in excess of allotment out of savings of original work of this road.

G.—Rs. 86 were expended for Shehail bungalow out of amount allotted for Ruhea bungalow.

H.—Rs 13-8-0 were expended in excess out of savings of the amount allotted for repairs to road No. 2, Dinagepore to Atwaree.

I.—Rs. 447-8-0 were expended in excess out of the amount allotted for original works of No. 3, Dinagepore to Kholahatee road.

J.—Rs. 79-11-3 were expended in excess out of the allotment for No. 8, Beerganj towards Durwanee road.

K.—Roads Nos. 32, 33, 36, and 37, are unfinished famine roads, and unless the bridges are put in and embankments raised, it is useless to spend money on them: hence nothing was expended on those roads.

Road No. 39 was in fair order, and petty repairs were not necessary.

UMA CHARAN BANERJEA,
Vice-Chairman.

No. 246, dated Rampore Bauleah, the 14th February 1880.

From—W. H. DOYLY, ESQ., Magistrate and Chairman of the District Road Fund of Rajshahye,

To—The Commissioner of the Rajshahye and Cooch Behar Division.

I HAVE the honor to submit herewith the annual accounts and reports of the Rajshahye District Road Fund for the cess-year 1878-79.

2. *Accounts.*—The accounts have been audited and passed by the committee as prescribed in section 88 of the Road Cess Act

3. *Members.* The following were the members of the committee during the year. The number of meetings attended by each is given against his name:—

1.	Chairman	8	Ex-officio.
2.	Joint-Magistrate	4	
3.	Road Cess Deputy Collector, Vice-Chairman	9	
4.	Executive Engineer, Rajshahye Division	5	
5.	District Superintendent of Police	6	
6.	Mr. D. T. Gorden	7	
7.	„ W. Ridge 4 }	8	
8.	„ Macdonald 4 }		
9.	Mr. T. A. Dixon	4	
10.	„ W. J. Dunnett	1	
11.	„ H. J. Abbot	4	
12.	Rajah Promoth Nath Roy Bahadoor	0	
13.	„ Hurro Nath Roy Bahadoor	1	
14.	Moulvie Mahomed Russeed Khan Chowdhury Khan, Bahadoor	0	
15.	Baboo Kristoendro Narain Roy	1	
16.	„ Raj Kumar Sircar	1	
17.	„ Jadub Chandra Sircar, Pleader	7	
18.	„ Krito Choetum Bhomek, B.L., Pleader	1	
19.	„ Shama Charn Muzoomdar, B.L., Pleader	6	
20.	„ Gour Soondra Sing, Pleader	3	
21.	„ Bosunto Coomar Ghose, Mooktear	1	
22.	„ Hurro Govindo Bose, Manager, Wards' Estates ...	1	
23.	„ Prosuno Chandra Muzoomdar, Dewan of Moharanee Sarat Soondry Debia, Potteah	0	
24.	„ Sarada Prosad Shoukul ... — ...	0	

4. *Chairman.*—The undermentioned gentlemen held the office of Chairman during the year:—

Mr. C. H. Vowell, C.S., till December.
„ W. H. Doyly, C.S., till March.
„ E. A. Bradbury, C.S., till June.
„ W. H. Doyly, C.S., till September.

Baboo Mohendro Nath Bose, Road Cess Deputy Collector, was Vice-Chairman from October to 10th September; and Baboo Poorna Chandra Ghose succeeded him as Road Cess Deputy Collector and Vice-Chairman on his retiring on good service pension.

Vice-Chairman.—As Vice-Chairman, Baboo Mohendro Nath Bose, rendered very excellent service, and the committee showed their appreciation of these services by recording a very flattering resolution on the subject.

5. *Attendance.*—The particulars regarding the attendance of members at meetings are given in the prescribed statement annexed.

6. *Meetings.*—Nine full meetings were held during the year. In four meetings there was no quorum. The rajahs and zemindars who live in the mofussil scarcely ever attended. They took part, however, in committee's work when they happened to be on business in the town.

7. *Inspection.*—The District Road Fund and District Engineer's Offices were inspected in the beginning of July by Mr. F. Moore, Deputy Examiner of Public Works Accounts Bengal. He noticed some omissions in the committee's office, and arrears of work in the District Engineer's office, where the register of works and repairs was not brought up. He remarked that the system of examination and audit of the accounts was satisfactory.

8. *Finances.*—The year commenced with a credit balance of Rs. 90,706-6-7 in hand. The total receipts of the year from all sources of revenue, excluding deposits and advances, were Rs. 1,26,741-14-8, making, with the balance, a total of Rs. 2,17,448-5-3. A detail of the income is given in the accounts accompanying.

9. *Cess.*—The cess for the year was collected at the rate of 1½ pice per rupee. At this rate the estimated demand of the year was Rs. 54,567. Out of this, and arrears of previous years, there was a collection, according to the committee's accounts, of Rs. 49,739. There was no demand during the year for house-cess, as it has been under suspension from 1st April 1878. The small amount of Rs. 230 realized was arrears on account of a period previous to that date.

10. *Collection.*—No difficulty whatever is felt in realizing the cess from an estate held by one proprietor. He pays it punctually with the land revenue. But where an estate is held jointly by several co-sharers, it is, as a rule, in arrear, and it is often necessary to take coerceive measures against them. The procedure causes some delay in collection, but scarcely any real loss. With all these difficulties the arrear on account of the cess alone (excluding public works) is not, as detailed in the road cess office annual report and statements dated November 1879, very heavy.

11. *Working of the Act.*—The Act worked here during the year smoothly, and there is no good reason for supposing that it is regarded as an unfair, or that it is an unpopular cess. I think the people appreciate fully the benefits of works undertaken every year in the district. A good deal of useful work on village roads has been done all over the district, and this has been appreciated. I have for the now current year allotted a considerable sum to be expended in every thana in the district.

12. *Outlay.*—The total outlay, excluding advances and deposits, comes to Rs. 82,555. Of this Rs. 4,282 were spent on establishment entertained for collection of revenue and for committee's office and contingencies.

The cost of work, establishment, tools and plant, amount to Rs. 16,417. The actual sum spent on district works amounts to Rs. 61,856—viz. on original Rs. 32,073, and repairs, including village roads, Rs. 29,783.

13. *Allotment.*—The following is an account in detail of works (original and repairs) for the year.

The committee's allotment for works during the year was for a sum of Rs. 1,19,970—viz. for original works Rs. 96,470, and for repairs Rs. 23,500.

Original Works.—The estimates for the following original works were approved and sanctioned during the year:—

1. Nattore municipal road.
2. Masonry bridges on the Bauleah to Nattore road
3. Iron bridges on the Bauleah to Nattore road.
4. Raising, bridging, and metalling the Ghoramara and Kojla road; a portion of the Bauleah to Nattore road.
5. Metalling the Bauleah to Nattore road.
6. Ghalimpore to Malunchee feeder road.
7. Raising the Godagaree road. (This road was undertaken at the recommendation of the Superintending Engineer.)

The following memorandum shews the actual expenditure on each of the original works undertaken during the year:—

		Rs.
1.	Nattore municipal road	3,963
2.	Masonry bridges on the 1st section of the Bauleah to Nattore road	12,678
	Total ...	16,641
4.	Raising, &c., the Ghoramara and Kojla road	6,860
6.	Ghalimpore to Malunchee feeder road	3,227
7.	Raising the Godagaree road	1,790
	(*a*) Expenses incurred in surveying, &c., the Malda extension, Sultanpore and Raneenagore road	29
	(*b*) Constructing a bridge on the Bya road	3,526
	Total ...	32,073

(*a*) The road was surveyed under sanction of the committee.
(*b*) The bridge was completed in 1877-78, but its cost had to be adjusted in the year under report.

Work No. 1.—The project for raising, bridging, and metalling the municipal road at Nattore was submitted through the ordinary channel for Government sanction, and after a lapse of six months was returned, passed, and approved for the sum of Rs. 16,000. As permission to begin the work was given late in the season, only half the necessary amount of earthwork was done before the rains set in. Five new masonry bridges were finished, and repairs undertaken to a timber bridge near the town of Nattore. A large quantity of bricks were ready, but the earthwork not being finished, metalling operations could not be taken in hand. This road will, however, be completed before the next rains.

Work No. 2.—The construction of masonry bridges on the Bauleah to Nattore road was sanctioned by Government late in the working season, and comprised the works marginally noted. The aggregate waterway is 466 feet, but this does not shew the whole of the waterway allowed to pass the Gangetic spill across the Nattore road. The calculations were most carefully prepared and approved by the Superintending Engineer.

Total ...	2,258	for

length of 23 miles of roadway.

The bridges Nos. 23 and 25 were taken in hand, and the foundations successfully laid up to ground-level. Great difficulty was experienced in putting down the foundations of these two bridges, as they happen to be in the Beraldah valley, the average depth of water in the rains being eight feet. At the request of the Superintending Engineer, Colonel Swayne, the Executive Engineer of this Division, inspected the work before the concrete was laid, and when approved by that officer the masonry was commenced. Owing to the delay in getting sanction, these two bridges could not be finished before the inundation came in. A masonry barrel drain of two feet diameter was constructed at Motihar.

Work No. 3.—Designs were prepared, and the estimate sanctioned by Government for the construction of two iron bridges at a cost of Rs. 90,057, one of 150 feet in length at the Narrud nuddy, and the other of 178 feet at the Beraldah gap. Both these bridges are on screw-piles with plate girder, calculated to stand a strain of 120 lbs. per superficial foot of roadway with perfect safety. The cost is very heavy. A cheaper bridge could have been put up if the strain of 120 lbs. per square foot was relayed. For district works, light bridges are required.

The contract for the erection of these two bridges was given to the firm of Messrs. Marillier and Edwards, with the approval of Government. The District Engineer inspected the girders and plates while they were being revetted together in Calcutta, and he reports that the workmanship and finish is equal in every respect to the best girders imported from England. I am glad to state that the materials have arrived, and Messrs. Marillier and Edwards are getting on with the work as fast as they can.

Work No. 4.—Raising, bridging, and metalling the Bauleah and Kojla road portion of Bauleah to Nattore road. For some time past great inconvenience was felt from not having a proper road connecting the town of Bauleah with the Nattore road. The municipality, under the orders of Government, made over one-and-a-half miles, namely from Ghoramara to Kojla, and the road cess committee undertook the work. The road had to be raised three feet and widened to 20 feet at surface. The estimate for the work was Rs. 20,417. Three masonry culverts have been constructed and two terracotta pipes laid. The latter have been tried as an experiment, and so far they answered very well; the cost is much less than that of masonry drains. After the road had been levelled, six inches metalling was put on over brick soling 12 feet broad. The metalling consisted of green stone imported from Rajmehal, and was by far the most expensive part of the work. The road is now finished up to the diversion, and open for traffic. The diversion is about five chains in length, and situated at the Bauleah end; this could not be taken in hand as the notification for acquiring the land had not appeared in the *Gazette*, the old road is therefore used for the present. This is one of the works which the Divisional Superintendent has inspected.

Work No. 5.—Metalling with "khoa" the whole of the Bauleah to Nattore road, between the seventh mile-post up to the railway station. The committee originally intended to carry on the metalling of the road and the construction of the bridge simultaneously, as Government had promised a grant-in-aid of Rs. 1,50,000. With this object in view upwards of 23 lakhs of bricks were manufactured during the season. The bricks near the sites of bridges will be used up in masonry work, and the other brick-fields will remain in stock till the

committee have the funds to undertake the metalling. It is hoped that Government will pay the grant* this year. The estimate for "khoa" metalling ten feet broad is Rs. 1,29,956, so that it is impossible for the committee to bear this large sum in addition to the heavy outlay incurred on the construction of bridges. The metalling operations are therefore in abeyance.

* Since received.

Work No. 6.—The Ghalimpore to Malunchee feeder road project was prepared and submitted to the Superintending Engineer, who approved of the waterway calculations, and the work was then taken in hand. There are two timber bridges of 20 feet waterway each; the average height of the embankment is six feet. The estimate for the entire project was Rs. 5,779, and the road has been completed under that sum. The Divisional Superintendent of Works has been over the road and approved the work. In raising the embankment, Mr. Jules Deveria, and Mr. F. Dixon, of Ghalimpore, very kindly came forward and gave their services gratis, and got the earthwork done by their ryots at Rs. 2-4 per thousand cubic feet, whereas a contractor would not have undertaken it under Rs. 2-8. I may mention that the railway authorities were paying from Rs. 2-12 to Rs. 3 per thousand at that time, as labour was scarce.

Work No. 7.—Raising the Godagaree road. At the recommendation of the Superintending Engineer, a portion of this road was raised two feet for a length of two miles. The road runs along the bank of the Ganges, and acts as a protective embankment. The work cost Rs. 2,889. During the recent inundation, the Ganges rose to the unprecedented height of 27′ 6″ at the tide-gauge; the usual height is 24 to 25 feet; this caused considerable damage to the works in the district, especially to the roads acting as protective embankments. The Godagaree road was breached in three places where it had been raised, but this I attribute to the ryots deliberately cutting the embankment rather than overtopping.

Repairs.—Under the head of repairs, the committee resolved that the works noted below should be undertaken:—

	Budget allotment. Rs.
(*a*) Bauleah to Bya metalled road	5,000
(*b*) Godabaree to Parbuttypore road	3,000
(*c*) Bauleah to Godagaree road	3,000
(*d*) Surdah road, 1st section	1,000
(*e*) Pubna road 2nd „	3,000
(*f*) Nattore to Bogsar road	3,500
(*g*) Village road	5,000
Total ...	23,500

The estimates for the following repairs were approved and sanctioned by proper authorities, and works undertaken during the year. The figures opposite to each shew the actual expenditure incurred for it:—

	Actual. Rs.
(*a*) Bauleah to Bya metalled road	3,499
(*b*) Godagaree to Parbuttypore road	219
(*c*) Bauleah to Godagaree road	2,742
(*d*) Surdah road, 1st section	3,503
(*e*) Pubna road, 2nd „	
(*f*) Nattore to Bogsar road	1,295
(*g*) Village roads	1,961
Total ...	13,219

The following works were proposed and sanctioned after the budget allotment of the year:—

	Rs.
1. Bauleah to Nattore road 1st and 2nd sections ...	14,128
2. Kutcherry road—portion of the Bauleah to Nattore road	1,719
3. Godagaree to Malda road	86
4. Bauleah to Tannore road	59
5. Charghat to Ghalimpore road	572
Total ...	16,564
Grand Total ...	29,783

Repair (*a*).—During the rainy season, "khoa" metal was laid on the Bauleah to Bya road, from the third to fifth mile-post, and petty repairs to the bridges undertaken. A new masonry barrel drain was put up at the fourth mile-post. The whole of the work the committee intended to have done on this road was finished before the close of the cess-year; but final payment to the contractor was not made till after the 30th September. The estimate was sanctioned by the Superintending Engineer during the previous year, and there is now a bit remaining to be done from the fifth to seventh mile, which will be taken in hand during the ensuing rainy season.

Repair (*b*).—*Dinagepore road. Godagaree to Parbuttypore road.* This is an extremely difficult road to keep in repairs during the rains; the clay remains puddly for a long time, and in the hot weather becomes exceedingly hard; labour is scarce and has to be imported; the sum of Rs. 219 was spent on the road in filling up ruts and clearing jungles where necessary.

Repair (*c*).—*The Godagaree road.* In addition to the raising of two miles already mentioned under the head of original works, thorough repairs to the surface were undertaken. A large timber bridge of 60 feet and the roadway, planking, rails, and abutments renewed during the year under review. Some smaller timber bridges were also taken in hand, and are now passable.

Repair (*d*).—*The Surdah road or Pubna road, first section.* The road was kept in excellent order till the inundations. Both Messrs. Gordon and Dixon took great interest in the work, and very kindly gave their factory-coolies on the road during the slack season of the year. The earthwork done by them did not exceed two rupees per 1,000 cubic feet, which is undoubtedly the cheapest in the district. The amount sanctioned by the committee was expended, and the work checked and examined by the District Engineer. The Ganges rose to an unusual height about the month of August, and the Surdah road, which acts as a protective embankment, was unfortunately breached. In the first seven and half miles of the roads up to Achintola, the road was not breached; but between Achintola and Surdah, a distance of six-and-a-half miles, there were 18 gaps, although Messrs. Gordon and Dixon, as well as the District Engineer had taken every possible precaution.

So long as the bhadoi paddy crop was not harvested, there was no danger of the road being breached. All the leaks caused by rat-holes were kept well in hand; but as soon as the crop had been gathered, and the inundation was at its highest, the cultivators cut the road at several places in one night. The head of water was about six or eight feet, so that by next morning the gap was beyond control. In particular I may mention the breach at Esubpore; the depth of water was 10 feet rushing through with a great velocity. These two gaps, within 100 yards of one another, aggregate 250 × 110 = 360 feet of waterway, this, in addition to the 16 other gaps, had a most disastrous effect on the Nattore road.

Repair (*e*).—*The Pubna road, second section,* is a continuation of the Surdah road to Orunkola, and was kindly looked after by Mr. Macdonald, Messrs. Watson and Co.'s Manager at Rajahpore Factory. The District Engineer, who inspected the works, reports that the road up to Lalpore was in very good condition, the Ganges was cutting away the road between Rajahpore and Lalpore, and although two diversions had been made the river was still encroaching, and it was probable that this bit would have to be abandoned and communication kept up with Sara and Pubna *vid* Bagha. This question is under the consideration of the committee. The amount allotted by the committee was spent on this road.

Repair (*f*).—*The Nattore to Bogaur Road.*—An estimate had been prepared and submitted to the Superintending Engineer for thorough repair to all the bridges, but as the committee could not afford so large an outlay as Rs. 10,000, the estimate, which was returned, passed, and approved by the Superintending Engineer, could not be taken in hand. A separate estimate was passed for surface repairs to earthwork, and those bridges which were dangerous were put in proper order.

Repair (*g*).—Out of Rs. 1,961 spent on village roads, the Chairman of the Nattore branch committee spent Rs. 575 on certain roads under the committee.

Repairs No. 1.—The surface from the 5th to 20th mile-post was levelled, and all ruts and holes caused by the last rainy season were filled in and turfed. Two gaps which were to have masonry bridges, had temporary bamboo bridges run up during the rains so as to keep communication open. Next year the masonry bridges will be ready; the lime, coal, and a large quantity of bricks have been collected at site of work. The timber bridges on this section have been repaired at a cost of Rs. 10,704-8-6.

Owing to the breaching of the protective embankment between Achintola and Surdah, the Gangetic spill came down with great force on the Nattore road. The bridges in the Kopasia basin suffered the most. The natural slope of the country is from the river bank inland. This, combined with a head of five or six feet of water on one side of the road, and low land on the other, caused considerable scour. Two old timber bridges were completely carried away; another was left standing by itself, the approaches having been carried away, and the Rabtola gap, which was to have a masonry bridge of 112 feet waterway, was scooped out to such an extent that it will be unsafe for a masonry bridge. The committee are considering a proposal to have an iron screw-pile bridge here, and utilizing the materials collected for the masonry bridge for some other works.

On the second section of the road from the 20th to 28th mile-post, all the timber bridges (11 in number) have been thoroughly repaired. The whole of the roadway planking which was in bits of six feet, has been replaced by well-seasoned teak in lengths of 16 feet, and the abutments and wing walls thoroughly overhauled. The second section was in good condition during the rains, and the bridges ought to last for several years without extensive repairs. The Superintending Engineer carefully examined these bridges on his way to Bauleah. Although the waterway provided is quite sufficient for ordinary floods, the bursting of a protective embankment defies all calculation.

Repairs No. 2.—Metalling, with indigenous stone, the road leading from the cutcherries to the town of Bauleah. After the visit of His Honor the Lieutenant-Governor of Bengal, the municipal committee, with the consent of the local Government, made over this road to this department, so that now the whole line from the cutcherries up to the town of Nattore, a distance of 30 miles, is under the road cess department. The municipality repaired the

cutcherry road with "khoa," but the traffic was very heavy and it was necessary every year to renew the metal. A project was therefore prepared to lay down six inches of stone, and as there was a large quantity in stock which was originally purchased for the Nattore road, it was used here for a length of one mile. The estimate provides for two miles at a cost of Rs. 17,993, but the committee were of opinion that they would wait and see how this bit lasted before purchasing more stone metal.

Repairs Nos. 3 & 4—Call for no remarks.

Repairs No. 5.—*Charghat to Ghalimpore road.*—This is a continuation of the feeder road from Ghalimpore to Malunchee. In their resolution of February 1879, the committee sanctioned the expenditure of Rs. 1,511 for earthwork and bamboo bridges on this road. The allotment was made from the Govindpore road which was abandoned.

14. *Govindpore road.—The Govinddpore road.*—The district committee, at a meeting at which the Officiating Commissioner was present, decided to abandon this road as it was of use only to one zemindar—the Dighaputtea Rajah. No money was expended on this road during the year. The committee allotted the sum of Rs. 3,333 for compensation for lands of this road, and it represents the amount which has long been outstandiug for the lands taken for it. It has not been paid.

15. *Trees.*—No trees have yet been planted along the road sides. Some have got trees already in places. In others the road side will not admit of trees being planted.

16. *Establishments for works. Working establishment.*—The establishment on roads consisted of—

		Per month. Rs.
1 District Engineer	... On	500
2 Accountants	... „	80
3 Supervisors	... „	150
1 Overseer	... „	75
1 Ditto	... „	50
1 Draftsman and Estimator	... „	50
Total ...		905

The post of District Engineer was held by Mr. N. W. Mackenzie, who has prepared projects, plans, and estimates very carefully, and has done all works which he was required to do in a thoroughly satisfactory manner.

The Accountant, Baboo Mohima Chandra Bhaduree, has now been in the road cess department for five years, and is qualified under the Government rules. The careful way in which records are filed, and the certainty of papers being produced when wanted, is creditable to him.

Supervisor Baboo Ashutosh Lohery is under temporary appointment; his qualifications have been approved by Government and he has been recommended for another year's probation. During the year under review he applied for and obtained six months' leave without pay, to act as District Engineer of Mymensingh. The committee were put to considerable inconvenience as he was allowed to go before his successor arrived, and as Government rules insist upon qualified men being appointed, a competent person could not be had for so short a time, and it took several months before a man was found to replace him.

Baboo Aroon Chundra Dutt, overseer, has been in the employ of the committee for some time and was on probation also.

Baboo Jitnarain Dutt, overseer, has passed the departmental standard, and Government has approved of his nomination. He still wants more practical experience, but as he endeavours to do his best, it is hoped he will stay on in this department.

The draftsman, Baboo Jogendro Laul Ghose, is painstaking and careful, and can execute neat tracings of detailed drawings. It is a pity he does not try to better himself by passing the departmental examination for the grade of overseer, as he is acquainted with surveying, levelling, and the ordinary duties of an overseer.

17. *For collection of revenue. Collection staff.*—English Department—

	Per month. Rs.
1 Head clerk	70
2 Clerks	30
3 Clerks	25
Vernacular Department—	
1 Towjee navees	25

No. 484, dated Rungpore, the 21st December 1879.

From—J. J. LIVESAY, ESQ., Chairman, District Road Cess Committee, Rungpore,
To—The Commissioner of the Rajshahye and Cooch Behar Division.

I HAVE the honor to submit the following report on the workings of the Rungpore District Road Cess, together with detailed accounts of receipt and expenditure of the Fund for the year 1878-79.

2. The accounts were audited by a sub-committee, consisting of the Vice-Chairman and three other members, and were then laid before a general meeting, held on 20th December 1879, and passed in accordance with section 88 of the Act.

3. *Sudder Committee.*—In appendix A is given the constitution of the committee, and the manner of attendance at the several meetings held during the year. It will be seen that on an average seven members attended the meetings eleven in number during the past year. On some of the members declining to continue, the number was reduced from 21 to 18 since May last. Baboo Horish Chundra Roi, one of the non-official members, took active interest by undertaking the construction and repairs of many village roads situated within the Kurigram sub-division; with the exception of three or four, I think all the other members have shown a very fair amount of interest in discussing matters.

4. *Branch Committee at Gyebanda.*—The branch committee consists of 18 members. Statement in form, appendix A, regarding the meetings held during the year is annexed. The sub-divisional officer reports that the members took a fair interest in discussing matters laid before the committee, and that the two meetings held during the year were found sufficient. The road from Gyebanda to Kamarjanee was taken up into the list of the district roads at the recommendation of the branch committee.

5. *Inspection of the offices.*—On the 8th and 9th of July last, the offices of the District Road Fund and that of the District Engineer were inspected by Mr. F. Moore, Deputy Examiner of Public Works Accounts, Bengal. His inspection report was considered by the committee, and the suggestions made by him have been adopted and the defects pointed out rectified; the elaborate system of accounts in the District Engineer's office has been simplified, and the imprests in the hands of the subordinates reduced.

6. *Works.*—Mr. J. Robinson, the late District Engineer, was formally relieved by Mr. C. H. Ringwood, on 30th October 1878. The following is a detailed report of the work done on the district roads from 1st October 1878 to 30th September 1879. Mr. Ringwood has performed his duties to the satisfaction of the committee, and I have had no reason to find any fault in his work.

GYEBANDA SUB-DIVISION.

ORIGINAL WORKS. *Construction of Timber Iron Bridges on the Bogra road.*—Under this estimate the eight bridges which it was proposed to construct have been finished, with the exception of the railings of six of them. The material for which however is at site. The bridges are all open for traffic, and are everything that can be desired as far as construction is concerned. The expenditure on them last year was Rs. 2,681-1-10.

Construction of the Alaikari bridge.—A fair amount of progress was made on this work Almost all of the well and block-sinking has been accomplished, and this without any failure. One of the piers has been built up to flood-level. Almost all of the bricks required are now ready at site, and the buckle-plates for the flooring have been procured. The expenditure during the year was Rs. 11,063-5, which includes cost of preparation of materials. The quantity of masonry executed to date is 13,884 cubic feet, of concrete 7,429 cubic feet, and of well and block-sinking in running feet 242·5.

Construction of five new bridges on the Kalligunge road.—All five bridges have been completed and are open for traffic. The expenditure on them, up to 30th September 1879, was Rs. 8,529-14-10; to this however must be added part of the cost of materials used, some of which have not yet been paid for.

Planting fruit trees.—Nurseries have been established at Alaikari and Meetapooker and five miles of the Bogra road, and one mile of the Kalligunge road were planted up to 30th September 1879. This work is in progress.

Annual Repairs.—The following repairs have been executed on the first-class roads:—

	Kalligunge Road.	
Surface repairs		32 miles.
Earthwork		19,350 c. ft.
Bridges repaired		15 No.
	Bogra Road.	
Surface repairs		19¾ miles.
Earthwork		97,137 c. ft.
Bridges		16 No.
	Kristopore Road.	
Earthwork		665,039 c. ft.
Bridges repaired		43 No.
	Kutoobpore, Kasinathpore Road.	
Surface repairs		13 miles.

Gaibanda, Lukhipore Road.

Earthwork	79,828	c. ft.
Bridges repaired	9	No.

Chowdhranirdiggee, Nowabgunge Road.

Earthwork	19,900	c. ft.
Bridges repaired	10	No.

Second Class Roads.

Earthwork	851,287	c ft.
Bridges renewed	14	No.
Do. repaired	36	No.

KURIGRAM SUB-DIVISION.

ORIGINAL WORKS.

Construction of new bridges from Rungpore to Kamarpara.—Under this estimate the whole of the bridges on the section of the road from Rungpore to the Teesta have been finished off. On the next section from the Teesta to the Dhurla the bridges have been (with the exception of the railings) finished with increased waterways, except two, one of which will have to be lengthened and the other reconstructed *in toto*. On the third section from the Dhurla to Kamarpara three of the pucca bridges have been finished, and the timber-iron ones, with increased waterways, have been nearly finished. The total number of timber-iron and timber bridges, masonry culverts, and drain pipes, that have been constructed under this estimate up to 30th September 1879 is 33 (which number includes a large one of 144 feet of waterway), and of these all are finished except four. The tonga service plies on the Teesta-Dhurla section, and the road is open for wheeled traffic throughout. The total amount spent under this estimate up to 30th September 1879 was Rs. 49,818-5-8.

Construction of the Kownia Road.—An embanked and bridged road was constructed to connect the Dhubri road with the railway station at Kownia. The road is 1½ miles long; the bridges are of timber-bamboo. The cost was Rs. 994-3.

ANNUAL REPAIRS.

Dhubri road from Rungpore to Balarhat.

Bridges renewed	6	No.
Earthwork	3,244,309	c. ft.
Surface repairs	45	miles.
Turfing	76,090	s. ft.

This road from Mahigunge up to Kamarpara, a distance of 36 miles, is, with two trifling exceptions, now above flood-level and has been put into first rate order. The work done has been of a very important nature, and the road has been very considerably improved.

Annual repairs to Cooch Behar Road.

Earthwork	33,058	c. ft.
Surface repairs	14	miles.
Bridges repaired	19	No.

Annual repairs to Bugwah Road.

Bridges repaired	35	No.
Surface repairs	9	miles.

Annual repairs to Saptibaree, Bowrah Road.

Bridges repaired	10	No.

Annual repairs to Kamarpara—Foolkomar Road.

Earthwork	49,496	c. ft.
Bridges constructed	1	No.

Annual repairs to Second Class Roads.

Bridges repaired	43	No.
Earthwork	299,453	c. ft.

Planting Fruit Trees.—Nurseries have been made at Kurigram, Botla, and Panialghat, and four miles have been planted on the Dhubri and two on the Bugwah roads. This work is in progress.

KISHOREGUNGE SUB-DIVISION.

ORIGINAL WORKS.

Constructing new bridges, Julpigoree Road.—Under this estimate a bridge of teak wood, consisting of six spans of 20 feet each has been constructed and nearly finished at Kishoregunge, and another of same dimensions at Khilalgunge. Both these bridges were open for wheeled traffic during the last rains. They have to be railed still, and a small part of the iron-work remains to be done. Expenditure up to 30th September 1879 was Rs. 7,971-15-6.

Constructing a new Bridge on the Dinagepore Road.—Under this estimate, a bridge in all respects the same as above, regarding material and dimensions, has been constructed on the Dinagepore road near the Buddergunge railway station. It also was open for traffic during last rains and is nearly completed. The expenditure on this bridge up to end of the year was Rs. 3,780-14-10.

Planting Fruit-trees.

A nursery has been established at Tangonmaree, and nine miles of the Julpigoree and 11 miles of the Dinagepore roads have been planted with jack and mungo trees.

Annual repairs, Dinagepore Road.

Earthwork	21,400	c. ft.
Surface repairs	10	miles.
Bridges repaired	5	number.

Julpigoree Road.

Earthwork	2,750	c. ft.
Bridges repaired	15	number.
Surface repairs	59	miles.

Chillakhal Road.

Bridge roadway repaired	114	r. ft.
Bridges repaired	6	number.
Surface repairs	15	miles.

Earthwork	409,110	c. ft.
Bridges repaired	52	number.
Surface repairs	55	miles.
Ghât cutting	80	r. ft.

HEAD-QUARTERS SUB-DIVISION.

ORIGINAL WORKS.

Metalling Tajhat Road.—This road connects the railway station with the civil station of Rungpore and the old native town of Mahigunge. About 500 running feet of the road was metalled, and more would have been done, but that there was no material for the purpose. Three lakhs of bricks were burnt and are now ready, and 823,372 cubit feet of earthwork was executed in raising and widening out the embankment to proper section. Two double drain-pipe culverts were put in. The work will be proceeded with this year and as much progress made as funds will permit.

Renewing the metal on the road from Dhap to Nowabgunge.—This is the main station road, and is a continuation of the Tajhat road. Almost all of the material has been got ready and is now being broken up: 45,228 cubic feet of earthwork was executed in widening out the embankment as required, and 23,226 cubic feet of jhama bricks was purchased for metal.

Planting Fruit-trees.—A nursery has been made at Rungpore, and the young trees are being planted out.

New Office Building and Workshops.—A large and commodious building, with pucca out-offices attached, known as the "Rohaling buildings," was purchased for the Road Cess offices and District Engineer's residence. The workshops and godowns have all been moved up from Sunkamaree and are now in the compound, so that what work is going on is more immediately under the notice of the District Engineer. A bungalow for the overseer in charge of the head-quarters sub-division has also been erected in the compound, which is a very large one. The main building has been to a great extent repaired, and the floors of several of the rooms have been asphalted and laid with Portland cement, and the roof has been repaired.

Tiling roof of the Dâk Bungalow.—This building was found to leak so badly in consequence of the slope of the roof not being of sufficient pitch, that it was found necessary to remove the thatch and tile it.

Annual repairs to Station Roads.—The roads have been kept in efficient order throughout the year. Fresh earthwork has been executed as required over 2¾ miles.

General Remarks.—It appears from the above report that a large quantity of work of a permanent nature was executed last year. The five timber-iron bridges on the Kalignnge road were completed. Those on the Bogra road (eight in number) were completed also. All but the railings of six of them. Three large bridges of 120 feet waterway were constructed and opened for traffic on the Julpigoree and Dinagepore roads. The bridges on on the Dhoobri road up to Kamarpara were nearly finished, among them being a large one of 144 feet waterway. The Kowniah road was commenced and finished, a work which, although not large, is yet of the greatest importance. The section of the Dhoobri road from the Teesta

to the Dhurla has been put into proper order for the running of the Tonga service, and the whole of the road up to Balarhat was thoroughly repaired. Nurseries have been established at various suitable localities, and several miles of road have already been planted with jack and mango trees. Five lakhs of bricks were successfully burnt at Rungpore, which will be used for road-metalling and other works. The buildings purchased for the Road Cess offices, &c., are most valuable, and stand in a large compound. They were repaired as far as funds would permit. Besides the above, the Committee spent Rs. 4,528-11-8 on the bridges on the new drain cut, which have to be altered and constructed. This amount includes cost of two lakhs out of the five lakhs of bricks which were made at Rungpore.

In repair works upwards of 350 bridges have been renewed and repaired. Earthwork to the amount of nearly 58 lakhs has been executed in improving and raising the roads, and nearly 300 miles of road have been levelled off and put into thoroughly good order.

In carrying out the above enumerated works, the contract system has been followed as far as possible. In fact no work that could be done by contract has been executed by daily labour. In this district, however, it is absolutely necessary to employ daily labour during certain months of the year, if work is to go on at all.

Village roads.

7. A sum of Rs. 4 000 was allotted to village roads, and a certain number of them were taken up in each sub-division through the agency of non-official gentlemen and heads of villages who came forward to undertake the works. Very little was spent in the Gyebanda sub-division. This is reported by the sub-divisional officer to have arisen, owing to the failure of a contractor to perform his contract in constructing Gyeband-Kamarjanee road, which has since been taken up in the list of the district roads. The following table shows the number of roads taken up in each sub-division, and the amount spent :—

Sub-division.	Number of roads taken up.	Total expenditure. Rs.	A.	P.
Sudder sub-division	5	690	7	6
Gyebanda sub-division	3	280	0	0
Bagdogra sub-division	13	1,194	9	1
Kurigram sub-division	16	1,260	0	0
Total ...	37	3,425	0	7

Establishment.

8. The collection establishment is under a Deputy Collector, consisting of—

A head clerk.
A second clerk.
A third clerk.
A head mohurir.
Two other mohurirs.
A nazir.
A duftry.
And eight peons.

The Committee has an office establishment, consisting of—

A head clerk and accountant,
A second clerk, and
A peon.

The Engineering establishment consists of—

The District Engineer of the rank of an Executive Engineer.
Four overseers.
Six sub-overseers.
A head clerk and accountant.
Two other clerks.
A draftsman.
Two peons.

9. During my tour I found that much really good, useful, and permanent work has been done on the main lines of communication throughout the district, such as the Dhoobri road, the Bogra road, the Julpigoree road, the road from Rungpore to Kaligunge and Gyebanda, the Cooch Behar and Dinagepore roads, the cross road from Bhowanigunge to Kristopore *vid* Gyebanda, Sadullapore, and Pirgunge; the Durwani-Chillakhal and Durwani-Gharamara roads, and the efforts made to maintain and to bridge these important lines of communication, have been, I consider, attended with great success, and whatever money has been expended, has, I am satisfied, been spent to the very greatest advantage, and has been productive of the very best results. I regret to have to say, as I pointed out in last year's report, that for want of funds many, and the greater part of the second class roads could not be properly repaired and bridged, but now, as much of the work and bridging on the main lines has been completed, it will be possible to spend much more money on the second class minor and village roads, so that in the course of the next few years all the district roads will, I trust and expect, be thoroughly repaired and bridged, and so every part of the district be furnished with good lines of communication.

10. The working of the Act so far as I have been able to judge is satisfactory. The cess is realized without any great difficulty, and the improved communications seems to be appreciated by the people of all classes. People have been greatly benefited by the construction of the different feeder roads, and a great impetus has been given thereby to trade. There is an urgent and pressing demand in the more advanced portion of the district for more roads, as every cess-payer thinks he ought to have a good road to his particular village, and as owing

to insufficient funds very often this want cannot be satisfied, the tax-payer naturally thinks he is not getting the worth of his money which has been paid to the road cess. It is hoped and expected that in future years by degrees much may be done to satisfy all reasonable demands of the tax-payers.

12. It is proposed to carry out the following works next year :—

1. To put all railway feeder roads into thorough order, to raise them above flood throughout, and to substitute timber for the present bamboo bridges on them. This will include realigning and improving the present road from Domer to Gharamara which is an important communication, bridging the Doonie river where this road crosses it at Borayari.
2. Finishing the timber iron bridges on the Rungpore.—Kamarpara section of the Dhubri road.
3. Finishing the Alaikari bridge.
4. Constructing a bridge over the drain cut near Mahigunge.
5. Maintenance of present communications.
6. Planting fruit-trees.

RUNGPORE DISTRICT ROAD CESS COMMITTEE.

APPENDIX A.

Abstract of particulars regarding Meetings of Rungpore District Road Cess Committee for the cess year 1878-79.

17	,, Nowazuddin ..	... }
18	,, Imaduddin ...	... Jotedar.

No. 14, dated Rungpore, the 19th January 1880.

From—J. J. LIVESAY, Esq., Chairman, District Road Cess Committee, Rungpore,
To—The Commissioner of the Rajshahye and Cooch Behar Division.

WITH reference to your No. 344PW, dated 9th January 1880, relating to the working of the establishments during the cess-year 1878-79, I have the honor to state as follows.

2. *Work Establishment.*—As regards the establishment working under the immediate orders of the District Engineer, the members of the same have on the whole done fairly well, with the exception of Baboo Mahendra Chandra Gupta, and Baboo Mohini Mohan Bogchi, the overseers of the Kishoregunge and Kurigram sub-divisions, both of whom have, both by myself and the District Engineer, been found greatly wanting in energy and industry.

3. *Committee's Office.*—Of the two subordinates in the Vice-Chairman's office, Munshi Syed Abdul Futeh has done fairly well, and Baboo Dwarka Nath Chatterjee, road cess accountant, on the whole very well.

4. *Collection Establishment.*—The total amount of demand of the cesses during the year under report, including the balance from the previous year, was Rs. 2,77,595. Of this amount Rs. 2,45,835 were collected during the year, leaving a balance of Rs. 31,760 unrealized at the close of it. The amount outstanding was heavier than that of the year previous, and I do not think it speaks much in favour of the collection office. The establishment have otherwise worked fairly well. Steps have been taken lately by the sub-deputy collector in charge to collect the heavy amount of outstanding arrears as soon as possible, and a portion of the office establishment has with this view been sent out by him to different parts of the district. He reports that the progress which is now being made by them in the work is satisfactory.

No. 6—Part I.

RUNGPORE DISTRICT ROAD FUND.

No. 32, dated Camp Khonjonpore, the 24th December 1879.

From—H. G. COOKE, ESQ., Offg. Magistrate and Chairman, District Road Cess Committee, Bogra,

To—The Commissioner of the Rajshahye and Cooch Behar Division.

I HAVE the honor to submit the annual report and accounts of the District Road Fund operations of Bogra for the cess year ending 30th September 1879.

2. The accounts were prepared and audited by a Sub-Committee; they were afterwards laid before the general meeting held on the 15th November 1879, and passed in accordance with the requirements of the Act.

Working of the Road Cess system.—In this district the road cess system has worked fairly. No complaints about its enforcement are ever heard of. The collection of the cess on the whole is satisfactory, being 89·5 per cent on the whole demand.

Under section 76 of the Road Cess Act the list of members has been revised. The members who never attended the meetings were replaced by Baboos Govind Nath Chowdhuri, Radha Sunder Sanyal, Lal Behari Rai, and Saiyid Oliullah. The following is a list of the members who composed the Road Cess Committee:—

1. The Collector.
2. The Executive Engineer.
3. Saiyid Abdus Sobhan Chowdhuri, zemindar.
4. Baboo Radha Raman Munshi, ditto.
5. „ Piari Mohun Shaha, merchant and shop-keeper.
6. „ Ragu Nath Mustofi, naib of zemindar.
7. „ Bhoyrab Chandra Moitra, zemindar.
8. Saiyid Oliullah, ditto.
9. Khaja Azizuddin.
10. The District Superintendent of Police.
11. The Senior Uncovenanted Deputy Collector.
12. Baboo Govind Nath Chowdhuri, zemindar.
13. „ Radha Sunder Sanyal, talookdar.
14. „ Lall Behari Roy.

The post of Vice-Chairman was vacant since 28th April 1879, his work being performed by the Chairman himself.

The following statement gives the particulars required by Government circular No. 1286 of the 13th March 1876:—

APPENDIX A.

Commissionership.	District.	Number of members forming committee.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meeting.	Number of members who did not attend any meeting.	Number of members who attended only						Percentage of average attendance to whole Committee.
									One meeting.		Two meetings.		Three meetings.		
		Official.	Non-official.						Official.	Non-official.	Official.	Non-official.	Official.	Non-official.	
Rajshahye and Cooch Behar Division	Bogra ...	4	10	5	9	1	5·33	2	...	3	...	...		4	33·09

From the above table it will appear that the percentage of attendance of members was not unsatisfactory; only one meeting was adjourned for want of quorum. Almost all the official members and some of the non-official took a fair amount of interest in the Committee's work.

The District Road Fund and District Engineer's Offices were inspected by the Deputy Examiner during the year, and the instructions given are being observed.

Accounts.—The year opened with a cash balance of Rs. 16,342-13-1, which, added to Rs. 15,417-14-3, the outstanding advances, gave a total balance of Rs. 31,760-11-4, and the total receipts under different heads amounted to Rs. 48,655-1-9. Thus the available income of the year was Rs. 80,415-13-1. The total expenditure under the several heads was Rs. 31,601-4-5, leaving a balance of Rs. 48,814-8-8, including the price of materials in stock Rs. 17,212-11-9, leaving a cash balance of Rs. 31,601-12-11. The treasury balance of Rs. 37,377-0-10 being made up of 10-rupee deposit, and Rs. 5,935-3-11 cheques uncashed on 30th September 1879, less Rs. 170 imprest with District Engineer.

General state of the Roads.

The state of the roads is far from satisfactory, especially such portions of them as are beyond a radius of 10 miles from head-quarters. I will proceed to state what has been done during the past year to each.

Bogra and Chaitiangram road.—Twenty-six miles was partially bridged before the commencement of the year under review, but in consequence of the work having been completed without estimates of any kind, the original works were put a stop to when Rs. 17,609-0-6 had already been spent by the late District Engineer without proper sanction; the present District Engineer, Mr. Staples, confined himself only to completing one of the original works left unfinished by his predecessor, and some other expenses that were consequent on the original works having been begun, and were necessary to prevent loss of materials collected.

It does not appear out of place to mention here that the estimates and calculations for waterway, which had not been prepared before the commencement of the original works in 1877-78, have since been prepared by the present District Engineer. The plans and estimates being rendered additionally difficult of preparation by reason of the necessity under which the

District Engineer labored of making estimates after some of the work was finished, and, where not completed, the girders, &c., had been ordered, and did not appear suitable for the work for which they were set apart. Similarly, the laborious work of calculating the waterway had all to be done after it had been in some cases arbitrarily fixed on no data whatever beyond the rule of thumb. I wish to give due weight to the difficulties under which the District Engineer labored, because the very striking difference between the works proposed in the budget of 1878-79, and the work actually done, must strike any one. The explanation is that, in the absence of proper scientific data as to waterway, and of sanctioned estimates, caused all original work to be brought to a stand-still. It is also only fair to the District Engineer that great allowance should be made for the repair work being not so general as it might have been, owing to the fact that his time was much taken up with supplying what was omitted by his predecessor, not only with regard to this or other original works, but in introducing order and a correct procedure in the office.

The work actually done on this road consists of earthwork repairs throughout, and the construction of four excellent temporary bridges across as many khals, and two temporary culverts, so that, for all practical purposes, the road is passable throughout, and the present arrangements will suffice till the original works, which are contemplated for 1879-80, are completed.

Sultanpore road, that is to say, part of the road which was originally designed as a communication between the railway station at Sultanpore with Bogra to the east, and the important mart of Nowgong to the west, is now abandoned as the main route between Bogra and the railway, which has been diverted at Adamdighi to the Chatiangram station; so that the three miles only of the original road between Bogra and Sultanpore now are designated the Sultanpore road.

There is an advantage on the ground of economy in this new arrangement, as the Sultanpore branch requires more bridging than the Chatiangram diversion; but on every other ground the former design is far preferable. The original design is a straight line from Doobchanchia to Nowgong of well raised embankment, whilst the Chatiangram diversion from Adamdighi is a winding road which, instead of connecting Bogra with the most commodious station within the district (Sultanpore), connects it with the inferior station Chatiangram, and the relative commercial advantages of the two routes are equally striking; the Sultanpore one being continued on to the great ganja and trade centre of Nowgong, whilst the Chatiangram diversion terminates in the insignificant village of that name.

It will be a point for the future consideration of the Committee, and is one worthy of the attention of Government and the Railway authorities, whether ultimately the Sultanpore road should not be re-adopted as the thoroughfare between Bogra and the railway. The work actually done on this road during the past year was very trifling, and it is quite impassable for carts or horses. The budget of 1879-80 provides for its repair and the construction of temporary bridges.

Dinagepore Road, 44 miles.—This is the longest road in the district, and is of some commercial importance even independently of its being a main artery from which feeders to the various railway stations on the line which runs at an acute angle to it along its whole length. It at present serves as the route from Dinagepore, from whence cattle have in the present year been largely imported, and it also carries the traffic of an extensive rice field to the river Jaboona or the rail at Hillee, one of the cheif jute and grain markets in the district. It is also crossed by the Hirabatti and Toolsigunga at Bamjinpara, and the Nagore at Burigunge, all three streams in the rainy season being used largely for the transport of grain. In the past year extensive earthwork repairs were effected. A good temporary bridge connects it with the railway at Panchbibi. Three other temporary culverts were made on this road Rungpore road, 17 miles.—Earthwork repairs to 13 miles, repair of pucca bridge and construction of one temporary bridge.

Nattore road, 15 miles.—Earthwork and repairs to bridges.

Shariakandy road, 12 miles, lies across a very difficult country, the low-lying land between the Karatiah and the Brahmaputra or Daokoba rivers; it had earthwork repairs throughout two temporary wooden bridges; two temporary bamboo bridges were made, and 16 bamboo culverts repaired.

Mahasthan and Shibgunge, a branch of the Rungpore road, which leads to Shibgunge thana, was repaired.

Serajgunge road, 24 miles.—This road, which passes through Chandaikona, a considerable jute market, was repaired during the past year. It, however, needs much additional earthwork and some culverts, and is at present impassable in the rains beyond the 20th mile.

The cross roads, two connecting the Rungpore and Dinagepore roads, and one connecting the Serajgunge and Nattore roads, were repaired.

MISCELLANEOUS EXPENDITURE.

A sum of Rs. 305 was spent in the purchase of a bungalow, which is let to the District Engineer. Rs. 255 were spent in repairs to the building. A sum of Rs. 428 was spent on the completion of the Road Cess office.

The famine bungalow used for inspection at Mokamtolah was re-thatched.

A sum of Rs. 90 was expended on arboriculture; the young trees are doing well.

The Committee sustained a loss of Rs. 1,756-2-9 by the failure of contractors to turn out bricks to the value of advances received.

PROPOSALS FOR THE CURRENT YEAR.

Original.—The estimate for the Chatiangram road is now submitted, and when sanctioned the bridging will at once be proceeded with. A sum of Rs. 15,000 only was set apart for this work in the budget; and of the amount of advances, Rs. 17,212-11-9, about Rs. 16,000 consists of materials in stock chiefly destined for use on this road. The amount therefore of Rs. 15,000 set apart would have proved inadequate, had not the actual balance exceeded the estimated balance by Rs. 4,500, which will, it is hoped, be sufficient for the expenditure on labour, cartage and miscellaneous, which must be incurred in utilizing the stock now in hand. The sum of Rs. 18,669 has already been expended on this work without sanction.

The other original works proposed are on the Dinagepore road—one masonry culvert of 2 spans 8 feet each, and four masonry culverts of 5 feet span each.

On the Rungpore road two masonry culverts of 10 feet span each.

Repairs.—On the Adamdighi and Sultanpore road six temporary tal wood bridges, two of 12 feet and four of 6 feet span.

Earthwork repairs to 12 of the principal roads of the district will be done in the present year, and the contractors have been with some difficulty induced to accept Rs. 2-12 for 1,000 cubic feet, the rate having been formerly Rs. 3, probably owing to the high price paid on the Northern Bengal Railway works.

On a great number of the roads of the district no repairs are contemplated; these are principally famine roads, which the means at the disposal of the Committee do not admit of bridging, nor so long as the Chatiangram road continues a drain on the Fund can they even be properly repaired. It was therefore decided for the present to leave these to take care of themselves, till the principal roads, which are far from what they should be, are in tolerable working order.

I think it is to be regretted that road No. 12, from Doobchanchia to Gopinathpore, and road No. 37, from Gopinathpore to Shankaranja on the Dinagepore road, with a continuation of the latter road to the Nawabgunge railway station, were not estimated for; and I should be inclined now to recommend a re-allotment for that purpose out of the large sum of nearly Rs. 4,500 set apart for village roads. That sum appears unnecessarily large.

A provision of Rs. 300 has been set apart for repairs to the bungalow bought last year, and on which Rs. 255 was spent on repairs last year. The original cost was Rs. 305; this practice of spending so much on repairs should not be continued.

A sum of Rs. 512 is set apart to that costly edifice the Road Cess office, which has already cost about double what it should.

Inspection Bungalows.—It is proposed to construct a new inspection bungalow at Doobchanchia; one is greatly needed at that place owing to its being the most central spot on the Bogra and Chatiangram road where important works will soon be begun.

There are at present no inspection bungalows belonging to the Road Cess.

In past years the Road Cess Committee had been in the habit of repairing certain famine relief bungalows. Such exist on the Dinagepore road at Burigunge 12th mile, Panchbibi 34th mile.

The bungalow at Burigunge will be repaired in the present year.

On the Rungpore road the famine bungalow at Mokamtollah, 12th mile, was repaired last year.

To provide a system of inspection bungalows for the district in addition to the one proposed for the present year at Doobchanchia, new ones should be constructed at—

Sherpore on the Serajgunge road, 13th mile.
Khetlal on the Dinagepore road, 24th mile.
Adamdighi on the Chatiangram road 23rd mile.

These buildings are absolutely necessary for the proper supervision of the work during the rains, and it is not fair to the engineering staff that they should be without accommodation. This matter may well occupy the consideration of the Committee when framing the next budget.

Arboriculture.—No provision was made in the budget of 1879-80 for this purpose: a nursery garden has, however, been made and stocked, which will provide for the extension of the roadside plantation already commenced in the past year.

Village roads.—A sum of Rs. 1,755 was spent on village roads, the advances being generally made to the zemindar or headman.

Officers.—The District Engineer, Mr. Staples, has introduced method and correct procedure into his own office, and has devoted much time and labour to the preparation of the project for the Bogra and Chatiangram road in the face of difficulties that I have already alluded to. In the current year the fruit of his labour in this respect should be apparent; in the past year the urgency of that work rather interfered with his general duties.

Overseer Baboo Aparba Chunder Ganguly is highly thought of by the District Engineer.

H. J. COOKE,

Chairman.

No. 57DR, dated Pubna, the 31st December 1879.

From—W. M. CLAY, Esq., Chairman, District Road Cess Committee, Pubna,
To—The Commissioner of the Rajshahye and Cooch Behar Division.

I HAVE the honor to submit herewith the annual accounts and report of the Pubna District Road Fund for the cess year 1878-79.

2. The accounts have been audited and passed by the Committee as prescribed in section 88 of the Road Cess Act.

3. *Members.*—The following were the members of the Committee in the commencement of the year. The number of meetings attended by each is given against his name:—

	Number of meetings attended.
Magistrate and Collector	6
Executive Engineer, Rajshahye Division	0
Senior Covenanted Assistant or Uncovenanted Deputy ...	2
Baboo Amar Nath Bhattacharjea	8
J. Cockburn, Esq.	3
Baboo Hara Sundar Rai	5

„ Mohima Chandra Sarkar	2
„ Nafar Chandra Saha	1
„ Pratab Chandra Rai	3
„ Ramdhon Chaki	1
„ Sri Govinda Chowdhri	0
„ Sambhu Nath Chowdhri	0

5. The *ex-officio* appointment of the District Superintendent of Police and the Road Cess Deputy Collector was sanctioned by Government on the 29th July 1879.

6. I was Chairman during the whole of the year. Baboo Amar Nath Bhattacharjea, Deputy Magistrate and Deputy Collector, was Vice-Chairman up to the 23rd of August, when he was transferred from this station. The office of Vice-Chairman remained vacant from that

date to the close of the year. Baboo Kedar Nath Ghosh, Deputy Magistrate, was elected Vice-Chairman on the 4th of October 1879, as Vice-Chairman Baboo Amar Nath Bhattacharjea's services were extremely useful.

7. The particulars regarding the attendance of members at meetings are given in the statement annexed.

8. Nine meetings were held during the year, in two of which a quorum was not obtained, and the attendance of members was at first generally only sufficient for the transaction of business, but since the appointment of the new members it has been more satisfactory. The meetings generally consisted of the official members and those of the local bar. The zemindars from the mofussil very rarely attended, except when they happened to be in the station on business of their own. Of the present non-official members, the pleaders and mooktears take an active interest in the transaction of business, and have materially assisted in the proceedings, except on some occasions when there has been a tendency to combine. The official members as a body fully discharged their duties.

9. *Inspection of accounts.*—The District Road Fund and the District Engineer's offices were not inspected by the Examiner of Public Works Accounts during the course of the year, but the accounts have been subsequently examined in the beginning of December current by Mr. F. Moore, Deputy Examiner. The result of his inspection has not yet been communicated to this office.

10. *Finances.*—The year commenced with a balance in hand of Rs. 24,615-4-4, the total receipts of the year from all sources of revenue excluding deposits and advances were Rs. 50,757-8-9, making a total of Rs. 75,372-13-1. The estimated income of the year was Rs. 53,900. Deducting from this sum Rs. 7,000, the estimated nominal proceeds from house cess for 1878-79, the actual receipts have exceeded the estimate by the sum of Rs. 3,857-8-9, which is to be set off against the unrealized balance of the previous year.

11. Of the total income of Rs. 50,757-8-9, Rs. 46,488-7-5 was derived from cess on lands, Rs. 2,112-11-6 from cess on houses due for period prior to April 1878, and Rs. 66-1 from 1 per cent road cess on lands. The greater portion of the amount, Rs. 870-5-7, shown under the head "Fees and forfeitures," was realized as process fees from defaulting cess-payers. The miscellaneous receipts, Rs. 1,219-15-3, consist almost exclusively of the Government contribution of Rs. 1,200 towards the cost of the joint establishment for the collection of the road and public works cesses.

12. *Cess on lands.*—The annual demand of road cess on lands at two pice per rupee is Rs. 46,300, and of this demand Rs. 6,912 remained unrealized at the close of the year. The total unrealized balance of the year under report and of previous years was Rs. 7,600. The receipts from cess on lands (Rs. 46,488-7-5) exceeded the demand by Rs. 188-7-3; but adding the unrealized balance of 1877-78 under this head, Rs. 7,700, to the estimate for 1878-79, the percentage of collection amounts to 86·1, only 1 per cent above the percentage of the previous year. The gross collections of the last year under this head show an increase of Rs. 1,087-13-1 over those of the year preceding (Rs. 45,400-10-4.)

13. The chief cause of arrear has been remarked on in my report of the 20th ultimo (No. 68RC). The numerous co-sharers in the different estates each wait for their neighbour to pay the cess, which ends in its not being paid at all till coercive measures are taken. This difficulty and others will fortunately be removed if the Bill now under consideration becomes law.

14. *House cess.*—There was no demand of house cess for the year under report. The amount of collection shown in the accounts under this head was realized as balance due up to 31st March 1878. There is still a large amount of balance outstanding, most of which will probably have to be remitted.

15. The total outlay, excluding "Advances" and "Refunds of deposits," amounted to Rs. 64,450-11. Of this, Rs. 6,036-15-9 was taken up by the cost of establishment and contingencies for collection of the cess, for Committee's office, and for acquisition of lands. The charges on acquisition of land amount to Rs. 1,403-10-9. Some reductions were made during the year in the establishment for collection of the cess. The third clerk and two process-serving peons were abolished, and the pay of a mohurir reduced from Rs. 20 to Rs. 15 per mensem. This has secured an annual saving of Rs. 480.

16. During the year Rs. 35,131-1-10 was spent on original works, and Rs. 12,502-10 on maintenance and repairs. The establishment on work cost Rs. 10,067-8-5, and tools and plant Rs. 712-7. Of the outlay on repairs (Rs. 12,502-10), Rs. 2,085 was for village roads.

17. *Public feeling.*—The road cess does not cause much interest in this district. The people pay it as an authorized tax, but no doubt it may be made popular as soon as it is possible to bring the benefits of the cess close to the homes of the people in every part of the district. At present all classes are more or less dissatisfied at the slowness with which works are progressing, without considering the limited income at the disposal of the Committee. They expect to see the whole district covered at once with good roads, which of course is not possible for some years to come. The lower classes are said not to understand the objects of the cess.

18. Before noticing the current works, it may be mentioned that during this month the principal portion of the work in the sudder sub-division has been inspected by the Superintending Engineer, who has condemned the work of the District Engineer so strongly that, in accordance with the recommendation of the Commissioner, the Chairman of the Committee has in anticipation of the Committee's approval already given notice to the District Engineer that his services will be dispensed with. Also it must be noticed that almost

all the works suffered considerable damages from the unusually high flood of last year, which overtopped nearly all the embanked roads in the district, and caused extensive breaches in several of them.

ORIGINAL WORKS.

19. The District Engineer reports to the following effect on the original works constructed during the year. His remarks must be taken in connection with the report of the Superintending Engineer, which is in the hands of the Commissioner, and my own remarks made after having seen the works :—

(*a*). *Construction of the road from Pubna to Moonshedpore, and of the road from Oroonkola to Sara.*—These two roads, with a portion of old road (the Rajshahye road) in the middle, form the line of communication between the sudder station of Pubna and the Northern Bengal State Railway at Sara, the total distance being about 24 miles. They were taken in hand in 1877-78. The District Engineer reports that the waterway afforded by the bridges constructed on them appears to be sufficient, the extraordinary floods of last year having done them no injury. The two new sections of this feeder road together cover a length of 14 miles. The first section has been completed at a total cost of Rs. 20,941-7, and the second at Rs. 5,914-6-9, both including bridges.

It is scarcely necessary for me to give remarks on this work. It is the first in importance in the district. It is not by any means complete as a communication between Pubna and Sara. The first three miles out of Pubna are wanting and present a great difficulty, owing to the rush of the overflow of the Pudda in the rains from the direction of Kumedpore to the north-east. This part is quite impassable for man or beast except in the dry weather. A good deal of bridging and earthwork is required here. The rest of the road presents no difficulties, and is in fairly passable order. During the year two rather large timber bridges have been put up, and two smaller ones with two bricks culverts. This part of the road also still requires repairs in many places, and finishing work to make it what is should be. We are burning bricks now to prepare bridging for the Pubna end of this road. Possibly the work may be completed before the rains.

(*b*). *Construction of road from Ranugaon to Bhowanipore.*—This road likewise was commenced in 1877-78 and was completed last year, except a little of the superstructure of a culvert of four feet span. The late floods caused some damage to the embankments, which are now being repaired. The total outlay on this work, including bridges, amounts to Rs. 10,834-9. This road connects the sudder station with Chatmohar.

This part of the Pubna to Chatmohar road was also inspected by the Superintending Engineer, whom I accompanied. It presents no difficulties of any kind, being mostly earthwork. It is not, however, complete. Some more culverts and earthwork repairs are required. As a communication between Pubna and Chatmohar, it is at present made very little use of owing to the other portion between Bhowanipore and Chatmohar (about eight miles) being out of order, three of the bridges set up last year on this part having been so injured as to be impracticable. I am in hopes this will be set right during the season.

(*c*). *Construction of a masonry bridge of five feet span on the Rajshahye road; cost Rs.* 452-9-3.—Two culverts of the same size and description were provided for in the budget estimates, but the District Engineer could construct only one.

I have not seen this yet.

(*d*). *Remodelling bridge at Koomedpore on the Rajshahye road; cost Rs.* 611-8-6.—This is an ordinary repair; a very useful work, and fairly though expensively done. There is so much uncertainty, however, about the course of the Pudda, that it is possible the bridge will be cut away in the next rains.

(*e*). *Construction of a masonary bridge of ten feet span on the Serajgunge road, 1st section; cost Rs.* 1,006-6.—I have not seen this yet.

(*f*). *Construction of two timber bridges of ten feet span on the old portion of the Chatmohar road; cost Rs.* 725-14-3.—Of these bridges, one has broken down from imperfect construction, and another became useless from the road in connection with it being washed through and left unrepaired.

(*g*). *Construction of two masonry bridges of five feet span on the Serajgunge road, 2nd section; Cost Rs.* 686-7-3.—I have not seen this yet.

(*h*). *Completion of ten timber bridges on Chandaikona road.*—These bridges were nearly completed in 1877-78, when work had to be suspended in consequence of the rise of the flood. They were completed last year at a total cost of Rs. 2,577-7-9.

I have not seen these, but from the report of Mr. Farrer, I learn that most of them have been damaged by the late floods, and that, where they have not been swept away, they are left standing minus any road approaches.

(*i*). *Construction of four timber bridges of ten feet span on the Chandaikona road; cost Rs.* 1,100-7.—I have not seen these : the remarks above apply to them also.

(*j*). *Compensation for lands taken up for the Chandaikona road; cost Rs.* 5,356-13-1.—This road was constructed during the famine of 1873-74 before the introduction of the road cess in this district, but the compensation had not been given, and was paid last year from the District Road Fund.

(*k*). *Construction of two masonry bridges of feet span on the Boyrahat road; cost Rs.* 661-7-3.—I have not seen these.

(*l*). *Construction of a fair-weather road from Muthura to Bera, ten miles; cost Rs.* 400.—This is a track only, marked by a trench on each side, with a little earth thrown and smoothed between. It is not continuous, but is useful as far as it goes.

(*m*). *Construction of a fair-weather road from Ryegunge to Taras,* 13 *miles; cost Rs.* 440-13-9.—I have not seen this.

(*n*). *Construction of a fair-weather road from Chatmohar to Handial,* 12 *miles; cost Rs.* 283-11-9.—I have seen this in parts in going from Chatmohar to Handial. The first few miles are used, but not the last part. It appears to have been made too much in a straight line without regard to the height of the land.

(*o*). *Construction of a fair-weather road from Ulhapara to Taras,* 25 *miles; cost Rs.* 858-12-0.—I went in this direction last year, but did not observe this road.

(*p*). *Completion of the Road Cess office Building; cost Rs.* 205-5-6.—I remarked on this building last year. It is inconveniently small, and an additional room is now being made.

20. With the exception of the construction of a masonry bridge on the Rajshahye road alluded to above, and the re-construction of a portion of the same road, estimated at Rs. 1,448, all the original works provided for in the budget of 1878-79 have been completed, and the District Engineer reports that they have been completed satisfactorily; in which opinion I do not agree from what I have seen. The re-construction of the portion of the Rajshahye road was not undertaken last year, as the encroachments of the Ganges were observed to tend towards the proposed line of the new road. As I have remarked, the course which the Pudda is likely to take is very uncertain, but there are some hopes it will discontinue cutting in the direction of this road, which is a most useful one.

21. Almost all the existing roads in the district were repaired during the year—

REPAIRS.

(*a*). Repairs to Rajshahye road, including bridges, Rs. 2,046-7.

(*b*). Repairs to Dogachi road, including bridges, Rs. 635-8-3.

(*c*). Repairs to causeway on Bajitpore road, Rs. 208-4-6.

The Rajshahye and Bajitpore roads both suffered severely from the floods of the year, and all repairs were undone.

(*d*). Repairs to Serajgunge road, 1st section, Rs. 167-3-6.

(*e*). Repairs to the continuation of the Serajgunge road, 1st section (metalled), lying within the limits of the Pubna Municipality; cost Rs. 256-3-6. This bit of road, with some other bits, the Road Cess Committee have agreed to take over from the municipality, and sanction of transfer has been applied for. The repair of this bit was taken up by the Road Cess Department very late last year, and had to be continued to the current year.*

* This work I have commenced in anticipation of sanction to the portion of the road being made over to the Road Cess Committee.

(*f*). Repairs to Tantibund road with bridges, Rs. 177-14-6.

(*g*). Repairs to Sujanagar road, Rs. 52-8.

(*h*). Repairs to Serajgunge road, 2nd section, Rs. 484-6.

(*i*). Repairs to Chandaikona road, Rs. 3,848-6. The amount originally allotted in the budget for repairs of this road was Rs. 3,200. This amount was afterwards found to be insufficient to make good the damage done to the road by the flood of 1877-78. Sanction was therefore obtained from your office to supplement the grant by Rs. 655.

I have not seen these repairs, which were done since I was in these directions.

(*j*). Repairs to Boyra road, Rs. 583-13-3.

(*k*). Repairs to Chinakhara road, Rs. 671-10.

(*l*). Repairs to eight fourth class fair-weather roads; cost Rs. 1,284-11-3.

22. *Village Roads.*—The amount spent on village roads during the year was Rs. 2,085 out of an allotment of Rs. 2,316. Of this, Rs. 1,285 was spent in the Pubna sub-division, and the remainder, Rs. 750, in Serajgunge. Although Rs. 1,158, the moiety of the total grant for village roads, was placed at the disposal of the Serajgunge Branch Committee, they were able to spend Rs. 750 only. These works in the Serajgunge sub-division were supervised by local zemindars and headmen. In the Sudder sub-division there is still some difficulty in finding men to take charge of the money and works in the outlying tracts of the interior, although every encouragement is afforded to them to come forward for the purpose. Several good and useful village ways have, however, been made. The total amount for Pubna, Rs. 1,385, was divided among 26 villages. The works were managed by village headmen, and in such cases a small sum has done much to remove the pressing want of a large number of the people.

23. *Arboriculture.*—Nothing was done in this direction during the last year, except the outlay of Rs. 72 spent on the purchase of gahions. Provision has been made in the current year's budget for planting the sides of the Moonshedpore road for five miles with fruit-trees, and the sides of the Chandaikona road with babool trees, and operations have been commenced by the District Engineer, but I am sorry to say, without judgment, as every one of the trees, as far as I observed, planted on the Sara road have died, and the money so far has been wasted; but this work will be attended to. A difficulty is that young trees will not grow in the low ground along the sides of the roads.

24. The Committee are aware of the importance of connecting the railway station at Sara with the head-quarters of the district, and have given to this road the first place in importance.

At present there is no traffic worth mentioning between any part of the district and the railway; and I notice that, even where the connection is complete, use is not as yet made of the railway communication. Thus goods (as jute) going from Chatmohar to Calcutta are carried to the Pudda and shipped at a place called Madpur, which affords some slight accommodation for boats to anchor at; and goods from Dasuria, about eight miles from Sara, go to the same place for shipment. However, there is a tendency to import goods by means of the railway, and I expect this to increase considerably.

25. Establishment on collection of revenue.

English Department.—Head clerk, Baboo Durga Prasanna Mookerjea, a very careful, intelligent, neat, and useful officer.

Second clerk, Baboo Sasadhar Bhaduri, does his work carefully and satisfactorily.

Vernacular Department.—The work in this department has been done satisfactorily.

26. Committee's clerk and accountant, Baboo Anandogopal Guin. I am favourably impressed with his utility as a public officer and an accountant. He seems to take a lively interest in his work, which he understands thoroughly well, and does it in a manner highly creditable to himself and satisfactory to his superiors.

27. *Establishment on works.*— District Engineer, Baboo Shib Chunder Mullick. I need say nothing more about this officer with reference to what I have mentioned in paragraph 18 above. His work has, I am sorry to say, not generally given satisfaction to the Committee, who have, however, waited for the opinion of the Superintending Engineer upon which to act.

Baboo Madhar Chandra Chakravati, Sub-Overseer, Pubna sub-division, joined his post in June 1879. This overseer does not give satisfaction. He has not the practical knowledge necessary for his post.

Baboo Preonath Ghosh, Sub-Overseer, Serajgunge sub-division, joined his post in June 1879. The qualifications of this overseer are sufficient, as far as is known, but I have not seen his work.

Office Establishment.—Head clerk, Baboo Jogendra Nath Mookerjea, has worked fairly well.

Second clerk, Baboo Mohini Chandra Saha. What work he has to do has been done satisfactorily.

28. As regards the new current year, Rs. 19,746 have been allotted to establishment, Rs. 2,697 to original work, and Rs. 13,725 to repairs.

The allotment for original work includes Rs. 12,014 compensation for lands, Rs. 4,944 for bridging, and Rs. 5,906 for road work.

The following are the details of the works provided for in the current year's budget:

(*a*). Substituting masonry piers for timber ones to bridge at Maligacha on the Moonshedpore road, Rs. 1,500. The sum allotted for this work has since been transferred to providing bridging for the first portion of the Pubna-Sara road.

(*b*). Compensation for lands for the Moonshedpore road, Rs. 3,290.

(*c*). Planting fruit-trees on the above road, Rs. 557.

(*d*). Construction of a masonry culvert on the Rajshahye road, Rs. 352.

(*e*). Metalling of one mile of Bajitpore road, Rs. 3,665. Of this sum Rs. 1,500 has been transferred as above.

(*f*). Raising the first five miles of the Serajgunge road, 1st section, Rs. 1,508.

(*g*). Raising the Tantibund road, Rs. 743.

(*h*). Construction of a masonry culvert on the Tantibund road, Rs. 352.

(*i*). Completion of the road from Raneegaon to Bhowanipore, Rs. 1,000.

(*j*). Compensation for lands for the Chatmohar road, Rs. 2,624.

(*k*). To survey the line of road from Dhoobri to Tangrail for the proposed road from Pubna to Serajgunge, Rs. 500.

(*l*). Compensation for land, for the above road, Rs. 4,000.

(*m*). Planting babool trees on Chandaikona road, Rs. 100.

(*n*). Substituting masonry piers to timber ones to bridge at Dadapur on the Sara road, Rs. 684.

(*o*). Construction of a five feet culvert on the Sara road, Rs. 352.

(*p*). Compensation for lands for the Sara road, Rs. 1,586.

(*q*). Construction of two masonry culverts on the Chinakhara road, Rs. 704.

(*r*). Addition to the Road Cess office building, Rs. 1,446.

(*s*). Petty original works, Rs. 500.

29. Besides the abovenamed original works, repairs have been provided for all the existing roads at a cost of Rs. 9,725. Rs. 4,000 has been set apart for village communications.

30. A copy of the report on the operations of the Act in the Serajgunge sub-division, as submitted by the Chairman of the Branch Committee, is hereto annexed. The particulars of the attendance of members are shewn in the same statement with those of the District Committee.

No. 327, dated Camp Ryegunge, the 13th November 1879.

From—H. FARRER, ESQ., Chairman, Branch Road Cess Committee, Serajgunge,

To—The Chairman, District Road Cess Committee, Pubna.

I HAVE the honor to submit the report called for in your No. 25 DR, dated 6th instant, on the operations of the Branch Road Cess Committee of this sub-division during 1878-79.

I must apologise for the delay, which has been caused by my being out in camp. I must also apologise for the nature of the report itself, which will be found extremely scrappy, as the information I have to hand is extremly meagre. As, however, the operations have been of an altogether unimportant nature, this report is likewise unimportant.

2. The following gentlemen were members of the Branch Committee for the greater part of the year:—

R. Bruist, Esq , Merchant.
Baboo Isan Chandra Sen, Deputy Magistrate.
C. S. Ridge, Esq., Merchant.
Baboo Pran Chandra Pakrasi, zemindar.
,, Raj Chandra Chakravarti, landholder.
,, Sarat Chandra Rai Chowdhri, Merchant.
W. G. Savi, Esq., Manager, Salop Estate.
Moulvie Akbar Khan, Assistant Surgeon.

The following changes have been made as per Government order No. 4042A, dated 11th September 1879:—

Baboo Kali Kamal Majoomdar, *vice* Mr. Bruist.
,, Nidhu Lal Haldar, Assistant Surgeon, *vice* Moulvie Akbar Khan.

The following changes have also been recommended in this office letter No. 309, dated 19th October 1879:—

Mr. A. W. MacDonell, *vice* Mr. W. G. Savi.
,, G. Ogilvie, *vice* Baboo Sarat Chandra Rai Chowdhri.

3. A statement, in the prescribed form is hereto appended, showing the particulars required regarding the attendance of the members at the several meetings held during the course of the year.

4. There have been no committee meetings during the road cess year since my coming to the sub-division. I should say that less interest is taken in this work than in the work of the municipality. It appears to me that the amount of money placed at the disposal of the Committee was much too small to excite an interest in the work.

5. At the beginning of the year there was a balance in hand of Rs. 466, and a further sum of Rs. 692 was placed at our disposal, making a total of Rs. 1,158. Out of that sum Rs. 750-3 was expended during the year on the construction of three village roads, viz.—

(1) Chowhali to Belkuchi.
(2.) Ditto to Shazadpore.
(3.) Haripore to Tetuliya.

(The amounts spent on these roads were Rs. 550-3, Rs. 100, and Rs. 100 respectively.)

Local zemindars and headmen supervised the work and the expenditure of the money. I have of course not yet had an opportunity of seeing what was effected, or how the work has been done; but from such insignificant sums we cannot expect any very great result, and I conjecture that the floods of the last season will not have left much trace of these roads. With the money you have allotted for our use, our Branch Committee intends to work near Serajgunge town. There is plenty of room for road-making in every direction in this sub-division.

6. As but a very small and insufficient portion of the proceeds of the cess has hitherto been spent in this sub-division, the people consequently look upon the cess as simply a Government tax. Any one who attempted to persuade an ordinary person that the cess was devoted to local works would lose his credit with that person. There can be no doubt, I should think, that the Serajgunge-Chandaikona road is in every respect the most important road in the district; yet there has been nothing more than mere patching done to it for years. As far as road-making goes, the sub-division may be regarded as a sort of *tabulâ rasa*. I am afraid I am not sending a very intelligent report, but I must excuse myself on the ground of want of information and of the unimportance of the operations.

APPENDIX A.

Abstract of Particulars regarding Meetings of the District and Branch Road Cess Committees for the Cess year 1878-79.

Commissionership.	District.	Number of members.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings. No. 86DR, dated Pubna, the 7th February 1880.

Memo. by BABOO DWARKA NATH ROY, Deputy Collector in charge.

SUBMITTED to the Commissioner of the Rajshahye and Cooch Behar Division, with reference to his No. 387PW of the 6th current.

No. 20RF, dated Darjeeling, the 28th December 1879.

From—L. C. ABBOTT, ESQ., Deputy Commissioner and Chairman, District Road Cess Committee, Darjeeling,

To—The Commissioner of the Rajshahye and Cooch Behar Division.

I HAVE the honor to submit the District Road Cess report for the year ending on the 30th September 1879, together with the accounts prescribed by Public Works Department circular No. 647D of 19th November and other circulars. The Terai Committee's report and accounts also accompany this letter.

2. The District Committee consists of 16 members. Of these members six are officials. Four meetings of the Committee were held; others were called, but no members attending, or insufficient members, no proceedings took place. It will be seen that two members of the Committee were absent from all four meetings, and that five attended only one meeting each. No doubt planters find it difficult during the rains and the tea-making season to pay visits to Darjeeling. Messrs. Smith, Brown, Harcourt, and Murray were added to the Committee towards the close of the year. Mr. Abbott assumed charge of the Vice-Chairmanship in November 1878, and I became Chairman in April 1879. From the Terai Vice-Chairman's report, it is evident that there also considerable apathy exists on the part of the members of the Branch Committee. There are, however, now but few important questions for Committees to discuss. This may partially account for the lack of interest evinced by some gentlemen both in the hills and plains. The planter-members of the District Committee on the other hand render excellent service in repairing roads. In fact almost all our roads are maintained under their supervision, and are well looked after. In this respect the Terai is less fortunate. The Vice-Chairman complains of indifference and want of assistance on the part of the European members of the Committee over which he presides. As a consequence, in the Hill Tracts no engineering establishment is kept up. In the plains work has to be done through the agency of contractor, and the Branch Committee employs an overseer who is not favourably reported on by the Vice-Chairman. The Terai Committee has been vested with the powers of a District Committee. In my letter No. 126RF of 7th July, I recommended that these powers should be withdrawn. I trust this proposal will be approved, as I am of opinion that the Committee requires more guidance than can at present be given it.

Other establishments have done fairly.

3. The remarks made last year as to irregularity in payment of the cess are again applicable. The small amount of the collections have thus to be accounted for, though shortly after the close of the year a large remittance was received from the Terai. Many contributors to the Road Cess Fund are under the impression that the Committee should repair particular roads in their immediate neighbourhoods. The plea that funds are limited is not always accepted. Complaints arising from this source are sometimes heard; in other respects the Act appears to work smoothly, the more so since house collections have been dispensed with.

4. As above stated, no important questions have been before the Committee during the past year. The attention of members at meetings has been directed to the estimates, accounts, nomenclature of roads, and such matters with regard to the accounts. The provisions of section 88 of the Act have been complied with. Attention has been paid by the Branch Committee to Government circular No. 10 of 28th October 1878. In his report the Vice-Chairman of the Terai promises better results in fruit-tree planting during the current year. In the Hill Tracts no trees have been planted on roadsides. As observed in my report for the year 1877-78, it is practically impossible in the hills to comply with the requirements of that circular. There are no such fruit-trees as would repay cultivation, even if the depredation of cattle could be prevented. With regard to village communications, I may repeat the remarks that our district roads are actually village roads. In the Terai this of course is not so: but the excuse made by the Vice-Chairman that the funds at his disposal do not even permit him to construct all of the roads on the Terai sanctioned list is, in my opinion, sufficient to account for non-expenditure on village roads.

5. During the past year road No. 4 of the Terai Committee's list (Mahanadi to Kelabari) was taken over by Government as a provincial road, and also road No. 3 (Kurseong to Kelabari) on the district list. Since the close of the year the Committee has been relieved of the district road No. 6 (Jore Bungalow to Teesta). A supplementary list of three roads (noted in the margin) was submitted for sanction with my letter No. 94 of 9th June. Of these three roads, Nos. 11 and 12 had previously been irregularly kept up by the Committee, but the last is a new road on our list. During the current year therefore the District Committee will have to maintain eleven roads. With the money at their disposal, this charge will have to be met, together with those for establishment, &c., and cane bridges. As an original work, the completion of a wooden bridge across the Ballasun, thus joining the roads that lead to that river from Hope Town and from Nagir, has been determined on. The Terai list still shows 13 roads, for although the Mahanadi to Kelabari road has been taken over by the Public Works Department, another road, viz. from the Hill Cart road to the Khopul hât, has been added to the list by Government (*vide* orders received with letter No. 8210 of 7th November 1878). The Terai budget estimate for the current year provides for the repair of six roads, and an expenditure of Rs. 1,700 on three new roads.

No. 11, Darjeeling to Little Runget.
No. 12, Tukuar to Great Runget.
No. 13, Tukdah Junction to Gailo.

6. With these remarks, I proceed to examine the district accounts. An explanation of the small amount of the receipts under the Act has been given in paragraph 3. The other items on this side of the account require no special notice. Of this Government grant, Rs. 5,000 was on account of the Kurseong to Kelabari road, and Rs. 8,000 for the Jore Bungalow Teesta road. Both of these roads have since been taken over by the Public Works Department. The Executive Engineer has been advanced the former sum. The unexpended balance of the latter, after deducting payments made on account of the Teesta road, will, I suppose, have to be refunded. The balance shown on 30th September 1879 will therefore be reduced by some Rs. 4,000, so far as the Committee is concerned.

A sum of Rs. 120-15-6 was recovered from the Conservator of Forests on account of road cess, but was refunded under the orders of the Board, No. 685A of 9th September 1878.

7. On the disbursement side expenditure on establishment and contingencies need not be noticed. Passing to original works, it will be seen that the budget estimate has been exceeded by Rs. 400. This is due to an expenditure of Rs. 120 over the estimate on account of the cane bridge on road No. 7 (this being a payment during the year for work performed in the previous year), and to the inclusion under this head of a sum of Rs. 500 advanced for the construction of a wooden bridge over the Ballasun, connecting the roads that lead to that river from Hope Town and Nagir. The latter sum was in the estimate included in the amount (Rs. 700) set aside for the repair of the road from Hope Town to the river. It is properly expenditure on an original work, and is therefore so shown in the accounts now submitted. Mr. Johnston (a member of the Road Cess Committee), who is to construct the bridge, has purchased timber with this money, and it is hoped that during the current year the structure will be completed.

8. Under the head of repairs, it will be noticed that no expenditure has been debited against roads Nos. 1, 2, 4, and 13. Mr. Johnston has charge of road No. 1, and has not yet submitted his accounts. No allotment was made in the budget for road No. 2. For the current year a sum of Rs. 400 has been estimated on account of the repairs of this road, which will be undertaken by Mr. Fraser. Mr. Crossman reported road No. 4 to be in excellent order, and, as already noted, road No. 13 was irregularly added to the sanctioned list of district roads. During the rains this last road was much cut up. Being a comparatively important feeder, it was taken in hand by Mr. Smith, who has since completed its repairs. The refund by Mr. Crossman was from an advance made in 1877-78 for road No. 4. Under the rules refunds are to be treated as abatement of expenditure, and not to be included amongst receipts. No money having during the past year been expended on road No. 4, the amount has been deducted from the total disbursement on roads.

9. In the budget estimate the chief items of expenditure on account of repairs (bringing up the total to Rs. 20,100) were, viz.—

	Rs.
For road No. 6 (Jore Bungalow to Teesta)	9,350
Ditto No. 3 (Kurseong to Kelabari)	5,000
Ditto No. 5 (Numsu to Panighatu)	2,000

It is owing partly to the unadjustment of amounts expended on these roads, and partly to the fact that the allotments could not during the year be conveniently expended, that the small expenditure on roads as compared to the estimated outlay is due. Thus on road No. 6 adjustments have to be made, and the Deputy Conservator was only able during the year to expend Rs. 3,500 out of the Rs. 8,000 granted by Government. The grant for the Pankhabari road No. 3 has been made over to the Department of Public Works. We are now only concerned with its adjustment in our accounts. The repairs to the Ballasun Valley road (No. 5), annually undertaken by the Executive Engineer, were also only partly executed. Press of business prevented that officer from deputing a subordinate to superintend the work. In my letter No. 136RF of 16th August 1879, a proposal has been made to place this road under the Department of Public Works, the Road Cess Committee supplying funds.

10. The expenditure required to keep roads in order seems likely to decrease now that annual repairs are undertaken. This remark applies more especially to the roads maintained

by planters on behalf of the Committee. It is probable that next year the Committee will be in a position to add to its list of roads, or to afford a larger allotment on account of road No. 5 (the Ballasun Valley road). In many respects this is one of the most important of the district roads, running, as it does, directly from the plains by an easy gradient into the heart of the Hill Tract. It was in the first instance constructed by the Public Works Department, but not completely finished. It requires bridging, and when funds are available they could be perhaps placed to no better purpose than in rendering this a safe route at all seasons by which traders could conveniently reach Hope Town.

11. In the Terai funds have been spent on the first seven roads of the list. Six of these were repaired under the supervision of the Vice-Chairman, and road No. 4 by the Executive Engineer. The Vice-Chairman asks for a larger grant from the district funds. This matter will receive attention when next year's budget is framed, but before the request is granted, the District Committee will, I think, require to be satisfied that good work is being done in the Terai with the money allotted. When visiting the sub-division, my particular attention will be given to this matter.

No. 44, dated Phansidewa, the 15th May 1880.

From—BABOO CHUNDRA BHUSHAN CHAKRAVARTI, Vice-Chairman, Terai Branch Road Cess Committee,

To—The Chairman of the District Road Cess Committee.

WITH reference to your memorandum No. 101RF, dated the 30th ultimo, and subsequent reminder, I have the honor to state that I do not see that a revised report is necessary. I beg, however, to submit the following explanation with respect to such of the items in the report as might at first sight seem to be discrepant with those in the accounts.

2. It is stated in paragraph two of the report that the total number of members is now 13, but in the abstract of particulars regarding meetings, only nine have been shown, the reason being that after the four members had been added there was no meeting till the close of the year, so that, if the addition was shown in the abstract, the figures would have been misleading.

3. The figures shown in paragraph 3 are not those which have been shown in the accounts. I have referred to them to show what the funds of the Committee ought to be after verification with the accounts of the district office, and this was done simply by way of reviewing the financial state of the Committee. It will be seen, from what is stated by me in paragraph 4, that the accounts are confined to actual expenditure and receipts in this office, with only this exception, that I have added Rs. 668-11-1 on both sides on account of the road Mahanadi to Kelabari, though the same were paid direct from the district office, and this I have done in accordance with the remarks contained in paragraph 6 of Commissioner's No. 453PW, dated 17th March 1880

4. The figures in paragraph 6 having been on account of the previous year, have been included under the several heads with those for the year under review, and so they are not seen separate in the accounts.

No. 129RF, dated Darjeeling, the 30th May 1880.

Memo. by the Deputy Commissioner and Chairman.

COPY forwarded to the Commissioner of the Rajshahye and Cooch Behar Division for information, with reference to paragraph 2 of his letter No. 20PW, dated 24th ultimo, and in continuation of this office No. 116, dated 11th instant.

No. 85RF, dated Darjeeling, the 20th April 1880.

From—The Deputy Commissioner and Chairman, District Road Cess Committee, Darjeeling,

To—The Commissioner of the Rajshahye and Cooch Behar Division.

IN reply to your No. 6PW, dated 13th April 1880, concerning the road cess accounts, I have the honor to explain as follows.

A reference to the district accounts will show that Rs. 5,500 were advanced to the Terai Committee, and 15 annas is the amount of a miscellaneous receipt as already explained in former letters. To this has been added the amount expended by the Executive Engineer on account of the Khaprel bridge, Rs. 668-11-1. This sum, as noted in paragraph 8 of the district report, was really disbursed from the District Committee's funds, but has been shown now in the Terai accounts after the remarks contained in paragraph 6 of your No. 453PW of 17th March.

The total therefore acknowledged by the Terai Vice-Chairman is—

	Rs.	A.	P.
Grant	5,500	0	0
Miscellaneous receipts	0	15	0
On account of Khaprel bridge	668	11	1
Total .	6,169	10	1

3. It is to be regretted that the memorandum of balances of miscellaneous advances did not reach your office. Copies of the memoranda are again sent.

4. The remarks contained in paragraph 2 above also explain the apparent discrepancy between the amount recovered and expended by the Terai Committee. The sum of Rs. 6,406-2-3 was recovered from the Vice-Chairman direct, Rs. 668-11-1 (making a total of Rs. 7,074-13-4) from the Executive Engineer on account of work done in the Terai.

5. If there are any discrepancies between the figures of the Terai accounts and those mentioned in the report unexplained by the above remarks, the Vice-Chairman of the Branch Committee will be called on to explain. Unfortunately the two copies forwarded by him were sent to you direct with my No. 74RF, of 1st April. The Vice-Chairman has been asked to send another copy for record in this office.

No. 33, dated Phansidewa, the 27th March 1880.

From—BABOO CHUNDRA BHUSHAN CHAKRAVARTY, Vice-Chairman, Terai Branch Road Cess Committee.

To—The Chairman, District Road Cess Committee.

WITH reference to your letter No. 71RF, dated the 24th instant, I have the honor to submit the following revised report of the Terai Branch Road Cess Committee for the year ending 30th September 1879.

2. The staff on the Committee originally numbered nine, but four more members were added at about the close of the year, of whom one is official and three non-officials so that at present there are four officials and nine non-officials. There were altogether six meetings during the year, in two of which there was no quorum, those taking place prior to the addition of the new members. The average attendance of the members was not satisfactory, as the accompanying abstract will show; but with the present staff it is to be hoped that the attendance will improve. Among the two members shown as not having attended any meeting, one was the Chairman himself and the other was Mr. E. P. Fox of Chenga. The planter-members are generally rather apathetic, but this is probably due to the great distances from which they have to come. I am sorry I cannot speak particularly in favor of any of the non-official members, not one of whom attended all the meetings. The expediency of this Committee remaining independent of the District Committee seems to be rather doubtful.

3. The year's grant was Rs. 6,000. As intimated by your letter No. 27, dated the 13th January 1879, the balance to credit of the Committee at close of 1877-78 was Rs. 8,542-10-10. After deducting the following expenditures published in the *Calcutta Gazette* of the 28th May last from that year's grant of Rs. 9,000—

	Rs.	A.	P.	
Road No. 1	200	0	0	Rupees 1,126 of this sum were paid from what funds were placed in my hands, the remainder having been paid direct from the district office.
Do. „ 4	4,357	5	2	
Do. „ 5	400	0	0	
Do. „ 8	500	0	0	
Total ...	5,457	5	2	

It will be seen that here I take under review what funds of this Committee ought to be theoretically, irrespective of what funds were made over to my hands. I beg leave here also to add that the sum of Rs. 400, shown as spent on road No. 5, was not in reality spent during the year, and that the sum was refunded after the close of the year by Mr. O. DeJohnson, to whom the same was advanced on his having undertaken to repair the road under his immediate supervision. Looking upon this sum, therefore, as not having been spent at all, the funds to credit of the Committee for 1878-79 altogether aggregated to Rs. 9,942-10-10; add to this annas 15 as miscellaneous sale proceeds, which increases the same to Rs. 9,943-9-10. The actual expenditure of the year, exclusive of advances outstanding, was Rs. 7,074-13-4, so that the so-called theoretical balance at close of the year was Rs. 2,868-12-6. It will be seen that in making out the above figures I have included the road Mahanadi to Kelabari, No. 4, in the calculation. Of the said sum Rs. 268-12-9 were in my hands, including advances, and the remainder must therefore be with the District Committee. But this statement needs verification.

4. It will, however, be seen that in the accompanying accounts I have shown only actual figures as received and spent by me, agreeably to the instructions contained in your letter No. 22RF, dated the 17th December last, though I have also included Rs. 668-11-1 in addition, to show the road Mahanadi to Kelabari in accordance with the remarks as per paragraph 6 of Commissioner's letter No. 458PW, dated the 17th instant, to your address.

5. The estimates were framed greatly by guess-work, and as provision was not made in them for some very urgent and necessary charges, such as office furniture, of which there was nothing, and the like, some changes became necessary, and were discussed and sanctioned by the Committee from time to time according to the actual requirements of the several works.

6. It will be seen, by comparing the accompanying accounts with those submitted monthly, that some expenditure which was incurred in 1877-78, but not amalgamated with the district

accounts for that year, have now been included in the former, in order to show the correct balance in my hands. The subjoined is a statement of what the said expenditures were, viz :—

General management.

	Rs.	A.	P.
Mohurir	38	0	0
Servant	3	9	9
Contingencies	3	6	0

Public Works.

Repair to road No. 1	171	8	0
Ditto to No. 2	28	3	0
Overseer's pay	148	6	3
Tools and plant	5	2	0
Total ...	398	3	0

It may here be added that the sum of Rs. 398-3-0 are included in the figures, Rs. 7,074-13-4, referred to in paragraph 3 above.

7. The charge under the head contingencies was rather large, but it will be seen that it includes the price of stationery. The stock was purchased from Newman & Co., Calcutta, and it is to be hoped that the same will suffice for the current year, and even more.

8. The store godown has been made a bamboo and thatch building 40 feet × 20 feet. It contains three rooms; one an open hall in the middle, and two closed rooms on two sides, one of which is planked and serves for an office, and the other to keep stores in. It affords sufficient accommodation for the purposes of the Committee.

9. *Reparis*—(*a*) The expenditure, considering the length of the roads, was rather the heaviest on road No. 2, Phansidewa to Metigara. But a portion of this road was cut by the Mahanadi, close to the sub-divisional head-quarters, and a diversion road, about a mile long, had to be newly constructed with two bridges. There was also a very big bridge on the Rangapani, 222 feet long, needing thorough repair, about 112 feet of which was repaired during the year. The bridges on this road were wholly repaired by hired labor, no contractor being available. The cost was rather high, owing to the drain of workmen on the Siliguri and Darjeeling Tramway. The road is yet far from being in proper state, and has to be raised in several places. (*b*). Road No. 1, Khairbari to Phansidewa, is also in a very bad state Nothing could have been done with respect to it owing to want of materials. Ample provisions have been made in the current year's budget on account of this road. (*c*). No. 4, Mahanadi to Kelabari. Though this road stands in the list as one under this Committee, the repairs are done by the Executive Engineer, and payments are made from the district office direct. The maintenance of this road is quite beyond the funds of the Committee. (*d*). Nekeswarbari to Metigara road No. 7. There was no expenditure on this road in 1877-78, though Rs. 600 had been sanctioned. As the road was in a very bad state, the whole sum was spent on the repair of earthwork. There are no bridges on this road, though some are necessary. It is one of the most important roads, inasmuch as it connects the two most important hâts in this sub-division. (*e*). Roads Nos. 5, 6 and 8 form the border road between this sub-division and Nepal, and connect the Purneah district with the hills, and as such they are the first in importance. They were not repaired during the last three years, and the whole sum shewn against them was spent on the repair of earthwork. The total length being 30 miles, nearly 10 of which pass over the rocks, I mean the branches from the Chenga to Panighatta and Garidhura. These branches, and some portions of the main road down the Chenga, are greatly subject to being cut during the rains; and though the earthwork has been done fairly I found that after the rains many parts of them were greatly damaged. To guard against these injuries effectively, metalling would be the best plan, but I fear it will be long before we can expect to command sufficient funds for the purpose. Nothing could have been done last year with respect to the bridges on the main portion of these roads, I mean from Nekeswarbari to Chenga. Contractor Dhaju Mistri undertook the repair of four important bridges, but he failed to complete the works owing to the heavy rains. It will be seen from the statement of advances that some Rs. 600 were advanced to the man for the said works. Measures are now being adopted to compel him to fulfil his contract without any more loss of time.

10. The existing roads and bridges are generally all of them far from being in a good state, and it will I think take full three years to bring them into order; so that we cannot yet expect to be able to spend much in original works. If possible, I would also most strongly urge for the grant to this Committee being increased a little.

11. *Planting trees.*—It was contemplated to spend Rs. 50 under this head, but as the trees had not grown sufficiently big for the purpose of removal before the close of the year, the whole sum was not spent. It has been proposed to spend Rs. 150 this year, and measures are being adopted to push on the work vigorously. The matter will demand my particular attention. Already 90 trees (50 mango and 40 jack trees) have been planted by the side of the road Kharibari to Phansidewa.

12. I cannot speak much in favor of the overseer Bhoban Mohan Ghose, who lacks in energy and intelligence; but being a man new to the place, he suffered much from fever during a considerable portion of the year. He seems to be faithful, so that I have thought it fit to allow him a further trial. The copyist allowance of Rs. 12 per month is paid to a clerk of the tehsildari, it being too small to pay for a separate man, who also acts as accountant to the Committee. He worked well.

L. C. ABBOTT, *Chairman.*

No. 109, dated Julpigoree, the 10th January 1880.

From—The Deputy Commissioner and Chairman, District Road Cess Committee, Julpigoree,

To—The Commissioner of the Rajshahye and Cooch Behar Division.

I HAVE the honor to submit herewith the annual account of income and expenditure of the Julpigoree District Road Fund, together with the annual report of the cess year 1878-79.

2. *General Committee.*—The Committee consisted of 20 members all, of whom in six were official and 14 non-official, and of these 20 members six were *ex-officio*. The following are the names of all the members:—

1. Deputy Commissioner, Julpigooree. } *ex-officio.*
2. Senior Assistant to the Deputy Commissioner. } *ex-officio.*
3. District Superintendent of Police. } *ex-officio.*
4. Sub-Divisional Officer, Buxa. } *ex-officio.*
5. Executive Engineer of the division. } *ex-officio.*
6. Manager of Chaklajat Estates. } *ex-officio.*
7. Baboo Preonath Banerjee, *Vice-Chairman.*
8. R. Houghton, Esq., Tea-planter.
9. Baboo Hara Prosad Dass.
10. Moonshee Rohim Buksh.
11. Moonshee Abdool Samed.
12. F. R. Darly, Esq., Tea-planter.
13. Baboo Kali Das Gupta.
14. ,, Sreenath Chuckerbutty.
15. Litchfield Moreley, Esq., Tea-planter.
16. Moonshee Mahomed Toricoola.
17. H. M. King, Esq., Tea-planter.
18. Moonshee Khairat Ali.
19. Baboo Jogeshar Sing.
20. ,, Rheedoy Nath Moonshee.

3. *Personnel of the Committee.*—During the year there were several changes in the *personnel* of the Committee. Captain Lillingston was Chairman at the commencement of the year, and presided over three meetings during his incumbency. On his transfer he was succeeded on the 16th April 1879 by Major Money, who, though he had just returned from furlough, was again compelled to take leave after a short stay of three months. Next came Mr. Bradbury, who was relieved three days later by Mr. Muller, Deputy Magistrate, who in his turn was succeeded by Mr. F. A. Stack, Assistant Magistrate, on the 21st July. Mr. Stack retained charge till the 12th August, the date on which I assumed charge of the office. Four members having left the district, their names were removed off the list altogether, and four others were appointed in their stead. There was a decrease of one member compared with the number of the year preceding, owing to the vacancy caused by a member having died not having been filled up.

4. *Non-official Members.*—The want of non-official members, capable or desirous of taking any interest in the working of the road cess, is greatly felt in this district. Most of this class of members were and are still very irregular in their attendance; while of the official class, the members who attended the fewest meetings were the sub-divisional officer of Alipore and the Executive Engineer, whose head-quarters is at present at Julpigoree. Both of them attended only one meeting during the year. In the case of the sub-divisional officer, the great distance of the sub-division from head-quarters is a sufficient reason for his non-attendance, while in the case of the Executive Engineer, it was only in the month of May last that a new division was formed with head-quarters at Julpigoree, so that it was perhaps difficult for the Executive Engineer to attend the meetings of the Committee held before that date. Only two meetings were held between May and the close of the road cess year, one of which was attended by the Executive Engineer of the Julpigoree Division.

5. *Official Members.*—The rest of the official class were remarkably regular in their attendance. They were—

	Names.	Number of meetings held.	Number of attendance.
1	W. C. Muller Esq. / F. A. Stack, Esq.	7	6 / 2
2	Baboo Sreenath Chuckerbutty	7	7
3	H. Wilkins, H. Jones, District Superintendent of Police.	7	3 / 3

All the meetings were presided over by the Chairman.

6. *Feeling of the people in regard to the road cess.*—The road cess is now fully and firmly established here as in other places in Bengal, so that very little difficulty is experienced in its realization.

7. *Income.*—The total income during the year under the respective heads shown below was Rs. 38,486-8-9, showing an increase of Rs. 2,303-9-7 on the last year's collection, the increase being mainly due to the receipts not budgeted before "Rents of staging bungalow" and "Grant-in-aid from the Provincial Reserve Fund" for the construction of the dâk bungalow road—

	Rs.	A.	P.
Cess on lands	30,799	0	8
,, houses	51	4	10
Staging bungalow	1,316	7	0
Fees and forfeiture	2	10	0
Grant-in-aid	574	8	0
Miscellaneous	5,742	15	8
Total ...	38,486	8	9

8. Rs. 30,799-0-8 was realized under "Cess on lands" against an estimate of Rs. 31,984, leaving a balance of Rs. 1,185 only as arrears. This, with the arrear at the end of the year 1877-78, makes a total arrear of Rs. 2,956. Deducting

from this the sum of Rs. 2,472 on account of refund to the Rungpore District Road Fund, there remains a balance of Rs. 484 unrealized at the end of the year.

9. *Cess on Houses.*—Under this head the estimate was Rs. 1,800, but Rs. 51-4-10 on account of arrears only was realized, the cess having been discontinued from the year 1877-78.

10. *Staging Bungalow.*—The transfer of the staging bungalow from the Public Works Department to the Road Cess Department was intimated to the Committee in March 1879; and from June 1879 to the end of the year under review a sum of Rs. 1,316-7 was realized under this head. During this period of four months, viz. from June 1879, the expenditure incurred in purchase of furniture and repairs of the bungalow exceeded the collection by Rs. 84-8-5. There is, however, every prospect that the bungalow will eventually pay. The details of expenditure have been given in pages 3 and 4 of Part II of the annual accounts, and will be noticed in its proper place.

11. *Dooars Improvement Fund.*—Contributions from this fund during the year were regular, and the estimated amount was paid in full.

12. *Expenditure.*—The total expenditure during the year under the heads shown below amounted to Rs. 48,467-10-6.

	Rs.	A.	P.
General management	1,353	5	11
Staging bungalow	1,400	15	5
Original works	37,358	4	7
Repairs	2,751	2	11
Establishment	5,078	2	11
Tools and plant	525	10	9
Total ...	48,467	10	6

13. *General Management.*—There was a saving of Rs. 352 under this head, viz. Rs. 191 in contingencies and the rest in establishment.

14. The total expenditure on account of the staging bungalow amounted to Rs. 7,400-15-5; Rs. 316-2-2 being in establishment and contingencies, and Rs. 1,084-13-3 in petty repairs and purchase of furniture, &c. In consequence of the transfer of the bungalow to this department, Rs. 564-12-7 had to be paid to Government in reimbursement of the compensation for the land occupied by the bungalow and for the establishment charges up to the time it was made over to this office, the Government in return giving credit for such sums as had been realized.

ORIGINAL WORKS.

15. *New road from railway station to the town.*—A sum of Rs. 2,345-7-10 was expended this year on metalling this road, thus making a total expenditure of Rs. 3,702-9-10 with the amount spent last year, thereby exceeding the estimate by Rs. 23-9-10. The costs of turfing, dressing and drain clearing, not provided for in the estimate, being the cause of this excess. The principal portion of the works executed in the year 1877-78 was done during the rains by day labour, contractors not being available then, and this raised the rates to some extent. The work has now been completed, with an additional expenditure of Rs. 190-10-3, leaving an excess of Rs. 54 after deducting Rs. 160 incurred on account of unprovided items.

16. *Dâk Bungalow Road.*—The dâk bungalow road was completed in November 1878, as reported to you by this office No. 135 of 27th December 1878.

17. *Alipore and Dalimkote Roads.*—The greater portion of the allotments on original works was expended in the reconstruction of the Alipore and Dalimkote roads, and the circumstances of their renewal were fully dwelt on in this office report of last year. Rs. 11,500 and Rs. 10,500 respectively were at first provided in the budget for these roads; but while the works were in full progress, and the allotments being nearly expended, it was found that more money was urgently needed. The Committee accordingly provided additional sums by cutting down the allotments on minor works, and reducing the estimated balance of the year under review by Rs. 1,900.

(*a*). *Alipore Road.*—An estimate for this road, providing for nearly 13 lakhs cubic feet of earthwork, was submitted to Government, which they, however, reduced to about five lakhs. But when the work was taken in hand, it was found by the then Chairman (Captain Lillingston) that almost the entire length of the road required raising, and accordingly it was raised. The earthwork thus largely exceeded the sanctioned estimate. This excess work will be shown in the supplemental estimates which will be submitted to you for sanction as soon as ready. Considerable saving is expected in all other items. Thirty-one bridges have been already constructed and four repaired.

(*b*). *Dalimkote Road.*—This road is almost complete. The completion report is shortly expected, and will be forwarded to you as soon as received. Altogether 18 bridges have been constructed and five repaired. The earthwork did not much exceed the sanctioned estimate. A good many repair works, not provided for in the estimate, had to be executed; but for this, there would have been a larger saving than is now expected.

18. *Julpigoree to Boda Road.*—The sanctioned estimate for raising the road in part, and renewing some of the bridges, was for Rs. 4,378; but only Rs. 1,900 was allotted last year. Out of the allotment, Rs. 1,262-8-11 was expended during the year, the entire earthwork was done, and six bridges of 10 feet span each were constructed.

19. *Sudder Station Roads*—One 10 feet bridge and nine culverts were constructed, and 60 running feet of the Kurla bank protective work was executed during the year at a cost of Rs. 1,409-13-8, against the estimate of Rs. 1,459 submitted by the District Engineer and sanctioned by the Committee.

20. *Domerhat to Dehigunge Road and the Kurla Bridge.*—Rupees 1,037 and Rs. 5,000 were allotted in the budget for the Domerhat to Dehigunge road and the Kurla bridge respectively. The estimate not having been sanctioned, nothing was expended on the former; while no definite conclusions have been arrived at in regard to the nature and construction of the latter. A design of an iron screw-pile bridge over the Kurla river is under consideration, and should funds allow the construction of such a bridge, a regular estimate of the same will be drawn up and submitted. The expenditure of Rs. 132-7-6 shown in the accounts against the Kurla bridge represents the amount spent on digging up piles, &c., and collecting the materials of the old bridge.

21. Very little work deserving mention was done in the Ramshahy Hât, the Apalchand, and the Phoolbari roads. Estimates for the two last works are under preparation and will be submitted in due time.

22. Details of the expenditure of Rs. 1,139-11-9 on these roads have been given in Part II of the accounts. Surface repairs of all the roads were executed, drains cleared, and eleven culverts in all repaired.

23. *Repairs to Sudder Station Roads.*—The repair works on the Julpigoree to Bakali Julpigoree to Silligoree, Alipore to Hattibari, and the Buxa station roads, were completed, before the District Engineer joined his appointment. Further repair being unnecessary, no estimate was drawn up.

24. *Establishment.*—There was a considerable saving in this head on account of a part of the District Engineer's pay having been met from other funds. He was appointed here on a salary of Rs. 250 per mensem, but a portion of his pay was borne by the Cooch Behar State Funds, the Cooch Behar State works being also under his supervision. He joined his appointment on the 14th November 1878, and his nomination was forthwith sent up to Government for approval. After some correspondence regarding his past career in the Public Works Department, Government approved his nomination and directed the Committee to appoint him on probation for one year. His period of probation extends to June next; he has given satisfaction in the discharge of his duties; his endeavours to reduce rates of works, such as woodwork, piling, iron-work, tarring, turfing, and dressing, have been remarkably unsuccessful, though the Committee is willing to credit him with the difficulties attending endeavours to bring about a reduction of rates, no matter whether these rates have been abnormally raised under special circumstances, or whether the rise has taken place through carelessness or collusion.

25. Baboo Gonesh Chundra Roy, a very useful sub-overseer, died in March last, and his place has not been filled up. An overseer was appointed instead on a monthly salary of Rs. 72. This has led to an increased expenditure of Rs. 240 annually.

26. At a largely attended meeting of the members, it was unanimously resolved to close with the proposal of the Government for the appointment of a Divisional Superintendent of district works, and the Committee anticipate the greatest benefit from an appointment which would appear to be the very thing wanting to enable a proper control being exercised over the District Engineer.

27. *Monthly accounts.*—The monthly accounts were audited and passed by a Sub-Committee, consisting of three members (sometimes by two members), at intervals of one to two months, and the annual accounts were laid before and passed by a General Committee.

28. *Office inspection.*—The office was inspected once during the year by Mr. Moore, Deputy Examiner, Public Works Accounts, and the defects noticed by him were explained to you by this office letter No. 495 of 30th September 1879, and the books have been sub-headed accordingly to the late circular on the subject.

JULPIGOREE DISTRICT ROAD FUND.

Abstract of particulars regarding Meetings of the District Road Cess Committee of Julpigoree for the Cess year 1878-79.

Commissionership.	District.	Number of members forming Committee.		Number required to form a quorum.	Number of meetings held.	Meeting at which there was no quorum.	Average attendance at meetings. W. MULLER,
For Chairman.

No. 122, dated Julpigoree, the 24th January 1880.

From—The Deputy Commissioner and Chairman, District Road Committee, Julpigoree,

To—The Commissioner of the Rajshahye and Cooch Behar Division.

WITH reference to your letter No. 362PW of the 16th instant, on the subject of the annual District Road Fund accounts, I have the honor to reply as follows.

Your paragraph 2. There are no village roads on the Committee's list, nor were any applications received for any repairs to such roads.

Your paragraph 3. Owing to the excessive rains in this district, the ordinary fruit-trees of Bengal will not answer.

Mangoes invariably have a worm. Jack trees damp off with a kind of "mouldy fungus," and at the same time are not considered a healthy fruit in this part of the world. As an experiment, a thousand feet of the road leading to the railway station has, however, been planted on either side with fruit-trees at an expenditure of Rs. 102-0-6.

The subject is still under the consideration of the Committee, and the Assistant Conservator of Forests, Kurseong Division, who has been consulted, has promised to supply us with a number of cuttings of the India-rubber tree.

Your paragraph 4. The number of the following roads cannot be given for the reasons now stated :—

Siligoree to Phoolbari.—This is a projected road. At the request of the Government it has been surveyed, and when the plans and estimates have been sanctioned, will be brought on the printed list.

Domerhât to Debigunge.—This is a road from the railway station, Domerhat running partly through this district and partly through Rungpore. It has not been brought on the printed list, though included in the revised list sent to Government for sanction, but not yet received.

New road from Railway Station to Town.—This ought not to appear as a *distinct* road. It is a portion of the Sudder station roads.

Dâk Bungalow Road.—This is not a distinct road. It is merely the approach to the dâk bungalow from the station road and is included in them.

Julpigoree to Boda.—This road is No. 3 on the printed list.

Julpigoree to Siligoree.—This road is No. 2 on the printed list.

Your paragraph 5. Circular No. 8 is not in the office, having been destroyed with other records in the fire of 1878; but I was guided by circular No. 10 of February 1879, sent to me direct, and proposed sending the duplicate reports and accounts direct to the Secretary to the Government, Public Works Department. They are, however, now submitted to you as requested.

No. 6.—Part I.

No. 428PW, dated Dinagepore, the 26th February 1880.

From—LORD H. ULICK BROWNE, Commissioner of the Rajshahye and Cooch Behar Division,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit in original the District Road Fund annual reports and accounts of the districts of this division, excepting Darjeeling, for the cess year 1878-79, prepared with special reference to the instructions laid down in Government circular No. 8A and letter No. 173A, dated 4th and 11th February 1878, respectively, and Government circular No. 54A, dated 5th August 1879. I also submit the explanations received in reply to calls from my office from the districts of Rungpore and Julpigoree.

2. The subjoined table shows the dates of first receipt in my office of the district reports and returns, and of final explanations in reply to calls from this office :—

Districts.	Date of first receipt.	Date of receipt of final explanations.
Dinagepore	... 1st December 1879.	17th February 1880.
Rajshahye	... 31st January 1880.	21st ,, ,,
Pubna	... 5th ,, ,,	9th ,, ,,
Bogra	... 31st December 1879.	Nil.
Rungpore	... 26th ,, ,,	22nd January 1880.
Julpigoree	... 12th January 1880.	17th February ,,
Darjeeling	... 2nd ,, ,,	Return incomplete and therefore not submitted.

3. From the above, it will be seen that the reports from Dinagepore, Bogra, and Rungpore were received before the date on which they were due in my office, viz. 1st January. The reports from Rajshahye, Pubna, and Julpigoree were received late. The return from Rajshahye, though received a month after the due date, was prepared incorrectly and in the old form, and had to be returned for revision. In the case of every district except Bogra, there were either mistakes or omissions, for which either explanations or revised figures had to be called for. The Deputy Commissioner and Chairman of Darjeeling did not include in his return the amounts spent by the Terai Branch Road Cess Committee, owing to the accounts of the Branch Committee not having been correctly drawn up, and I have therefore directed the Deputy Commissioner and Chairman to submit a revised return, which will be submitted to Government as soon as received.

4. The most important reform introduced in the administration of the Road Cess Act is the appointment of a "Divisional Superintendent of the District Road Works." The appointment of a Superintendent in this division has been most beneficial to the several Road Cess Committees. The undisposed of projects that were made over to the Divisional Superintendent by the Superintending Engineer of the late Northern Circle were promptly dealt with, which was in itself a great gain. Twenty-eight new projects received during the year have also been treated by the Divisional Superintendent, besides the inspection of roads, which has proved most beneficial to the department, as Superintending Engineers rarely had time to see a single work. Mr. Heyman, moreover, has had time to go into everything thoroughly, ascertain the qualifications of District Engineers, to check and reduce rates, to inspect the roads works offices, and see what had been done since the visit of the Examiner of Public Works Accounts, &c., &c.; but as a good deal of this only commenced after the year under report, I will only add that the entertainment of a Divisional Superintendent was an excellent investment, which will much more than repay its cost directly and indirectly in addition to frequently saving a season in work by expedition in the examining and amending projects. Mr. Heyman has also given me valuable assistance as Secretary in the Road Works Department.

5. I now proceed to review the results of the year as regards each district.

6. *Dinagepore.*—The year commenced with a balance of Rs. 44,871, which included the advances outstanding. The receipts during the year from all sources were Rs. 88,045. Thus, in all, Rs. 1,32,916 were at the disposal of the Committee. The total expenditure was Rs. 72,973, leaving a balance at the close of the year of Rs. 59,943. Of this sum Rs. 45,858 represent the actual amount in hand, and the balance was paid as advance for material at sites, but not adjusted.

7. The financial condition of the fund was therefore good, but the balance in hand was larger than it was at the close of the preceding year, and the outturn of work was small. The total expenditure on original works was Rs. 23,388, and on repairs Rs. 27,264—total Rs. 50,652. The principal work done was earthwork, bridging and metalling what is called the Rungpore road which connects the civil station with the Northern Bengal State Railway at Parbuttypore, and next to that bamboo bridging on the Akhanagor to Chooraman, Dinagepore to Hemtabad, and Peergunge to Roygunge roads, with jungle-cutting on the Darjeeling road.

8. As regards the Parbuttypore or Rungpore road, there was an allotment for original work of Rs. 39,840 in the budget, but the actual expenditure was only Rs. 13,959. A special report about this road is annexed to the report of the Chairman, from which it will be seen that very little work was done. Of the total expenditure of Rs. 13,959, Rs. 10,092 were spent on metalling and the rest on bridges and earthwork, &c. The failure of two contractors, as detailed in paragraphs 9 to 11 of the Chairman's report, explains the backward state of metalling on the Rungpore road. I am sorry to say, moreover, that the Divisional Superintendent noticed that the bricks collected for metal are of bad quality, and will not therefore last very long.

"I have just passed over the road myself, and have urged on the Magistrate and District Engineer to make special efforts as regards brick-making during the rest of this dry season, so that the metalling may be done in the course of the rains.

9. No original works were constructed on the Akhanagor to Chooraman, Dinagepore to Hemtabad, and Peergunge to Rajgunge roads, beyond bamboo bridging. The allotments for repairs were Rs. 1,383, Rs. 1,000, and Rs 1,000, and the expenditure Rs. 1,162, Rs. 1,448 and Rs. 1,080. Ten miles of jungle on the Darjeeling road were cleared at a cost of Rs. 390, chiefly as a protective measure against tigers—a work which is continued during the current year.

10. The other important roads of the district have received a fair amount of attention.

11. Rs. 2,000 were allotted under the head of village roads, but I regret to observe, that Rs. 200 only were spent, and that in a single neighbourhood apparently, viz. at Raygunge, an important jute market in the west of the district, where the residents repaired their roads at a cost of Rs. 400, the work being undertaken by one of the principal residents of the place. The Chairman intends to make use of the services of the police officers in getting village roads repaired and bridged under the supervision of Mr. Wilcox, the District Superintendent of Police, who is Vice-Chairman of the Committee; but it is difficult to believe that trustworthy persons are not to be found, who are willing to spend in the aggregate some thousands on village roads.

12. Tree-planting has been commenced on the Rungpore and Moorshedabad roads; on the former 600 and on the latter 300 trees are planted. The present Vice-Chairman, Mr. Wilcox, has taken great interest in this matter.

13. Altogether the results of the year are not as satisfactory as in the previous year, principally owing to the failure of two contractors, and the post of the District Engineer being in abeyance during the busiest season of the year, as detailed in the Chairman's report. The Chairman hopes to be able to utilize almost all the available income during the current year.

14. The Divisional Superintendent reported that, having joined his appointment last September, the District Engineer "Baboo Ram Nath Bhattacharjea has had a great many difficulties to contend against, owing to previous neglect and mismanagement. He is an intelligent and active man, and will in time be able to make proper arrangements, and have the work started and executed in a satisfactory manner."

15. *Rajshahye.*—The year commenced with a balance of Rs. 90,706, exclusive of advances outstanding, which amounted to Rs. 4,786. The total receipts of the year from all sources were Rs. 1,26,742, making a total of Rs. 2,17,448. The total expenditure, exclusive of advances and deposits, was Rs. 82,555, which left a balance in the hands of the Committee of Rs. 1,34,893. To this must be added Rs. 60, being the net deposit received during the year, and Rs. 658 deducted on account of net advances made during the year, making the total balance Rs. 1,34,295 unutilized at the end of the year.

16. The total expenditure on road works was Rs. 61,856, of which Rs. 32,073 were spent on original works and Rs. 29,783 on repairs, including village roads. The memorandum given in paragraph 13 of the Chairman's report shows in detail the actual expenditure on each of the roads undertaken during the year. The main cause of so little money being spent was the delay about the preparation of the project for the Nattore to Beauleah road, which has formed the subject of separate correspondence.

17. The most important of the original works was raising and bridging, a little metalling, and the making of a few bricks towards more metalling, in the case of the Nattore road. Rs. 12,678 were spent in the construction of masonry bridges on the first section, and Rs. 6,860 in raising, bridging, and metalling a short bit of the Ghormara and Kajla portion of it. Thus in all Rs 19,538 were spent in original works. Adding to this the sum of Rs. 14,128 spent on repairs of a substantial description, and almost of the nature of original work, the total expenditure was Rs. 33,666, out of a total allotment for original works and repairs of Rs. 84,500. This is explained by the Chairman to be owing to the estimates of the masonry bridges having been sanctioned late in the working season; but a much larger sum was available for the road if the project could have been prepared and sanctioned in time.

18. The Divisional Superintendent, in his inspection report of the Rajshahye district, reported that the late floods did a good deal of damage to this road in places, and particularly

55. The Deputy Commissioner says that the ordinary fruit-trees of Bengal do not answer well in Julpigoree owing to excessive rains. As an experiment, however, a thousand feet of the road leading to the railway station have been planted on either side with fruit-trees at an expenditure of Rs. 102.

56. The results of the year appear to be satisfactory.

57. Mr. Heyman writes as follows of the District Engineer:

"I found the District Engineer attentive to all instructions and willing to do his best. The saving on the two lines of road is creditable. He seems to be a practical man, and, as far as I can judge, understands his work, and I dare say will do well in future."

58. The report received from the Chairman of the Darjeeling Road Cess Committee is incomplete. It will be submitted to Government as soon as it is received in a complete form.

59. The meetings of Committees have been fairly attended in most districts, and the non-official members have given a fair amount of assistance to the Chairman; but the members who live in the interior, with few exceptions, scarcely ever attend.

60. The Road Cess Act works smoothly and without complaints. The people are gradually appreciating the advantages conferred on them by improved communications. But I do not think they get all the return for their money that they ought to get, and that they would get under a better system of repairs of roads than, as far as I am informed, exists in the great majority of the districts of these provinces.

61. This brings me to two matters, which are, I think, worthy of the notice of Government. The first is that, notwithstanding the large amount of cess paid, in very few districts do the cess-payers reap the practical advantage they are entitled to in the shape of having the majority of the roads in a district in fair-weather passable order during the greater part of the dry season. With few exceptions (and those chiefly, as I am informed, in districts where indigo planters, &c., carry out repairs), the manner in which District Engineers work is as follows:—

From one to three roads are taken up at a time and repaired without any great expedition, a good deal of earth being thrown on them almost every year when they are repaired at all. When these roads are done, another two or three roads are taken in hand, and so on; some roads thus not being touched till just before the rains, while in many districts some roads are not repaired every year. The result in the case of the roads repaired on this system is that some roads are made difficult for traffic by earth being thrown on them at the beginning of the season, and the rest are equally difficult for traffic by their not being touched for some months after the rains. What is wanted is that from 300 to say 700 miles of road in every district should receive light surface repairs at the beginning of the dry season, so as to be fit for traffic until the next rains. As a Magistrate of different districts, I found no difficulty in effecting this, by merely taking a little trouble in teaching sirdar coolies how to execute such repairs, viz. to avoid throwing earth on the road at all, if possible, and if absolutely necessary, the smallest quantity here and there, to pare ridges and turn them into the runs alongside them, to cut overhanging branches of trees, to slope away gaps, so that carts and buggies could get up and down without difficulty, and the same as regards approaches to ferries. If from 20 to 40 sirdar coolies are taught how to work in this way, and spread over all the roads in the districts on 1st November, each having 15 or 20 coolies with him, about all the roads of the district will be in fair weather order by the end of that month, and in actual practice, when I was a Magistrate, I used to drive my buggy or dog-cart all over the district from 1st December. On the completion of the surface repairs, the sirdar coolies should be turned on the two or three roads which should be taken in hand every year for heavy work, and during the rains only the sirdar coolies should be retained, each having a length of road to touch up now and then, and keep in such order as is possible in the rains, when "a stitch in time saves nine" at the beginning of the cold weather. What used to be possible, and used to be actually done with half or a third of the money now available for roads, ought to be done without difficulty now.

62. Of course it is not easy to get professional engineers to give due weight to the importance of merely giving 300 to 600 miles of roads, good for carts, and perfectly passable for vehicles on springs, by an expenditure of only Rs. 3,000 to Rs. 6,000 a year, for an engineer naturally prefers giving his time and attention to heavy and important work; but, I think, the former should be insisted on.

63. The other point is that, while the District Engineers have not hitherto been, as a body, altogether as efficient as they ought to have been, many of them are paid decidedly high salaries, considering their antecedents in the Public Works Department and elsewhere. District Officers and Committees no doubt find it difficult to resist an inclination to amiable weakness towards a gentleman with whom they are in frequent contact, but I think the salaries paid are often much higher than they ought to be, consistently with justice being done to the cess-payers. There may have been some necessity for highly-paid officers when a Committee had to carry through important works, and could rarely obtain the assistance of the Superintending Engineer; but now all that is changed as regards some divisions at all events, and with a Divisional Superintendent of district works, a high class District Engineer is not required, as such officers receive instructions on the spot in regard to all important bridges, and so forth.

64. I think that some pressure on the part of Government is called for in regard to these points.

No. 91PWct, dated Darjeeling, the 15th June 1880.

From—LORD H. ULICK BROWNE, Commr. of the Rajshahye and Cooch Behar Divn.,
To—The Secretary to the Government of Bengal, Public Works Department.

IN continuation of my letter No. 428PW, dated 26th February 1880, I have the honor to submit herewith the annual report and accounts of the District Road Cess Committee of Darjeeling, together with those of the Branch Road Cess Committee of the Terai, for the cess year 1878-79.

2. I much regret the delay that has occurred in the submission of these papers to Government It was reported, in paragraph 3 of my letter cited above, that as the receipts and disbursements of the Terai Branch Road Cess Committee were not included in the district accounts, they were returned to the Deputy Commissioner and Chairman for correction and revision. The revised accounts afterwards received from the Deputy Commissioner and Chairman were so badly prepared, and were wanting in so many details, that it was necessary to return them twice for revision and correction. On receipt of the revised accounts now submitted, it was again found that a subsidiary statement did not accompany the revised accounts, and that there were certain discrepancies between the accounts of the District and the Branch Road Cess Committees, and between the figures in the accounts and report of the latter. Copies of the explanations received, with reference to the discrepancies, are herewith enclosed.

3. The year commenced with an opening balance of Rs. 11,410, exclusive of advances outstanding. The total receipts from all sources were Rs. 38,556-8-4, which includes Rs. 13,000 granted by Government. There was thus Rs. 49,966-8-4 at the disposal of the Committee. The total expenditure of the year, including advances and deposits, amounting to Rs. 17,606-5-2 and Rs. 10,000 respectively, were Rs. 41,985-12-1, leaving a balance at credit of the Committee of Rs. 7,980-12-3 at the close of the year. Of the sum of Rs. 13,000 granted by Government, Rs. 5,000 were on account of the road from Kurseong to Kilabari, and Rs. 8,000 for the road from Jor Bungalow to the Teesta. Both roads have since been transferred to the Public Works Department as provincial works. The former sum has since been advanced to the Executive Engineer of the Darjeeling Division. The unexpected balance of the latter sum, after deducting payments on account of the Teesta road, will probably have to be refunded.

4. The total expenditure on works under the Sudder or District Committee amounted to Rs. 5,473-12-9, viz. Rs. 1,900 on original works and Rs. 3,573-12-9 on repairs. The original works consisted chiefly of the construction of cane bridges. There is no District Engineer in Darjeeling, as the funds at the disposal of the Committee are insufficient for the maintenance of an engineering establishment, and almost all the roads in the hills are maintained under the supervision of tea-planters, and in some cases a lump sum being made over to them for repairs of roads in some instances.

5. The number of meetings held during the year was only four, owing to there being no quorum on other occasions. It is said that planter-members feel a great difficulty during the rains and the tea-making season in visiting Darjeeling.

6. The Act is said to have worked fairly well during the year, except that the cess-payers are dilatory about paying in the cess. It is also reported that a large remittance was received from the Terai after the close of the year too late for credit in the year's accounts.

7. No trees were planted on roadsides in the hills. It is practically impossible to do much towards planting roadsides with trees in the hilly parts of the district.

8. Nothing was done during the year towards the construction of village roads as such, but it is remarked that the district roads are in fact village roads.

9. The collecting and other establishments are reported to have worked fairly well during the year.

10. The Branch Road Cess Committee of the Terai do not appear to have worked very satisfactorily. The non-official members, the tea-planters especially, strange to say, are said to be rather indifferent and to have rendered no assistance to the Vice-Chairman, who presides over the Branch Committee, which has been vested with the powers of a District Committee. The Deputy Commissioner and Chairman recommends that these powers be withdrawn, as he is of opinion that the Branch Committee requires more guidance than can at present be given to it. I think another year's report may be awaited before taking that step.

11. The total income of the Branch Committee was Rs. 10,551-10-1, of which Rs. 6,169-10-1 represents the amount received from the District Committee. The total expenditure was Rs. 10,252-14-1, including advances outstanding to the amount of Rs. 3,178-0-9. There was therefore a balance of Rs. 298-12 at credit of the Branch Committee at the close of the year.

12. The total amount spent on works was Rs. 5,866-7, viz. Rs. 183-13-6 on an original work (the construction of a store godown and office bungalow), and Rs. 5,682-9-6 on repairs of roads. There is an overseer to look after these roads, who is not favourably reported on; but it is said that he suffered from fever for a considerable portion of the year. The roads are said not to be in a good state, but the district funds are insufficient to allow of the grant of the amount necessary to keep all the roads in really good order.

13. Only 50 mango and 40 jack trees are stated to have been planted by the sides of a road. It was intended to spend a sum of Rs. 50 in planting trees, but as the young trees were not sufficiently advanced for transplanting, the whole of this sum could not be spent.

so at the Kalitalah nullah, where a gap was cut away to twice its original width, and a large and deep hole scoured out at the site where it was proposed to erect a masonry bridge. Mr. Heyman reported that a good deal of earthwork has yet to be done; but now that it has been given to a good contractor, and a contract signed, this road should be finished, as regards earthwork and bridging, before next rains.

19. The timber bridges on the second section of the road have been repaired, and Mr. Heyman reported that they appear to be strong and sound. In the first section also most of these bridges have been thoroughly repaired.

20. From the fourth mile the metalling commences. The metal has not consolidated properly, and the Divisional Superintendent attributes this to the stones not having been broken sufficiently small, and the metal sufficiently watered and rolled before the binding material was put on.

As regards the metalling, I am much disappointed at hearing that so much money is to be spent on contracts actually made for iron bridges, that very little indeed of the road cess funds or the second Government grant of Rs. 75,000 will be left for metalling. But the Superintending Engineer approved of such bridges being made, and again during last December, hearing another one was in contemplation, I asked the Divisional Superintendent to see if a wooden bridge would not suffice, on which he reported that an iron one was necessary. The additional expense will delay the completion of the metalling a good deal.

21. The other important roads of the district have received fair attention.

22. Rs. 1,961 were spent on village roads. Of this amount, Rs. 575 were spent by the Branch Committee of Nattore on certain roads under that Committee. The work done under this head is unsatisfactory.

23. No trees have yet been planted along the roadsides. The Chairman reports that some has got trees already in places, and at others the roadside will not admit of trees being planted.

24. The year's work has been unsatisfactory, as was the case in the previous year, owing to the cause noticed above; but it is, I have every reason to believe, progressing well now.

25. The Divisional Superintendent made a very favourable mention of the present district Engineer Mr. Mackenzie.

26. *Pubna.*—The year commenced with a balance in hand of Rs. 24,615, exclusive of advances outstanding. The total receipts of the year from all sources of revenue were Rs. 50,758, making a total of Rs. 75,373. The total expenditure was Rs. 64,451, which leaves a balance of Rs. 10,922. Adding to this Rs. 3,548 on account of miscellaneous advances recovered during the year, and deducting Rs. 1,124, deposits refunded during the year, the actual balance in the hands of the Committee was Rs. 13,346.

27. Of the total expenditure, Rs. 47,634 were spent on road-work, of which the outlay on original works was Rs. 35,131, and on repairs Rs. 12,503.

28. The most important original work done during the year is the partial construction of the roads from Pubna to Moonshedpore, Aunimkola to Sara, and Raneegaon to Bhowanipore. The first two roads form, with a portion of the old Rajshahye road in the middle, the line of communication between the sudder station of Pubna and the Northern Bengal State Railway at Sara. This road is still far from complete as a communication between Pubna and Sara, though a good deal of both earthwork and bridging has been done in a fashion. The Divisional Superintendent inspected the road. A copy of his report has been submitted to Government with this office letter No. 295PW, dated 20th December 1879. He strongly condemned the work of the District Engineer, and a notice has been given to the latter officer that his services are no longer required.

29. The other roads of the district received fair attention. Almost all the works suffered considerable damage from the unusually high floods of last year, nearly all the embanked roads in the district having been overtopped and breached.

30. The expenditure on village roads was Rs. 2,085, out of an allotment of Rs. 2,316. The work was supervised in the Serajgunge sub-division by local zemindars and headmen, and in Pubna by headmen of villages only. The Chairman reports that "several good and useful village ways have been made," and in these cases "a small sum has done much to remove the pressing want of a large number of the people." The work of the year in this respect appears to have been satisfactory.

31. Nothing was done in the way of tree-planting on roadsides during year under review, except an outlay of Rs. 72 in fencing trees previously planted.

32. The Divisional Superintendent reported very unfavourably of the District Engineer as already stated.

33. *Bogra.*—The year opened with a balance of Rs. 16 343, exclusive of outstanding advances on account of the value of materials in stock, which amounted to Rs. 15,417. The total receipts of the year from all sources were Rs. 48,655. The gross amount available was thus Rs. 64,998, plus value of advances and materials. The total expenditure was Rs. 31,601, leaving a balance of Rs. 33,397, plus value of materials in stock estimated at Rs. 17,212.

34. Of the total expenditure of Rs. 31,601, Rs. 18,061 were spent on road-works, of which Rs. 2,014 are stated to have been spent on original works, and Rs. 16,047 on repairs. This latter sum, however, includes some heavy earthwork, which was more in the nature of completion of the earthwork of the road from Bogra to Chatiangram.

35. The most important work of the district is the road from Bogra to Chatiangram, which connects the civil station of Bogra with the Northern Bengal State Railway. The work done on this road consisted of earthwork and repairs throughout, and the construction of four temporary bridges and two temporary culverts, so that for all practical purposes the road is passable throughout. The complete project for this work, including substantial bridging and metalling, has lately been submitted.

36. The road next in importance is the Dinagepore road. Extensive earthwork repairs were effected and temporary culverts were made.

37. Earthwork repairs, repairs and construction of temporary bridges, were effected on the Rungpore, Nattore, Shariakandy, and Serajgunge roads, as also on the Mahastan and Shibgunge branch of the Rungpore road, and the cross-roads joining the Rungpore and Dinagepore and the Serajgunge and Nattore roads. The work done on the Sultanpore road was trifling.

38. Rs. 1,755 were spent on village roads through zemindars and village headmen.

39. Very little has been done in this district in the work of planting trees on roadsides; Rs. 90 only were spent on this work. The Divisional Superintendent was satisfied with the way in which the District Engineer, Mr. Staples, prepared the project for the Bogra to Chatiangram road, the only important thing he has had to do, but Mr. Heyman had to point out many little things which required amendment. The District Engineer is evidently slow and not fertile in resources, but Mr Heyman says he has had considerable difficulties to contend with owing to the incompetency of his predecessor.

40. *Rungpore.*—The year commenced with a balance, exclusive of advances, of Rs. 19,790. The receipts from all sources during the year were Rs. 1,37,275, making a total of Rs. 1,57,065. The total expenditure during the year was Rs. 1,29,772, leaving a balance of Rs. 27,293.

41. Of the total expenditure of Rs. 1,29,772, the amount spent on road-works was Rs. 99,032, of which Rs. 55,873 were spent on original works and Rs. 43,159 on repairs.

42. The most important original work undertaken during the year was the Rungpore to Kamarparah road, which is a portion of the Dhubri road. Rs. 12,775 were spent in the construction of bridges which were nearly finished.

43. The next important works in progress during the year were the large Alaikuree bridge, the construction of bridges on the Kaligunge road, and the metalling of the Tajhat road. The amount spent on these works were Rs. 11,063, Rs. 5,480, and Rs. 7,705 respectively.

44. A very large quantity of work of a permanent or substantial nature appears to have been done in this district, and almost all the roads have received a fair amount of attention.

45. Out of an allotment of Rs. 4,000 for village roads, Rs. 3,425 were spent on 37, roads in the three sub-divisions of the district, the work being undertaken by non-official gentlemen and village headmen.

46. Satisfactory progress has been made in the work of planting trees on roadsides. It is reported that five miles of the Bogra, one mile of the Kaligunge, four miles of the Dhubri, two miles of the Bugwa, nine miles of the Julpigoree, and eleven miles of the Dinagepore roads have been planted with jack and mango trees.

47. The Divisional Superintendent has not yet finished his inspection of the works of this district, but from the Chairman's report, it appears that the results of the year's work are very satisfactory, and I know that the present District Engineer, Mr. Ringwood, has given satisfaction and proved much more efficient than his predecessor, as the late Superintending Engineer has seen and reported favourably on some of Mr. Ringwood's work.

48. *Julpigoree.*—The year commenced with a balance, exclusive of advances, of Rs. 11,850. The receipts of the year amounted to Rs. 38,487, making a total of Rs. 50,337. The total expenditure was Rs. 48,468, leaving a balance of Rs. 1,869. Adding to this Rs. 2,532, being the amount of miscellaneous advances recovered during the year, the total balance comes to Rs. 4,401.

49. Of the total expenditure, Rs. 40,109 were spent on road-works, of which Rs. 37,358 were spent on original works, and Rs. 2,751 on repairs.

50. The most important works undertaken during the year were the Dalingkote and Alipore roads, on which Rs. 13,483 and Rs. 18,142 respectively were spent. The Dalingkote road is finished as provided for in the estimate, and the work now going on is in fact extra, and is being executed out of the savings of the estimate which the Divisional Superintendent reports to have been Rs. 5,000.

51. The Divisional Superintendent reports that the "state of the road is very good, and when the repairs and raising in the seventh, eighth, ninth, and tenth miles (which has been found necessary by the overflow of the Teesta) is finished, it will be an excellent unmetalled road."

52. Mr Heyman also inspected the Alipore road and found it in an advanced state.

53. It appears that the other important roads of the district also received attention.

54. Nothing appears to have been done for village roads. The Deputy Commissioner reports that "there are no village roads on the Committee's list, nor were any applications received for any repairs to such roads." This is scarcely satisfactory, and the Deputy Commissioner will be requested to make an effort to do something for village roads during this dry season.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 169.

The 20th September 1880.

UNDER section 89 of Act X (B. C.) of 1871, the following Annual Accounts and Reports of the District Road Committees of Patna, Gya, Shahabad, Mozufferpore, Durbhunga, Sarun, and Chumparun, on works carried out and in progress during the past cess-year 1878-79, together with the remarks of the Commissioner of the Patna Division, are published for general information.

T. H. WICKES,
Asst. Secy. to the Govt. of Bengal in the Public Works Dept.

No. 134, dated Bankipore, the 19th—27th January 1880.

From—G. TOYNBEE, Esq., Vice-Chairman, District Road Cess Committee, Patna,
To—The Commissioner of the Patna Division.

I HAVE the honor to submit the Annual Road Cess Report for the road cess year ending 30th September 1879, prepared by the District Engineer. This report contains all the information required by the Government regarding the works carried out during the year, and also explains what it is proposed to do during the current road cess year.

2. The annual accounts were duly examined and passed in accordance with the provisions of section 88 of the Act by the Vice-Chairman, Moulvi Abdool Jubbar, Baboo Modur Mohun Lall, and Munshi Mahomed Amir.

3. There is nothing new to report on the working of the Road Cess Act.

4. The sudder and branch committees have shown an intelligent interest in all matters brought before them, and have thoroughly approved the principle laid down in Government circular No. 5C, dated 23rd January 1879, on which the District Engineer has worked.

5. It will be seen from the District Engineer's report, that the greatest want of the district—a bridged and metalled road to Behar (which passes through a very flooded and difficult country)—is now under construction, and will, it is hoped, be completed during the current year. The committee hope to take up one or more important roads, year by year, and put it into thoroughly good order, only doing mere surface repairs meantime to the other existing roads which are all extremely defective both in construction and alignment. The next large work to be taken up in accordance with this policy, is the road from Futwa to Hilsa, and when this has been done, it will be possible to take up two or three of the less important roads yearly, until all are put in good order. Most of the District Engineer's time has been taken up during the past year by preparing the plans and estimates for these two large works. Those for the Behar road have now been passed by the Chief Engineer, and those for the Futwa and Hilsah road have been sent to Government through the Superintending Engineer. The committee have had every reason to be satisfied with the District Engineer's work, and he has been confirmed in the appointment. The subordinate establishments are somewhat weak: but better men on the pay which the committee can offer are hard to obtain, and it is hoped that the present staff will gradually improve and succeed eventually in working up to the required standard.

6. The committee, in explanation of the small sum spent on village roads, would again reiterate their previous opinion that in such a flooded district as Patna, it is impossible to construct even a village road without proper surveys and skilled knowledge. They have confined their present efforts in this direction to preserving from encroachment existing tracks and footpaths, and planting palm trees to mark their course. Eventually their improvement will be gradually taken up along with that of the roads which they connect and tap. Their construction involves many delicate questions of drainage and irrigation; and it would be mere waste of money to undertake them until the District Engineer has had time to make the necessary surveys. It cannot be too often pointed out that the engineering conditions of the Patna district are entirely different from, and far more difficult and complicated than, those which obtain in the other districts of the Division.

7. A beginning has been made in the important matter of arboriculture, which had hitherto been entirely neglected. The trees planted on roads and in nurseries are all fruit-bearing trees which will eventually yield a good revenue, and amply repay the expenditure incurred on them. The District Engineer has taken up the subject in a systematic manner, and has wisely adopted a system of nurseries in which the trees are allowed to attain a good life before being planted out, thus concentrating supervision and establishment, and maintaining a more efficient check.

8. To put the roads of this district into thoroughly good order is a work of not less than ten years, and probably in no other district in Bengal would hasty and ill-prepared projects be more injudicious and wasteful than in Patna.

9. A duplicate copy of the annual accounts is this day sent to the Examiner of Public Works Accounts, Bengal.

10. The statement, in the prescribed form, showing the particulars of meetings of the sudder and branch committees is herewith annexed.

Abstract of particulars regarding meetings of the Sudder and Branch Road Cess Committees for the Cess-year 1878-79.

District.	Name of Committees.	Number of members forming Committee.		Number required to form a quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting.	Number of members who attended only—						Percentage of average attendance to whole Committee.
									One meeting.		Two meetings.		Three meetings.		
		Official.	Non-official.						Official.	Non-official.	Official.	Non-official.	Official.	Non-official.

BANKIPORE,
The 19th January 1880.

G. TOYNBEE,
Vice-Chairman, District Road Cess Committee, Patna.

Patna Road Cess Annual Report 1st October 1878 *to 30th September* 1879.

THE annexed tabular statement prepared in accordance with Government Circular No 54A, of the 5th August last, shows the income of the road cess during the year in question (including the balance at the close of the previous years), the details of expenditure, and the balance at its close.

The system of expenditure adopted has been that laid down in Government Circular No. 5C, of the 23rd January 1879, paragraph 8, which is quoted for reference:—"If committees were to concentrate their expenditure for new works or one or two projects, and complete these before they commenced any others, the District Engineer could look more thoroughly after them, and would have time to look into his designs for the works to be subsequently taken up and to prepare them satisfactorily. The investigation necessary to prepare one or two projects correctly should afford data that would be valuable, and would facilitate the preparation of subsequent estimates for new projects in the vicinity. Funds should first be provided for the repairs of existing district and village roads, and any surplus to carrying out, thoroughly and properly, some one or more important projects, which, once begun, should be completed. The Lieutenant-Governor considers that the cess money will be far more profitably expended in this way, than in spasmodic outlay on pieces of road without system and without careful consideration of the engineering merits of the projects. Committees should work on general principles rather than on an impulsive desire to meet every petty want that may happen to turn up."

The sum available for works after deducting cost of all establishment and maintenance of bungalows, ferries, &c., amounted to Rs. 1,25,512. Of this sum Rs. 12,954 were spent in annual repairs; Rs. 654 on village roads; and Rs. 1,11,874 were available for "some one or more important project." This sum may seem unequally divided between these three heads, but the roads generally in the district are such that until they can be taken up and re-aligned and remodelled (it is hoped in 1880-81), more money spent on them than is just sufficient to keep the surfaces of them in order for traffic, is wasted. The small outlay on village roads may be attributed to the fact that as there are no good "feeder" roads, the present existing tracks, of which there are a great number, are sufficient to meet all wants. Villages have been encouraged to come forward and apply for any road they want opened; but the propensity to encroach, by ploughing up for cultivation on existing roads, seems greater than a desire for new ones. When good feeder roads have been made, no doubt carriage by carts will be substituted for that by pack bullocks and a greater demand for village roads will be created.

The greatest wants of the district were undoubtedly one or two roads which would render easy communication between the heart of the district and the railway open throughout the year. During the rains, for at least one-third of the year, the greater part of the district is cut off from the railway by the immense spill channel which exists just south of the railway line throughout nearly the whole length of the district. During the previous year (to that in question) it had been the intention of the committee to make one of these roads, that between Bucktearpore railway station and Behar, and a sum of Rs. 28,600 had been set aside for this purpose. Including that amount, this year's budget provided Rs. 1,09,029 for the same purpose. The requisite surveys and levels for the project were commenced as soon as the state of the country permitted, and to admit of the work being put in hand at once the project was divided into two sections. The first and most important, across the spill channel of the district, was prepared and submitted by the 10th April. As the water-way to be allowed was very great, light and comparatively economical bridges, made almost entirely of "scrap rails," were designed by the District Engineer. The design was examined and approved by the Superintending Engineer (North-Western Circle, Department Public Works), but disapproved of by Government. Revised plans were submitted, and final sanction of Government was obtained on the 4th July 1879. The working season had

by that time almost gone by, and only a very little could be done. *This accounts for the extraordinary balance at the close of the year.*

A saving on the budget allotment for "repairs" was effected, and with the sum it was resolved, and sanction obtained, to metal the road from Meetapore to Khagowl, a road on which there is heavy traffic and which, owing to the peculiarly unfavourable soil during the hot-weather months, is from 6 to 9 inches deep in dust, and during the rains about the same depth in slush. But this work of course could not be done till next working season.

In the course of the year the plans and estimates for the second section of the Bucktearpore-Behar road were submitted and sanctioned. The total cost of this project amounted to Rs. 1,00,879.

The surveys and levels for the next project which the committee had resolved to take up, viz. the road from Futwa railway station to Hilsa (and *vid* Islampore to Gya), a road similar to the last, were also done during the year, and the plans and estimates prepared.

In spite of Government Circular No. 5C, of the 23rd January 1879, the District Engineer has to complain of the unnecessary delay in passing his projects.

Nurseries for young trees, to be eventually planted on the roadsides, were started at Bickram, Bankipore, Futwa, Hilsa, Ekengerserai, Bucktearpore, Mooraree, Behar, Gerreek, and Silad; 68,285 mango, 1,774 jack, 508 mowah, 100 tamarind, 2,614 jaman, 330 other kinds of seeds, were planted on them, and 38,550 tar-tree seeds on the sides of class IV roads. The outturn, as well as that of the trees planted out on the roadsides, is a matter for next year's report.

Mention should be made of the year's floods, which were the highest ever known. The 1st class roads, Nos. 1, 3, 4, & 6; 2nd class, Nos. 7, 13, and 15; 3rd class, Nos. 17, 23, and 24; 4th class, Nos. 28, 29, 33, 37, 38, 39, 40, and 41, were more or less submerged or breached.

No. 161, dated Bankipore, the 6th February 1880.

From—G. TOYNBEE, ESQ., Vice-Chairman, District Road Cess Committee, Patna,

To—The Commissioner of the Patna Division.

IN reply to your No. 212, dated 31st ultimo, I have the honor to state, as to the working of the District Road Cess Act, that the provisions for the collection of arrears are not calculated to enable the Collector to realize them without encountering much difficulty, in a district where the number of share-holders, by whom the cess is payable, is very large. That the sunset law should be made applicable to demands on account of the amalgamated cesses is a great desideratum.

The establishment employed in the collection of the cesses, and that for the office of the district committee, have efficiently done their works during the year under review.

No. 6.—Part I.

BANKIPORE,
The 14th January 1880.

G. TOYNBEE,
Vice-Chairman.

No. 182, dated Gya, the 3rd February 1880.

From—E. J. BARTON, Esq., Chairman, District Road Cess Committee, Gya,
To—The Commissioner of the Patna Division.

I HAVE the honor to submit the Annual Report and Accounts of the work of the Road Cess Committee of Gya for the cess-year 1878-79.

A comparison of the work carried out during the year under review and the previous one (1877-78) will show that considerable progress has been made.

Expenditure.	1877-78. Rs. A. P.	1878-79. Rs. A. P.
Original works	18,929 8 2	65,445 14 1
Repair works	24,946 0 11	54,458 3 2
Tools and plant	623 0 6	1,579 14 6
Establishment	16,768 1 5	26,956 2 10
Miscellaneous expenses	0 0 0	10,696 11 1
Total	61,226 11 0	1,59,136 13 5

The large increase in establishment is due to the fact that the District Engineer was only appointed in April 1878, after which date he appointed his staff and commenced operations. Previous to this date the work carried out was executed under the supervision of the Public Works Department.

There have been some difficulties in the way of getting a satisfactory outturn of work last year, the principal one being the construction of the Gya Railway. The railway authorities were paying rates varying from 25 to 50 per cent. higher than ours, and thus had a complete command over local labour.

The railway was opened in the month of July 1879; it was even then in a very unfinished state, and work has been going on on it up to a very recent date.

In addition to the expenditure shown above, many works were in progress at the end of the year, and were partly completed, but not paid for. These I will remark upon later, when I come to deal with the works undertaken in detail.

2. The accounts have been examined on the 29th ultimo by Mr. F. Moore, Deputy Examiner, Public Works Accounts, and although I have not yet received a copy of his report, I am informed that he found every thing in good order, correct, and up to date.

The accounts have also been examined by a sub-committee consisting of—

The Vice-Chairman,
Baboo Bhoop Sen Sing,
„ Woomesh Chunder Sircar,
Senior Covenanted Officer,

and I have the honor to append a copy of their report, and to inform you that the accounts were passed subsequently by the committee. The road cess cash-book, cheque-book, and treasury pass-book have been regularly examined, month by month, and the monthly balances checked.

3. *Working of the Road Cess System.*—I have the honor to append a copy of a letter, No 91RC, dated 14th January 1880, from Baboo Bhagwan Chunder Sen, Deputy Collector, in charge road cess, which deals with this portion of the report.

Appendix II.

4. *Road Cess Sudder Committee.*—The following gentlemen composed the committee at the end of the year:—

Mr. E. J. Barton, *Chairman*,
„ E. N. Baker, *Vice-chairman*.
Baboo Rajendra Nath Roy, *Road Cess Deputy Collector*.
Mr. A. H. Giles, *District Superintendent of Police*.
„ J. A. Windle, *Executive Engineer*.
„ W. B. Chardon, *Indigo-planter*.
Maharajah Sir Joy Prokas Sing, Bahadoor, K. C. S I., of Deo.
Baboo Balkissen Dass, Trader.
Mirza Dost Mahomud, Dewan of Baboo Rung Bahadoor Singh.
Moonshie Ikbal Ali, Dewan of Maharani of Ticary.
Baboo Rung Bahadoor Singh, Zemindar.
„ Jehanger Bux Khan, „
„ Rameshwar Persad Singh, „
Moulvi Wozir Ali, „
Baboo Baij Nath Singh, „
„ Woomesh Chunder Sircar, Pleader and Zemindar.
„ Shew Charon Lal, „
„ Bhup Sen Singh, Government Pleader.
„ Gunga Persad, Zemindar.
„ Mokoond Shai, „
„ Jowahir Bhagat, „

Statements A and B herewith annexed as usual.

Statement A shows the particulars of the several committees, and Statement B the names of those members who did not attend any meeting during the year under review.

The Committee met on the following dates during the cess-year:—

31st October 1878.	4th March 1879.
30th November 1878.	7th June 1879.
2nd December 1878.	11th August 1879.
23rd December 1878.	18th September 1879.
6th January 1879.	27th September 1879.

At three of these meetings, viz. those of the 30th November 1878, 23rd December 1878, and 18th September 1879, there was no quorum, and the meetings had to be adjourned to the dates immediately succeeding them.

This shows a want of interest on the part of the non-official members in the work of the committee.

5. *Change of members*—Mr. R. H. Greaves, Vice-Chairman, went on leave.

Mr. E. N. Baker, Vice-Chairman, from 27th September 1879, *vice* Mr. R. H. Greaves.

Baboo Woomesh Chunder Sircar, pleader, from 13th January 1879, *vice* Baboo Din Dyal, deceased.

Moulvi Wozir Ali, from 13th January 1879, *vice* Syud Abu Syud, deceased.

Baboo Baij Nath Sing, from 13th January 1879, *vice* Thacoor Pershad, deceased.

Baboo Ganga Pershad, from 15th March, *vice* Moonshi Ryot Lall, deceased.

Baboo Mocoond Shahi, from 15th March, *vice* Gocool Chand Poorohit, discarded from the list of members for non-attendance.

Baboo Shew Charun Lal, from 18th March 1879, *vice* Roy Sham Lal Mittra, from 18th March 1879.

Baboo Jewahir Bhagat, from 10th February 1879, *vice* Delha Mahtoh, resigned.

6. *Removal of members.*—No members were removed during the year.

7. *Road cess Branch Committees.*—I have the honor to submit the reports of Mr. Cox, Sub-divisional Officer of Nowadah; Mr. Dey of Jehanabad; and Mr. Stewart of Aurangabad, on the working of the branch committees in their sub-divisions. It does not appear from these reports that very much interest is taken in their work by the non-official members, which is much to be regretted. The particulars of the meetings of the several sub-committes, and the names of the absentees throughout the year will appear in the statements A and B, respectively.

Annual Accounts.—The detailed annual accounts are sent herewith. The balance in hand at the end of the cess-year preceding the one under report was Rs. 1,40,741-9-7. The receipts during the year amounted to Rs. 1,34,504-7-10, giving a total income of Rs. 2,75,246-1-5.

The expenditure amounted to Rs. 1,59,136-13-5, leaving a balance to next year of Rs. 1,16,109-4. It will therefore be seen that the whole collections of last year have been spent and that the balance in hand at the commencement of the year was reduced by nearly a quarter of a lakh of rupees.

Rs. 65,445-14-1 where spent on original works, and Rs. 54,458-3-2 on repairs.

There is an excess under the head of establishment (general management) which should be noticed. The amount of excess is Rs. 752-5-1 on a budget grant of Rs. 8,812, and the reason of the excess is that Government struck off Rs. 2,160 from the original amount (viz. Rs. 10,472), which sum was provided by us in the budget. The cause of the reduction was that Government considered the estimated cost of house-cess establishment would not be required owing to the suspension of house-cess collections; but it was found necessary to keep on the establishment for some portion of the year, in order to collect the house-cess arrears for the first and second quarters.

9. *Work establishment.*—The engineering and subordinate establishment consisted of the following officers during the year:—

1 District Engineer.
3 Overseers.
2 Sub-overseers.

A sub-overseer, Mr. A. Madiera, resigned, and sub-overseer Baboo Hem Chunder Sen's services were dispensed with during the year, and Baboos Preo Nath Mookerjee and Nabo Gopal Mookerjee were appointed in their places.

The office establishment in the District Engineer's office consists of one clerk and one draftsman only; in the Chairman's office, 1 clerk, 1 accountant and 1 estimator. The District Engineer has pointed out that the work is increasing rapidly in the office, and that another man is urgently required. There has been no change in the office, stablishment throughout the year, but Mr. Mill's proposition is under consideration.

10. *Works carried out during the year.*—The amount of estimates for original works farmed during the past year was Rs. 78,718, and for repair works Rs. 66,323. The amounts expended under these two heads respectively, as noted above was Rs. 65,445-14-1 and Rs. 54,458-3-2. There were, however, some original works for which estimates were farmed in the previous year, and which therefore do not come under the above amount of Rs. 78,718. These are as follows:—

Gya to Sherghotty.—Metalling Rs. 3,950, expended during year Rs. 808-11.

Kharkut to Rajowle.—Culvert Rs. 2,387, completed.

Gya to Nowadah.—Metalling Rs. 8,986 expended during the year Rs. 399-13-6. The contractor for this work has failed to carry out his agreement, which expired on 13th September 1879. Other arrangements have been made and the work is in progress.

Pemar bridge.—Rs. 9,760. Will be completed in four months. All the timbers are at site of bridge.

Jokari bridge.—Rs. 5,044. Will be completed in four months. Many of the timbers are already at site.

Jahanabad to Urwal.—Culverts, Rs. 2,824; completed.

Jehanabad to Kurtha road.—Completed.

Jehanabad to Bundhoogung road.—Rs. 2,091. Will be shortly completed.

Road-cess building.—Rs. 6,317; completed.

Nowadah to Pakree Barshwan.—Culverts, Rs. 5,697. In good progress. The works were stopped by the rains but will be shortly completed.

Nowadah to Worsligunge road.—Road culverts, Rs. 4,616. In good progress. The works were stopped by the rains, but will be shortly completed.

Jehanabad to Hoolasgunge.—Culverts Rs. 2,097, completed.

Chirku to Goowa Road.—Rs. 892, completed.

Pakree Barowan to Pachumba Road.—Rs. 2,080. Partly completed.

It should also be remarked that a good many original works were in progress at the end of the year, for which estimates were prepared in 1878-79; the greater part of the works are now approaching completion; many bridge and culvert works were stopped by the very heavy rains

of the past year, but have been resumed during the cold weather, and are now in good progress. I expected all these works will be completed by the end of the cold weather. Other works, again, could not be inspected and passed by the District Engineer in time to be paid for by the end of the cess-year. The payments for all these works will therefore appear in next year's annual accounts, although the work was actually done in this. Rs. 25,000 is a rough estimate of the work done but not paid for. The total value of the work actually done during the year is therefore about Rs. 1,45,000. It now remains to give a short statement of the works undertaken during the year in addition to those above-mentioned.

ORIGINAL WORKS.

11. *Daoodnugger*.—Bali bridge works. This important bridge, consisting of 9 spans of 16 feet was found to be in great danger. It seems that the contractor who built the bridge some years ago had not built the west pier on the west side on a firm foundation, but on sand. The consequence was that the floods scoured out the pier, and the two arches resting on it cracked owing to its subsidance. The pier and arches had in consequence to be dismantled and rebuilt which was carried out successfully. The pier (built on wells) now rests on a firm sub-stratum of clay. The cost of this work was Rs. 4,364-12-1; the masonry was completed within 5 weeks of placing the first well in position, and was carried out under rather difficult circumstances during the rains.

Kharkut to Rajolee Road.—Seven culverts of 5 feet span were completed at a cost of Rs. 2,082-9-9

Nowadah Road.—As above stated the contractor for this work failed in his agreement. About half an inch of metalling, which was all he collected, has been laid down and consolidated departmentally since his contract was broken.

The Pemar and Jokari bridges.—Are in good progress, and will be completed in about four months. Two piling engines have been constructed at Gya for the work.

Gya to Rajobe.—All the culverts have been now completed, although all have not yet been paid for.

Gye to Gopalgunge.—These culverts were commenced during the last year, and are now in progress. They will be completed shortly.

Baroon to Bhurraria-Inglis road.—The pipe ducts on the upper section have been completed, and the culverts on the lower section are in progress.

Gya to Surboda road.—All the culverts were completed last year.

Jehanabad to Urwal.—All the culverts were completed last year.

Daoodnagore to Obra road.—All the culverts were built with one exception, the construction of which was stopped by the floods. It is now being built.

Furah to Gobindpore road.—These culverts were also completed during the past cess year.

Johanabad to Kurtha road.—Only one culvert of 5 feet span was built last year, as the contractor stopped work in the rains. Another contractor has been put on the work.

Jehanabad to Bundhoogunge road.—This was only partly completed. The work was stopped by the District Engineer's orders, as the villagers complained of the damage being done to their crops. The work has now been recommenced, the crops having been cut.

Rufigunge to Goh.—These culverts will be constructed during this cold weather.

Pakrei Barowan to Sekundra.—Six miles of earthwork were done last year. The building of the culverts is now in hand.

Worsiligunge to Dergawn.—Four miles were completed, and 4 miles partly done last year. Bridge building is now in progress.

Hisenk to Sirdila road.—Six miles were finished and two partly so.

Aurangabad to Nabinagore.—These culverts are now being constructed.

Nawada to Nardigunge.—Completed.

Row to Roopow.—Two miles completed and two partly so.

Hisenak to Behar and Rajobe road.—Ten miles completed. This work was stopped during the latter part of the year on account of a dispute which has since been settled by me.

Worsiligunge to Kharkut vid Dariapore.—Two miles completed; two miles partly completed.

Rufigunge to Obra.—Sanction was obtained too late to do anything to this work. It is now going on.

Ramsila to Pretsila.—Completed, except one mile. The culverts were finished.

Gya to Aurangabad.—The culverts at the Gya end are built, as also are nearly all of those to be built in the Aurangabad section.

Chirkee to Goorwa.—Completed during this year.

Police line road.—Metalling completed, Rajolee to Shinghar. The culverts have all been finished.

Akbarpore to Gobindpore.—Ditto

The culverts were also partly built on the Deo to Miabigha road, but work was stopped by the heavy floods of last year.

Baroon to Mohewan.—Nine miles of this road were completed during the year. The other two have since been made.

Pakree—Burowan to Worsiligunge.—Two miles completed; two miles partly completed. This work was stopped by a violent outbreak of cholera during the rains.

Aurangabad to Moharajgunge.—These culverts were only commenced late in the year. They are in progress.

12. The following are some of the original works not undertaken during the year.

Seven Inspection-bungalows were estimated for, but in consequence of Government Circular No. 990, of 15th October 1878, their construction had to be delayed until the question had been referred to Government. Orders were received to commence work too late. The bungalows were to be built of kutcha masonry, and the contractor declined to undertake the risk of doing this during the rains.

It was not found necessary to spend any of the budget allotment for "Acquisition of Land."

Tree-planting was commenced this year. The plantation started by the District Engineer last year, gave 7,000 good young saplings which were all planted out. Another plantation has been started at Aurangabad and, during the coming rainy season, others will be taken in hand at the inspection bungalows.

The plantation at Aurangabad contains 3,000 seedlings which will be planted out this year. That in the District Engineer's compound contains 5,000 to 6,000 which will also be ready by the rains.

18. *Contribution works.—Mokur to Ticcari road.*—This work, towards which the Maharani of Ticari has contributed Rs. 16,000 is in good progsess. The earthwork up to the town is completed, metal is collected, and now being carted so as to be ready for consolidation during the rains.

14. *Repairs.—Works.*—These will not require such detailed remarks as the Original Works.

The estimates have all been worked up to, as a comparison of the estimated amount and expenditure will shew. Many of the roads shew marked improvement, notably the following:—

Kharkut to Rajolee.—About 12 miles of this road have been repaired with a coating of kunker, and the flanks have been repaired throughout.

Gya to Nowadah.—This road has been repaired in many of the miles.

The metalling of the distillery road passing the railway station has been renewed and is to be widened this year.

All of the district roads have been repaired so far as the allotments for repairs will allow, but many of them will not be fit for traffic during the rains, until they are considerably raised and bridged throughout. Of course this is a question of time. I have called the District Engineer's attention to my wishes on this point.

15. *Operations proposed during the present cess-year.*—The funds for original works this year will be devoted principally to the railway feeders. These roads are to be raised throughout and bridged as far as our funds will permit. As these will not allow us to build any of the larger bridges which will eventually have to be constructed, the District Engineer has drawn up estimates for constructing culverts and ducts over the numerous pynes and drains which cross these roads, as well as for raising them above flood-level. It must be remembered that few of the large streams in this district remain in flood for more than a few days at a time during the rains; whereas the net work of *ahars* with which the country is covered, presents an almost insurmountable obstacle to traffic. As these *ahars*, or reservoirs, contain still water (though frequently very deep), all that is required is to construct a culvert near the bund of the *ahar* so as to allow the water to pass freely from one side to the other of the road, and then to raise the road up to the level of the top of the bund. The road is then passable all the year round. The cultivators, too, cut the roads to irrigate their crops at frequent intervals, and until we give them waterway sufficient to supply their needs, will continue to do so. It is to supply all these innumerable little wants that the District Engineer is directing his attention on the railway feeder roads. The larger bridges required, which are not so urgently wanted for reasons stated above, will be undertaken afterwards. The larger works are, however, not being altogether neglected; two large bridges are being built on the Nowadah road over Pimar and Jokharee rivers, and a 45-feet span girder bridge is to be built over a large pyne near Ticcari. Two large bridges are also to be built on the Worsiligunge to Dergawn and Pakri, Berowan to Secundra roads; seven inspection-bungalows are also to be built.

The following are the roads on which the extensive original works are to be carried out this year:—

Jehanabad to Holasgunge.	Gya to Parrya.
Ditto to Urwal.	Gya to Rajolee.
Bila to Ticari.	Gya to Nowadah.
Bila to Khedirserai.	Aurangabad to Maharajgung.
Khedirserai to Tousa.	Pakree-Barawan to Sekundra.

Warsiligunge to Dergawn.

The first eight of these roads are feeders to the Gya and Patna Railway. The ninth is a very important road in the south of the district, and in the Aurangabad sub-division.

The last two connect the sub-divisional stations of Nowadah with the East Indian Railway stations of Jamui and Luckeserai. All these roads will be got into thorough good order before any considerable sums are spent in original works on others. The two roads leading from Nowadah to Pakree-Barawan and Warsiligunge will also be completed by the end of the current year, and are to be both raised and bridged.

There are only a few large allotments for repairs. The principal ones are for the Kabarhut to Rajolee and Patna branch road.

The improvements commenced on the former of these last year are to be continued, and the Patna branch road which was lately handed over to the committee by the Public Works

Department requires repair urgently, as it has been neglected for some years past owing to the proposal of a railway from Gya to Patna, since completed. The works in this district are carried out in conformity with the rules laid down in the Public Works Code, and on the contract system. The rates which had to be temporarily raised on account of the heavy rates given by the Railway Department last year, are to be lowered again this year.

Some expenditure has been incurred without an estimate in laying in stores of Ranegunge pipes for irrigation ducts. These are now being utilized on the roads, and estimates have been framed and are being framed according to requirements. These ducts will be very useful to the cultivators, and will obviate the necessity for their cutting the roads to irrigate their crops in future.

16. *Village Roads.*—The amounts spent on village roads in the three sub-divisions are as follows :—

Original Works.

	Rs.	A.	P.	
Nowadah ...	...			Some work has been done but not paid for.
Aurangbad ...	667	0	0	
Jehanabad ...	1,414	12	6	
Head-quarters ...	...			Work has been done but not paid for yet.

Repairs.

Nowadah ...	...			Some work has been done but not paid for .
Aurangabad ...	150	0	0	
Jehanabad ...	...			
Head-quarters ...	...			Work has been done but not paid for yet.

The village roads are under the charge of the sub-divisional officers, none of whom, however, have held charge of their respective sub-divisions throughout the whole of the cess-year. The work is invariably carried out by the committee's contractors, and under the supervision of the overseers. The native members of the branch committees (with very few exceptions) take no interest in this matter. This is also the first year in which any successful attempt has been made to carry out village road works in Gya. As will be seen, the progress in the Jehanabad sub-division is fairly good; in Aurangabad also something has been done; work has been done also in the head-quarters and Nowadah sub-divisions, but not paid for yet.

I have drawn the attention of the sub-divisional officers to the slow progress on village roads. I hope they will show better results this year, and many estimates have alreay been framed, approved by the District Engineer, and sanctioned by myself. As the villagers cannot be induced to take any interest in the work, I think the present system of carrying out the work by petty contract under the supervision of the District Engineer's subordinate staff is the best one for the present. It also avoids the necessity of the sub-divisional officers' keeping any supervising staff of their own.

17. *Adjustment*—The only adjustment during the year was caused by a contractor for a toll not presenting himself to receive a cheque, No. 209, dated 11th July 1878, for Rs. 110, which was made payable to him. The contract was in two persons' names and only one came to the office to claim payment; the second party to the contract never presented himself during the year although called on to do so several times. The cheque was consequently cancelled on the last day of the year, and the amount written back in the cash-book.

18. *Work establishment—Inspection of work.*—The District Engineer informs me that his staff have been fairly regular in inspecting their work, as their journals, which are submitted monthly, will show.

The District Engineer is allowed a maximun allowance of Rs. 150 (not to be exceeded in any one month), his bills are submitted month by month, and he is allowed travelling allowance in accordance with the rules laid down in the Public Works Code. His journals have exceeded the maximum amount in no less than six months of the year, and have had to be reduced.

This shows a creditable amount of inspection on his part, the more especially as four out of the six months in which he was most active were May, July, August, and September. The work establishment consists of the following, and the way in which they have worked during the year is also noted against their names.

Mr. C. A. Mills, District Engineer, has given me satisfaction with his work during the year; also his office has always been found to be in good order, when it was inspected. Baboo Hem Chunder Mitter, overseer. This officer's period of probation has been extended to a further period of six months. The District Engineer does not appear to be very well satisfied with him, but I hope he will do better next year.

Baboo Mati Lal Chowdhury, overseer. On the whole this subordinate has worked fairly. Some hard work has been done in his sub-division which was a very large one. However it has since been reduced to more manageable limits, and the offending contractors' names have been struck off the list by the District Engineer.

Baboo Rajendra Nath Neogy, overseer, has worked well during the latter part of the year.

Baboo Preo Nath Mookerji. This sub-overseer is very young at his work, but promises well. He looks after his work properly, and will, I think, make an efficient officer. Baboo Nobo Gopal Mookerjie. This officer is about to resign his appointment. The District Engineer reports that his office establishment has worked well during the year. It consists of one clerk and one draftsman. The office establishment under the Chairman has also behaved satisfactorily, particularly Baboo Bepin Behary Ghose the accountant, who understands his work well, and is very industrious in carrying it out.

19. Cost of establishment compared with income. The total income including last year's balance was Rs. 2,75,246-1-5, and the total expenditure on establishment Rs. 24,719-13-11, or almost exactly 9 per cent.

20. *General Remarks.*—I have pleasure in being able to state that one result of the labours of the year under report, and of the considerable expenditure which has been incurred, is a very marked improvement in the condition of a good many of the roads. The communications of the district had, from want of funds, been necessarily for that reason so much neglected, that they had fallen into a very deplorable condition. I do not mean to say that a vast amount of very necessary work does not still remain to be done. The roads of a large district like Gya, after having been left to themselves for so many years, can not be restored to a state of efficiency in the course of a single season.

The work is one which will require constant and uninterrupted attention and application for several years to come. The foregoing report will have shown that notwithstanding various untoward circumstances which tended to impede and obstruct our operations, a great mass of work, both original and repairs, has been carried out.

Dated Gya, the 30th January 1880.

From—The Members of the Sub-Committee, Gya,
To—The Chairman, District Road Committee, Gya.

WE the sub-committee were appointed under section 88 of the Road Cess Act.

We have very carefully examined the cash-book and other authorised books cited in the margin. We have checked every item of receipt in the cash-book with the pass-book, and we have checked the cash-book with the cash abstract book, and the latter with the register of monthly receipts and expenditure, and finally with the annual accounts of receipts. We have compared a number of vouchers chosen at random with the entries in the cash-book, and from the cash-book we have checked the cash abstract book of expenditure, and we have compared this with the register of monthly receipts and expenditure, and finally with the annual accounts. We did not think it necessary to compare the counterfoils of the cheques with the treasury pass-book and cash-book, inasmuch as this was quite recently done by the Deputy Examiner of Public Works Accounts in his late thorough inspection of the road cess accounts. The counterfoils and cash-book are compared daily by both the persons giving the district road cheques, and these are again compared monthly by the District Engineer. We found the accounts correct in all particulars.

Cash-book; cash abstract book; both receipts and expenditure; register of receipts and expenditure; treasury pass-book, and annual accounts.

One correction in the cash-book in the month of July was found not initialled; this omission has since been rectified. The cheque referred to in the past annual report not having been claimed has been cancelled, and the amount credited in the cash-book. We are of opinion that the accounts are kept in a most satisfactory manner, and that the Accountant, Baboo Bepin Bihari Ghosh, has done his work carefully and thoroughly.

No. 91RC, dated Gya, the 14th January 1880.

From—BABOO BHUGWAN CHUNDER SEN, Deputy Collector, in charge, Road Cess,
To—The Vice-Chairman of the District Road Cess Committee, Gya.

WITH reference to your No. 126 of the 7th instant, asking to submit the annual report on the working of the Road Cess Act, and of the establishment, for the cess-year 1878-79.

The cess-year commenced from 1st October 1878. The arrears of road cess on lands of previous years left unrecovered, were Rs. 13,040. This arrear, as well the current demands of the year, were collected from October 1878 to September 1879, and an arrear of only Rs. 5,299 was left unrealized at the end of September 1879.

2. The towji mohurirs of the Collectorate were directed to take the road cess chullans along with the Government revenue chullans, and the duty of entering the chullans in remittance register and comparing the amounts with the treasury books, rested with the office clerks.

3. The warrants for the recovery of arrears on land cess were written out after each instalment by the two office mohurirs and made over to the Collectorate nazir, who issued them through the peons. The nazir was assisted by a naib nazir up to March 1879, and an assessor helped him in the collection of arrears from December 1878 to July 1879. The work of collecting arrears was carried on throughout the year.

4. The house cess assessor, with nine peons, collected the house cess up to November 1878. The result in respect of the collection was not good owing to the villagers being scattered all over the district, and the assessees being too poor to pay their dues.

5. I beg to append a statement showing the collection of road cess under different heads of the cess-year 1878-79.

The Establishment under the Deputy Collector in charge Road Cess for 1878-79.

Baboo Tarini Churn Mozoomdar	...	Head Clerk.
„ Mohun Lal ...	...	2nd „

E. J. BARTON,
Chairman.

No. 30.

From—H. Cox, Esq., Assistant Magistrate Nowadah,
To—The Vice-Chairman, District Road Cess Office, Gya.

WITH reference to your office No. 123, dated the 7th instant, I have the honor to inform you that during the cess year ending September 1879 there were six branch road cess meetings of the committee. The number of members is six, viz. Torul Narain Sing, Kazi Afzal Ali, Baboo Gurhux Lal, Dagun Sing, and Dund Lal.

2. Baboo Torul Narain Sing attended five meetings, Kazi Afzal Ali four meetings, Gurhux Lal two meetings, Dagun Sing one meeting, and Dund Lal did not attend any.

3. The work done by the committee chiefly had reference to the construction of the village roads in the sub-division. The question as to the village roads that are to be constructed this year has been decided and the work is being commenced.

4. A meeting will be called shortly to consider your letter No. 2410, dated 19th November 1879, on the drainage of villages of this sub-division.

Copy of all the proceedings of the last year are herewith forwarded.

Road Cess Meeting dated 22nd March 1879.

THE only members present to-day were myself and Kazi Afzul Ali.

The subjects for the meeting were—

1. The letter of the Commissioner, dated 3rd March 1879, about branch committee.
2. Estimate for making a village road from Orhunpore to Jadupore *vid* Bhadokhra.

As to No. 1—It was proposed to add to the road cess committee Jhumak Lal of Dona, Perasman Narain of Eknar, Budhi Khan of Pakri Barowin, and Shunker Lal of Rasulpore, and the meeting will be held this day fortnight when the members may be proposed from different parts of the sub-division.

As to No 2—The maliks have written to-day that they want Rs. 300 to make the road, and it was decided that they should be required to furnish an estimate in detail of the proposed road.

H. Cox.

No. 88, dated the 24th March 1879.

Memo. by—H. Cox, Esq., Assistant Magistrate, Nowadah.

COPY to be sent to Chairman for his information. The overseer sent in an estimate of Rs. 398, and as the maliks only require about Rs. 300, I thought it better to take the course I have noted.

At a Meeting held in the dwelling-house of the Sub-divisional Officers on the 27th December 1878.

PRESENT:

1. Sub-divisional Officer.
2. Babu Torul Narain Sing } *Members.*
3. „ Gurhur Lal }

LAID before the meeting an estimate, prepared by the Overseer of the sub-division, of the probable cost for repairing the village road from Nowada to Goshayenbigha, amounting to Rs. 141:—

Resolved—That the estimate be submitted to the Chairman of the District Committee for sanction.

No estimate with regard to the road from Orhunpore to the Jadapore *vid* Bhadokhra, sanctioned in the last meeting to be repaired, has not yet been submitted by the maliks of Bhadokhra, as the people in the villages do not know how to make estimates as required or to send in the measurement of the roads in their respective jurisdictions, *i. e.* length, breadth, and height.

Roads from Degwari in Andharbari to Amawan through Andharbari and Karbari or Goshenbigha, two miles, and from Amwan to Rajowli, two miles, and to Serdilla, six miles, are necessary. There exists a road from Amawan to Rajowli: this may be repaired. As regards others, there are tracts here and there. Unless an estimate be made as what expenditure would be required for their making and repairs, the amount to be required cannot be ascertained. The overseer of the Road Cess Department be requested to make an estimate of it.

None of the elakadars have yet come forward to have the village roads in their respective elakas repaired or made, and it is not probable that any should come to ask for aid unless the village roads are gradually made by the agency of the Road Cess Department. No hope can be entertained for the extension of village communication.

At a Meeting of the Branch Road Cess Committee held in the Sub-divisional Bungalow on the 16th November 1878.

PRESENT:

1. The Sub-divisional Officer.
2. Babu Torul Narain Sing (*Member*).

READ a letter from the Chairman of the District Committee, No. 46, dated 12th instant. In the last Committee the village road from Nowadah to Goshenbigha was ordered to be repaired, and an amount of Rs. 100 has been sanctioned for the purpose. The road extends to about four miles. In the beginning of the road, *i. e.* leading to the distillery, a large quantity of earthwork will be required with a bridge over the Pyne. The amount already sanctioned appears to be insufficient for the whole length of the road.

Resolved—That a further grant of Rs. 50 be sanctioned for the purpose.

Read a petition from Baboo Rasbehary Sing and other zemindars of Orhupore praying that a grant of Rs. 100 be made for the road from the Behar road to Bhadokhra; also a petition from the residents of Bhardokhra praying that Rs. 200 be granted to repair the road from that village to Orhunpore limit, and from Bhodokhra Nazarabad Barawan opposite to Jadupore. This has been inspected by the sub-divisional officer in his late tour, and he considers it necessary that the road up to Nazarabad Barawan should be kept up in repair for the convenience of the villagers. From Orhunpore that place is three miles: there are ups and downs almost everywhere.

Resolved—That Rs. 80 be granted for the road up to Orhunpore limit, and Rs. 100 for the keeping up the road from Bhadokhra to Nazarabad Barawan; that the petitioners be intimated on the subject.

Read a letter from the District Magistrate, No. 2157, dated the 7th instant, forwarding Government Circular No. 10, dated 28th October last, suggesting to plant mangoes, jack, &c., and other indigenous fruit-bearing trees along the lines of roads. This the committee consider to be most desirable, and it shall be glad to take the matter in hand if sufficient funds be placed at its disposal for getting plants, making earth fencing, and keeping an establishment for protecting and tending the trees until sufficiently grown up. Trees require to be planted from Kharant to Rajowli-Behar road, Nowada to Pahre-Barowan; Nowada to Dergawn *vid* Warisaligunge; Nowada to Toonge, and from Rajowli road to Gobindpore. As in planting trees on all the roads at one time a large outlay would be necessary, the committee consider that it would be better if the road from Nowada to Toogi be taken up this year for the purpose.

Resolved—That the Chairman of the district committee be moved to place at the disposal of the committee a sufficient sum to carry out the Government suggestions.

Read the Government resolution No. 944A, dated 13th September last, on the working of the road cess department for the year 1876-77.

Resolved—That the attention of the absent members of this committee be drawn to paragraph 16 by sending an extract from it.

Meeting of Branch Road Cess Committee held on the 2nd November 1878.

PRESENT:

1. Sub-divisional Officer.
2. Babu Torul Narain.
3. Moulvi Kazi Afzal Ali.

READ a letter, No. 325, dated 23rd September last, from the Chairman, Road Cess Committee, intimating that Rs. 1,000 have been allotted for the current year for the village roads of this sub-division. A notice appears to have been issued by the Sub-divisional Officer, inviting applicants, but no application has yet been presented.

Proposed by the Sub-divisional Officer, and
Seconded by Kazi Afzal Ali—

That the road from Nawada to Goshayenbigha *vid* distillery three miles in length, be repaired and Rs. 100 be allotted for the purpose:—

Resolved—That the further notice be issued on the subject, and the police of the several stations be directed to furnish the Committee with the names of village roads that require to be repaired or made in their respective jurisdictions with as little delay as possible, so that the matter may be taken into consideration at the end of this month:—

There is an Overseer or Sub-overseer in this sub-division, to whom the Branch Committee may refer for any work to be done. The service of such an officer is required:—

Resolved—That the Chairman of the District Committee be moved on this point, and requested to locate an Overseer or Sub-overseer to help the Branch Committee in its carrying out the village road work entrusted to it.

No. 347, dated Nawada, the 3rd November 1878.

Memo. by—BABU BHUBUNESHWAR SINGH, Deputy Magistrate, Nawada.

COPY forwarded to the Chairman, District Road Committee, for information, and with request to comply with the request of the Committee.

Branch Road Cess Committee.

AT the meeting to day were present:—

1. Babu Toral Narain Singh.
2. Kazi Afzal Ali.
3. The Sub-divisional Officer.

The Chairman's letter, dated 16th April 1879, was read, and it was proposed to construct—

1. A road two miles long, joining the west end of Golundpore to the Gya road.
2. A road from Nawada, passing south of Patna Serai through Ohari to Sear Mahamabad, ten miles long.
3. A road six miles long, from Kadergunge to Darypore.
4. A road from Golundpore to Ektara, four miles long.
5. A road from Amawan to Rajowli, three miles long.
6. A road from Bhadokhra to Samai, three miles long.
7. A road from Powra (a village on the road between Nowabad and Pakro Barowan) to Roh, some five miles long.

With reference to the second paragraph of the Chairman's letter, there is the road from Nowada to Goshayenbigha.

This, however, is expected to be finished by the beginning of July 1879, *i. e.* before the end of the present cess year.

The overseer, Mati Lal Chowdhary, has been ordered to submit estimates for the above roads without delay.

H. Cox.

THE late Sub-divisional Officer had proposed to make a road communication between Nowada and Kowakole, by continuing the road already under construction to Goshayenbigha, by way of Marove, Nazardo, Marra, &c.

It seemed to the Committee that, as there is a road under construction between Roh and Rupow, it would be better to connect Roh and Goshayenbigha by a road, and to extend the road from Roh to Rupow as far as Kowakole.

H. Cox.

Branch Road Cess Meeting held on the 5th April 1879.

AT today's meeting were present—

Babu Kasi Afsul Ali,
" Gurbux Lal,
" Torab Narain Singh,
" Degan Singh,

i. e. all the members were present except Dund Lall.

The Commissioner's letter, dated 3rd March 1879, relating to Branch Committees, formed the subject of the meeting.

It was proposed by all the members to strike out the name of Dund Lall from the list, as he lives chiefly in Gya station, and could therefore be useless on the Nowada Committee.

In addition to the remaining four members, it was decided to forward the following names for the sanction of the Chairman, viz.—

1. Babu Duli Chund of Hussna.
2. " Budhi Khan of Pukriharanwan.
3. " Dulmir Puri of Budhowli.
4. " Dund Singh of Kutri.
5. " Rasohari Singh of Arhunpore.
6. " Jwahir Singh of Pukuria.

H. Cox.

No. 11, dated Jehanabad, the 12th January 1880.

From—BROJENDRA NATH DE, ESQ., Sub-divisional Officer of Jehanabad,
To—The Vice-Chairman, Road Fund, Gya.

WITH reference to your memorandum No. 124 of the 7th instant, I have the honour to report that there was only one meeting of the Branch Committee held during the year, viz. on the 29th March 1879. There was only one member present, Sheikh Fazul Ulla, besides the Sub-divisional Officer.

The only resolution passed was to the effect that Mr. Chardon and Babu Gokul Chand Parohit be proposed as additional members. A copy of this resolution is herewith appended.

In explanation of the fact that there was only one meeting during the year, I have the honour to point out that, as at present constituted, the Branch Committee can scarcely do any work, except perhaps to propose in the beginning of the year what works should be taken in hand. After this has once been done, there is nothing more for them to do.

The village roads constructed during the last year were as follows:—

Jehanabad to Sydabad, about five miles.
Ditto to Kenari, about four do.
Kurowna to Sikuria, about a mile and, a half.

In the present year it is proposed to repair the above roads, with the exception of the Kurowna and Sikuria road, which, under the sanction of the Chairman of the Road Cess Committee, has been abandoned.

The new works to be constructed during the present year are different village roads, which will join the outpost at Kurtha with that at Perwazabad, the whole distance being about eight miles. Estimates have also been recently submitted for the construction of village roads from Mukdhumpore to Kaimgunge, about a mile and a half, and Mukhdumpore to Paibigha, about three miles.

It has also been resolved, with the sanction of the Chairman of the Road Cess Committee, to convert the part of the village road from Jehanabad to Kenari which lies between Jehanabad and the railway station into a district road. It has already been widened to 21 feet, and a double irrigation duct has been put in, and the metalling will be at once taken in hand.

Besides this, a certain part of the old Patna and Gya road has been taken back from the Railway department, and estimates have been submitted for repairing it from the funds of the Road Cess Committee.

The Sub-overseer, under the orders of the Branch Committee, is doing his work well.

The 29th March 1879.

PRESENT:

D. B. ALLEN, ESQ., *Chairman.*
MOULVI FAZUL ULLA.

LETTER of Commissioner of the 3rd March and memorandum of the Chairman, dated 6th March, read.

Resolved—That the names of Mr. Chardon and Babu Gokul Chand Parohit be proposed as additional members of the Branch Committee. Chairman of Branch Committee will report this resolution to the Chairman of District Committee.

D. B. ALLEN,
Chairman.

No. 386, dated Camp Nabinugger the 19th January 1880.

From—E. STEWART, ESQ., Sub-Divisional Officer, Aurangabad,
To—The Chairman, District Road Committee, Gya.

WITH reference to your No. 122, dated 7th instant, I have the honor to send herewith copies of four resolutions of the branch committee held during the past cess-year 1878-79, as also list of members who were present and absent on each meeting throughout the year.

2. There are four* members of the branch committee here, of which one named Ahiburn Singh is punctual in his attendance, and he is the only man who appears to take some interest in this matter. The other three, who are big zemindars, very seldom appear, and do not, even when called on to give any advice in regard to village roads or other matters.

*Rai Hit Narain Singh.
Baboo Simboo Purtap Singh.
„ Thakur Singh, and now Ragho Singh.
Ahiburn Singh.

3. Rai Hituram Sing, Bahadoor, of Chunder Gurh takes up any work of construction or repairs when entrusted to him, while on the contrary Baboo Simbhoo Purtap Sing of Tindua does not undertake the trouble of supervising the construction of any roads given to him, viz. the road from Madanpore to Khereawan and Biri, which was undertaken during the last cess-year, has not yet been finally completed.

4. The road works entrusted to Rai Hituram Sing, Bahadoor, and Ahiburn Singh have been performed to some extent to the benefit of the villagers. Small culverts

are, however, still necessary on the roads from Bambodeba to Pawyi repaired under the supervision of Ahiburn Singh, a member of branch road-cess committee.

5. The road from Nabinugger to Tindua, constructed during the last cess-year under the supervision of Rai Hituram Sing, Bahadoor, also requires some culverts.

	Rs.
1st. Repairing the village road from Daudnugger to Hussenpoora ...	499
2nd. Ditto Hussenpoora to Deohara	391
3rd. Ditto Ora to Deo	291
4th. Constructing the road from Tindua to Maharajgung ...	957
Total	2,138

6. The construction and repairs to the four roads in the sub-division amounting to Rs. 2,138 has been sanctioned for the current year. Rs. 1,000 has also been received to commence the work which will be very shortly done.

At a meeting held on 28th October 1878.

THIS was the day fixed for holding a committee, with a view to settle as to what village roads will be repaired this year. Only Ahibura Singh, one of the four members appeared, who proposed that the road from Madanpore to Khereeawan and Biri, distance 3 miles, estimated cost Rs. 300, should be taken in hand. As also the Seris and Jamhore roads which remained incomplete last year, owing to there being water in the fields, may also be completed at the estimated cost of Rs. 200; distance one and a half miles. Owing to other members not being present the matter could not be finally settled, and hence postponed for the next meeting to be held by the end of the next month.

AZHAROOL HUQ,
Vice-Chairman.

At a Meeting held on the 29th November 1878.

PRESENT.

Moulvi Azharool Huq ... ... *Vice-Chairman.*
Baboo Simbhoo Purtap Sing, } ... ... *Members.*
,, Ahiburn Sing. }

IT has been held that a road may be made from Madanpore to Mouzah Khereeawan, 3 miles in length, 12 feet wide, and 1 foot high. It will cost as estimated Rs. 300, or at Rs. 150 per mile.

The road leading from Nabinugger to Tindua bazar may be repaired; distance 4 miles. The cost is estimated at Rs. 400, or at Rs. 100 per mile.

The road leading from Bombandiha to Pawyi, distance 4½ miles in length, 12 feet wide, and 1 foot high, at an estimated cost of Rs. 200.

AZHAROOL HUQ.
Vice-Chairman.

At a Meeting held on the 28th February 1879.

PRESENT—

Moulvi Azharool Huq. ... ... *Vice-Chairman.*
Ahiburn Singh ... .. *Member.*

THE other members not present.

Three roads are under repair. One through Ahiburn Singh, from Bubundiha to Pawyi, about 2 miles, of which is finished, and the whole is about 4 miles in length. Two hundred rupees are estimated, out of which a sum of Rs. 150 is given to Ahiburn Singh. The road is expected to be finished in March 1879.

Another road is to be repaired through Baboo Hitnarain Singh, leading from Nabinugger to Tindua. Up to January last it was made a mile and a half, and in February it has advanced a little further. It is estimated to spend Rs. 400, out of which a sum of Rs. 300 is given to him.

The third one is placed under the direct supervision of Baboo Simbhoo Purtap Narain Singh, which will go from Madanpore to Khereeawan. A sum of Rs. 300 is estimated, of which Rs. 200 paid to him. It was up to the 5th February 1879 that 4,600 feet in length was completed. It is expected that these roads will be ready by March 1879.

The members are cautioned to complete the roads in their respective jurisdictions by March.

AZHAROOL HUQ,
Vice-Chairman.

A Meeting of the Road Cess Committee was held to-day.

Present Mr. E. Stewart, *Chairman.*
Baboo Simbhoo Protap Singh, } *Members.*
,, Ahiburn Singh, }

1. Baboo Simbhoo Protap Singh proposed that the road from Nabinugger to Tindua should be extended to Moharajgunge, a distance of 8 miles. As the road carries a good deal of traffic, the cost is estimated at Rs. 100 per mile. The road is proposed to be made 12 feet wide at an average height of 1 foot. The proposal was agreed to by the committee.

2. Ahiburn Singh proposed a road from Ora to Deo, distance 3 miles, to be repaired at a cost of Rs. 300; also repairing of the road from Daoodnugger to Hussenpoora, 10 miles, at an estimated cost of Rs. 500. Ditto Hussenpoora to Dehora at a cost of Rs. 400.

These proposals were considered and consented to by the committee, and it was resolved that the proceedings be sent up to the Chairman, district road cess committee, for sanction.

E. STEWART,
Chairman.

AURANGABAD SUB-DIVISION;
CAMP NABINUGGER,
The 19th January 1880.

E. STEWART,
Sub-divisional Officer.

No. 105, dated Gya, the 10th February 1880.

From—The Chairman, District Road Cess Committee, Gya,
To—The Commissioner of the Patna Division.

WITH reference to your No. 228CP, dated 7th instant, requiring information as to the working of Road Cess Act, I have the honour to forward the following remarks for insertion in the place of head 3 of my annual report.

The Road Cess Act worked satisfactorily throughout the year. No complaints were made of shortcomings in any quarter. There appears, however, to be some reluctance on the part of the people to pay the public works cess. This is probably due to their imperfectly understanding the nature of the cess and the method of collection.

The establishment on collection worked satisfactorily throughout the year.

A duplicate copy of the annual account is to be sent to the Examiner on being passed by the Committee. A meeting has been fixed for the purpose on the 12th instant: a duplicate copy will then be sent to you. Three members, in addition to the Vice-Chairman, were originally appointed on the Sub-committee. One of these, however, has been transferred, and the member appointed in his place has since left for Calcutta.

No. 100, dated Camp Sasseram, the 26th January 1880.

From—J. W. EDGAR, ESQ., C.S.I., Chairman, District Road Fund Committee, Shahabad,

To—The Commissioner of Revenue, Patna.

I HAVE been directed by the Road Cess Committee to submit the annual accounts of the Shahabad district for the year ending 30th September last, together with the report prescribed in section LXXXIX.

2. The accounts were prepared by the Vice-Chairman, submitted under section LXXXVIII to three members of the Committee, viz. Messrs. Edgar and Fox and Babu Joy Prokash Lall, and after examination by them were passed at a meeting of the Committee held this day the 23rd instant.

3. *Working of Road Cess Act.*—The amount which, as was estimated, would be yielded by the several cesses under the Act was Rs. 1,48,093, the amount actually collected Rs. 1,37,587, leaving a balance of Rs. 10,506. As there is at present a Bill before the Bengal Government for the amendment of the present Act, I do not think it necessary to discuss the working of the latter at any length, and shall merely record here that I believe the proposed changes will remove any causes of complaint at present existing.

4. *Working of Sudder Committee.*—The Committee is at present composed of eighteen members, thirteen of whom are non-official. Eleven meetings were held during the year, three of which were adjourned for want of a quorum. One member of the Committee

died during the year, and six members failed to attend any meeting. I shall report specially upon the desirability of retaining the names of these gentlemen on the list. Most of the remaining members have taken an intelligent interest and given valuable aid in the working of the law. I am specially indebted to Messrs. Mylne and Charles Fox and Babu Bhugwan Dass for their co-operation.

5. *Branch Committee.*—The reorganization of the Branch Committees, which was mentioned in the last annual report, did not receive the final sanction of Government till late in the year. The measure was consequently postponed to the present year. It has now been carried out with great promise of success.

6. *Accounts.*—The Road Fund and District Engineer's offices were examined recently by the Deputy Examiner of Public Works Accounts, Bengal, and it is believed were found to be in fair order.

7. *How the Establishment worked during the year.*—The cost of establishment for collection of revenue and under Committte's control, estimated in the budget at Rs. 4,818, has amounted to Rs. 5,051. The cost of engineering and executive establishment, including all office charges and contingencies, estimated at Rs. 22,000, has amounted to Rs. 21,882, against an expenditure on work of Rs. 1,19,378, or 18 per cent. on the total outturn. The season closed with a balance in hand of Rs. 22,781. Mr. J. McNamara, C.E., held the post of District Engineer throughout the year. The Chairman has recorded the following remarks regarding his services :—

"I am anxious to bring prominently to the notice of the Committee the excellent work done by Mr. McNamara during the present year. The great progress made in the heavy undertakings now in hand is mainly due to his energy and zeal. The care and ability shewn in the preparation of plans and estimates prevent those delays in obtaining the sanction of the higher authorities which is so much complained of elsewhere. His close supervision of his work, particularly in the matter of measurements, ensures cheapness as well as efficiency."

The Committee agree in the opinion above expressed of the good work done by Mr. McNamara.

The following Sub-overseers, who were favourably mentioned in the last annual report, were promoted during the year :—

Sub-overseer	Beni Proshad,	from 3rd to	2nd grade.
,,	Munshi Chedi Ally,	ditto	ditto.
,,	Troylucco Nath Ghoshal,	ditto	ditto.

The District Engineer reports that his subordinates have generally conducted their duties satisfactorily during the year, and the Chairman observes that he agrees with the District Engineer on this point.

8. *Principal works undertaken during the year.*—The principal works undertaken during the year were :—

I.—The raised and bridged road from Serayah to Rughunathpore, which has been completed and was opened to traffic early in the year. This work was severely tried by the unusually heavy rainfall of the past year, and the waterway of the bridges and culverts was found to be ample for all requirements. This road is very highly appreciated by the inhabitants of the surrounding country and is being much used as a railway feeder.

II.—The metalling of the road between Mohania and the sub-division of Bhabua, in connection with the metalled road to the railway at Zamaniah. The estimate was sanctioned in Bengal Government's No. 404C, dated 3rd May 1878. The entire work was completed early in the season and was under traffic the whole of the past rains. The metalling of the road is an excellent piece of work.

III.—Metalling Tenduni and Dumraon road, 26 miles in length, estimate of which was sanctioned in Bengal Government's No. 91C, dated 30th January 1879. About three-fourths of the entire quantity of metal required for the work, have been collected, upwards of five miles of metal have been laid and consolidated, and about four miles more have been pratly spread. The work will be finished during the current year.

IV.—Metalling portion of Kailwar and Chowsah road, No. 3, class 2, between Durhara and Moulabag, sanctioned in Commissioner's No. 207CP, dated 12th February 1879. Work completed.

V.—Metalling five miles of road between Dilsagur and Buxar, to complete the metalling between Dumraon and Buxar, sanctioned in Commissioner's No. 69CP, dated 30th May 1879. This work was two-thirds completed when the further collection of metal was stopped by the rains. Since then all the metal has been collected and spread, and is only awaiting the coming rains to be finally rolled and consolidated.

VI.—Raising road from Sasseram to Kochus (Chowsah), sanctioned in Commissioner's No. 261CP, dated 22nd March 1878. Completed early in the season and laid open to traffic.

9. The rainfall of the past year has been the heaviest since 1871. It was especially heavy during the first half of the month of September, when nearly 7 inches of rain in 24 hours fell over a great part of the district. The Kaonuddi was particularly affected by this

rainfall, and though this flood which came down was not so high near its source at Sasseram as in 1874, yet lower down, between Bickrum and Dumraon, the flood was the highest on record, and caused considerable damage to the road. The abutments of the two old beam-bearing bridges at Bickrum (so old that it was not known when they were constructed) were destroyed, and the road was considerably breached in four places between Bickrum and Dumraon. All other bridges constructed in 1861-62 stood well. Careful enquiries have been made of Mr. Levinge, Chief Engineer, and the officers of the Irrigation Department, regarding the effect of the canal works on these floods, and I understand that measures have been sanctioned which, the Committee hope, will prevent a recurrence of this year's mischief. It is therefore unnecessary to write more on the subject here. An unusual quantity of water also came down the Banas and destroyed one of the abutments of the Gurhiney bridge on the Sasseram and Arrah road (No. 2, class 2). This likewise was an old beam-bearing bridge of six 20 feet bays on wooden posts, built by the old Ferry Fund before the Mutiny. The foundation was insufficient, and the least scour undermined the abutments. Details are being collected for the design of a permanent bridge, the estimate of which will be submitted as soon as possible and the work undertaken immediately on sanction being obtained, if funds can be provided out of the savings of the current year.

10. *Principal works to be undertaken during the ensuing year.*—The principal works to be undertaken during the ensuing year, besides the metalling of the Dumraon and Tenduni road already in progress, are as follows:—

I.—The metalling of the road from Tenduni and Mokur, 22 miles in length, sanctioned in Bengal Government's No. 876C, dated 26th November 1879. Much progress has already been made in the collection of materials for this work, which we hope to finish within the current year.

II.—The metalling of the road between Tenduni and Arrah, 36 miles in length, and repairs of bridges on the same road, sanctioned in Bengal Government's No. 876C, dated 26th November 1879. Some preliminary work on this road has already been completed, and we hope to get about 20 miles metalled within the present year if our funds permit.

11. *Village roads.*—The amount actually expended on new village roads during the year was Rs. 10,582, for which about 250 miles of road have been opened out; but this does not represent the total work done in the district under this head. Much has also been done in laying out the work of the future, in tracing up old village paths which have been encroached on and in parts obliterated, and in making enquiries the result of which will give the reorganized Branch Committees a basis to work on. In connection with the subject of village Roads, the Committee think it well to record here that during the past year their attention was again directed to the question of raising the status of the existing fourth-class road between Dumraon and Bulliaghât. This subject was mentioned in last year's report, and the Committee's decision not to attempt to raise or bridge the road then recorded. The experience gained in the floods of the last year have confirmed the Committee in their conviction that their decision is the only practicable one. At the same time they propose to realign a portion of the existing road which runs through very low ground, and are taking steps to acquire the land needed for the purpose.

12. *Planting trees.*—In accordance with Bengal Government's circular No. 10, Revenue Department, dated 28th October 1878, nine nursery-gardens for raising indigenous fruit-bearing trees, to be planted along the sides of district roads, averaging nearly 4,564 plants each, have been established during the year at convenient places throughout the district, viz. at Arrah, Tenduni, Bhabua, Burraon, Moradabad, Nasrigunge, Dumraon, Motisabad, Kawye, details of which have already been submitted with my letter No. 419 of the 23rd September last; and nearly 1,000 young trees of from one to two years' growth have been planted out on the roadsides.

SHAHABAD ROAD FUND OFFICE,
The 23rd January 1880.

F. H. BARROW,
Vice-Chairman, D. R. Fund Committee.

No. 118, dated Arrah, the 7th February 1880.

From—J. W. EDGAR, ESQ., C.S.I., Chairman, District Road Fund Committee, Shahabad,
To—The Commissioner of the Patna Division.

WITH reference to your memorandum No. 285OP, dated 31st ultimo, requesting me to report on the working of the establishment for the collection of revenue and Committee's control, I have the honour to state that the establishments worked satisfactorily during the year under review.

2. Referring to paragraph 2 of your letter under reply, I beg to state that a copy of the annual accounts has already been sent to the Examiner of Public Works Accounts, Bengal, direct under cover of this office No. 37, dated 17th November last, and noted on the back of the annual account submitted to your office.

Annas 5-6 was erroneously charged to servants in January and February 1879, hence the discrepancy. The same remark applies to the expenditure under the head "Servants."

ARRAH, *The 17th November* 1879.

F. H. BARROW, *Vice-Chairman.*

No. 99, dated Mozufferpore, the 6th February 1880.

From—C. F. WORSLEY, Esq., Collr. and Chairman, Road Cess Committee, Mozufferpore,
To—The Commissioner of the Patna Division.

I HAVE the honour to submit the annual report on the working of the road cess and its operations in this district during the past year, *i. e.* from 1st October 1878 to 30th September 1879.

2. I have also the honour to annex the accounts of receipts and expenditure for the cess year 1878-79.

The road cess has now been in force in this district for three years and has (except in the year 1875-76, when it was levied at half-rates) been uniformly levied at the full rate of half an anna. The collections during the past year have amounted to 81·42 per cent. of the demand, which is slightly in excess of the previous year's collections, which were 80·57 per cent.

The year commenced with an outstanding balance of collection, amounting to Rs. 28,822, or 20·50 per cent. of annual demand; and at the close of the year under review the outstanding balance of collection amounted to Rs. 29,349, or 18 60 per cent. of annual demand.

The cash balance on the 1st October 1878 was Rs. 87,398-7-7½, and on the 30th September 1879 was Rs. 2,398 10-9 as per annual accounts annexed.

I regret to report that during the past year it was found necessary to issue some 7,684 processes and to appoint 25 tehsildars in different parts of the district in order to recover arrears of road cess and public works cess, which are now collected jointly, and I am of opinion that, so long as the present joint-and-several-liability system is maintained against shareholders in joint undivided estates, the cesses will never be paid punctually in this district. I believe that the collections of these cesses would be very greatly facilitated and the source of much discontent would be removed by making individual shareholders in joint undivided estates responsible for the punctual payment of their proportionate shares of the cesses. So long as the extent of interest possessed by every shareholder in each such estate was not discoverable in the Collectorate registers, no other course was possible than that of holding the entire body of shareholders jointly and severally responsible, but now that, under the Land Registration Act, the registration of shares has have completed, or is approaching completion, I consider it expedient in every point of view to enforce individual responsibility to the utmost possible extent. It is erroneous, I submit, to suppose that, because there may be (as there often are in this and some other Behar districts) hundreds of shareholders in a joint undivided estate, there will therefore be extraordinary difficulties under the system which I advocate in realizing the cesses from each shareholder whenever default of payment may be made. If the extent of each shareholder's interest (as at present) remains unrecorded in the road-cess registers, great injustice must frequently be committed in realizing arrears by attachment and sale of movable property. If, again, the proposal to make arrears of cesses recoverable by the same process as arrears of land revenue is adopted, many shareholders will be forced to pay the arrears strictly due from their co-sharers in order to save their estates from sale, and then to sue the actual defaulters in the civil court. Moreover (as in the case of land revenue payments), until the latest dates for payment have passed and an estate has become liable to sale for arrears, one shareholder never knows whether another has paid his proportionate share or not. The system of joint undivided tenancy being widely prevalent in the province of Behar, I think every possible consideration should be shown in collecting cesses from landholders. The experience which I have gained in administering the sale law (Act XI of 1857) makes me strongly deprecate the extension of its stringent provisions regarding recovery of arrears to the case of cesses. Occasionally a large shareholder purposely makes default in order that an estate in which there are a number of petty shareholders may be put up to sale, and that he may buy the whole 16 annas through one of his own dependents. Intentional or unintentional defaults will probably be very common in respect of payment of cesses, and innocent shareholders, to save their estates from sale, will generally be compelled to pay up the arrears. It may be said that the Estates Partition Act and sections 10 and 11 of Act XI of 1859 provide sufficient remedies, but, in the first place, a partition case, besides being from its nature a tedious business, entails much trouble and expense on the shareholders, and, secondly, there seems little reason in requiring shareholders to go to the expense of opening separate accounts after they have already spent so much money in obtaining registration of their names and interests under the Land Registration Act. The result of continuing the joint-and-several-liability system in its present form will probably be to promote the institution of partition cases, a result in my opinion to be greatly deprecated in this district, where the number of estates is already so large as 12,946, and where there are some thousands of estates on the towji, paying, on an average, less than Rs. 3 a piece as Government revenue.

By making each share that has been recorded in the general registers of estates primarily responsible for its own quota of cesses, and saleable in the same manner as an estate under the sale law, the holder will soon recognise that he must pay the demand punctually, and that if he fails to pay, he alone will be the sufferer. At first under such a system arrears may ensue, but not, I feel assured, to a greater extent than at present while every sale that may take place will produce good effects.

Very great inconvenience is felt in the Road Cess Office in consequence of no instructions having ever been issued for inserting changes of proprietorship in the registers. In attaching the movable property of defaulters, the Road Cess Department in many instances runs the risk of being sued for damages. It might be enacted that the names of all proprietors entered in the general registers of the Collectorate should be transcribed into the Road Cess registers, that mutations of names should be made from time to time in accordance with extracts supplied from the general registers under pain of fine by new proprietors, and that so long as the name of proprietor remains in the Road Cess register he shall be deemed to be a "holder" of the estate against which his name stands recorded.

During the year eight meetings of the Committee were held, all of which were attended by a quorum as shown in the subjoined statements, which also show the names and number of the members of the Committee and details of their attendance at meetings :—

During the year the only change which occurred in the list of the Committee was the election of Mr. F. R. S. Collier, Covenanted Senior Assistant to the Magistrate, as Vice-Chairman in the place of Mr. G. Toomey of Kanti Factory, who resigned the office of Vice-Chairman in March last.

The members of the Committee have as usual evinced great interest in the working of the road cess, and have always been most ready and willing to afford assistance to the District Engineer in carrying out works and in aiding as much as lay in their power towards the improvement of the district communications. In accordance with section 88 of the Road Cess Act, the annual detailed account current was examined and audited and passed on the 22nd December by a Sub-committee consisting of Messrs. F. R. S. Collier, Vice-Chairman, J. Smith and G. Toomey, members, and the accounts so passed were submitted to a meeting of the Committee held on the 26th of January 1880.

The actual cash balance on the 1st October 1878 was Rs. 87-398-7-7½, and the receipts during the year from all sources of income amounted to Rs. 1,95,378-11-9½ as per details subjoined :—

	Rs.	A.	P.
Cess on lands	1,46,484	3	9½
Do. on houses	5	0	0
One per cent. road cess	128	12	5
Ferry tolls	8,328	14	2
Rent of serais and staging-bungalows	649	8	0
Fees and forfeitures	4,666	1	5
Miscellaneous	2,093	6	5
Advances	29,183	13	7
Deposits	3,844	0	0
Total ...	1,95,378	11	9½

The aggregate amount therefore at the disposal of the Committee was Rs. 2,82,777 3-5, and the total expenditure incurred during the year was Rs. 2,80,378-8-8 as per details subjoined:—

	Rs.	A.	P.
General management	7,802	1	8
Staging-bungalows and serais	2,397	5	4
Original works	98 238	14	10
Repairs	87,420	4	9
Establishment	30,254	14	2
Tools and plant	11,548	15	2
Advances	21,872	10	10
Deposits	20,843	6	0
Total ...	2,80,378	8	8

leaving a balance of Rs. 2,398-10-9 for the current year.

As the details of expenditure have been shown in Part II of the annual accounts, I will here submit a few remarks and explanations on the several heads of works.

General Management.—The expenditure, Rs. 7,802-1-8, under this head was on account of establishment and contingent charges of both the collection and Committee's offices. The budget allotment for the same was Rs. 9,102. The saving under this head of Rs. 1,299-14-4 was in consequence of the provision for contingencies being in excess of requirements, and because the pay of the establishment for September was not paid until October, i. e. after the expiration of the year.

Staging-bungalows and Serais.—The expenditure under this head was Rs. 2,399-5-4, against the budget allotment of Rs. 2,315, the excess, Rs. 82-5-4, being due to the construction of a pucca well at the Mozufferpore dâk bungalow, where the want of a well had been long felt, and its construction being considered an urgent nece-sity, the work was undertaken with the special sanction of the Committee.

Original works.—Under this head the expenditure of the past year has been Rs. 98,238-14-10, out of Rs. 1,17,016, the budget allotment. The unexpended balance, Rs. 18,777-1-2, is in consequence mainly of several bills for works not having been paid before the close of the year, and because many final certificates for works executed were not submitted until after the year had expired. I would instance the following works:—

1.—Constructing a bridge over the river Byah at Gutiah Ghât on the Hajipore road.
2.—Constructing a bridge over the Dunda river on the Sahibgunge road.
3.—Constructing a bridge over the Khuruckpore river on the Mahanar road.
4.—Constructing the railway feeder road to the Muniari station.
5.—Constructing a bridge at the Chuckdanye Ghât on the Kurha Ghât road.
6.—Constructing Road Cess office.
7.—Metalling various roads.
8.—Planting trees on various roads.
9.—Constructing various culverts.

The following original works have been undertaken during the year as per statements subjoined, in which I have subdivided them into eight classes:—

Of the importance of the culverts and petty bridges in class II. I have elsewhere treated in my remarks on district drainage in this report. *Arching over old, and in many instances dangerous platform bridges,* is so very necessary, that class III require no comment. *The petty improvements under class IV* have at slight expense proved very beneficial. *Planting trees, class V,* has also been treated of separately in this report, and its importance has been most thoroughly recognised by the Government in its utilitarian, economical, and financial points of view. *Without mile-posts, class VI,* no road can be judged complete. *Class VII,* requires a few remarks. It had been the practice, until two years ago, to keep all heavy traffic off the principal roads on the so-called cart-leaks below the raised embankment during the dry season. This had been felt to be a great hardship, and on nearly all our principal roads the centre has now been raised one foot in height, and 12 feet in width, and turfed, and this portion set aside for light traffic, such as horse and foot passengers, palkees, and vehicles with springs; and a space not less than 7 feet in width on each side of the raised portion has been kept for heavy traffic, the import traffic being kept on one side and the export on the other, as far as practicable. The general satisfaction and content that this plan has given to the inhabitants of the district, European and native, rich and poor, I cannot sufficiently describe. In the instance of the Hajeepore road, this work was placed under the class of original works, but on all other roads the work has been included in surface repairs and not shown as original works. *Metalling road, class VIII,* requires no particular remarks. The portion of the Durbhanga road was notoriously the worst in the district at all seasons of the year—a very high narrow bank and no side cart-leaks. The metal was available on the spot and was purchased from the Durbhanga Raj at half cost price, and a great improvement has been effected at a very low figure. The metalling of the Poosah and Hajeepore roads in the vicinity of Mozufferpore and Hajeepore

towns was also imperative owing to the very heavy traffic, and its execution has been of considerable benefit to the traffic of the district and the inhabitants of the towns and their neighbourhood.

The only original works that require remarks are those in class I, and of them I would observe that, *the construction of a masonry bridge consisting of* (2) *two arches of* 35 *feet span each over the River Dundah on the Shahibgunge road*, is in very fair progress, all the wells (20) twenty in number having been sunk to a depth of twenty-five feet and on them the superstructure has been built up to the springings of the arches. The arching is in progress, and the completion of the bridge before next rains will remove one great obstruction to the traffic of the large and important town of Sahibgunge on the Gunduck river. A bridge existed at this spot many years ago, but was swept away by an unusually heavy flood, its foundations bring undermined. I need hardly add that care has been taken to prevent a repetition of such a disaster. In the construction of this bridge nothing has occurred requiring special notice.

The construction of a railway feeder road from Otter to the Muniari Station of the Tirhoot State Railway, connecting it with the principal and important roads to Durbhunga, Pusah, Dulsingserai, Tajpore, Shahpore, Mewah, and Hajipore. The importance of this road speaks for itself, the utility of all feeder roads is too obvious to call for remark. The work has been executed and bridged throughout with nine culverts.

Construction of a building for the Road Cess Offices.—This has been completed, and all the offices of the Chairman and Committee, collections, and District Engineer have been brought together under one roof. The charges for rent for office-room, amounting to Rs. 48 per mensem, will not in future be incurred, and the business of the Committee has been facilitated and much unnecessary correspondence saved.

Construction of a Bridge of five arches, of 35-*feet span each, over the Byah river at Guriah Ghât on the Hajipore Road.*—This bridge has been satisfactorily completed, and by its completion the only break in the road between Mozufferpore and Hajipore has been bridged. The project was originally started in 1863, but although many plans and estimates were submitted from time to time, nothing was done until 1877-78, when the plans prepared by the District Engineer were approved by Government and the bridge commenced and completed prior to the rainy season of 1878-79. No greater boon to the district could have been granted than this bridge, and no greater hardship existed than the old ferry and toll levied here on this the most frequented road in this district, and its main communication with Patna, Bankipore, Dinapore, and the East Indian Railway.

The construction of a Bridge of six arches, of 20-*feet span each, over the Khuruckpore Nulla on the Mahanar Road* has also been completed. Some bricks for this bridge were burnt 10 or 12 years ago, but no plans or estimates were ever prepared. The bridge was commenced and completed within the year, and the road from Mahanar to Hajipore has now no break in it.

The construction of a Bridge of three arches, of 35-*feet span each, over the Luckundye River at Chuckandye Ghât, on the Kurlea Ghât Road* has been commenced and will be completed before the rains of 1880. The delay in receiving sanction to this estimate prevented much being done in the past year, and the liberal grant, Rs. 20,000, accorded for the work by the Committee, was devoted to other works instead. The importance of the bridge is great, as it reduces the number of breaks in the road between Mozufferpore and the sub-division of Sitamarhi from four to three, and as this is the main road to the Nepal Frontier through this district as well as to the sub-division, it seems almost a certainty that sooner or later the other three breaks must be bridged.

In all the above bridges ample headway has been allowed for boat-traffic, and special care has been taken about the foundations, which are built on wells sunk to a depth of 25 feet below level of bed.

Planting trees.—At the close of the year 209 miles of roads had been planted with trees as per following statement:—

Sahibgunge	road ...	... 4	miles.	Pupri	road ...	... 3	miles.
Motihari	,, ...	... 22	,,	Bhossah Ghât	,, ...	... 9	,,
Duriah	,, ...	... 16	,,	Suki Ghât	,, ...	... 2	,,
Mullye	,, ...	... 10	,,	Dulsingserai	,, ...	... 8	,,
Rewa Ghât	,, ...	... 17	,,	Durbhunga	,, ...	... 14	,,
Kurlia Ghât	,, ...	... 7	,,	Lalgunge	,, ...	... 10	,,
Muniari Ghât	,, ...	... 5	,,	Ludowra	,, ...	... 5	,,
Sitamarhi	,, ...	... 5	,,	Belsund	,, ...	... 8	,,
Jointpore	,, ...	... 8	,,				
Hajipore	,, ...	... 32	,,		Total	... 209	,,
Pusah	,, ...	... 16	,,				
Shahpore	,, ...	... 8	,,				

or about 17 per cent. of the total mileage of the district roads.

On the sides of the Durbhunga, Ludowra, and Lalgunge roads 253,440 cuttings of Dalbergia sissu were planted, and 37,667 struck and were alive at the close of the year. These are not protected by gabions or fences, but chowkidars are kept to prevent injury from cattle-trespass or traffic. On all other roads the trees are fenced with strong bamboo gabions,

six feet in height and two feet six inches in diameter, made on one uniform plan and built round the tree when planted in the following manner:—

Five whole, not split, bamboo posts, eight feet in length and not less that one and a half inch diameter, are sunk in the ground to a depth of two feet, at equal distance from each other and in a radius of fifteen inches from the stem of the tree. Four pieces of split bamboos are then placed between the posts, and split bamboos are woven in basket-work fashion to a height of six feet, the last six inches being passed through loops in the bamboo posts to prevent travellers removing and untwisting the basket-work, which was a common and very mischievous practice, and one that caused continual labour and considerable expense in repairs. I may add that the system now adopted has been absolutely successful in preventing such mischief and injury, as, although easy to twist the split bamboos through the loops when green, it is most difficult to remove them when they have become dried and set.

Trees on road.—The following timber-trees were alive and doing well at the close of the year:—

Swietenia mahogani ...	100	Acacia Arabica	59
Ficus elastica	50	Bambax Malabaricum	38
„ religiosa	512	Gmelina arborea	27
„ infectoria	176	Cedrela toona	99
„ Indica	242	Albizzial ebbek	425
Dalbergia sissu ...	39,606	Albizzia procera	220
Melia azedarach	23		
„ Indica	282	Total timber-trees ...	41,878
Polyalthia longifolia ...	19		

And the undermentioned fruit-trees were also alive and thriving on the 1st of October 1879:—

Mangifera Indica	17,782	Eriobotrya Japonica	32
Artocarpus integrifolia ...	619	Zizyphus vulgaris	31
Eugenia Jumbolana ...	785	Morus Indica	10
Ægle marmelous	15	Bidum Guajava	22
Tamarindus Indica ...	436		
Bassia latifolia	120	Total of fruit-trees ...	21,154
Ficus cordifolia	302		

I may mention that the above are all seedlings of good varieties, and that no common or inferior fruit-seedlings have been planted out on the roads. The advantage of planting good kinds of fruit-trees is obvious, the future income from the fruit-trees depending entirely on the nature and class of fruit-trees planted. I would add that in future the Committee's planting operations will be confined entirely to the following trees:—

Eugenia jumbolana	Eriobotrya Japonica
Mangifera Indica	Swietenia mahogoni
Ægle marmelos	Pithe Calabium Saman
Bassia latifolia	Gmelina arborea
Tamarindus Indica	Dalbergia sissu
Artocarpus integrifolia	Cedrela toona

the above forming, as fruit or timber-trees, the most valuable and reproductive varieties that can be grown in this district.

Nursery-gardens.—What has been done in this respect I have shown in my No. 76 of 20th January 1880, and beg to repeat in this report:

"Two nursery-gardens have been established during the last road cess year, 1878-79, one at the dâk bungalow in Mozufferpore, the other in the District Engineer's grounds.

"The formation of nursery-gardens was rendered necessary for several reasons, amongst them the following:—

"1. The difficulty experienced in obtaining young fruit-trees of even inferior description.

"2. The policy of planting none but good varieties and descriptions of fruit-trees so as to ensure eventually from the sale of the fruit a handsome return to the outlay and expenditure incurred in planting and maintaining them.

"3. To prevent injury in transplanting trees with tap roots such as Artocarpus integrifolia, Bassiau latifolia, and Dalbergia sissu by raising them in pots, it having been found by practical experience most difficult to transplant such trees satisfactorily.

"To ensure the production of good varieties, the Chairman and District Engineer have personally interested themselves in purchasing or obtaining from various localities Bombay, Maldah, and other varieties of the best mangoes, Ægle Marmelos, from Bhekhun Khan Bahadur and Babu Suruj Deo Narain Sing, and from Dulsingserai where a celebrated variety is to be had, and Artocarpus integrifolia from Babu Ishwari Churn Mukerji and Soruj Deo Narain Sing, and also from Durbhunga and Dulsingserai where very excellent descriptions are obtainable.

"Mahogany seed was obtained from the Royal Botanical Garden, Calcutta, and the seed of the Pithe Colabum Laman from the Horticultural and Agricultural Society of India. Owing to the extraordinary heavy rains this year, much of the seed rotted in the ground and pots, and considerable injury was also sustained by the young trees from excessive and long-continued moisture. I annex a statement, shewing the operations and results of both nursery-gardens.

"Experience has impressed the necessity for using pots for all future nursery operations as being eventually a safer and more economical way of raising and transplanting young trees

than in and from the open ground. After much care, time, and expense have been laid out and incurred on the young trees in the nurseries, it is very disappointing to find them dying a few days after being transplanted, in consequence of injury to tap roots. And here I would observe that it would appear very inadvisable to plant out any trees less than two years old. The cost of tending, watering, and maintaining them is much less in the nurseries than when they are scattered over many miles of roads, and as the existence of a bamboo fence, such as is used in this district, is three to four years by the time it is worn out, its need is no longer required, the trees being five to six years old and strong enough to do without such protection. We have now in the nurseries 14,112 well-grown young trees, which will suffice for about 80 miles of road, which is about the annual average length of avenue planted in this district.

The experience gained during the past season will render future operations more successful, but, the same time, I trust that the results obtained this year may be considered not altogether unsatisfactory.

The expense incurred on nursery-gardens during the cess year 1878-79 was as follows:—

	Rs.	A.	P.
Labour	427	9	9
Price of fruit	59	7	4
Chowkidars	10	0	0
Pots	75	0	0
Thatching grass	7	9	0
Total ...	579	10	1

Improvement of district drainage by the construction of small bridges, culverts, and drains.—The attention of the Committee has been especially directed during the past year to the improvement, wherever practicable, of the drainage of villages and lands in the vicinity of district roads, a subject that has recently so greatly occupied the notice of the Government. The construction of the following 167 structures will be the best evidence of the consideration and care bestowed by the Chairman and Committee on this important subject. I may add that all the bridges and culverts are brick masonry and arched, and of a thoroughly solid and permanent character:—

Sudder-Sub-division.

	Spans. Feet.	No.	Lineal feet waterway.
Culverts	10	30	300
Ditto	6	16	96
Ditto	4	21	84
Ditto	2	1	2
Total ...		58	482

Sitamarhi Sub-division.

Culverts	10	4	40
Ditto	6	7	42
Ditto	4	34	136
Ditto	2	12	24
Total ...		57	242

Hajipore Sub-division.

Culverts	10	5	50
Ditto	6	32	192
Ditto	4	8	32
Ditto	2	7	4
Total ...		52	288

The expenditure on the above was during the year as follows:—

	Rs.	A.	P.
Sudder sub-division	11,640	5	6
Sitamarhi	7,730	13	11
Hajipore	11,649	10	0
Total ...	31,020	13	5

In addition to the above masonry culverts and bridges, the undermentioned-glazed pottery ware pipe-drains, manufactured at, and obtained from, Raneegunge, have been laid down:—

100 of 21 inch diameter.
100 of 18 „ „
100 of 15 „ „

Surface repairs to roads and repairs to culverts and bridges, &c.—One thousand one hundred and ninety three and a half miles of roads and their bridges and culverts have been repaired and maintained during the past year by the following agency:—

259½ miles by indigo factories.
320 „ by petty contractors.
614 „ by noker coolies.

A new plan of working by certificates has been introduced with indigo factories in the place of the old system of making advances to factories, which gave rise to much trouble in settlement of accounts. A factory manager now works his roads by granting certificates to his cooly-mates or sirdars when the work is completed to his and District Engineer's satisfaction, and the certificates after check in the District Engineer's office are passed and paid by cheque from the treasury in due course and in the same way as the works certificates of the District Engineer or his subordinates. During the past year Messrs. Toomey, Swain, and others worked this system successfully, and the Chairman and Committee have decided to adopt the plan universally in future, and to insist on its adoption by such factory managers as are willing and desirous of executing the road repairs in their vicinity. I may add that the plan has also been extended to such zemindars and native residents of the district as are willing to interest themselves in such works; and already this year Babu Soruj Deo Narain Sing, zemindar of Baligurh, has undertaken the repairs of several roads in the neighbourhood of Baligurh, and executed the works in a very creditable and excellent manner.

The nokur cooly repairs were also well executed, and those by petty contractors generally were good, and the maintenance of the roads altogether was satisfactorily performed. Much has been done in repairing bridges and culverts, and a very large number of cross-drains and petty culverts have been arched.

The following statement will show the mileage of the roads in the three sub-division and the expenditure on them during the year in repairs to roads, surface, culverts, bridges, and their maintenance:—

Sudder Sub-division.

	Rs.	A.	P.
Expenditure on surface repairs	35 393	7	3
Ditto on repairs to bridges and culverts ...	10,656	1	10
Total expenditure ...	46,049	9	1
Total mileage ...			597½
	Rs.	A.	P.
Cost of maintenance and repairs per mile	77	1	0

Sitamarhi Sub-division.

Expenditure on surface repairs	22,540	6	4½
Ditto on repairs to culverts	3,770	10	8
Total expenditure ...	26,311	1	0½
Total mileage ...			345
	Rs.	A.	P.
Cost of maintenance and repairs per mile ...	76	4	0

Hajipore Sub-division.

Expenditure on surface repairs	10,952	14	8½
Ditto on repairs to culverts	2,135	9	0
Total expenditure ...	13,088	7	8½
Total mileage of roads ...			251
	Rs.	A.	P.
Cost of maintenance and repairs per mile	50	2	0

I would here subjoin a brief memorandum, showing the mileage of the roads on the list of the District Road Committee in—

	Miles.
1876-77	642
1877-78	893
1878-79	1,193½

From the above it will be seen that the mileage of this district has increased in three years from 642 miles to 1,193½ miles.

Village roads.—During the past year Rs. 30,346-14-2 have been expended on the repairs to village roads, and Rs. 5,982-1-1 in building culverts on them. The total mileage of village roads in this district is 390½ miles, and the total amount expended on them during the past year Rs. 36,328-15-3. or Rs. 93 per mile.

Tools and Plant.—Under this head the expenditure has exceeded the budget estimate by Rs. 3,339-15-1. The excess is attributable to the purchase of kodalis, bullocks, and some furniture for the Committee's office, for which no provision was made in the budget. The Committee, however, accorded special sanction for their purchase.

During the current year the Committee propose to undertake the following new works :—

Constructing a masonry bridge at Sonbursa on the Shapore road, at a cost of Rs. 30,000; constructing two 10-feet culverts on Hujrut-Jundaha road, Rs. 1,400; constructing ten 6-feet culverts on Pupri, Hujrut-Jundaha, Parihur, and Batnahur roads, Rs. 4,490; constructing six 4-feet culverts on Pupri, Belamoch, Pakowne, and Parihur roads, Rs. 2,100.

Besides the above, provision for planting trees on about 40 miles of roads has been made in the budget for the current year. I regret to say that the late flood in this district caused considerable damages to the roads, more especially to those in the Mozufferpore and Sitamarhi sub-divisions. The spill of the rivers Bagmutit, Little Gunduck, and Luckundye swept away many temporary bridges and culverts, and breached the road embankments in several places so as to render them quite impassable. They have, however, been rectified, and communications have already been restored.

Inspection of roads.—During the year, the District Engineer was out inspecting roads 176 days, and travelled 4,877 miles. Supervisor Koylash Chandra Mitra was out inspecting roads 194 days, and travelled 3,821 miles. Overseer Troyluckho Nath Banerji was out inspecting roads 125 days, and travelled 2,997 miles. Overseer Mutty Lal Sen was out inspecting roads 131 days, and travelled 3,103 miles. Overseer Ramlal Mukerji was out inspecting roads 117 days, and travelled 3,551 miles. Sub-overseer Preo Nath Palit was out inspecting roads 131 days, and travelled 2,470 miles. Sub-overseer Siffadar Khan was out inspecting roads 170 days, and travelled 3,693 miles. Sub-overseer Abdul Kadir was out inspecting roads 90 days, and travelled 1,982 miles.

In conclusion, I have to report that the District Engineer has shown his usual energy and activity in the discharge of his duties, and has worked generally to the entire satisfaction of the Committee. The subordinate officers of all departments have given satisfaction.

Statement showing details of the Nursery-garden at the Dâk-bungalow, Mozufferpore, 1879-80.

DESCRIPTION OF TREES.	Number of stones planted.	Number germinated.	Number destroyed by heavy rains.	Number supplied to plant over roads.	Number in the nursery.	REMARKS

No. 109, dated Mozufferpore, the 12th February 1880.

From—C. F. WORSLEY, ESQ., Collector and Chairman, Road Cess Committee, Mozufferpore,

To—The Commissioner of the Patna Division.

IN reply to your No. 86CP, dated the 9th instant, I have the honour to report that the Branch Road Cess Committees of this district held no meetings during the past year.

With reference to paragraph 2 of your letter, I beg to inform you that a copy of the annual account has already been sent to the Examiner of Public Works Accounts direct.

Under section 88 of the Road Cess Act, the Sub-committee appointed to examine the annual account consisted of Vice-Chairman and three other members of the Committee, of whom one member, the Executive Engineer, late Mozufferpore Division, did not attend the meeting.

No. 6.—Part I.

F. R. S. COLLIER,
Vice-Chairman.

No. 276, dated Durbhunga, the 20th January 1880.

From—The Chairman, District Road Cess Committee, Durbhunga,
To—The Commissioner of the Patna Division.

UNDER section 69 of Act X of 1871, I have the honour to submit the following report on the working of the Road Cess Department of this district during the cess year 1878-79. The brief preliminary report prescribed in Bengal Government's (Public Works Department) circular No. 50, dated 23rd July 1873, was submitted to you with this office letter No. 471, dated 14th July 1879.

COMMITTEE.

(*a*) *Sudder Committee.*—There were 22 members on the Committee during the year. The names of those members and the number of meetings attended by each are noted below :—

		Number of meetings.
1.	Collector and Chairman	10
2.	Vice-Chairman	10
3.	District Superintendent of Police	7
4.	Road Cess Deputy Collector	8
5.	Executive Engineer, Mozufferpore	6
6.	Manager, Durbhunga Raj	8

		Number of meetings
7.	G. Anderson, Esq.	Nil
8	E. Carlisle, Esq.	2
9.	T. Lloyd Esq.	4
10.	J. Gale, Esq.	3
11.	W. S. Mackenzie, Esq.	1
12.	E. Macnaghten, Esq.	1
13.	Maharaj Kumar Gopeshur Singh	2
14.	Babu Bunsidhary Singh	Nil
15	Nazimuddin Hossen	1
16.	Munshi Sadiq Ally Khan	Nil
17.	Rai Goburdhun Lal, Bahadur	2
18	Babu Mittro Lal Chowdhry	3
19.	„ Bhogbut Narain Singh	Nil
20.	„ Jugdip Narain Singh	„
21.	„ Sri Narain Singh	6
22	„ Sheo Prosad Singh	1

About the end of the year the Chairman, with a view to have the interests of the two sub-divisions of the district better represented at the Sudder Committee, nominated both the Sub-divisional Officers for appointment as members. They were accordingly appointed (*vide* Government order No 3570½A, dated 30th July 1879, received with your memorandum, No. 71CP, dated 11th August 1879.) Mr. Grierson, the Sub-divisional Officer of Madhubani attended two meetings during the year since his appointment.

There were ten meetings held during the year, in two of which no quorum was formed :—

The	1st	meeting	was held on	2nd November	1878.
„	2nd	„	„ on	14th December	1878.
„	3rd	„	„ on	22nd February	1879.
„	4th	„	„ on	5th March	1879.
„	5th	„	„ on	19th May	1879.
„	6th	„	„ on	16th June	1879
„	7th	„	„ on	26th June	1879.
„	8th	„	„ on	23rd July	1879.
„	9th	„	„ on	2nd September	1879.
„	10th	„	„ on	27th „	1879.

The particulars of the attendance of the members are shown in the statement below :—

District	Number of members		Number required to form a quorum	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting	Number of members who attended only—						Percentage of average attendance to whole Committee.
								One meeting.		Two meetings.		Three meetings.		
	Official	Non-official						Official	Non-official	Official	Non-official	Official	Non-official	
Durbhunga	4	16	7	10	2	8	8		4	1	3		3	

All the European non-official members lent valuable assistance by helping to keep the Chairman informed of the state of the roads in their neighbourhoods, and by supervising the lighter kinds of work done on the roads. Some of the native gentlemen on the Committee also lent similar, though smaller, assistance. I propose shortly to submit for approval a fresh list of members, from whom will be removed those gentlemen who have shown no interest in the Committee's work.

(b) Branch Committees.—There are two Branch Committees in the district in the two sub-divisions of Madhubani and Tajpore.

The Madhubani Branch Committee held four meetings, which concerned themselves, chiefly in effecting improvements in village roads out of the funds specially allotted for the purpose. Two attempts were made at Tajpore to hold a meeting, but both failed, owing to the non-attendance of non-official members. I annex the reports of the Chairmen of the Branch Committees. It will be seen that the work done by the Madhubani Branch Committee was useful and good. Mr. Lloyd, whose aid at Madhubani is specially acknowledged by Mr. Grierson, has also been one of the most useful members of the Sudder Committee.

INCOME.

The total income of the Committee during the year under report was Rs. 1,55,219-11-7, classed under the following heads:—

		Rs.	A.	P.
1.	Cess on lands	1,52,101	14	8
2.	Do. on houses	59	6	0
3.	One per cent. road cess	177	8	0
4.	Staging-bungalows	471	0	0
5.	Miscellaneous	2,409	14	5
	Total ...	1,55,219	11	7

Cess on lands.—A separate report on "cesses" has already been submitted to you by the Collector in his letter No. 203R, dated 11th December 1879. I beg to note below the following extracts from that report, having special regard to the road cess:—

The total demand of cess for the year leviable in this district was Rs. 1,66,942. Against this demand, Rs. 1,49,781 was realized, leaving a balance of Rs. 17,161. The percentage of collection on demand was therefore 89 6, against 88·7 of the preceding year. This increase in the percentage, though slight, is satisfactory.

The year began with arrears of Rs. 9,925, of which Rs. 9,027 were realized, leaving a balance of Rs. 898. Hence the total arrears at the end of the year were Rs. 18,059. I note here that Rs. 4,867 was collected during the year for future years.

During the year in 4,292 cases processes for attachment of property of defaulters were issued; but in 21 cases only recourse was had to the extreme measure of actual sale of properties such as bullocks, horses, &c. In the other cases the arrears were paid up when the peons produced the attachment warrants, or when they attached the properties, but no orders were passed for the issue of sale notices.

EXPENDITURE.

The total expenditure of the year was Rs. 92,775-9-4 under the following heads:—

		Rs.	A.	P.
1.	Original works	2,163	10	0
2.	Repairs	50,608	13	8
3.	Collection establishment	5,532	15	5
4.	Engineering ditto	18,125	4	10
5.	Tools and plant	405	5	3
6.	Ferry (previous years')	250	9	0
7.	Staging-bungalows	398	12	11
8.	Advances	15,290	11	3
	Total ...	92,775	9	4

(*a*) *Original works.*—A sum of Rs. 72,346 was provided for in the budget for construction of masonry bridges and other original works in the district; but out of this, Rs. 2,163-10 only were expended for the metalling with kunker of a portion of the road from Durbhunga to Gopalpore Ghât. The other works provided for in the budget could not be done during the year, owing to the estimates not having been submitted to the Superintending Engineer in time for sanction. It is expected that the works will be taken in hand during the current year.

Planting trees.—The District Engineer reports that a total number of 3,200 mangoe-trees were planted during the year on the road from Pipraghât *viâ* Narayah to Tiljuga, *i. e.* end of the north emigration road; but, as during the late floods the surface of the road was in many places under water, it is feared that a great many of the trees already planted will die. They are, however, planted and kept up by contract, and the loss will not fall on the Committee.

(*b*) *Repairs.*—The total expenditure on this head was Rs. 50,608-13-8. In addition to this, works to the value of about Rs. 6,000 or Rs. 7,000 were executed during the year, but as they could not be measured up before the year closed, they have been paid for in the current year.

A statement is annexed to this report, shewing the quantity and value of work done on each road, but I beg to note the following remarks on particular roads from the report submitted by the District Engineer.

1. *Roads—Road from Durbhunga bazar to new railway station* required no repairs as it is a metalled road and kept therefore in good order.

2. *Road from Durbhunga to Bohera* has been kept open, but nothing since the famine has been done to the bridges, so that a great many of them were carried away and have to be reconstructed during the current year.

3. *Road from Durbhunga to Gopalpore Ghât* is the most important road in this district and the most difficult to keep in order, on account of the enormous traffic going over it every year. It has been kept fairly in repairs, but the part nearest Durbhunga is still being mended, and one of the most important bridges is still being repaired. The bridges on this road are many of them unsafe and must be replaced next year.

4. *The road from Durbhunga to Rakka* has been slightly repaired and kept in passable order.

5. *The road from Durbhunga to Kumtowl* is not a difficult one to keep in order. The greater part of the earthwork done to it was on account of the diversion made to save the road from being breached by the Kumla river, but precaution was ineffectual, and several breaches were made in the road at the end of the rainy season. This year a larger diversion will have to be made.

6. *Road from Durbhunga to Simri.*—The repairs done to this road consisted in filling in gaps and breaches only.

7. *The road from Durbhunga to Pusah* viâ *Hya Ghât* was also very much damaged by the floods, and the earthwork done to it consisted in raising the surface of the road near Durbhunga above flood-level.

8. *The road from Bohera to Hathowri* has been kept passable by filling in gaps, but no thorough repairs have been done to it.

9. *The road from Bohera to Hatti* is in fair order. Some earthwork was done to it in places where the floods injured the road.

10. *The road from Bohera to Sakri.*—Nothing has been done to the road. It is, however, in passable order, and it is proposed to keep it in good order by the current year's repairs.

Some of the following roads were lightly repaired during the last year, and it is proposed to thoroughly repair them all during the current year. Ample provisions have been made for them in the budget.

1. Road from Roserah to Hatti *vid* Singhia and Mongulgurh.
2. ,, Puhuddi to Mudheypore.
3. ,, Chuckmehsi to Kumtowl.
4. ,, Hya Ghât to Jhanjerpore.
5. ,, Hathowri to Singea.
6. ,, Roserah to Singea Ghât.
7. ,, Dohur to Kumrowli on the Pipra Ghât north road.
8. ,, Babuarah to Shapore.
9. ,, Bharatpore to Bazitpore *vid* Jandha and Nandi.
10. ,, Pipra Ghât to Tiljuga (North Emigration road.)
11. ,, Naraya to Patrahi.
12. ,, Somastipore to Dhuli.
13. ,, Durbhunga to Ekim and Ropowli Ghâts.
14. ,, Hirni to Mouzi.
15. ,, Bohera to Pipra Ghât.
16. ,, Gundwar to Jibneh Ghât.
17. ,, Nagurbusti *vid* Jhuasnuggur and Kuder Ghât to Roserah road.
18. ,, Ladowrah *vid* Kishenpore railway station to Jhuasnugger.
19. ,, Narayab to Lowkaba.
20. ,, Keota to Mududabad.
21. ,, Bazitpore through Jubow to Monghyr boundary.

The road from Belaspore to Hathowri has been in fair order, and required only surface repairs until the Belaspore diversion was breached towards the end of the rainy season. The same may be said of the roads—

Roserah to Dowlatpore.
Durbungha to Gangwarah.
Madhubani *vid* Taj Serai to Pandaul.
Pandoul to Sakri.
Dulsingserai to Jitwarpore.

Nepal frontier road.—This road is to be regarded as a dry-weather road only. It would be foolish to spend large sums of money on it that would be required to put it in serviceable order for the rainy season.

The amount of repairs done to the remainder of the roads may be seen from the statement annexed to this report. Owing to exceptionally high floods, many of them were impassable at the end of the year, but they have nearly all been made temporarily passable previous to undergoing their annual repairs.

Village roads.—A sum of Rs. 6,000 was provided for in the budget of the last year for the improvement of village communications :—

					Rs.
Durbhunga	...	...	...	...	3,000
Madhubani	...	...	...	...	2,000
Tajpore	...	...	...	...	1,000
			Total	...	6,000

Nothing was done under this head in the sudder sub-division, but in the other two sub-divisions many important village roads were repaired. The names of these roads and the nature of work done on each will appear from the copies of reports received from the Chairmen of the Branch Committees annexed herewith.

The allotment for the current year has been more than doubled, and arrangements have been made for spending the money profitably in all the three sub-divisions.

Works proposed.—Almost all the original works provided for in the last year's budget, but which could not be done owing to reasons given above, have been included in this year's budget. The works are as follow :—

		Rs.
(1)	Temporary office buildings (District Engineer's)	1,122
(2)	Pucca masonry bridges on road from Durbhunga to Rosrah *vid* Anar and Hathowri	10,782
(3)	Wooden bridges on the Bohera road	9,500
(4)	Metalling of Gopalpore Ghât road	1,000
(5)	Diverting Kumtowl road	1,500
(6)	Pucca bridges on Raika, Joynugger road	2,500
(7)	Ditto on the North Emigration road	21,000
(8)	Wooden bridges on Tajpore-Poosah road	2,000
(9)	Bridge on the Poosah-Mohna road	1,300
(10)	Ditto on Narhan-Jitwarpore road	1,300

Besides this, a sum of Rs. 1,77,848 has been allotted for the repairs of all the important roads in the district. As a great many of these roads have been heavily damaged by the extraordinary floods of last year, much work will have to be done in the way of raising and diverting roads and repairing and constructing new bridges. Estimates for these works have been already prepared and submitted for sanction, and work has been commenced in many places.

WORKING OF ESTABLISHMENT.

Collection Establishment—Collector's and Chairman's offices.—The Collector's office has been under the charge of the Deputy Collector, Baboo Peary Mohun Banerji. Both Collector's and Chairman's offices have worked satisfactorily during the year.

ENGINEERING ESTABLISHMENTS.

(*a*) *District Engineer.*—Mr. N. G. Beaumont was the District Engineer up to the 26th August, when he was relieved by Mr. E. E. A. Kuster.

Mr. Kuster has had some difficulties to combat in clearing off the arrears of correspondence left by his predecessor, * * * * * * * * * * *. There is no longer any complaint to find with the office work, and we trust the district work also will soon be put on a satisfactory footing.

(*b*) *Subordinate Engineering Establishment.*—The District Engineer reports unfavourably on the establishment left to him by his predecessor, and he has found it necessary to discharge all three of the old Overseers and appoint new men in their places.

The annual accounts of the last year are submitted herewith in duplicate. The accounts were duly examined by a Sub-committee appointed under section 88 of Act X of 1871.

No. 394, dated Durbhunga, the 23d February 1880.

From—The Chairman, District Road Cess Committee, Durbhunga,

To—The Commissioner of the Patna Division.

WITH reference to your letter No. 174CP, dated 3rd instant, I have the honour to submit the following report on the working of the Road Cess Act for the cess year ending 30th September 1879.

No special difficulty was experienced last year in the working of the Road Cess Act, as far as the question of the collections of the cesses is concerned : 89·6 per cent. of the demand was collected. The arrears were mostly due from estates held by several proprietors, who looked to each other for payment of the cess. Some proprietors in such joint estates justly complained when processes for the recovery of arrears were issued that they had paid in their share of the cess, but that their coproprietors had not done so. But this complaint could not be listened to as the Act makes each such proprietor jointly and severally liable for the cess. It is only in extreme cases, when the complaints came from a proprietor holding but an inconsiderable share of a big estate, and when the process-server called upon him for the payment of a very large amount of arrears due from the estate, that redress was given by making him pay according to his share. But there were numerous cases where no such redress was attempted to be given, because, had it been generally done, the recoveries would have been seriously interfered with. I do not think there is any necessity for modifying the law so as to make each proprietor pay according to his share. It would entail an undesirable amount of labour and cost and would be next to impossible to carry out.

If, however, the law were simply changed so that arrears of cess should be recoverable like arrears of revenue by the sale of the defaulting estate, the proprietors would learn their duty and cess be realized more satisfactorily, leaving all coproprietors of a joint estate to settle amongst themselves the question of each one's liability to pay cess according to his share. Nothing short of such a stringent provision will show a better state of the collections.

The collection of house-cess has been very justly abandoned by Government, for it was not worth the trouble and entailed great hardship upon the assessees. All irrecoverable balances have been written off under sanction of the Commissioner and all amounts realized for the second-half-year of the cess year 1877-78 have been refunded. The remission of the house-cess has been a great relief to the assessees and the loss to the Fund not at all considerable.

No. 6.—Part I.

DURBHUNGA DISTRICT ROAD FUND.

Annual Account of Income and Expenditure from 1st October 1878 to 30th September 1879.

No. 156, dated Chupra, the 18th January 1880.

From—The Chairman, District Road Cess Committee, Sarun,
To—The Commissioner of the Patna Division.

I HAVE the honour to submit herewith the Annual Accounts and Administration Report of the Sarun District Road Fund for the cess year 1878-79.

2. *District Committee.*—This Committee was appointed in July 1877, as per Bengal Government's notification dated 23rd idem. There were at first 21 members on the Committee, viz.—

The Magistrate and Collector, *Chairman.*
„ Joint-Magistrate and Deputy Collector for the time being.
„ District Superintendent of Police for the time being.
„ Executive Engineer, Mozufferpore Division, for the time being.
Babu Ram Anugraha Narain Sing, Manager, Court of Wards.
Mr. D. N. Reid.
„ H. W. Llewhellin.
„ N. S. Urquhart.
„ E. G. Williams.
Rai Mahabir Persad Shah, Bahadur.
Babu Deo Coomar Singh.
„ Opendro Deo Narain Singh.
„ Debi Persad Sahi.
Moulvi Dost Mahomed.
„ Abdul Alli.
Babu Chuni Lall Marwari.
„ Debi Persad Agrawalla.
„ Janwar Dass.
„ Salgram Sing.
„ Debi Prosad.
„ Seo Govinda Sah.

The name of the Sub-divisional Officer of Sewan was subsequently added to the list, agreeably to section 77 of Act X (B.C.) of 1871.

3. *Changes of Personnel.*—Mr. Hodgkinson, Chairman, left this district, making over charge to Mr. J. F. Bradbury on the 28th November 1878. Mr. Bradbury continued to preside up to 7th February 1879, when he was succeeded by Mr. Pawsey. Mr. H. G. Cooke, Vice-Chairman, left this district, making over charge to Mr. Pawsey on the 21st July 1879. Mr. J. Whitmore received charge from 25th August 1879. Messrs. D. N. Reid and A. S. Urquhart having resigned, Mr. Macrae and Babu Nobin Chunder Mitter were selected in their stead. Mr. Harman was selected in place of Babu Ram Anugraha Narain Sing.

4. *Committee Meeting.*—There were eight meetings held during the year, of which only one was adjourned for want of a quorum. The average attendance at meetings was more than what was actually necessary for a quorum. Of the total number of members, there were six officials and 16 non-officials. Almost all the officials and six non-officials exhibited an interest in discussing matters that were laid before them, and were generally regular in their attendance. Among the non-officials, Babu Deo Coomar Sing, Moulvi Dost Mahomed, and Mr. Llewhellin attended five meetings; Babus Chooni Lall and Debi Persad Agrawalla four; Mr. Harman three; Rai Mahabir Persad Shah, Bahadur, and Babu Seo Govinda Sah two; Babus Opendro Deo Narain Sing and Janwar Dass and Mr. William

and the remaining five members attended no meeting at all. With regard to the attendance of Mr. Harman, it is necessary here to observe that after his nomination there were only four meetings held in that year, of which he attended three. An abstract of particulars regarding attendance at Committee meetings is given in Appendix A.

5. *Branch Committee.*—There is one Branch Committee at Sewan, consisting of 15 members, viz. two officials and 13 non-officials. This organization of the Branch Committee seems, however, to have gone no further than the nomination of members during the year under review.

6. *Working of the Road Cess Act.*—The working of the Act has, I am informed, been successful as far as expenditure goes, but the collection of only 84·58 of the demand indicates a certain want of success in this regard. Not having been in charge of the district during the year under report, I cannot give any personal assurance regarding the feeling with which the Act was viewed by the people; but I make no doubt, from what I have seen after the close of the year, that a certain impatience with the necessary taxation was felt.

7. *Income.*—The total receipts of the year amounted to Rs. 1,36,947-15-0, and were derived from sources detailed below :—

	Rs.	A.	P.	Rs.	A.	P.
Cess on lands			1,24,921	15	7	
Do. on houses			1,814	11	6	
Fines			60	1	0	
One per cent. road cess ...			79	0	9	
						1,26,875 12 10
Miscellaneous receipts—	Rs.	A.	P.			
Ferry tolls ...	240	0	3			
Road do. ...	119	0	0			
				359	0	3
Rent of serais and bungalows	544	10	0			
Fees and forfeitures ...	1,784	2	3			
Miscellaneous ...	1,336	10	9			
				3,665	7	0
						4,024 7 3
Suspense Accounts—						
Advances						6,047 10 11
			Total ...			1,36,947 15 0

The total fund at the disposal of the Committee, including balance of previous year (Rs. 30,318-8-11), was therefore Rs. 1,67,266-7-11.

8. *Cess on lands.*—The amount assessed under this head, including arrears of previous year, was Rs. 1,48, 827-4-1. This amount was subsequently reduced to Rs. 1,47,689-4-1 owing to remission and reduction in the valuation. The total collections of the year amounted to Rs. 1,24,921-15-7, and the balance outstanding against the defaulters was Rs. 22,767-4-6. The result of collection, however, shows some improvement in comparison with the previous year, the collection being 84·58 per cent. of the demand, or 2·17 per cent. more than that of the previous year.

9. *Cess on houses.*—This cess has been abolished. There was an arrear of Rs. 10,908 7-6 at the close of the cess-year 1877-78; of which Rs. 1,814-11-6 were realized during the year, leaving Rs. 9,093-12 due. My predecessors on several occasions recommended the remission of the house-cess demand, inasmuch as the assessment under this head was in the first instance done in a very unsatisfactory manner.

10. *Explanation of the discrepancy between the figures of collections as per Road Fund Accounts and as shown in the Road Cess Return.*—The figures of collection on account of cess on lands and houses, as shown in this report, will not correspond with those shown in the road cess return. The causes which gave rise to the discrepancy are thus explained.

In the Treasury and Road Fund accounts, the figures of collection were divided rateably between the road and public works cesses, agreeably to the Board's order, whereas in the road cess return the collections from the current demand were so divided, while the arrear collections were shown under the particular cesses to which they belonged. Owing to the above rateable division, Rs. 839-9-5 and Rs. 295-12, creditable respectively to road cess on lands and houses, were in the treasury accounts credited to public works cess on lands and houses. Rs. 2,319-10-6 and Rs. 661-5-6 which were, owing to the above reason, credited to public works cess on lands and houses in the previous year's accounts were adjusted in this year's accounts by crediting to road cess on lands and houses as per Accountant-General's order No. 304TA, dated 7th May 1879. And lastly, Rs. 80-8, creditable in equal proportion to road and public works cess on houses, were in the treasury accounts credited to road cess on lands.

The requisite adjustments of Rs. 639-9-5, 295-12, and 80-8 will be made in the Treasury and Road Fund accounts on receipt of the Accountant-General's order, to whom the matter has been reported by the treasury officer.

11. *Cess fines*.—Under this head there was an unrealized balance of Rs. 92-11 at the close of the cess-year 1877-78; of this, Rs. 74-10 were realized during the year, leaving Rs. 18-1 due. Steps are being taken by the naib-nazir for the realization of the balance. In the annual accounts, out of Rs. 74-10, Rs. 60-1 have been shown under "Cess fines" and the remainder Rs. 14-9 under "Fees and forfeiture" as per Examiner's remarks on the 4th quarterly return.

12. *One per cent. road cess*.—This cess is levied from estates which were settled prior to 1st January 1874 and whose terms of engagements have not yet expired, as per Board's order No. 264A, dated 14th May 1876. Total receipts under this head were Rs. 79-0-9.

13. *Ferry-tolls*.—The unrealized balance of ferry-tolls due for the period prior to 1st October 1877 was Rs. 528-6-7½ at the close of the cess-year 1877-78; of this, Rs. 240-0-3 were realized from the farmers of ferries and the balance remitted to them, as per order of the Commissioner, conveyed in his letter No. 32CP of 12th June 1879.

14. *Road-tolls*.—The amount assessed under this head, including arrears of previous year, was Rs. 319-13; of which Rs. 119 were realized and the balance remitted to the farmer under the authority of the Commissioner's letter No. 33CP of 12th June 1879. This toll has been abolished in this district, *vide* resolution of the Committee, dated 10th March 1879, copy of which was submitted to the Commissioner with this office No. 217 of 10th March 1879.

15. *Rent of bungalows and serais*.—The receipts on account of rent of bungalows, and serais were Rs. 517-6-9 and Rs. 27-3-3 respectively.

16. *Fees and forfeitures*.—The total sum realized under this head was Rs. 1,784-2-3; of this, Rs. 1,713-13-3 were on account of total anna fees, Rs. 14-9 on account of cess fine, and the remainder Rs. 55-12 as fine.

17. *Miscellaneous*.—The receipts under this head were Rs. 1,336-10-9, including Rs. 1,300 paid by Government on account of proportionate pay of joint establishment employed for the collection of road and public works cesses, as per Bengal Government No. 2 of 31st January 1879, received with Commissioner's No. 16CP of 24th April 1879.

18. *Suspense accounts*.—The amount advanced to the planters, contractors, and others, including outstanding advances of the previous year, was Rs. 6,705-6-8; of this, Rs. 6,047-10-11 were adjusted during the year, leaving an unadjusted balance of Rs. 657-11-9. The following is the detail of the unadjusted balance:—

	Rs.	A.	P.
Value of Kutni stone lime	37	3	9
Mr. D. N. Reid of Suddowa	83	0	0
„ J. N. Reid of Moinara	112	8	0
„ A. L. Harman of Jaitpore	425	0	0
Total ...	657	11	9

19. *Expenditure*.—As regards outlay, the actual outlay during the year amounted to Rs. 1,17,551-4-5, as follows:—

General management—

	Rs.	A.	P.	Rs.	A.	P.
Clerks	3,290	1	6			
Servants	2,370	2	9			
Contingencies	886	12	1			
Printing at private presses ...	65	8	0			
				6,612	8	4
Staging-bungalows and serais—						
Establishment and contingencies	638	1	3			
Petty construction and repairs ...	1,324	15	0			
				1,963	0	3
Public works—						
Original works	40,713	15	5			
Repairs	36,429	10	10			
Establishment	24,680	9	6			
Tools and plant	742	3	6			
				1,02,566	7	3
Suspense accounts—						
Advances	6,409	4	7			
Total expenditure ...	1,17,551	4	5			

20. *General management.*—The expenditure incurred on general management was Rs. 6,612-8-4, or Rs. 1,092 8-4 in excess of the budget provision. This excess was due (*a*) to the entertainment of the 3rd clerk, of supernumerary peons for serving notices under section 22 of the Road Cess Act, and of extra process peons for the realization of road and public works cess arrears; (*b*) to the paymet of the proportionate pay of the Local Fund establishment entertained in the Accountant-General's office; (*c*) to the cost of printed forms and other miscellaneous contingencies. The insufficiency of Rs. 5,520 provided for general management and the necessity for the entertainment of supernumerary peons were brought to the notice of the Committee, who, at the meeting held on the 9th June 1879, sanctioned Rs. 350 for supernumerary peons, Rs. 300 for printed forms, and Rs. 100 for miscellaneous contingent charges out of savings on other works. A copy of this resolution was submitted to the Commissioner with this office No. 304 of 10th June 1879. The entertainment of extra process peons and payment of their wages from talabanna fees were sanctioned by the Commissioner in his No. 129 of 6th February 1879. The 3rd clerk was appointed under the orders of my predecessor, his pay being met from Rs. 1,300. paid by Government for establishment charges. The proportionate pay of the Local Fund establishment entertained in the Accountant-General's office was disbursed under authority of Accountant-General's No. 7308 of 23rd September 1878. The excess under the head of printed forms was due to the purchase of a large number of road and public works cess challan forms. These forms were previously supplied gratis by Government. Miscellaneous contingent charges were exceeded by the purchase of three Chubb's padlocks and of punkhas, &c.

21. *Staging-bungalows and serais.*—Out of a budget grant of Rs. 2,730, only Rs. 1,963-0-3 were expended, leaving a balance of Rs. 766-15-9 as saving. This saving was effected by the slight or petty repairs which had only to be made in some of the bungalows and serais.

22. *Original works.*—The total outlay on "Original works" was Rs. 40,713-15-5 against a budget provision of Rs. 49,063. The saving of Rs. 8,349-0-7 was caused partly by the non-payment of the value of some works which were executed, but could not be measured on account of inundation, and partly by others not having been carried in full to their estimated provision, and also by letting out works at a less percentage through public competition.

23. *Works not budgetted for but executed.*—The following works for which no provision was made in the budget estimate were executed under the authority of the Committee. The works were of an urgent nature and their execution was absolutely necessary.

(*a*)—Metalling the 18th mile of Chupra and Sewan road.

(*b*)—Constructing stoneware pipe drains on several roads.

(*c*)—Constructing a second opening bridge of 9' span each on the 43rd mile of Chupra and Gothuna road.

(*d*)—Reconstructing a 3' barrel drain, 18th mile, Khyra and Ramsalla road.

(*e*)—Constructing a 3' barrel drain, 1st mile, Cheerand and Gurkho road.

(*f*)—Constructing temporary bridges on Moharajgunge and Kochaikote road.

(*g*)—Constructing temporary bridges on Gopalgunge and Baturcla road.

(*h*)—Constructing a bridge of boats at Chainpore on Sowan and Siswan road.

(*i*)—Constructing a culvert of 6' span, 3rd mile, Sewan and Durrowlee road.

(*j*)—Constructing a bridge of three openings, 10' each, 3rd mile ditto ditto.

(*k*)—Constructing a bridge of boats at Audur, on ditto ditto.

(*l*)—Sinking a trial well in the bed of Daha.

(*m*)—Constructing a 3' barrel drain, 1st mile of the village road from Jigun to Singabighât.

Item (*a*)—The Committee approved the proposal of District Engineer regarding metalling this portion, and sanctioned an estimate amounting to Rs. 1,017. Items (*c*), (*e*), (*i*) (*i*), (*l*) and (*m*).—Provision for these works, except items (*c*) and (*m*), were made in the previous year's budget. But owing to their not being completed within that year, Committee was obliged to sanction fresh allotments from savings of other works to ensure their completion.

Items (*b*), (*d*), (*f*) to (*h*), and (*k*)—The execution of these works was thought necessary at a time long after the submission of the budget estimate. But as their non-execution would have interfered with the public traffic, Committee authorised the District Engineer to undertake their construction from savings on other works.

24. The two bridges originally proposed to be constructed on the Sewan and Seetalpore road were afterwards thought unnecessary by the District Engineer. He proposed a little diversion of the road, and construction of some barrel drains and culverts thereon with the allotment made in the budget for the two bridges in question. The Committee approved his proposal, and accordingly the road was diverted and the barrel drains and culverts constructed thereon.

25. *Works budgetted for but do not show any expenditure.*—The following original works, although budgetted for, do not show any expenditure, inasmuch as the works done on them by the contractors were not measured and paid for :—

Constructing a culvert of 5' span, 32nd mile, Chupra and Gothuna road.
Ditto ditto of 5' span, 12th mile, Durrowlee and Kochaikot road.
Ditto ditto of 8' span, 20th mile, Sewan and Siswan road.

26. *Works which have exceeded budget grant.*—The following works have exceeded the budget allotment:—

	Budget grant.	Actual outaly.			Excess.		
	Rs.	Rs.	A.	P.	Rs.	A.	P.
(*a*)—Constructing a barrel drain, 3′ span, 31st mile, Chupra and Sallempore road	198	249	11	9	51	11	9
(*b*)—Constructing a culvert of 6′ span, Dighwara and Amnour road	272	280	15	2	8	15	2
(*c*)—Constructing a barrel drain of 3′ span, 3rd mile, Dighwara and Amnour road	154	157	7	4	3	7	4
(*d*)—Constructing a culvert of 4′ span, 5th mile, Titra and Semuria road	202	214	11	1	12	11	1
(*e*)—Constructing a third opening bridge of 12′ span each, 14th mile, Sewan and Siswan road ...	3,271	3,504	1	2	233	1	2
(*f*)—Constructing a two-openings bridge of 12 feet span at 15th mile on Sewan-Siswan road...	2264	2,513	11	10	249	11	10
(*g*)— Ditto ditto 15 feet span at 17th mile ditto ...	2,877	3,294	4	7	417	4	7
(*h*)— Ditto culvert of 6feet span on the Amnour-Bassantopore road	272	280	15	2	8	15	2

Item (*a*).—The contractors having declined to manufacture such a small quantity of bricks as is required for this small culvert, the District Engineer was obliged to cart bricks to the site of the work from Baniapore brick-field, and this was the chief cause of excess.

Items (*b*), (*c*), *and* (*h*).—The excesses on these works are very trifling and do not require any explanation.

Item (*d*).—The excess on this was due to the masonry foundation having had to be built on a layer of concrete one foot in depth, in consequence of the soil being sandy.

Items (*e*), (*f*), *and* (*g*).—The excesses on these works were chiefly due to the increase of the depth of the masonry in foundation of the bridges as recommended by the Superintending Engineer in his letter No. 3005 of 16th November 1878, to the address of the Commissioner.

27. With regard to the aforesaid excesses, I would beg to state that the estimates are of necessity made prior to the working season, and it stands to reason that however carefully the preliminary calculations may have been made, difficulties must often arise in the actual working which often necessitate increased expenditure.

28. *Repairs.*—The total outlay on "repairs" amounted to Rs. 36,429-10-10, against a budget provision of Rs. 50,774. A large saving under this head was effected (1) by the non-payment of the value of certain works which were executed, but could not be measured on account of inundation; (2) by the small outlay in village roads; (3) by letting out works at a less percentage through public competition.

29. *Repairs which have exceeded budget grant.*—The following "repairs" have exceeded the grant made in the budget for their execution:—

	Budget grant.	Actual outlay.			Excess.		
	Rs.	Rs.	A.	P.	Rs.	A.	P.
(*a*) Repairing metalled portion of the road from Chupra to Sewan	125	277	8	9	152	8	9
(*b*) Ditto ditto ditto from Chupra to Gothni	1,000	1,008	1	5	8	1	5
(*c*) Ditto bridges on Chupra and Rewaghât road	200	258	0	10	58	0	10
(*d*) Ditto ditto on tramway road from Chupra to Salimpore	250	385	2	10	135	2	10
(*e*) Ditto ditto on Manjhi and Burowli road	200	206	5	1	6	5	1
(*f*) Ditto ditto on Mirgunge and Sutterghat road	150	182	2	11	32	2	11
(*g*) Ditto ditto on Domaighur and Sohagpore road	500	1,010	8	6	510	8	6
(*h*) Ditto road from Khyra to Rameolla ...	630	632	12	7	2	12	7
(*i*) Ditto bridges on Pursa and Shapore road	100	113	12	1	13	12	1
(*j*) Ditto road from Chirand to Gurkha ...	210	222	10	0	12	10	0
(*k*) Ditto ditto from Sewan to Kuteya ...	1,208	1,418	10	0	210	10	0
(*l*) Ditto metalled portion of road from Sewan to Kuteya	19	29	5	0	10	5	0
(*m*) Ditto ditto from Sewan to Gothni ...	94	138	14	2	44	14	2
(*n*) Ditto bridges on Sewan and Gothni road ...	200	263	6	4	63	6	4
(*o*) Ditto ditto on Mushruk and Nugwa road	150	241	11	9	91	11	9
(*q*) Ditto ditto on Turreya and Sohasighât road	25	92	8	1	67	8	1
(*r*) Ditto road from Sessai to Pakri ...	70	86	4	2	16	4	2
(*s*) Ditto ditto from Bhiti to Pursa ...	180	454	4	11	274	4	11
(*t*) Ditto bridges on Nugwa and Sewan road...	350	563	6	9	213	6	9

Items (*a*) *and* (*b*).—The works were exceeded owing to the liabilities of previous year which were due to the contractors having been paid this year.

Item (*c*).—The cause of excess was owing to many of the bridges having sustained damage from the late flood, and having required repairs more extensively than was provided for.

Item (*d*).—The excess was owing to the value of bricks (30,000) having been debited to this work. The cost of brick was not included in the estimate.

Items (*e*), (*h*), (*i*), (*j*), (*l*), *and* (*n*).—The excesses on these were unavoidable.

Item (*f*).—The excess on this was due to the cost of railings which had to be supplied to a temporary bridge which was before very unsafe.

Item (*g*).—The bridge at Tajpore having become impassable, it was necessary to put it in order for the convenience of traffic. Hence Rs. 765 was sanctioned by the Committee from saving which led to the excess.

Item (*k*).—The road was much cut away by the heavy rains, and additional earthwork was necessary to render it fit for traffic.

Item (*m*).—The provision of Rs. 60 in the budget not being sufficient in actually repairing the metalled road, this excess expenditure was met from savings on other metalled roads in Sewan sub-division.

Item (*n*).—The excess was due to some extra quantities of pucca masonry, sâlwood work, and pucca pointing having been urgently required.

Items (*o*), *and* (*t*).—The provision of Rs. 500 made in the budget for repairing bridges on these roads was found insufficient in examining the timbers in each bridge and preparing a detailed estimate of what was necessary to be done. The Committee therefore sanctioned an additional Rs 500 for them out of saving, and this was the cause of excess.

Item (*q*).—The excess was due to the extensive repairs that had to be done to two planked bridges.

Item (*s*).—In actually repairing this road the budget allotment was found insufficient, and hence Rs. 300 more was sanctioned by the Committee for the purpose.

30. *Repairs although budgeted for do not show any expenditure.*—The following "repairs," which were provided for in the budget, do not show any expenditure, as they could not be carried out to their estimated provision owing to inundation, nor could any payment on their account be made for non-measurement of the works done in them by the contractor:—

Repairing bridges on Sitalpore and Saringhât road.
" " on Dighwara and Amnour "
" " on Telpa and Sanra "
" " on Sitalpore and Mokair "
" " on Sewan and Siswan "
" " on Sewan and Sukri "
" " on Surfra and Suddowa "
" " on Nugwa and Amnour "
" " on Amnour and Iswapore "
" " on ditto and Bassantpore "

31. *Repairs executed without budget provision.*—The following works, for which no provision was made in the budget, were executed as they were urgent:—

	Rs.	A.	P.
Repairing bridges on Chirand and Gurka road ...	44	0	7
" inspection hut at Dighwara in Chupra and Sonepore road	84	11	5

32. The road from Kochaikote to Bejoypore being a portion of the road from Moharajgunge to Kochaikote, the expenditure incurred on the former was included with that of the latter.

33. *Village roads.*—The outlay on "village roads" was Rs. 1,820-8-7, against a budget provision of Rs. 10,000.

34. *Establishment.*—The total charges for establishment employed on works were Rs. 24,680-2-6, against a budget provision of Rs. 25,917.

35. *Tools and plant.*—Under this head there was an expenditure of Rs. 742-5-6, against Rs. 600 provided in the budget. This excess expenditure was due to the payment of the price of two hill tents purchased by the District Engineer. Rs. 197-3 were sanctioned by the Committee for the purpose out of contingencies.

36. *Advances.*—The amount of advances made during the year was Rs. 6,409-14-7. The details of advances not yet adjusted are given in paragraph 18 of this report.

37. *Public Works Department establishment.*—The Committee took no assistance from the Public Works Department as they had their own establishment.

38. *Cash balance.*—After meeting the expenditure of the year, there was a cash balance of Rs. 49,715-3-6 left on the 30th September 1879. Of the above cash balance, Rs. 99-4-1 was in hand of the District Engineer as imprest, and the remainder, Rs. 49,615-15-5, at treasury. The balance at treasury, as per treasury pass-book, was Rs. 67,069-1-4. The difference was due to the cheques Nos. 340 to 343, and 345 to 414, dated 30th September 1879, amounting to Rs. 17,453-1-11, not being cashed in the treasury within that month.

39. *Percentage of establishment.*—The following table shows the actual cost of each kind of establishment and percentage it bears to the total cess collections and the expenditure on

works; and also the percentage which the total cost of establishment bears to the total income of the Committee:—

Total income.	Total cost of establishment	Percentage	Total revenue under rates, taxes, and cesses.	Cost of establishment on general management	Percentage.	Expenditure on works.	Cost of establishment on works.	Percentage.
Rs.	Rs.		Rs.	Rs.		Rs.	Rs.	
1,07,268	21,931	19·08	1,26,875	6,613	5·21	77,143	24,080	31·9

The total cost of establishment bears a percentage of 19·08 to the total income of the Committee, and the cost of establishment on general management and works bears percentage of 5·21 and 31·9 respectively to the total cess collections and the expenditure on works. The percentage of establishment on works would have been less had there been no saving caused in works owing to the reasons stated in paragraphs 22 and 28 of this report.

40. *Works proposed for* 1879-80.—The works proposed to be undertaken during the cess year 1879-80 are these provided for in the budget estimates for that year.

41. *Work of the Engineer establishment.*—This district is divided into two sub-divisions under Lieutenant-Colonel May, the District Engineer. The Chupra sub-division is in charge of Supervisor Babu Koylas Chunder Mukerji, and the Sewan sub-division in charge of Overseer Babu Bany Madhub Sinha. There are also two sub-overseers, one with the supervisor and the other with the Overseer. The number of main roads in this district is 52, which are thus classified:—

Class I.	Class II.	Class III.	Class IV.	Total.
9	16	7	20	52

The total length of these roads is 916¾ miles, of which 21½ miles are metalled and 895½ unmetalled. The supervisor, Babu Koylas Chandra Mukerji, with Sub-overseer Babu Gopi Kissen Ghose, supervised the repairs of 513½ miles of unmetalled and 17¾ miles of metalled roads and bridges and culverts over them, and the construction of 51 new masonry bridges and culverts of various spans, a few temporary bridges and some stone pipe drains, besides improving and repairing about 100 miles of village roads within the Chupra sub-division. The Overseer, Babu Bany Madhub Sinha, with Sub-overseer Babu Kishub Lall Ghose supervised the repairs of 381¾ miles unmetalled and 3¾ miles of metalled roads and bridges and culverts over them, besides the repairs of about 32 miles of village roads in that sub-division. They also supervised the construction of 19 new masonry bridges and culverts of different spans and a number of temporary wooden bridges and some stone pipe drains.

The Subordinate establishments have, the District Engineer reports, all performed their duties during the year satisfactorily.

All my predecessors have borne testimony to the Engineer, Lieutnant-Colonel May's efficiency. I have only been a short time in the district and have only seen the roads in that portion of it which suffered most from the heavy inundations. Naturally these roads needed repairs, but they should not be taken as a specimen of what the district roads are as a whole. I am prepared to find in my next tour on the tract which has escaped inundation reason to confirm all that my predecessors have written of Lieutenant-Colonel May's success.

42. Copy of the Sub-Committee's report is enclosed.

APPENDIX A.

Abstract of particulars regarding Meetings of District Road Cess Committees for the cess-year 1878-79.

J. WHITMORE,
For Chairman.

Dated Chupra, the 19th December 1879.

Memo. from—J. WHITMORE, ESQ., Vice-Chairman, and three members, District Road Cess Committee, Chupra,

To—A. P. MACDONNELL, ESQ., Chairman, District Road Cess Committee, Sarun.

UNDER a resolution of the District Road Cess Commitee of Sarun, held on the 15th September 1879, we the undermentioned members were selected, agreeably to section 88 of Act X (B.C.) of 1871, to form a Sub-Committee for the audit of accounts for the cess-year 1878-79.

The Sub-Committee was held on the 16th instant, and was presided by the Vice-Chairman.

We beg to submit for the information of the District Committee our observations and the result of our examination of all the accounts that are kept in the Road Fund office.

The books prescribed by Government for the Road Fund Department are the following:—

1. Cash-book.
2. Cash abstract book (Parts I & II).
3. Statement of revenue assessed and realized.
4. Register of monthly receipts and expenditure (Parts I & II).
5. Account of advances.
6. Account of deposits.

All the account books and returns were carefully examined by us, and may briefly be noticed below:—

I. *Cash-book.*—This book is kept very neat and clean. The entries on the debtor side were compared item by item with the treasury pass-book, and those on the creditor side with the counterfoils of the cheques used in the year; we are glad to observe that all the items tallied. The balances of each month were also found to agree with the amounts shown to the credit of the fund at treasury, less the sum of uncashed cheques. A memorandum explaining the difference, if any, between the two balances which arose in consequence of unpaid cheques, was given after the closing balance of each month. The number of cheques with their amounts was entered consecutively in the cash-book. In two instances, however, *i. e.* cheque No. 160 has been entered after No. 153, and No. 383 has been entered prior to the entry of cheque No. 382. The accountant, on being called upon to explain the error, attributed this to an oversight which was brought about by having turned over some cheques and entered the same. There was no difference in the items of those two cheques; they were correct with respect to the sums mentioned therein, except that the serial order had been broken in those two instances.

A new series of number in the cheques were not commenced from the beginning of the cess-year, which ought to have been done. The accountant explained that he was then on leave, and the person in charge had committed the mistake. This mistake does not prevail in the new cess-year, *i. e.* from October 1879.

II. *Cash abstract book.*—This book also is very neatly kept up. The entries were carefully compared with the cash-book and found correct.

II. *Statement of Revenue assessed and realized.*—There are in several places erasures and scorings in this book. After a thorough scrutiny and a careful examination of the accounts, we found that these erasures and scorings, though highly objectionable, have not been resorted to with dishonest motives; they are *bonâ fide* mistakes. The figures in the columns of realization exactly corresponded with the treasury pass-book and the cash abstract book. The demand of cess on lands was found to have been correctly distributed in the columns of assessment. The causes which led to so many erasures are mainly, that entries have been made of the amount of cess on lands expected to be realized in the budget estimate of 1878-79, as the estimated receipts, and that proportionate distributions have been made in the different columns of assessment in this book. This mistake, however, was noticed when the Commissioner's letter No. 207CP "circular," dated 22nd January 1879, was received, with the remarks that in the budget estimate the whole current demand and not the amount expected to be realized should be shown. The figure already thus entered in the assessment columns had to be altered and amended accordingly, and the current demand distributed rateably; but there was an easier method of making the necessary correction than resorted to by the accountant could have simply rectified the mistake by penning through the wrong figures with red ink and writing the correct figures with the same ink.

IV. *Register of monthly receipts and expenditure.*—This book is in good order. The entries were compared month by month and found to agree with the cash abstract book.

V. *The account of advances* correctly and properly kept up.

VI. *Deposit account.*—This is a blank book. There was no deposit during the year.

The quarterly and annual accounts were carefully examined and found correct.

Vouchers were compared with the counterfoils of the cheques and found correct. They are duly cancelled after payment.

Cheque books.—The counterfoils of cheques below Rs. 100 bear the signature of the Vice-Chairman, and those above, Rs. 100 bear the signature of both the Chairman and the Vice-Chairman. The Chairman, in the absence of the Vice-Chairman, signs for both, and *vice versâ*. In eight counterfoils of the cheques, above the word "Chairman" the words "not present" were written and the signature of the Vice-Chairman was given only in one place. The vouchers, however, have duly been signed in both places by the Vice-Chairman.

In conclusion, the Sub-Committee cannot help expressing its satisfaction, on the whole, in the manner in which the various account books and statements have been kept by the accountant. He is really a very hardworking, able and useful officer, and understands account business very well, and has much to do.

No. 6.—Part I.

J. Whitmore,
Vice-Chairman.

No. 233, dated Motihari, the 19th January 1880.

From—A. Weekes, Esq., Magistrate and Chairman, Chumparun,
To—The Commissioner of the Patna Division.

I have the honour to submit herewith the annual account* and report of the District Road Fund for the cess year ending 30th September 1879, prepared in accordance with the instructions laid down in Government circular No. 8, dated 4th February, and circular No. 54A, dated 5th August 1879.

* In duplicate.

The year opened with a balance of Rs. 92,666-10-3, and the receipts of the year, including (suspense account) advance refunded, Rs. 1,04,505-8-10, making a gross total of Rs. 1,97,172-3-1. The sources from which the income was derived are as follows :—

	Rs. a. p.
Cess on lands	74,788 7 4
One per cent. road cess	32 15 1
Miscellaneous receipts	662 1 3
Advance refunded	29,022 0 7
Total ...	1,04,505 8 10

The expenditure of the year amounted to Rs. 99,770-3-3, of which Rs. 46,322-2-10 were spent on the construction and maintenance of roads and bridges.

Part II of the annual account will show in detail the particular heads under which this expenditure was incurred.

It will be seen from a comparison with the budget estimate that the expenditure actually incurred during the year 1878-79 on roads and bridges was much less than was provided in the budget. The following is a report from the District Engineer on the works carried out during the year :—

Road No. 1, Motihari to Kutkenwah.—Ordinary repairs have been executed, and road kept in good order. Part of the road near the Baruwah Ghât was overtopped by the floods in the Kathia rain and the embankment carried away in three places.

Road No. 2, *Motihari to Dhaka.*—Ordinary repairs have been carried out and the road kept in good order. The reason this estimate has been exceeded is that the expenditure of a former year has been debited in this year's account.

The original works estimated for repairing the timber work of bridges has been carried out and the bridges put into thorough repairs. The cost of this work will be partly charged in year's account, 1879-80.

Road No. 3, *Motihari to Talleria.*—Ordinary repairs have been executed and the road kept in good order, and the earthwork to the 22nd and 23rd-mile cart-leaks have been completed. Metalling estimated partly completed. A large number of trees have been planted on the side of the road. The excess in the expenditure over the estimate is due to planting young trees on the sides of road and renewing planking to bridges not anticipated in estimate. The original work estimated for metalling a portion of the road has not been completed partly owing to the estimate having been sanctioned late in the season, and partly due to the extreme difficulty of getting kunker in large enough quantities, it having to be collected along the bed of the Sikrahna river.

Road No. 4, *Motihari to Mehsi.*—Ordinary repairs and the road kept in good order; also some trees have been planted along the sides of road. Original works estimated for repairing timber work in two bridges have been completed, and the bridges put in thorough repairs, and metalling road has been done in part. Estimate not completed in consequence of difficulty in procuring kunker.

Road No. 5, *Pipra to Tallorghât.*—Ordinary repairs have been executed, and the road kept in good repair. The leaks have been repaired with broken bricks in two places where the road is narrow and the traffic heavy, hence the excess in expenditure over the estimate.

The original works estimated for repairing bridges has been commenced, but owing to the sanction arriving just before the rains commenced, and tenders for the work being advertised for, temporary bridges had to be constructed to convey the traffic during the rains. The repairs of the work are well in hand now and will be completed shortly.

Road No. 6, *Rajepur to Barrh.*—This road has been kept in good order. The excess in the estimate is due to kunker metalling having been spread over bridges and banks where the traffic cut up the road.

Road No. 7, *Rajepur to Sahebgunge.*—This road has been kept in good order.

Road No. 8, *Rajepur to Tarkanliah.*—This road has been kept in fair order. Some bamboos and tar-wood bridges require repairs, and have been estimated for in this year's estimate.

Road No. 9, *Kessaria to Gobindgunge.*—This road has been kept in good order, and the excess in the expenditure above the estimate is due to two culverts over irrigation pine having to be enlarged to enable a sufficient quantity of water to pass for the requirements of the villagers.

Road No. 10, *Gobindgunge to Bettiah.*—This road has been kept in good order. The savings in the sanctioned estimate is due to the work of repairing the cart-leak not having been completed to the extent estimated for. Metalling estimated half finished: not completed in consequence of difficulty of procuring metal.

Road No. 11, *Gobindgunge to Segouli.*—This road has been kept in good order, and the bridges, which are in a very rotten and unsafe state, are to be repaired: work will be commenced at once.

Road No. 12, *Segauli to Raxole.*—This road has been kept in good order up to the end of the year, but during the Hattua rain the floods overtopped the road and carried away the embankment in four places between Segauli and Ramgarhwa. The excess in the expenditure is due to expenditure of a former year by the Ramgarhwa factory having been debited in this year's account. A bridge over the Tetoewil Nullah, near Ramgarhwa bazar, was nearly carried away during the rains by timber being allowed to float down the river and getting stuck among the piles. This bridge will have to be entirely re-constructed this year. The estimate is now ready.

Road No. 13, *Motihari to Bettiah.*—This road has been kept in good order throughout the year. A bridge between Rajghât and Bettiah was broken during the floods by an elephant and was repaired immediately. Metalling estimate partly completed; metal difficult to procure.

Road No. 14, *Chupra Bahas to Bettiah.*—This road has been kept in good order.

Road No. 15, *Peepra to Bettiah, near Sugong.*—This road has been kept in good order. A large bridge near Surkaulia has been thoroughly repaired.

Road No. 16, *Motihari to Gobindgunge.*—This road has been kept in good order. A bridge at Goyghât is in very bad repairs, and the repairs have been estimated for in this year's budget and the work commenced (accounts not all debited and not received).

Road No. 17, *Hardia to Barkarwa.*—This road has been kept in good order. Accounts not all debited. Not received.

Road No. 18, *Peepra to Siraha.*—This road has been kept in good order.

Road No. 19, *Dhaka to Kollyanpur.*—This road has been kept in good order. Original works. Two bridges have been thoroughly repaired with new timber work.

Road No. 20, *Dhaka to Ghorasoban and N. E. Frontier.*—This road has been kept in good order. Excess of expenditure is due to accounts of previous years being debited during this year.

Road No. 21, *Dhaka to Jamooa Ghât.*—This road has been kept in good order. Excess due to bridge repairs not anticipated.

Road No. 22, *Seeraha to Jamooa Ghât.*—This road has been kept in good order.

Road No. 23, *Meerpore to Ghorasoban.*—This road has been kept in good order, and the leaks have been raised where necessary, and the road widened, and the bridges put in good order.

Road No. 24, *Semrah to Sugong.*—This road has been kept in good order.

Road No. 25, *Barrah to Seratha.*—This road has been kept in good order.

Road No 26, *Dhaka to Padumkeri.*—This road has been kept in good order. Excess is owing to previous year's account being debited in this year's account.

Road No. 27, *Dakha to Madhubani* —This road has been kept in good order.

Road No. 28, *Turkaulia to Sangrampur.*—This road has been *chaqled* and kept in good dry weather repairs. Some bridges are required to make it good throughout the year.

Road No. 29, *Gobindgunge to Barkarwa.*—This road has been kept in good order.

Road No. 30, *Branch road to Segauli cantonment.*—Has been kept in good order.

Road No. 31, *Dhaka to Patahi.*—This road has been kept in good order.

Road No. 32, *Mackwa to Gakiri.*—This road has been kept in good order..

Road No. 33, *Kutkenwah to Adapur, Peparpatee and Dhokarha.*—This road has been repaired, but still requires some culverts built to make it thoroughly useful throughout the year.

Road No. 34, *Chaklahuran to Katabaghat and Lallgarh.*—This road has been repaired and bridge mended, and kept in fair order.

Road No. 35, *Tatteria to Paharchak.*—This road has been kept in good repairs.

Road No. 36, *Telahra to Ghorasahan and Ekdari.*—This road has been repaired and kept in good order. The estimate has been exceeded, as the bridges required more repairs than was anticipated when they were opened out for repairs, for wood and bamboos that were found to be quite rotten had to be replaced by sâlwood planking.

Road No. 37, *Belteah to Chunoha and Bagaha.*—The road was kept in good repair until the rains, when two portions were washed away by the encroachment of the Gunduck river on each side of Rotowl, which will necessitate a deviation from the old line of road.

Road No. 38, *Bettiah to Balther and Bhawneah.*—This road has been kept in good order and three wooden bridges built between Ballhar and Bhowneah outpost. The excess of expenditure over estimate is owing to the rebuilding of a bridge 8 miles from Bettiah, washed away by floods during the Hattua rains.

Road No. 39, *Bettiah to Ramnaggar.*—This road has been kept in good repair, and the rest-house at Lauriah was finished two months before. It was burnt down at the same time as the thana.

Road No. 40, *Rajghat Bridge, Dhakagha and Lohari a*—This road has been kept in good order; some timber culverts have been replaced by glazed pipe culverts, and the road credited with the value of the timber taken out.

Road No. 41, *Bettiah to Fengrahighat.*—This road has been kept in good repair.

Road No. 42, *Lauriah to Surkobia.*—This road has been kept in good order.

Road No. 43, *Lauria to Shekarpur.*—This road has been kept in good order, and bridges to be repaired this year.

Road No. 44, *Ramnaggar to Bagaha.*—This road has been kept in good dry weather repair. Bridges are required to make it good and useful in rains and floods. Bridges to be built this year.

Road No. 45, *Bettiah to Peepraghat.*—This road has been kept in good repairs and some small bridges repaired, also 12 feet and 15 feet culverts built, which have greatly improved the road and made it useful all the year round, these two places being impassable during floods before.

Road No. 46, *Shikarpur to Ramnaggar.*—This road has been kept in good repairs.

Road No. 47, *Bettiah to Chainpallia and Shikarpur.*—This road has been kept in good repairs. Four temporary bridges have been built to keep the road open during the rains.

Road No. 48, *Bagaha to Madhubani.*—This road has been kept in good order.

Road No. 49, *Parsah to Bagha.*—This road has been kept in good order.

Road No. 50, *Parsah to Loharia.*—This road has been kept in good order.

Road No. 51, *Shikarpur to Bollhar.*—This road has been kept in good order repair, and several wooden culverts repaired and removed.

Road No. 52, *Jagdispur to Segowli.*—This road has been kept in good order.

Road No. 77, *road across Matikari Lake.*—Rs. 1,382-15-10 has been spent in raising an embanked road across the lake; work has since been stopped by the height of the water in the lake; the work will soon be recommenced and completed.

VILLAGE ROADS.

A sum of Rs. 9,431 was set aside in the budget for 1878-79. Of this sum Rs. 7,514-3-1 were actually expended, and the following village roads opened out :—

1. Road from Palaura to Chotauni.
2. Chakar road, north of Motihari.
3. Ballua bridge to Borriar.
4. Baswaria to Borriarpur.
5. Village road at Zetowraha.
6. Madhuban to Mehsi.
7. Segowli to Narkalia.
8. Bhandoi to Kharipatti.
9. Lakhaura to Adapur.
10. Jamoca to Jhetkaba.
11. Rattansher to Kallyanpur.
12. Sarraya to Serrala.
13. Bankutwa to Jhagraha.
14. Padumkere to Dehapur.
15. Padumkere to Gambharia.
16. Sackwa to Bagharwa.
17. Bhelwa to Dehapur and Kadumwa.
18. Pachpakri to Dehapur.
19. Kadamwa to Darbara.
20. Chakar road at Chillauni.
21. Barriarpur to Palaura.
22. Madhuban to Sahebgnuge.
23. Adapur to Segowli.
24. Bhaunga to Karole.
25. Etwaghat to Sahebgunge.
26. Dhaka to Etwaghat.
27. Barrah to Madhuban.
28. Madhuban to Rupwalia.

29. Baisakhwa to Mohomadpur.
30. " Ditto to Baukat.
31. Merepur to Puckri.
32. Jardaha V. Road.
33. Bhawanipur ,,
34. Jotowlia ,,
35. Sarular ,,
36. Jamunia to Madhubani.
37. Ahirwa to Mochorganwair.
38. Hdowatchapra to Konawalia.
39. Barharwa to Darriapur,
40. Jallaha to Saugrampur.
41. Saugrampur to Maltua.
42. Jallaha to Kundpur.
43. Shampur to Madhubani.
44. Bhatwali to Barwa.
45. Garilia to Bhopatpur.
46. Barharwa to Poocharia.
47. Manpur to Bagaha.
48. Khodda village road.
49. Branch road Turhapatti.
50. Constructing a culvert on Harha river.
51. Barwat branch road.
52. Ballhar to Rajwaliaghat.
53. Goodraghat to Seunaria.
54. Seunaria bridge to Segaulighat.
55. Ditto ditto to Bhatahee.
56. Rajghat bridge to Jagdispur.
57. Nanosatty to Aunhar.
58. Amwa bazar to Bhaldea.
59. Dhukasha to Lalsaria.
60. Makhua to Salsaria.
61. Termohan to Gauripur.
62. Dhauaha to Bhiloha.
63. Telpur to Baikuthwa.
64. Parsa to Suttu.
65. Siswania village road.
66. Salhi ,,
67. Gauripur ,,
68. Serkohia to Basantpur.
69. Sajraha to Piprasi.
70. Bagaha to Baikuthwa.
71. Bagbha thana to Narainpur.
72. Barka Kuria to Chubri.
73. Dhuniaggor village road.

It will be seen that greater attention was paid to the important object of improving the internal traffic of this district by opening up village communications, and there is no doubt from the way some of the roads have been used that good work in this direction has been done, and that it has been appreciated by the public.

1. *Working of the Road Cess Act.*—The Act has worked smoothly and well throughout the year.

2. *Sudder Committee.*—Statement similar to the one submitted last year is appended from which attendance of the members of the Sudder Committee will be estimated. There were five meetings during the year, at which accounts and business were thoroughly gone into with the members.

Branch Committee.—There was no meeting of the Bettiah Branch Committee. An extract from the letter of Sub-Divisional Officer is appended in explanation of this omission.

"During 1879 there was no Committee. This was my fault. I desire to state that in my opinion there should have been, and should always be, a meeting of the Branch Road Cess Committee in June or July to consult as to what roads and works should be executed in the sub-division during the coming year."

4. *Aroriculture*—Teak and timber and fruit. About 7,000 young trees have been planted on the following roads.

4 *Arboriculture.*—Mohbari to Mehsi road.

Bettiah to Lauria.
Ramnuggar to Lauria.
Siraha to Jamos Ghat.
Segowli to Gobindgunge.

5. *Establishment.*—Mr. Sealy, the District Engineer, continues to conduct his duties to the entire satisfaction of the Committee.

His charge is a heavy one, especially as all the roads require attention at one and the same time,—the end of the rains. For this he has only two overseers under him, and they are rather labour-employés than overseers. Perhaps a little more systematic management is required, and in my opinion the more general employment of contractors, though I admit that contractors are not easily to be had. Sheorattan Lal, Overseer for the Bettiah Branch Committee is an energetic officer, and has given satisfaction.

Udit Singh, Overseer of the Sudder Sub-Division, is a hardworking officer of most experience.

Babu Upendro Nath Gangoly had the charge of the accounts and correspondence up to the 8th August 1879. He is a painstaking and efficient officer, and was promoted during the year to an appointment in the Collector's office. At the same time, under orders of the Commissioner, the office of accountant of the Chairman's and District Engineer's office were separated, and the pay of the former reduced to Rs. 50. This was made possible by the promotion of the former incumbent and the appointment of the present accountant Babu Paras Nath Lall on Rs. 50. The latter is very hardworking and painstaking. His ability as an accountant was noted by Mr. Taylor, Deputy Accountant-General in 1874, and with a little experience he will be thoroughly an efficient officer.

Proposal for the next year.—The most important feature in the new budget for the year 1879-80 is the reduction of the cess from the maximum to three-fourth of the maximum rate—a measure which was dictated by the completion of some original works and the sanctioning of estimate for others out of the large savings at the credit of the fund.

The accounts for the last year were audited under section 88 of the Act, by a Sub-Committee, consisting of the Vice-Chairman and the three members of the Committee, and were afterwards considered and passed in a meeting of the District Committee as laid down in the said section.

A copy of the said Committee's report is herewith appended.

Abstract of particulars regarding Meetings of the District Road Cess and Branch Committee for the cess-year 1878-79.

Patna	Chumparun	2	17	6	5	3	7	10	1	3	1	4	3	1	1	...	1	...	295

Dated Motihari, the January. 1880.

From—A. V. KNYVETT, ESQ., Vice-Chairman, and the three Members of Sub-Committee, Motihari,

To—The Magistrate and Chairman, Chumparun.

IN accordance with your order endorsed on Commissioner's No 154, dated 9th instant, and previous correspondence, a Sub-Committee consisting of the following members :—

Dr. Meadows. | A. O. Edwards Esq,

S. Cooper, Esq., and the Vice-Chairman, met to review the Road Cess account for 1878-79.

2. We carefully examined the cash balance statement, and compared the total amount under each sub-head with the treasury pass-book, the District Road Cess cash-book, advance book, monthly register, register of receipts and expenditure, register of works, &c., and satisfied ourselves as far as lay in our power of the correctness of the account.

3. The rules regarding the cheque-book and the duplicate-book have been observed.

4. The vouchers have been signed by the District Engineer and initialled by the Vice-Chairman and Chairman, and the monthly account scrutinized month by mohth by the Vice-Chairman and the District Engineer, and in absence of the Vice-Chairman by the Chairman.

5. The balance brought forward to the credit of Chumparun Road Fund for the year 1877-78, amounts to Rs. 92,666-10-3, and the actual receipt of the year Rs. 75,433-8-3 from sources of the cess on lands, &c. &c., and Rs. 29,022-0-7 on account of advance refunded, making a gross total of Rs. 1,97,172-3-1 available during the year.

6. The expenditure incurred during the year, including the sum of Rs. 35,431-4 on account of advance and adjustment as per Accountant-General's letter No, 115TA, dated 12th May, and refund on account of excess pay of two chowkidars drawn from treasury as per voucher No. 1 for the month of September 1879, amounts to Rs. 99,770-3-3, leaving a balance to the credit of the fund of Rs. 97,401-15-10, and the actual cash balance in the treasury on the 30th September 1879 is Rs. 1,04,258-12-5, including unpaid cheques to the value of Rs. 2,856-12-7. There is Rs. 1,000 as an imprest in hand of the District Engineer, Rs. 17,202-12-11 being the amount of outstanding advances.

7. We have examined the details of the outstanding advances, and found that a large proportion of it, viz. Rs. 12,068 is represented by bricks, sál-timber, iron-bolts, miscellaneous materials, hand-rail posts, oats, bhoosah, &c. in stock, full detail of which appears in the stock account.

8. We have examined the account of each road, noting the amount sanctioned for it, the amount spent, and the savings and the excess expenditure incurred in each instance.

The annexed statement will show in detail.

9. The total saving from the unexecuted works, &c. are shown below :—

			Rs.	A.	P.
Original	...	...	70,800	5	2
Repairs	...	...	9,111	11	6
	Total	...	79,912	0	8

10. A sum of Rs. 4,699-13-6 has been spent in excess of the estimate in the following roads :—

	Rs.	A.	P.	
Road No 77, *i. e.* Road across Motihari Lake ...	1,382	15	10	Original.

11. This extra expenditure as also that on the original work noted below,

	Rs.	A.	P.
Bridges from Dhaka to Kallyanpore ...	1,287	10	10
Constructing a drainage on the Chucker road	226	15	1
Ditto a pipe culvert on Rajepore to Hoosainee	715	4	8
Ditto on Hurpoorwah road ...	258	6	7

require special sanction of a full Committee.

No. 251, dated Motihari, the 14th February 1880

From—A. WEEKES, Esq., Collector and Chairman, Chumparun,
To—The Commissioner of the Patna Division.

WITH reference to your No. 116OP, dated 7th instant, I have the honour to supply the omissions therein pointed out.

(*a*).—The works specified in the accompanying list* are proposed to be carried out during the current year.

*Not published.

(*b*).—Establishment on collection of revenue under the Road Cess Deputy Collector worked very well during the year. The head clerk is a very useful officer.

2. (*a*). A duplicate copy of the annual account has already been submitted to the Examiner, Public Works Accounts, with this office No. 234, dated 13th January 1880.

3. The annual account has already been audited by Vice-Chairman and three members of the Committee under section 88 of the Road Cess Act. A copy of their report has already been sent to you. The office copy of the account has been signed by all the members of the Sub-Committee, but through on oversight the fair copy submitted to your office was not signed by all of them.

A. WEEKES,
Chairman.

No. 331CP, dated Bankipore, the 2nd March 1880.

From—F. M. HALLIDAY, ESQ., Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the following report on the District Road Funds for the cess-year 1878-79, together with the original accounts and reports received from the Chairman of the Road Cess Committees of the districts marginally noted. The report from Sarun has been already forwarded by the Chairman direct to Government, and duplicate copies of the accounts from all the districts have also been forwarded to the Examiner of P. W. Accounts.

Patna, Gya, Shahabad, Mozufferpore, Durbhangah and Chumparun.

2. The district reports were received in the office on the following dates:—

Durbhanga	...	...	...	23rd	January
Sarun	...	...	...	27th	„
Patna	...	...	...	28th	„
Shahabad	..	...	...	„	„
Chumparun	...	...	...	2nd	February
Gya ...	..	...	...	3rd	„
Mozufferpore	..	...	...	7th	„

These were found incomplete in certain respects, and further information had to be called for from the Chairmen. The latest reply to my call was received only on the 27th ultimo. This accounts for the delay that has occurred in the submission of my report. I beg at the same time to state that, in Government circular (General Department) No. 10, dated 14th February 1879, both district officers and Commissioners were directed to submit this report on 1st February. I need hardly state that it is simply impossible for the Commissioner to submit the report on the same date with district officers. As the Commissioner has to compile his report from those received from districts, he requires at least a month's time from the receipt of the district reports to be able to prepare his Divisional report. I request therefore that the orders of Government may be reconsidered in this respect, and that district officers may be directed to send their reports to the Commissioner on the 1st of January, so as to enable the latter officer to submit the Divisional report on the 1st of February. With these preliminary observations I proceed now to review the operations of the past year.

3. *Working of the system.*—The Road Cess Act has been worked smoothly and, it may be said, satisfactorily in all the districts. Whatever difficulty arose in its working was owing to the imperfection of the law itself. For instance, the want of any stringent measures for enforcing payment of the cess on *kist* days, the system of making co-sharers of estates jointly and severally liable for the payment of the impost, the rule which nullifies the control of the Divisional Commissioner over the proceedings of the District Committees, by empowering the latter to spend the funds in whatever way they like, provided two-thirds of the number of members present at a meeting agree to it; and above all the want of any practical system of audit of the Engineers' accounts. These and similar other imperfections will, it is hoped, be remedied when the Road Cess Act, now under the consideration of the Legislative Council, is revised.

4. *Working of the Committees.*—The number of meetings held by the Sudder Committees, excluding those in which there was no quorum, was as follows:—

Patna	...	...	7	Mozufferpore	...	8
Gya	...	...	7	Durbhangah	...	8
Shahabad	...	...	8	Sarun	...	7
Chumparun	...	..	2			

Thus it will be seen that, barring Chumparun, the rest of the Committees held a sufficient number of meetings for the transaction of business. The average attendance at meetings varied from five to eight, although the number of members varied from 18 to 24. The members shewed more or less interest in the matters brought before them. As usual, the European members generally, and a few of the natives, rendered valuable assistance to the Chairman and the District Engineers in the working of the law and the carrying out

of works. Messrs Mylne and C. Fox and Baboo Bhugwan Doss of Shahabad deserve special mention. Nothing has been said in the district reports regarding the attendance of the Provincial Executive Engineer at the Committee meetings. It is not always practicable for this officer to attend all meetings in every district. Even if he receives timely notice of meetings from Chairmen of districts other than that in which his head-quarters are situated, and can arrange to go there, the meeting at which he attends may happen to have no quorum, and thus no business would be transacted. The Executive Engineer's own work is therefore likely to suffer, if his attendance at meetings of Road Cess Committees be insisted upon. If, however, he happens to be present at the station when a Road Cess meeting is held, he should be asked to attend it, and his opinion and advice on all professional questions should always be sought for and obtained by the Chairmen.

5. *Branch Committees.*—The Branch Committees in the Gya district, and those at Dinapore and Madhubani held meetings. The rest did not meet. The scheme of vesting Branch Committees with powers of District Committees was introduced last year experimentally in Shahabad. The reorganization of these Committees has been carried out this year, and, as the Chairman says, with great promise of success. I have myself seen in my late tour in that district that the new system is much appreciated by the zemindars who have been deputed to act as members, and they feel that they have something of a tangible interest in the general operations conducted under the Act in their neighbourhood. Even if Branch Committees be not vested with the full powers of a District Committee, it is desirable that they should have funds allotted to them under section 78 of the Road Cess Act for the improvement of village roads, and the execution of petty works requiring little or no engineering skill. I have asked the Chairmen what they propose to do in this matter, and in the next year's report I hope to be able to place before Government a more satisfactory account of the practical working of these Committees.

6. *Accounts.*—The accompanying statement (A) exhibits the receipts, disbursements, and balances of the road funds of the several districts in this Division. The year opened with an available balance of Rs. 4,78,240. The road cess, which was levied at the maximum rates in all the districts, except in Gya, where half-rates were imposed, and in Sarun, where three-fourths of the maximum rate were levied, yielded a revenue of Rs. 8,92,971. These, together with the other receipts of minor importance, as well as refunds and deposits, raised the income of the Committees to an aggregate of Rs. 15,44,795. Out of this sum, Rs. 8,68,216 or only 55 per cent. were actually spent, and Rs. 1,32,748 were held under suspense account, leaving an unexpended balance of Rs. 5,48,831 which was more than the opening balance of the year. The balances were very large in Patna, Durbhangah, Chumparun and Gya, and they indicate that the funds were not sufficiently utilized by the Committees in those districts. In the first two districts the balances were more than half the income of the year, and in the third it was nearly so. This result is certainly very unsatisfactory, and its causes will be explained further on.

7. *Receipts.*—The different sources of receipts were—

(1). Road cess on lands and mines.

(2). Do. on houses.

(3). Do. leviable otherwise than under the Road Cess Act.

(4). Miscellaneous.

8. The cess levied on houses was on account of arrears of previous years. No fresh cess was realized from houses last year.

9. The road cess on land and mines collected during the year was Rs. 8,90,072, which was about 88 per cent. of the gross demand of the year. In Gya and Chumparun the collection exceeded 95 per cent. in Shahabad 92 per cent., and in the rest of the districts it was less than 90 per cent. In Patna and Mozufferpore the collections were as small as only 81 per cent. of the demand, and the cause of this result has thus been explained by the Collectors of the respective districts. Mr. Metcalfe writes—"generally the proprietors neglect to pay the cesses before the issue of the orders for their realization by coercive measures, and great delay occurs and much inconvenience is experienced in collecting the arrears payable by a large number of people scattered all over the district. This district has not, like Burdwan, Durbhangah, Chumparun and many others, the advantage of reducing the arrears by collecting large sums from a few individuals. Here, no single person has to pay so large a cess as payable by the Maharajahs of Burdwan Durbhangah and Bettiah."

The collections in Mozufferpore, the Collector says, were retarded during a great portion of the year, owing principally to the panic caused by the severe outbreak of cholera in the Sudder station, which deterred many land-holders and zemindars from coming in to pay their cesses; as also to the heavy floods which visited the district during the late monsoons. Mr. Worsley then adds that "zemindars generally seem to have made a determined stand not to pay more than what is actually due from each individual, according to his respective share, and as the Land Registration Act has enabled him to have his portion recorded, he thinks it but just and fair that he should not be made responsible for another's liability." This difficulty will, I am sure, be obviated by the proposed amended law.

10. The principal items of "Miscellaneous" receipts were these :—

(I).—Government contribution towards the cost of the joint Road and Public Works Cess establishments.
(II).—Arrears of ferry collected.
(III).—Process fees and fines.
(IV).—Contribution from Estates Improvement Fund in Shahabad.

These call for no remarks.

11. *Disbursements.*—The several heads of expenditure were as follows :—

		Rs.
(*a*).	Establishment for collection of revenue and Committee's control	42,711
(*b*).	Original Works	3,19,954
(*c*).	Repairs	3,24,472
(*d*).	Establishment for works	1,47,467
(*e*).	Tools and plant	18,435
(*f*).	Miscellaneous	10,177
	Total ...	8,62,216

12. *Establishment for collection, &c.*—The aggregate cost of the establishments entertained by the Collectors and in the Chairmen's offices, together with cost of contingencies amounted to Rs 42,711 or 4 per cent. of the receipts from cess, against Rs. 45,325 or 5·8 per cent. in the previous year. This result is gratifying. Comparing these figures, however, with those shown in the budget estimates, it is observed that the actual cost has exceeded the estimates in all the districts, except in Mozufferpore and Chumparun. The increase is small, and is owing mainly to certain extra establishments having had to be entertained for the collection of arrears.

13. *Works.*—The table given below, shows the amount estimated for and actually spent on original works and repairs in each district, as compared with the actuals of the preceding year. The total sums spent on works was Rs. 6,44,426 against Rs. 5,49,299 in 1877-78, showing an increase of Rs. 95,127 ; but as compared with the income the percentage of the cost has fallen off by ·5. Taking district by district, the results have been very satisfactory in Gya and Mozufferpore, where there has been a considerable increase of expenditure over the previous year. In Shahabad and Chumparun there is not any great disparity between the figures of the two years, but in Patna, Durbhanga, and Sarun the outlay on works was much less than that in 1877-78. Calculating the cost of works on the gross income, it is observed that in the districts of Patna, Chumparun, and Durbhangah the percentages were very low, being 21·1 ; 23·4; and 23·6 respectively. The following figures show the estimates and actual outlay in these districts :—

District.	Estimates.	Actuals.
	Rs.	Rs.
Patna	1,66,452	45,629
Champarun	1,26,234	46,322
Durbhangah	1,73,620	52,773

* * * * * * * *

15. In Gya too, a large unexpended balance was left owing to less than half the sum estimated for original works having been spent. In this district, however, it was the first year in which the full complement of the engineering establishments worked, and they have doubtless shown some improvement, although much remains to be done yet.

16. In Mozufferpore the results of the last year's operations have been very satisfactory, and the unexpended balance was mainly owing to all the bills not having been paid during the year.

17. The following important works were undertaken during the year :—

Shahabad.—Metalling of the road from Mohania to Bhoobooah.
Completion of the road from Suryah to Roghunathpore.
Mozufferpore.—Bridges over the Bya and Dundah rivers.
Sarun.—Road from Sewan to Siswan.

18. *State of the District roads.*—The state of the district roads has been on the whole good, notably in Shahabad. The floods in August last, however, did considerable damage to some of the roads.

19. *Village roads.*—It is satisfactory to observe that greater attention has been paid during the year for the improvement of village communications, although not to the extent desirable. The outlay on this account as compared with the estimated expenditure was as follows :—

District.	Estimated.	Actual.
	Rs.	Rs.
Patna	10,520	654
Gya	10,000	2,082
Shahabad	33,982	10,582
Mozufferpore	42,000	36,429
Durbhanga	6,000	1,646
Sarun	10,000	1,820
Champaran	9,431	7,514
Total ...	1 21 933	60,727

The actual expenditure was thus Rs. 60,727, or about 50 per cent. of the estimates, against Rs. 23,305 in the preceding year. Much has been done in this respect in the districts of Mozufferpore and Shahabad and also in Chumparun, but in the rest of the districts, notably in Patna, little or nothing has been done. It is satisfactory to find that in Shahabad the Committee have given particular attention to this subject with a view to giving Branch Committees a basis to work upon hereafter in opening out local lines of communication.

* * * * * * * *

20. In Gya, too, very little was spent on village roads, and the Chairman complains that the native members of Branch Committees generally take no interest in the matter. The system primarily is, I consider, to blame for this state of things, and the Sub-Divisional Officers are next responsible to a certain degree.

No explanation has been rendered by the Committees in Sarun and Durbhanga for the very small outlay under this heading.

21. *Arboriculture.*—With the exception of Sarun efforts have been made in all other districts in developing the system of nursery gardens and plantation of trees on road-sides. The results have been very satisfactory in Mozufferpore and they reflect much credit on the District Engineer. In Patna, Shahabad, Gya, and Durbhanga a beginning has only been made in this direction.

22. *Establishment for works.*—The estimated cost of establishments was Rs. 1,60,409, out of which Rs. 1,44,075* was spent, thus showing a saving of Rs. 16,334. In the previous year the disbursements under this head amounted to Rs. 1,52,248. But although these figures are so far gratifying, the results are not so satisfactory taking some of the districts by themselves. In Gya, Shahabad, and Mozufferpore, the percentage of the cost of establishment on the amounts spent on original works and repairs has been 14·5; 17·9; and 16·2 respectively, but in the rest of the districts the proportion has been very high, viz. 53·2 in Chumparun, 38·8 in Patna, 34·8 in Durbhunga, and 31·9 in Sarun. In the last district the excessive charge was owing mainly to the pay of the District Engineer being disproportionately high. The Committee have determined this year to considerably reduce the charge under this heading.

* [*N. B.*—Besides this a contribution of Rs. 8,392 was made by the District Committee of Gya to the provincial services for establishment entertained in the previous year.]

* * * * * * * *

23. The following officers acted as District Engineers during the year :—

Mr. A. M. C. D. Salmon, Patna.
„ C. A. Mills, Gya.
„ J. Macnamara, Shahabad.
„ H. W. Steevens, Mozufferpore.
Mr. N. G. Beaumont, Durbhanga.
„ E. E. A. Kustel, „
Lt.-Col. J. May, Sarun.
Mr. E. T. Sealy, Chumparun.

* * * * * * * *

I have much pleasure in bringing to the notice of Government the very favourable remarks recorded by the Committee upon the qualifications, energy, and zeal in the discharge of his duties of Mr. Macnamara, the District Engineer of Shahabad; his long experience of the district and his reputation as an engineer render his services particularly valuable.

The subordinate establishments under the District Engineer and those employed under the Collector have on the whole worked satisfactorily.

Of the district officers, Messrs. Edgar and Worsley deserve credit for the great interest they have always evinced, and the success they have achieved, in the administration of the Road Cess Department.

A.

PATNA COMMISSIONER'S OFFICE,
Bankipore, the 2nd March 1880.

F. M. HALLIDAY,
Commissioner.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situated in the district of Furreedpore will be put up to sale at the Furreedpore Collectorate on the 28th December 1880, corresponding with 14th Pous 1287, B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchasers, after issue of advertisement as in the case of original sale.

All Government acceptances falling due between the 8th and 19th October will be paid by the Bank on and after the 5th idem.

By order of the Directors,

R. HARDIE, Secretary and Treasurer.

Calcutta, the 19th August 1880. (272—2)

NOTICE is hereby given that from the 1st October 1880, the following will be the rates for removal of forest produce from the Sunderbans reserved forests in supersession of those published in the *Calcutta Gazette* of August 1876, Part II, page 790:—

On every maund of sundri, pussur, or amoor timber ... ... One anna.
On every maund of keora timber ... One-half anna.
Ditto of any other produce ... ... One quarter "

J. S. GAMBLE, Offg. Conservr. of Forests, Bengal.

Darjeeling, the 20th September 1880.

IN supersession of the notification published at page 1230 of Part II of the *Calcutta Gazette* of 8th September 1880, and dated 30th August 1880, it is notified that, under the provisions of the notification of the 16th August 1880, in which persons desirous of transporting any forest produce through the Sunderbuns forests are required to take out a pass at one of the forest toll-stations, paying such fees as may be fixed by the Conservator of Forests, it is hereby notified that the fees payable for such passes will, from the 1st October 1880, be the following:—

For sundri, pussur, or amoor timber, 2 pies per maund.
For keora timber, 1 pie per maund.
For all other forest produce, ½ pie per maund.

J. S. GAMBLE,
Offg. Conservr. of Forests, Bengal.

RESOLUTION I.

Proposed by James Anderson, Esq., Attorney for J. Mackintosh.

Seconded by Alexander Pedler, Esq.—

"That the Managing Directors' report and accounts for the half-year ending 30th June 1880 be received and passed as correct."

After a vote of thanks to the chair the meeting separated.

(416—1) ALEXANDER PEDLER, Chairman.

Notice.

THE partnership between myself and Dr. J. J. A. Raye in the business of Surgeons and General Medical Practitioners at Kurseong and the surrounding districts was this day dissolved by mutual consent, and in future the business will be carried on by me on my separate account, and I will pay and receive all debts owing by and to the said partnership.

Dated 31st August 1880.

(365—3) A. B. MORRIS.

INSOLVENT NOTICES.

PART VI.

Bills of the India Council.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 10th September 1880, and was referred to a Select Committee :—

No. 18 of 1880.

A Bill to enhance the rate of Port-dues leviable at Madras.

Preamble. WHEREAS it has been determined to construct an artificial harbour for the port of Madras and to defray a portion of the interest on the principal sum expended on the construction of such harbour and of the annual expenses of maintaining the same out of the dues leviable on sea-going vessels of fifteen tons and upwards entering the said port :

And whereas the maximum rate of such dues is fixed by the Indian Ports Act, 1875, section forty-five, and the third part of the first schedule thereto annexed, and the amount of such rate is insufficient to defray such portion of the said interest and expenses in addition to the other charges to meet which the said dues are applicable :

And whereas it is therefore necessary to enhance, to the extent hereinafter mentioned, the maximum rate of dues so leviable ;

It is hereby enacted as follows :—

Short title. 1. This Act may be called "The Madras Port-dues Act, 1880 ;" and

Commencement. It shall come into force as soon as the said harbour is, in the opinion of the local Government, open for the use of sea-going vessels of fifteen tons and upwards, and the said Government has published, in the *Fort St. George Gazette*, a notification to that effect.

Amendment of Part III of the first Schedule of Act XII of 1875. 2. In the Indian Ports Act, 1875, first Schedule, Part III, the following amendments shall be made, that is to say—

(*a*) in the first column the numeral and word "9. Madras" shall be omitted ;

(*b*) in the first column, above the heading "*Eastern Group*," the word "Madras" shall be inserted ; and

(*c*) opposite the word "Madras" so inserted there shall be inserted—

(1) in the second column the words "sea-going vessels of fifteen tons and upwards ;" and

(2) in the third column the words "not exceeding eight annas per ton : Provided that, in the case of vessels employed in the coasting trade not being steamers, the rates shall be one-half the rates chargeable in respect of other vessels."

STATEMENT OF OBJECTS AND REASONS.

THE funds requisite for the construction of the artificial harbour at Madras are being advanced by the Government.

It is estimated that the whole cost of the work will amount to Rs. 62,80,000, and it is proposed to raise, by taxation levied on the trade of the port, an annual income sufficient to pay interest at 4 per cent. on this sum, together with Rs. 60,000, the estimated annual charge for maintenance.

Port-dues at the rate of 3 annas (or in the case of coasting vessels 1½ annas) per ton can at present be levied under the Indian Ports Act, 1875, on vessels entering the port, and the simplest mode of raising the requisite income would be by an enhancement of those dues. It is, however, manifest that they could not be enhanced beyond a certain point without injuriously affecting the calling trade of the port, and it has accordingly been determined, after reference to the Madras Chamber of Commerce, that the best course to take will be to raise only a portion of that income in the shape of Port-dues, leaving the rest to be raised by a tax on goods landed and shipped, the precise form of which will be settled hereafter. In accordance with this determination the present Bill has been prepared. It admits of the Port-dues being raised to eight annas per ton, or in the case of vessels employed in the coasting trade and not being steamers to four annas. The additional income which may be obtained by so raising them is estimated at Rs. 1,60,000 per annum.

The Bill is drawn so as not to come into operation till the new harbour is open.

J. GIBBS.

The 1st September 1880.

D. FITZPATRICK,
Secy. to the Govt. of India,
Legislative Department.
